Course Overview

Three day course. COBIT® 5 is the only business framework for the governance and management of enterprise IT. This evolutionary version incorporates the latest thinking in enterprise governance and management techniques, and provides globally accepted principles, practices, analytical tools and models to help increase the trust in, and value from, information systems. COBIT® 5 builds and expands on COBIT® 4.1 by integrating other major frameworks, standards and resources, including ISACA's Val IT and Risk IT, Information Technology Infrastructure Library (ITIL®) and related standards from the International Organisation for Standardisation (ISO).

COBIT® 5 is the leading framework for the governance and management of enterprise IT
