Shower Wall Panels

Shower and tub surround wall panels are made to your specific size. Each exposed edge will be finished, and on-site trimming can easily be done with any wood cutting tool.

Wall Panels are available in five styles: Gloss Smooth, Stone Tile, Subway Tile, Wavy Tile and Matte Finish. Wall panels come with all adhesive silicone and color-match seam silicone needed for your installation.

GLOSS SMOOTH

Our most popular finish, the smooth Gloss Finish gives a classic appearance with an easy to clean smooth surface.

STONE TILE

Our production mold was made from natural 12" x 12" stone tiles which gives each wall panel the look of stone tile with a grout free shower wall.

SUBWAY TILE

A smooth tile design with faux grout lines, the Subway Tile “size” is $3'' \times 9\frac{5}{8}''$ and the $\frac{1}{4}''$ wide grout groove is $\frac{1}{32}''$ deep. The grout molding shape will also be shown on the finished edge.

8" X 24" WAVY TILE

Actual tile size (not including any grout lines) is $7\frac{7}{8}'' \times 24\frac{1}{8}''$. The grout lines are $\frac{3}{16}''$ wide. Max panel size is $96\frac{7}{8}''$ wide by $105\frac{1}{8}''$ tall. Max panel is 4 tiles wide by 13 tiles tall.

MATTE FINISH

We achieved our Matte Finish “look” by lightly sanding the panels and then applying a permanent sealer to the surface. There is little to no shine on Matte Finish Panels.

Accessories

SHOWER CADDIES — Over 30 Options

SHOWER SEATS — Many Standard and Custom Options

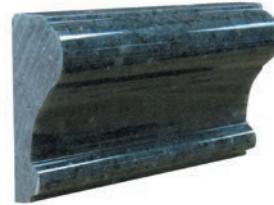

TOWEL BARS, CURTAIN RODS, SPLASH GUARDS

Trim

BASEBOARD, BASE SHOE, CASING, CHAIR RAIL
