What is the CMT Program?

- **What is the CMT Program?**

The Chartered Market Technician (CMT) Program is a certification process in which candidates are required to demonstrate proficiency in a broad range of technical analysis subjects. Administered by the CMT Association (www.cmtassociation.org), the main objectives of the CMT Program are:

- To guide candidates in mastering a professional body of knowledge and in developing analytical skills.
- To promote and encourage the highest standards of education.
- To grant the right to use the professional designation of Chartered Market Technician (CMT) to those members who successfully complete the Program and agree to abide by the MTA Code of Ethics.

- **When and where is the exam held?**

CMT Exam Levels I, II, and III are given twice a year, in April and October. The CMT exam is administered all world at [Prometric Testing Centers](#)

- **What is the length and format of the three levels?**

- Level I: 2 hours and 132 Multiple Choice questions (12 unscored).
- Level II: 4 hours and 170 Multiple Choice questions (20 unscored).
- Level III: 4 hours and Essay questions totaling 240 points.

- **How are the exams graded?**

The Level I and II exams are multiple choice and machine graded. The Level III exams are graded by CMT charterholders. Grading is based on a uniform answer key for each question.

- **Do typographical and grammatical errors affect your Level III score?**

Typographical and grammatical errors will not penalize you on the Level III exam. Exams are graded solely on the application of the technical analysis concepts being tested. We encourage candidates to answer questions using short phrases or bullet points where appropriate. Graders are aware that English might not be the candidate's first or primary language.

- **What is the passing score for each level of the exam?**

The CMT Association goes through a rigorous standard setting process to determine the passing score. This can fluctuate from exam to exam, and for these reasons the passing score is not disclosed.

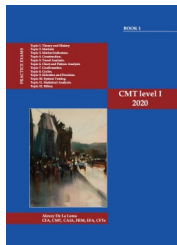

- **When are exam results released?**

The results for the CMT Level I and II exams are issued upon completion or exiting the exams. CMT Level III exam results require a manual grading process and therefore generally are made available within approximately six to eight weeks of the exam date.

How can I buy Financer Training Study Material?

Financer Training offer CMT candidates two methods of payment: bank wire or paypal. If you are interested in paying by bank wire, the banking account data can be found in our website (www.financertraining.com), where you can also find the Paypal buttons to pay with your credit card.

Price and format of Financer Training Study Material.

Financer Training Practice Exams can be bought as a printed (hard copy version) or as an electronic or digital version. The electronic version is offered in an encrypted PDF format. The candidate will need to use the free software Prot-On (www.prot-on.com) to open the PDF files. Note that the digital version is nonprintable. The prices that you see in this brochure as well as in our website (www.financertraining.com) include VAT and delivery costs for the printed version.

• Practice Exams Printed Version	312€ (VAT and Delivery Costs included).
• Practice Exams Online Version	260€ (VAT included).

Study Material electronic (digital) version.

- **What is Prot-On software?**

Prot-On is an application that ensures the files you send by email, upload to the cloud or share on social networks can only be accessed by authorized users. Therefore, Prot-On is encryption software.
- **What is the Prot-On URL?**

<https://www.prot-on.com>
- **How much does Prot-On software cost?**

Prot-On is free software.
- **What do I need Prot-On software for?**

If you have bought any digital Financer Training course, you will receive the study material in PDF format. In order to open these files, you will need to be a Prot-On registered user. Registration is free and it must be made with the same email address in which you have received the Financer Training PDF files. Registration can be made using the invitation Prot-On email that you receive when you buy a digital Financer Training course, or just entering the Prot-On site directly. In any of these registration methods, do not forget using the same email address in which you have received the Financer Training PDF files, and to keep your user and password for future usage of Prot-On software. Once you are a registered Prot-On user you have two ways to open Financer Training PDF files: first one is just installing the Prot-On software in your computer, and second one is employing a simple process of drag-and-drop taking the PDF file and dropping it into the Prot-On Drag and Drop section. Both options are explained in full detail in the Prot-On website.
- **If I am already a Prot-On registered user, do I need to register again?**

If you are already a registered user, you do not have to register again. Once you are registered, keep your user and password for future protected documents.
- **Can I open the CMT study material offline?**

Yes. As we illustrated in a previous answer, there are two ways to open the PDF files. The most straightforward option is just saving the document and then drag and drop the PDF file into the Drag 'n' Drop website section (there is a tutorial in the site with a step by step explanation). Clearly, under this option we must be online. The second option is based on installing Prot-On software in our computer. Once it has been installed and activated with our user and password, we could open the PDF files even if we are offline. Every time we open a PDF file offline, we have a full month to access the study material till the next time we open the study material online. Once we open again the files online, time is restarted again and we have another full month of offline studying.
- **How much time do I have to access the CMT study material?**

You can open the CMT study material for an unlimited period of time. Once you buy and download the Financer Training course, the PDF file could be opened with your Prot-On user and password forever.
- **Can I open the study material PDF files without using Prot-On?**

No. PDFs are encrypted and they can only be opened using Prot-On.
- **Can I print the PDF files?**

No, the PDF files are nonprintable. If you prefer to read the information in a traditional way, we recommend you to buy the printed version.

What do CMT candidates say about our Study Material?

"I have prepared my CMT-1 with a successful result within Alexey's Study Notes, my own experience was good as the manuals are based entirely on the CMT reading assignments but are worked in a format that divides them in theme blocks; in each block there is a topic under which all the chapters from all the authors are ensemble to cover the topic in full; and this makes the material much easier to focus and follow rather than being jumping from one chapter to another from the all different books. Each block includes an exam at the end, with the entire past exam questions and a lot new more; it proves your understanding of the topic and provides you with the practice for the exam.

A great package for a successful preparation in terms of the manuals and the tutor Alexey, as he had prepared all the material and is already a CMT charterholder, hence he shares his experience as part of the preparation process.

On my exam all the questions-topics were covered on Alexey's Study Notes; and all my doubts during the preparation were answered by him quickly. A great tutor that enjoys his work and motivates you to keep going, thus I am getting onboard in Alexey's ship for the level-2 CMT."

María López Vázquez
CMT, EFA

"Preparation materials for the CMT certificate of Mr. De La Loma are an invaluable aid to the successful tacking of the official examinations. The clarity in the exposition of the different issues and the interesting preparation questions, show the author's expertise on the subject."

Iñaki Arcocha Torres
CFA, CMT, CIIA, CAIA, FRM

"I found the notes were done very professional, I passed with flying colours, and the best part is the material is condensed dramatically no fluff all fact."

David Waite
CFA

"I found myself pick up the material pretty quickly. I have actually read all 4 books on the CMT level I reading list but honestly, I couldn't comprehend what I read and sometimes was so confused. Your study notes are well-organized, comprehensive yet clearly explained to the details which helped clear all the confusion. Getting your study notes + practice exams was such a right decision."

Kim Ho

"It seems like a mess in my mind after finishing CMT level 1 reading assignments. However, when reviewing by using Alexey's study notes everything becomes clearer. All knowledge in four books is systematized carefully by dividing in well-organized blocks with unforgettable key points. Alexey's notes as well as practice exam have served me well in CMT level 1 exam and now I am ready for the next level together with his CMT level 2 materials."

Thuy Nguyen Thu

"Alexey De La Loma's CMT material is concise, yet thorough. The combination of text summaries and practice exams more than adequately prepared me for the exams. I would certainly recommend it. The material is much harder than the exam so I was well prepared."

William Skultety

"The study notes and practice exams of Alexey De La Loma helped me a lot, not only to pass my exam but it also helped me to change my analysis and my trading. This is good stuff and I usually come back to check it."

Guillermo Martín Chávez

What do CMT candidates say about our Study Notes?

“Alexey De La Loma’s study notes and practice exams for the CMT certification is comprehensive. I have relied only on his study notes to pass the examinations for the CMT certification. The breadth and depth of reading and knowledge required to gain the CMT certification is considerable and Alexey De La Loma’s study notes cover the MTA syllabus comprehensively in a clear and succinct manner.

The practice exams books are very relevant and they highly reinforce the material covered. It is probably the best revision aid for the CMT certification on the market. I would recommend it for anyone perusing the CMT certification as well as those interested in gaining proficiency in T.A., its history and applicability.”

Prop trader/market maker for UK’s largest prop trading firm

"At first I wasn't very sure if I should take the exam in October as I just had less than 3 weeks to prepare it. Alexey's ultra high quality exam prep and study notes enabled me to shorten 80% of study time. I got my first level CMT completed and I am now very confident to achieve my goal to become a charterholder. Without Alexey's test prep material I wouldn't not have been able to achieve it so fast! For those who are serious about CMT exam, please make no other choice."

Meng Kei Sou

"I am pleased to say I passed the CMT Level 1 exam last week and I found the quality of your materials and particularly the exam questions to be excellent and allowed me to better prepare myself."

Alasdair Stewart

CFA, FRM, CAIA.

"I have successfully completed CMT Level-1, and I personally believe that all credit goes to your study notes and your practice exam paper, because of the way you have presented everything. It is very simple and easy to understand. Your study notes and practice exams really cover everything which is required to pass CMT Level-1 and because of that reason I have decided to go for your CMT Level-2 study notes + practice exams."

Md. Yousuf Al-Amin.

“Absolutely spot on! The questions were exam specific which was great and most importantly, they provided a good revision tool instead of re-reading the chapter. The charts were great and I was impressed by the multitude of charts that were included in this study material. I experienced no issues with packaging and delivery; and the condition of the book was fantastic upon arrival. Seeing as the MTA only provide 2 sample exam papers, I cannot stress how important practice questions are to exam success; therefore, I would HIGHLY recommend *Financer Training* question books!“

Tinashe Dingwiza.

“Alexey's CMT material is Wall Street's best kept secret. It is the quintessential source for CMT preparation. Fortunately for me I stumbled across this website and material after hours of scouring the internet for some CMT testing material. If you've been looking like I did, look no further, best ROI you can get is right here. More than 1000 questions, and detailed answers to go with it. If you care about passing, this is all you need.“

Gabriel Cocinescu.

“Alexey’s material is very good. I bought him the practice exams and thanks to his material I have passed the CMT Exam and I was very well prepared. I totally recommend it.”
