

Welcome to our 2004 Trade Price List

How to use this price list

All product groups are listed in the index by their page number in this Trade Price List. First find the product group you require and turn to the appropriate page. Products are listed by their product group in alpha numeric order by order reference.

Colour code

The following codes identify the product colour used in this price list

BG = Beige	GM = Green Marble
BK = Black	GY = Grey
BR = Brown	PN = Pine
BUR = Burgundy	RD = Red
BW = Natural Wood	SE = Mirror Silver
CD = Cedar	UC = Primed
DB = Deep Blue	UE = Gun Metal
DS = Desert Sand	WE = White
GE = Gold	YL = Yellow

Clipsal UK standard conditions of sale apply

Schneider Standard Terms & Conditions of Sale of Goods (inclusive of erection) United Kingdom

1. GENERAL - All quotations and tenders are made and all orders are accepted subject to the following terms and conditions including, where applicable, the terms and conditions relating to the provision of services on Site set out in paragraphs 27 to 35. In these terms and conditions: - "Catalogue Products" shall mean the standard devices manufactured by us as set out in our published catalogue from time to time; "Contract" shall mean the contract (including, where relevant, the quotation or tender) for supply of goods and/or Work on Site and the acceptance thereof together with all documents to which reference may properly be made in order to ascertain the rights and obligations of the parties; "Contract Price" shall mean the sum named in the Contract as the contract price "Credit Limit" shall mean such amount as we may notify to you as being the maximum amount that we will permit to be due from you to us at any time (and such amount may be amended by us from time to time); "Erection" shall mean the fixing in position of the various items of Plant, their inter-connection and the connection to the Plant of supplies and services all as detailed in the Contract; "Non-Catalogue Products" means all products supplied by us other than Catalogue Products; "Plant" means all machinery, apparatus, materials and articles (whether manufactured or supplied by us under a separate Contract or not) which are to be erected by us in accordance with the provisions of the Contract; "Site" means the place where the Plant is to be erected together with so much of the surrounding area as may be used by us in connection with the Work; "Work" means the Erection of the Plant.

2. VALIDITY - Unless previously withdrawn, our quotation or tender is open for acceptance within the period stated therein or, when no period is so stated, within thirty days only after its date.

3. ACCEPTANCE - The acceptance of our quotation or tender must be accompanied by sufficient information to enable us to proceed with the order forthwith, otherwise we shall be at liberty to amend the quotation or tender prices to cover any increase in cost which has taken place after acceptance. Any samples submitted to you and not returned to our works within one month from date of receipt shall be paid for by you.

4. PACKING - Unless otherwise specified in our quotation or tender, all packing cases, skids, drums and other packing materials must be returned to our works at your expense and in good condition within one month from date of receipt. If not so returned they will be charged for.

5. LIMITS OF CONTRACT - Our quotation or tender includes only such goods, accessories and Work as specified therein.

6. PRICES - All prices are unless otherwise stated quoted net ex works exclusive of VAT. Any variation to prices quoted as a result of government taxes and levies will be for your account.

7. DRAWINGS, ETC. - All specifications, drawings and particulars of weights and dimensions submitted with our quotation or tender are approximate only and the descriptions and illustrations contained in our catalogues, price lists and other advertisement matter are intended merely to present a general idea of the goods described therein and none of these shall form part of the Contract. After acceptance of our quotation or tender for supply of Non-Catalogue Products, a set of certified outline drawings will be supplied free of charge on request.

8. INSPECTION AND TESTS - Our Non-Catalogue products are carefully inspected and where practicable, submitted to our standard tests at our works before despatch. If tests other than those specified in our quotation or tender, or tests in the presence of you or your representative are required, these will be charged for. In the event of any delay on your part in attending such tests or in carrying out an inspection required by you after seven days notice that we are ready, the tests will proceed in your absence and shall be deemed to have been made in your presence.

9. PERFORMANCE - We will accept no liability for failure to attain any performance figures quoted by us unless we have specifically guaranteed them, (subject to any tolerance specified or agreed to by us) and in any event our liability will be limited to an agreed sum specified in the Contract as liquidated damages. If you have not agreed a sum with us for this purpose, it will be deemed that no guarantee as to performance has been given by us. If the performance figures obtained on any test provided for in the Contract are outside the acceptance limits specified therein, you will be entitled to reject the goods. Before you become entitled to claim liquidated damages or to reject the goods, we are to be given reasonable time and opportunity to rectify their performance. If you become entitled to reject goods, we will repay you any sum paid by you to us on account of the Contract Price thereof. You assume responsibility that goods stipulated by you are sufficient and suitable for your purpose save in so far as your stipulations are in accordance with our advice.

10. LIABILITY FOR DELAY IN SUPPLYING - Any times quoted for despatch or delivery of Catalogue Products are given by us as an estimate only and shall not be binding upon us. Any times quoted for despatch or delivery of Non Catalogue Products are to date from receipt by us of a written order to proceed and all necessary information and drawings to enable us to put the work in hand. We will be entitled to assume that drawings we send to you have been approved and that we are authorised to put work in hand unless you notify us to the contrary within 14 days of receipt of the drawings. The time for despatch or delivery shall be extended by a reasonable period if delay in despatch or delivery is caused by instructions or lack of instructions from you or by industrial dispute or by any cause beyond our reasonable control. If a fixed time be quoted for despatch or delivery of Non Catalogue Products and we fail to despatch or deliver such products within that time or within any extension thereof under this clause and, if as a result, you shall have suffered loss, we undertake to pay for each week of delay liquidated damages at the rate of 1/2 per cent, up to a maximum of 5 per cent, of the contract price. Such payment shall be in full satisfaction of our liability for delay. Any time described as an estimate shall not be construed as a fixed time quoted for the purposes of this clause. In no circumstances shall liquidated or any other damages for delay be paid where we have suspended delivery in accordance with Clause 16.

11. VARIATIONS - We will use all reasonable endeavours to accommodate variations which you wish to make but if in our opinion any variation materially alters the order you previously gave us we reserve the right to vary the Contract Price, the delivery date and any other terms of the Contract as may reasonably be appropriate. The Contract Price will also be adjusted in the event of variation or suspension of work by your instructions or lack of instructions. For the avoidance of doubt, where we have assumed that drawings have been approved by you because you have not notified us to the contrary, any subsequent variation by you to those drawings will be treated as a variation to which this paragraph applies.

12. DELIVERY - Unless otherwise specified in our quotation or tender, the price quoted does not include delivery. Unless otherwise specified, we shall not be responsible for offloading.

13. LOSS OR DAMAGE IN TRANSIT and other non-compliance - Where we are responsible for delivery we will repair or, at our option, replace free of charge goods lost or damaged in transit; provided that we are given written notification of such loss or damage within 7 days of the despatch date. You must give us written notification within 7 days of delivery if the goods do not comply with the Contract and we will replace such goods free of charge. You are not entitled to reject the goods by reason only of short delivery.

14. RISK AND TITLE - The risk of loss or damage to the goods shall pass to you on delivery. The goods shall remain our sole and absolute property and title in them shall not pass to you until such time as you have paid us for the goods and for any other goods which are the subject of this or any other contract with us. You acknowledge that you are in possession of the goods solely as bailee for us until title in the goods passes to you and, if required by us, until such time you will store the goods separately from all other goods and mark or otherwise identify them as our property. Until title in the goods passes to you we shall be entitled at any time by notice either to require you to return the goods forthwith at your expense, or to enter upon the premises where they are stored (or where they are reasonably thought to be stored) for the purpose of recovering them.

15. TERMS OF PAYMENT - Unless we agree otherwise in writing payment shall be made 30 days after the goods are despatched or you are advised that the goods are ready for despatch or 30 days after work has been completed or interim work is chargeable. If payment of the Contract Price or any part thereof is not made by the due date, we shall be entitled: (a) to charge interest on the outstanding amount at the rate of 4% per annum above the National Westminster Bank Rate from time to time, accruing daily; (b) to require payment in advance of delivery of undelivered goods or completion of Work; (c) to refuse to make delivery of any undelivered goods whether ordered under the Contract or not and without incurring any liability whatever to you for non-delivery or any delay in delivery; (d) to refuse to complete Work whether ordered under the Contract or not and without incurring liability whatever to you for non completion or any delay in completion; (e) to terminate the Contract and any other contracts we may have with you.

16. SUSPENSION OF DELIVERY - In addition to our rights under Clause 15, we shall be entitled to suspend delivery to you of any order if, at the time for delivery, you have already exceeded your Credit Limit or if your Credit Limit would be exceeded if we made delivery of the order. We will recommence delivery to you when you reduce the sums outstanding to us sufficiently so as to enable us to make the suspended delivery without your Credit Limit being exceeded. We also reserve the right to suspend delivery to you of any order if you have failed to make payment by the due date of sums outstanding to any company within the "Groupe Schneider" group of companies.

17. STORAGE - If we do not receive forwarding instructions, sufficient to enable us to despatch the goods within 14 days after the date of notification that they are ready for despatch, you shall take delivery or arrange for storage. If you do not take delivery or arrange for storage, we shall be entitled to: (a) arrange storage either at our own works or elsewhere on your behalf and all charges for storage, for insurance or for demurrage shall be payable by you. Such charges may be invoiced by us separately from any invoice for the Contract Price and shall be payable 30 days from date of invoice or (b) terminate the Contract and resell or otherwise dispose of the goods (without prejudice to any other rights we may have against you for breach of Contract or otherwise).

18. DEFECTS AFTER DELIVERY - We will make good, by repair or, at our option, the supply of a replacement, defects which, under proper use, appear in the goods within a period of twelve calendar months after the goods have been delivered and arise solely from faulty design (other than a design made, furnished or specified by you, or your agents), materials or workmanship; provided always that defective parts have been returned to us if we shall have so required. We shall refund the cost of carriage on such returned parts and the repaired or new parts will be delivered by us free of charge. Our liability under this Clause shall be in lieu of any warranty or condition implied by law as to the quality or fitness for any particular purpose of the goods and save as provided in this clause, we shall not be under any liability, whether in contract, tort or otherwise, in respect of defects in goods delivered or for any injury (other than death or personal injury caused by our negligence as defined in Section 1 of the Unfair Contract Terms Act, 1977), damage or loss (including indirect or consequential loss) resulting from such defects or from any work done in connection therewith.

19. PATENTS - We will indemnify you against any claim for infringement of Letters Patent, Registered Design, Trade Mark or Copyright (published at the date of the Contract) by the use or sale of any article or material supplied by us to you and against all costs and damages which you may incur in any action for such infringement or for which you may become liable in any such action. Provided always that this indemnity shall not apply to any infringement which is due to our having followed a design or instruction furnished or given by you or to the use of such article or material in a manner or for a purpose or in a foreign country not specified by or disclosed to us, or to any infringement which is due to the use of such article or material in association or combination with any other article or material not supplied by us. Provided also that this indemnity is conditional on your giving to us at the earliest possible time, notice in writing of any claim being made or action threatened or brought against you and on your permitting us at our own expense, to conduct any

litigation that may ensue and all negotiations for a settlement of the claim. You on your part warrant that any design or instruction furnished or given by you shall not be such as will cause us to infringe any Letters Patent, Registered Design, Trade Mark or Copyright in the execution of your order and you will indemnify us against any claim for infringement of any such intellectual property rights.

20. HEALTH AND SAFETY - You must comply with all instructions, information and warnings which we supply in respect of the goods and ensure that such documentation is available to your customers or any other person handling the goods. Additional copies of the documentation can be obtained from us on request. You will indemnify us against any claim made against us by any third party as a result of your failure to comply with this Clause.

21. FINAL CERTIFICATE - Upon expiry of the defects liability period specified in Clauses 18 and 35, we shall be under no further obligation or liability to you either under the Contract or in tort (including but not limited to negligence), unless within 14 days thereafter you shall have given us written notice of any matter in respect of which we remain obliged or liable to you. You shall issue to us a final certificate to the effect that we have fulfilled all our obligations and liabilities to you immediately upon expiry of the said period of 14 days or, in the event that you have given us notice as aforesaid which we have not disputed, immediately upon our having dealt with the matter(s) specified therein.

22. ARBITRATION - If at any time any question, dispute or difference whatsoever shall arise between you and ourselves upon, in relation to, or in connection with the Contract, either of us may give to the other notice in writing of the existence of such question, dispute or difference and the same shall be referred to the arbitration of a person to be mutually agreed upon, or failing agreement within 30 days of receipt of such notice, of some person appointed by the President for the time being of the Chartered Institute of Arbitrators.

23. LEGAL CONSTRUCTION - Unless otherwise agreed in writing the Contract shall in all respects be construed and operate as an English Contract and in conformity with English law and the English Courts shall have exclusive jurisdiction over any matter arising out of the provisions of Clause 22 (Arbitration).

24. INSOLVENCY ADMINISTRATIVE RECEIVER - If you shall become bankrupt or insolvent or compound with your creditors or if a proposal is made for a voluntary arrangement within Part I of the Insolvency Act 1986 or if a proposal is made for any other composition, scheme or arrangement with (or assignment for the benefit of) your creditors, or if a receiver, liquidator, administrator, supervisor or administrative receiver or similar officer is appointed of all or any part of your business or assets or if a petition is presented or a meeting is convened for the purpose of considering a resolution (or other steps are taken) for your winding up (other than for an amalgamation or reconstruction) or a petition is presented for an administration order in relation to you, then we shall be entitled to cancel the Contract in whole or in part without prejudice to any other right or remedy which accrues to us.

25. FORCE MAJEURE - If delivery or completion of Work is delayed by strikes, lockouts, fire, accidents, defective materials, delays in receipt of raw materials or bought-in goods or components or any other cause beyond our reasonable control a reasonable extension of time for delivery or completion of Work shall be granted.

26. STATUTORY AND OTHER REGULATIONS - If the cost to us of performing our obligations under the Contract shall be increased or reduced by reason of (a) the making or amendment after the date of quotation or tender of any law or of any order, regulation, or bye-law having the force of law that shall affect the performance of our obligations under the Contract; (b) any rise or fall in the cost of labour or in the cost of materials or transport above or below such rates and costs ruling at the date of quotation or tender; the amount of such increase or reduction shall be added to or deducted from the Contract Price as the case may be provided that no account shall be taken of any amount by which any cost incurred by us has been increased by our default or negligence.

THE FOLLOWING PROVISIONS APPLY IN ADDITION TO THE ABOVE CONDITIONS WHERE THE CONTRACT INCLUDES WORK ON SITE.

27. ERECTION DRAWINGS, ETC. - You shall provide us free of charge before commencement of the Work with any information, plans or drawings required for Erection. If the information, plans or drawings required for Erection have not been furnished to us in reasonable time or if they do not contain the necessary details, we shall be entitled either to suspend performance of the Contract until such time as drawings are furnished or until the necessary details have been provided or to prepare such plans or drawings ourselves at your cost and in either event the time for performance of the Contract shall be extended by a reasonable period. We shall have no liability to you whatsoever, whether for negligence or otherwise, in respect of plans or drawings which we prepare due to your failure to provide us with your own plans or drawings.

28. SITE FACILITIES AND WORKING CONDITIONS - Our quotation or tender is based on our estimate of the extent of the Work in the light of information (including your Site Safety Regulations) produced to us and unless otherwise specified assumes the following conditions:- (a) You will provide suitable access to and possession of the Site in reasonable time. (b) The Erection will not be carried out in unhealthy or unsafe conditions. (c) Our employees will be able to obtain suitable and convenient board and lodging in the neighbourhood of the Site and have access to adequate medical services. (d) Such equipment cranes, consumable stores, water and power, scaffolding, lighting, heating and unskilled labour as are specified in the Contract will be available to us on Site and in reasonable time, and except as otherwise agreed, free of charge to us. (e) You will provide us, free of charge, with closed or guarded premises on or near the Site as a protection against the theft and deterioration of the Plant and of our tools and equipment. (f) We shall not be required to undertake any construction or demolition work. If these conditions are not satisfied we shall be entitled to charge extra.

29. HOURS OF WORK - Our employees will work normal hours applicable to the engineering industry, Monday to Friday inclusive, local public holidays

excepted. Unless stated to the contrary in our quotation or otherwise agreed, night work, overtime and holiday working are specifically excluded.

30. EXTRA COST - Should we incur extra cost owing to variation or suspension of the Work by your instructions, or your lack of instructions, or to interruptions, delays, overtime, unusual hours, mistakes or work for which we are not responsible, or to any specified Site conditions not being maintained by you, the Contract Price will be adjusted in accordance with our rates ruling at the time such extra costs are incurred.

31. PREPARATORY WORK - The Plant must be on the Site in reasonable time. You will provide us in reasonable time with suitable access to the Site and Plant and to all necessary equipment to be provided by you and furnish us with all information required for making all necessary connections to the plant. If you are responsible for preparatory work such as foundation or other work specified in the Contract as a pre-requisite to commencement of the Work, it must be completed in reasonable time. If we are responsible for foundation work you will provide us in reasonable time with all necessary information relating to the work necessary for preparing suitable foundations. Any extra cost incurred by us which results from an error or omission in the information furnished by you shall be added to the Contract Price and paid for accordingly.

32. LIMITATION ON CONTRACTORS' LIABILITY WHILST ON SITE - If we, our agents or sub-contractors are on Site for the purpose of the Contract then, notwithstanding the provisions of Clauses 18 and 35 we will indemnify you against direct damage or injury to your property or person or that of others occurring while we are working on Site to the extent caused by the negligence of ourselves, our sub-contractors or agents, but not otherwise, by making good such damage to property or compensating personal injury. Provided that: (a) Our total liability for damage to your property (including damage caused by our breach of contract, tort or breach of statutory duty) shall not exceed the Contract Price in respect of damage to the Plant and in respect of any other damage shall not exceed £1,000,000 or the Contract Price, whichever sum is the greater; b) We shall not be liable to you for any loss of profit or of contracts or, save as aforesaid, for any loss or damage of any kind whatsoever and whether caused by our breach of contract, tort, breach of statutory duty or otherwise howsoever. Save as provided in Clause 18 and 35, we shall not be liable for any damage, injury or loss occurring after our completion of Work on Site.

33. LIABILITY FOR DELAY IN ERECTION - Any times quoted by us for completion of Erection are to date from receipt by us of full and final instructions, and sufficient and suitable availability of and access to the Plant to allow us to proceed. The time for completion shall be extended by a reasonable period if delay in completion is caused by instructions or lack of instructions from you or by industrial dispute or by any cause beyond our reasonable control. If a fixed time be quoted for completion of Erection and we fail to complete within that time or within any extension thereof under this clause or under Clause 27 (Erection Drawings, Etc.), and if as a result you shall have suffered loss, we undertake to pay for each week of delay liquidated damages at the rate of 1/2 per cent, up to a maximum of 5 per cent, of the Contract Price. Such payment shall be in full satisfaction of our liability for delay. Any time described as an estimate shall not be construed as a fixed time quoted for the purposes of this clause.

34. TAKING OVER AND ACCEPTANCE OF ERECTION - We shall give you notice in writing of the date when the Work is ready for acceptance in sufficient time to enable you to make any necessary arrangements for inspection. If the Contract provides for tests on acceptance these shall take place in the presence of both parties. If in the course of the acceptance it is found that the Work or any part thereof is defective as a result of defective Erection, assembly or connection of the Plant we shall with all speed and at our expense make good the defect and thereafter if you so require offer the Work for re-inspection and acceptance at our expense. As soon as the Work has been completed in accordance with the Contract and has been accepted, you shall be deemed to have taken over the Work and the defects liability period shall start to run. You will thereupon issue a certificate (herein called "taking over certificate") in which you will certify the date on which the Work was completed and passed the tests (if any). If you do not take the steps necessary for such acceptance or testing, the Work shall be deemed to have been taken over and the defects liability period shall start to run on receipt by you of written notice from us to that effect.

35. DEFECTS LIABILITY PERIOD - We undertake to remedy at our expense and with all reasonable speed, any defect in the Work which may appear during the period of twelve months after taking over by making good any such defect. If in consequence of any such defect it is necessary to repair or replace any part of the Plant any such repair or replacement shall in all respects be at our expense, but not so as to impose upon us any liability greater than the Contract Price. Our liability under this clause shall be in lieu of any warranty or condition implied by law as to the quality, workmanship, or fitness for purpose of the Work and save as provided in this clause and Clause 32 (Limitation on Contractors' Liability Whilst on Site) we shall not be liable to you whether in contract, tort or otherwise for any loss, damage or injury (other than death or personal injury caused by our negligence as defined in the Unfair Contract Terms Act, 1977) resulting from any defects in work done or materials provided under the Contract or from any services or advice rendered in connection therewith.

36. In the event that any of the provisions of these terms and conditions are adjudged by any court of competent jurisdiction to be unenforceable (either in whole or in part) we will not be liable for any indirect or consequential loss or any loss of profits, business, contracts or revenues howsoever caused.

37. Nothing set out in these terms and conditions shall relieve us from any liability that we may have under s.12 of the Sale Of Goods Act 1970 or for fraudulent misrepresentation under the Misrepresentation Act 1967.
