

CLUB JOKER 2015

**THE LEGEND
GOES ON.**

TRADITION OBLIGES

Tradition makes the difference. For more than six decades Westfalia has been converting vans manufactured by VW into motorhomes. There are good reasons for the fact that the first motorhome ever built in Wiedenbrück in Westphalia was a VW T1.

In these six decades Westfalia has created motorhomes that have set standards. Innovations that set the pace. Products of inimitable functionality and quality. There are good reasons why the Westfalia models based on the T1, T2, T3 or T4 are today among the most famous and most desirable second-hand vehicles with prices far above their previous purchase price, in particular for the T1 and T2 models.

The new Club Joker continues in this tradition. See for yourself!

Innovation, design and quality – these three words have characterised Westfalia for more than 60 years. Thanks to these characteristics we have also become a reliable OEM partner for the automotive industry, be it Opel, VW, Ford or Mercedes.

For more than six decades Westfalia has been converting vans manufactured by VW. Longer than any other motorhome manufacturer.

LUXURY AT FIRST SIGHT

BETTER LIVING!

If you want to set standards you cannot accept the existing conditions.

The first time that you step into the Westfalia Club Joker, you will be struck by the generous and luxurious space. This impressive feeling of space is a result of the combination of colours and materials throughout the entire motorhome.

Bright, friendly white and beige colours are contrasted with black and defining aluminium silver. The floor in a bright boat deck pattern supports this impression even more. The big windows make for an atmosphere flooded with light. When it is dark, LED spots provide highlights and therefore an interesting and comfortable atmosphere.

All materials used in the Club Joker are of particularly high quality and their interaction results in a luxurious overall impression. Holidays mean relaxation. The new Club Joker offers you the living space you need to relax.

01. A motorhome that is all of a piece. All surfaces, colours and textures are perfectly matched and create a comfortable lounge atmosphere.

The details win you over.

The new Westfalia Club Joker wins you over with its generous and inviting interior design concept. Design and functionality complement each other to form a perfect unity, setting new standards in usability and practicality.

DESIGN & FUNCTIONALITY

A PERFECT KITCHEN

ENJOY YOUR MEAL!

Cooking is closely related to passion. But you also need a lot of passion to design and develop a motorhome kitchen, in particular in a van.

Space and functionality – these two factors always battle with each other when developing the functional areas in a motorhome. Only experience, know-how and skill can resolve this contradiction.

That is why the kitchen in the Club Joker is based on more than six decades of experience in the construction of motorhomes, thus making it a real masterpiece. Let's have a look at function: 2-burner hob, sink with sink mixer and a big worktop give you the space you need to prepare a meal with passion. Pots, plates and cutlery can be neatly put away in the floor cupboards as well as the ceiling compartments above the counter top. There also is a spice rack of course. And the optional rooflight above the kitchen ensures perfect ventilation.

Enjoy your meal.

The kitchen in the new Club Joker makes a convincing impression thanks to its functionality. You will find everything you need to prepare your meal within easy reach. All utensils can be stored in the generous cupboards. The counter top with integrated 2-burner hob and sink is big and practical.

The optional rooflight above the kitchen guarantees perfect ventilation

- 01.** The 2-burner hob is perfectly integrated into the counter top.
- 02.** The 50 l compressor-type refrigerator is built in at a medium height and therefore easily accessible.
- 03.** The kitchen equipment can be neatly stored in the numerous ceiling compartments and floor cupboards.

SPACE TO DREAM

SWEET DREAMS

Opting for a high roof also means opting for more holiday quality.

Westfalia has achieved an innovative room design by means of the high roof in the Club Joker. The advantages offered by this concept are obvious.

Not only does the high roof offer you continuous headroom from the driver's area to the rear kitchen and bathroom area, but the 130 cm wide double bed is also perfectly integrated in the high roof. The bed of course features a multi-dimension spring system offering you additional relaxation and comfort.

In addition to this the seating in the Club Joker can of course be easily converted into an additional bed.

Another highlight that goes the extra mile: even if you have already pulled out the upper double bed you can still use the seating because the room offers sufficient headroom. Sweet dreams.

The big double bed in the Club Joker is more than 130 cm wide and located in the insulated high roof. It can be easily pulled out and allows for a good night's rest and perfect relaxation.

*We have thought of everything –
LED spotlights for reading
and a shelf for books and glasses*

- 01.** The seating in the living area of the motor-home can be easily converted into a comfortable bed.
- 02.** The double bed in the high roof features a multi-dimensional spring system, thus offering perfect sleeping comfort.

YOUR ROOMY DREAM BATH

READY FOR THE NEW DAY

What could be better than starting the day perfectly refreshed? The bathroom in the Club Joker offers you everything you need.

In fact the advantages of the high roof concept are not only visible in the sleeping area but also in the bathroom area. You will find a bathroom worthy of the name in the rear part of the vehicle. The flexible entrance doors allow you to turn the bathroom into a toilet or shower, just the way you want it. With a separate washbasin, numerous storage areas and a towel holder, you won't lack anything you need.

Economising on water? Not in the new Club Joker, thanks to the powerful hot water system and the generous tanks with 70 l fresh and 70 l waste water.

Ventilation in the bathroom of the Club Joker is provided by means of hot water convection heaters and a large roof hood, which not only leads the steam to the outside but also allows a lot of light into the bathroom.

Ready for the new day. Everything in the Club Joker is designed to make you feel refreshed.

The Club Joker is equipped with a complete bathroom in the rear of the vehicle. With its big fresh and waste water capacities there is no feeling of restriction or being short of anything.

The outside shower can be easily fixed to the rear flap with a suction cup hook.

**DESIGN AND
EXCLUSIVITY**

TECHNOLOGY & COLOURS

Basic vehicle	Volkswagen T5 with long wheel base
Diesel engine	2.0 l TDI 62 kW / 84 hp (further engines optional)
Gearbox	5-speed transmission optional: 6-speed manual transmission & 7-speed DSG

** Metallic paint is optional.

At time of printing.

For technical printing reasons, the colours shown may vary from the original.

BEING INDEPENDENT

People like you, who are interested in a vehicle like the new Club Joker from Westfalia, value mobile comfort as much as well thought-out functionality.

The Club Joker will win you over on both counts. With its compact external dimensions the Club Joker is your true companion in your daily life as well as on extensive holiday trips. Wherever you decide to go.

The Club Joker offers you independence. The hot water heating runs on diesel and the 50 l refrigerator on electricity, therefore gas is only needed for the cooker in the kitchen. So it's up to you, where and when you want to stop. 70 l fresh and 70 l waste water tanks offer you enough reserve, and the shower in the vehicle makes you independent of campsites.

- 01.** In the new Club Joker you need gas for cooking only.
- 02.** The double floor underneath the kitchen and bathroom area not only contains the technical equipment but also offers a generous storage compartment for bulky camping equipment.

Day: Seating and living area on the ground floor

Night: Bed on the first floor

WESTFALIA QUALITY

You will have seen the expression 'Westfalia class' in this catalogue a number of times. You will see that this expression is so much more than just a marketing promise when you take the time to take a closer look at a Westfalia.

It is the choice of **materials** that captivates at first sight and convinces at second sight thanks to their durability. Westfalia sets standards with its perfect **craftsmanship**. As a partner of the automotive industry we are used to meeting the tolerances of car manufacturers; this is why we talk more frequently in µm than in cm in our vehicles.

This is the **quality** with which each vehicle is built here in Wiedenbrück: craftsmanship matched with innovative manufacturing processes. This quality is also reflected in the ISO certification we obtained last year. This is very rare for a motorhome manufacturer.

It is the readiness **to innovate** that makes each Westfalia motorhome a milestone in its respective vehicle class. New solutions and trendsetting constructions available exclusively from Westfalia.

- 01.** The overall impression of the motorhome is luxurious, in particular due to the use of high-quality materials.
- 02.** The production is based on the requirements of the German car manufacturing industry. It is only because we meet those requirements that we are allowed to manufacture OEM vehicles.
- 03.** The certified Westfalia quality has been confirmed by means of ISO certification.

Quality that wins you over at first sight and enchants you at second sight

Westfalia Quality – 31

Westfalia has been converting vans into motor homes for more than 60 years. A rich experience from which you can benefit. And quality you can experience every day.
