A UNIVERSITY ENGAGED WITH THE WORLD

THE HISTORY OF NORTHEASTERN UNIVERSITY

Northeastern University has used its leadership in experiential learning to create a vibrant new model of academic excellence. But like most great institutions of higher learning, Northeastern had modest origins.

At the end of the nineteenth century, immigrants and first-generation Americans constituted more than half of Boston's population. Chief among the city's institutions committed to helping these people improve their lives was the Boston YMCA. The YMCA became a place where young men gathered to hear lectures on literature, history, music, and other subjects considered essential to intellectual growth.

In response to the enthusiastic demand for these lectures, the directors of the YMCA organized the "Evening Institute for Young Men" in May 1896. Frank Palmer Speare, a well-known teacher and high-school principal with considerable experience in the public schools, was hired as the institute's director. Two years later, under Speare's direction, the YMCA advertised the creation of the "Department of Law of the Boston YMCA," and on October 3, 1898, Robert Gray Dodge taught the first class. The program, an immediate success, marked the birth of Northeastern University. Speare would later remark, "We started with an eraser and two sticks of chalk."

When demand for other courses grew, Speare moved to add more programs, and in 1909 the day colleges began instruction. That same year, the Evening Polytechnic School announced "cooperative engineering courses," in which students would have an opportunity to apply classroom knowledge in the workplace—the beginning of Northeastern's signature cooperative education program.

Decades of expansion

The school continued to grow and required more space. In 1922, the College of Business was founded. The university purchased the former home of the Boston Red Sox in 1929, and in 1934 the Boston architectural firm Shepley, Bulfinch, Richardson, and Abbott was awarded the contract to design Richards Hall. Using what was to become the campus signature—white brick—Shepley, Bulfinch presented plans for a neoclassical building. Opened in 1938, Richards Hall was the first building to appear on the front quadrangle.

As the campus grew, so did Northeastern's programs. In 1935, the College of Liberal Arts was added, signaling that Northeastern was on its way to becoming a major university.

When Speare stepped down as president in 1940, he was replaced by Carl Stephens Ell, dean of the College of Engineering. It was under Ell's leadership that Northeastern first admitted women to full-time day programs.

In the postwar world, Northeastern, like its sister institutions, saw a phenomenal increase in the number of people attending college. The university expanded its programs to accommodate this growing population of increasingly diverse students. In rapid succession, additional programs and colleges were established: College of Education, 1953; University College, 1960; College of Pharmacy, 1962; College of Nursing, 1964; Boston Bouvé College, 1964; College of Criminal Justice, 1967; and College of Computer Science, 1982.

This expansion of programs brought with it a need for more buildings. When Ell retired as president in 1959, he was succeeded by Asa S. Knowles, who accelerated the university's growth. Suburban properties in Weston, Nahant, and Burlington were acquired. The Boston campus blossomed with new buildings, including various undergraduate dormitories designed to accommodate the increasing number of residential students at what had been primarily a commuter campus.

Transforming the campus

When Knowles retired in 1975, he was succeeded by Kenneth G. Ryder, who had begun his career at Northeastern as a member of the history department and had risen through the ranks to become executive vice president before his election as president. Under his leadership, the university expanded and enriched its programs, particularly in the arts and humanities, and continued to improve its facilities. Plans for the Snell Library were finalized during Ryder's tenure, and the campus was beautified. During these years, Northeastern also deepened its commitment to Boston and its neighborhoods.

In 1989, Ryder stepped down as the fourth president of the university. He was succeeded by John A. Curry, Northeastern's executive vice president and its first alumnus to become president. With President Curry in charge, the university embarked on a series of ambitious undertakings, including a new science and engineering research center, a state-of-the-art classroom building, a recreation complex, and several new graduate and undergraduate programs.

To support these new ventures, Curry led Northeastern in a successful fundraising campaign. His years of leadership also featured significant restructuring as the university prepared to enter its second century. In June 1996, after four decades of service, Curry retired from Northeastern. To succeed him, the trustees elected Richard M. Freeland as the university's sixth president.

Elevating experience

A distinguished historian and administrator, President Freeland brought to the university a renewed sense of energy and mission. His programs were designed to support his vision of Northeastern as a national research university that would be student-centered, practice-oriented, and urban. Under Freeland's leadership, the university made progress toward realizing this vision. Northeastern developed the West Campus with architecturally acclaimed residence halls and research and teaching facilities for the health sciences and computer science; added new spaces to enrich student life on campus; and strengthened the university's experiential learning programs, including cooperative education, research, service learning, and study abroad.

When Freeland stepped down in 2006, he was succeeded by Joseph E. Aoun, an internationally known linguistics scholar. Northeastern's seventh president came from the University of Southern California, where he served as dean of the College of Letters, Arts, and Sciences. President Aoun has developed an academic plan outlining the university's vision in several areas: experiential learning, global outreach, use-inspired research, urban engagement, and intellectual life. He has greatly expanded global co-op opportunities. He has also aligned the university's research with three worldwide imperatives— health, security, and sustainability—with a focus on interdisciplinary solutions.

A rising global profile

Under Aoun's leadership, Northeastern started a system of regional campuses designed to be platforms for lifelong learning linked to area economies. The first two campuses opened in Charlotte, North Carolina, and Seattle. Two more campuses followed in 2015, in Silicon Valley and in Toronto. In 2016, he led the development of a new academic plan, Northeastern 2025. The plan is a blueprint for transforming the university into a global university system—featuring networks of learners and innovators—designed to empower people to succeed in this era of unprecedented technological change. Since 2016, the university has taken the first steps toward implementation by expanding the role of the regional campuses to serve as platforms for learning, research, and industry partnerships. Furthering that goal, the university in 2019 opened new locations in San Francisco and Vancouver. Northeastern also acquired a college in London, New College of the Humanities, to offer new learning and research opportunities at both institutions.

In January 2020, technology entrepreneur David Roux and his wife, Barbara, made an investment in the university to open the Roux Institute in Portland, Maine. It focuses on

THE HISTORY OF NORTHEASTERN UNIVERSITY

graduate studies and research in fields such as AI, digital engineering, and advanced life sciences, amplified by industry partnerships. The institute is designed to be a model of how higher education can jumpstart economic development in regions of the country largely bypassed by the innovation economy.

Resilience and momentum

Less than two months later, Covid-19 brought the world to a sudden, stunning halt. Campuses around the world emptied and moved online for the rest of the spring. But even as students and faculty grew accustomed to classes on Zoom, Northeastern's leaders planned for a safe fall reopening. To restart in-person learning safely, the university built a state-of-the-art COVID-19 surveillance testing facility, including a government-certified lab capable of processing more than 5,000 tests per day. It installed cutting-edge online teaching technology in classrooms that seamlessly integrated in-class and remote learners. It reimagined campus life from student clubs to residence halls to dining. And it kept the research enterprise running at its highest capacity. As a result, the university opened on schedule in September and remained open throughout the school year with no COVID-19 outbreaks. All the while, Northeastern maintained its momentum in learning, research, and innovation.

Thanks to the dedication and hard work of our university community, Frank Palmer Spears's "eraser and two sticks of chalk" have evolved into one of America's most innovative universities.

PROGRAM

Presiding

Joseph E. Aoun

President of the University

Prelude

Processional

The audience will be asked to stand for the procession of the President's Party and will remain standing until the completion of the National Anthem and invocation.

Music provided by the Northeastern University Pep Band, Brass Quintet and Sax Quartet, Allen G. Feinstein, conductor.

We ask those in attendance to silence their electronic devices.

MORNING CEREMONY

FENWAY PARK, BOSTON
NINE O'CLOCK

The National Anthem

Annabelle Eve Kearney
College of Arts, Media and Design

The audience is requested to join in singing the first stanza.

Commencement Prayer

An Invocation by:

Shriya Srinivas, *Hindu spiritual representative*
College of Arts, Media and Design

Tali Beth Glickman, *Jewish spiritual representative*
College of Science

Albert Huoquan Lee, *Protestant spiritual representative*
College of Social Sciences and Humanities

Christian Aaron Hardy, *Buddhist spiritual representative*
College of Engineering

Carli Anne D'Antonio, *Catholic spiritual representative*
College of Engineering

Ramin Musfirah Raza, *Muslim spiritual representative*
College of Social Sciences and Humanities

Greetings

Charlie Baker
Governor of Massachusetts

Kim Janey
Mayor of the City of Boston

Introduction of the President of the University

Richard A. D'Amore
Chair, Board of Trustees

Introduction of the Class Orator

Kenneth W. Henderson
Chancellor and Senior Vice President for Learning

Class Oration

Nathan Louis Hostert
College of Social Sciences and Humanities

Remarks

Patrick O. Brown

Conferring of Degrees

Joseph E. Aoun

President of the University

Degrees in Course

David Madigan

Provost and Senior Vice President for Academic Affairs

College of Arts, Media and Design

Elizabeth Hudson

Dean

D'Amore-McKim School of Business

Raj Echambadi

Dunton Family Dean

Khoury College of Computer Sciences

Carla E. Brodley

Dean

College of Engineering

Gregory Abowd

Dean

Bouvé College of Health Sciences

Carmen Sceppa

Dean

College of Science

Hazel Sive

Dean

College of Social Sciences and Humanities

Uta G. Poiger

Dean

Remarks

Rochelle P. Walensky

Introduction of Chair of the Young Alumni Advisory Board

Alan S. McKim

Vice Chair, Board of Trustees

Presentation by the Alumni Association

Ezgi Kosereisoglu, E'14

Chair, Young Alumni Advisory Board

Alma Mater

Annabelle Eve Kearney

College of Arts, Media and Design

Musical Selection

Zeke Martin and The Oracle

Recessional

All Hail Northeastern

Northeastern Pep Band

The audience is requested to remain seated during the recessional.

AFTERNOON CEREMONY

FENWAY PARK, BOSTON
TWO O'CLOCK

The National Anthem

Olivia Rose Tatirobian Perez
College of Science

The audience is requested to join in singing the first stanza.

Commencement Prayer

An Invocation by:

Deena Nicole Notowich, *Jewish spiritual representative*
College of Social Sciences and Humanities

Parker Chia-An Shyu, *Protestant spiritual representative*
College of Arts, Media and Design

Simra Zainab Abedi, *Muslim spiritual representative*
College of Social Sciences and Humanities

Ethan Bancroft Twombly, *Buddhist spiritual representative*
College of Science

Tamanna Asarpota, *Hindu spiritual representative*
College of Science

Matthew Thomas Fasullo, *Catholic spiritual representative*
College of Social Sciences and Humanities

FEATURED SPEAKER

Patrick O. Brown

Patrick Brown, inventor of the Impossible Burger and CEO and founder of Impossible Foods, is a pioneering scientist who, throughout his career, has blazed his own trail to global impact.

Dr. Brown first came up with the innovative idea behind his company while on sabbatical from his position as a Howard Hughes Medical Institute Investigator and professor of biochemistry at the Stanford University School of Medicine. In reflecting on how he could apply his knowledge and experience to make the largest positive contribution to the world, Dr. Brown—already eminent in the field of cancer research—believed he could make affordable meat products directly from plants that would mimic the flavors of real beef or pork.

If successful, he believed his products could eliminate the demand for animal meat, maximizing human health and minimizing the destructive effects of animal farming on land use, water quality, and climate change.

After initial lab work yielded promising results, Dr. Brown secured startup funding from the Silicon Valley venture capital community. He and his team spent five years researching and developing the Impossible Burger, which launched in restaurants in 2016.

Today, the Impossible Burger can be found in nearly 15,000 grocery stores in the U.S. alone, and more than 17,000 restaurants worldwide. Impossible Foods also makes plant-based pork and is working on chicken, fish, and dairy products made without animals.

According to data published by the United Nations Framework Convention on Climate Change, the Impossible Burger requires 96 percent less land, needs 87 percent less fresh water, and generates 89 percent fewer greenhouse gas emissions than a traditional beef burger. In recognition of the company's achievements, it was awarded a 2020 United Nations Momentum for Change Award for Planetary Health.

During his quarter-century as a biochemistry researcher, Dr. Brown focused on impact inside and outside of the laboratory.

Dissatisfied that for-profit science journals had the effect of restricting access to new discoveries, he co-founded the nonprofit Public Library of Science, which transformed the publishing industry by making research results freely available to the public.

While at Stanford, Dr. Brown and colleagues developed DNA microarrays, a new technology that made it possible to monitor the activity of all the genes in a genome. He also pioneered the use of gene expression patterns to classify cancers and improve prediction of their clinical course and defined the mechanism by which HIV and other retroviruses incorporate their genes into the genomes of the cells they infect.

In 2016, the World Economic Forum named Dr. Brown a Technology Pioneer for his design, development, and deployment of new technologies and innovations “poised to have a significant impact on business and society.” He is a member of the National Academy of Sciences and the National Academy of Medicine, a fellow of the American Association for the Advancement of Science, and recipient of the American Cancer Society Medal of Honor.

Dr. Brown earned his medical degree from the University of Chicago in 1982, completing a three-year pediatric residency before deciding to pursue basic research. He also earned his Bachelor of Science and doctorate in biochemistry from the University of Chicago.

FEATURED SPEAKER

Rochelle P. Walensky

As the 19th director of the Centers for Disease Control and Prevention and an expert on the treatment of deadly viruses, Rochelle Walensky has recently played a pivotal role in managing the federal government's efforts to end the COVID-19 pandemic.

Since assuming her office in January, Dr. Walensky has helped coordinate the nation's massive vaccination program. She has been outspoken in urging the nation to continue adhering to COVID-19 mitigation measures such as maintaining mask-wearing mandates, as well as the need for all Americans to be vaccinated against the virus.

Dr. Walensky has also been a strong voice for reducing the health disparities that are causing Black and brown communities to suffer higher death rates from COVID-19. She recently announced that the CDC will treat racism as a dire public health threat because it causes those severe racial and ethnic health disparities by creating structural inequalities in housing, education, and employment.

As the head of the nation's leading public health agency, Dr. Walensky's portfolio extends well beyond management and mitigation of the pandemic. The CDC is a scientific agency, an advocate for good health practices, and a bulwark against global health threats. It provides regular updates on a range of diseases and conditions, publishes advisories on global infectious disease outbreaks, and even advises travelers where to find healthcare services abroad.

Prior to her current appointment, she was the chief of the Division of Infectious Diseases at Massachusetts General Hospital and a professor of medicine at Harvard Medical School. In those positions, Dr. Walensky was deeply involved in advancing global knowledge of the COVID-19 pandemic. She conducted research on vaccine delivery and strategies to reach underserved communities.

Her pioneering research on viruses has helped advance the national and global response to HIV/AIDS, including work to improve HIV screening and care in South Africa. She has influenced HIV-related health policies as well as clinical trial design and evaluation in a variety of settings.

Dr. Walensky started her career in internal medicine at Johns Hopkins Hospital, and then was named a fellow in the Massachusetts General Hospital / Brigham and Women's Hospital Infectious Diseases Fellowship Program.

She is a past chair of the Office of AIDS Research Advisory Council at the National Institutes of Health, chair-elect of the HIV Medical Association, and previously served as an advisor to both the World Health Organization and the Joint United Nations Programme on HIV/AIDS. She is administrator of the Agency for Toxic Substances and Disease Registry and a member of the U.S. Department of Health and Human Services Panel on Antiretroviral Guidelines for Adults and Adolescents.

Dr. Walensky holds a Bachelor of Arts from Washington University in St. Louis, a Doctor of Medicine from the Johns Hopkins University School of Medicine, and a Master of Public Health from the Harvard T.H. Chan School of Public Health.

DEGREES IN COURSE

Conferral Dates

December 19, 2020

May 7, 2021

August 31, 2021

This program is for ceremonial purposes only and is not to be considered an official confirmation of degree information. It contains only those details available at the publication deadline.

Degrees are awarded from the following colleges:

Kayla Marie Seikkula

Honors in Chemical Engineering

Selina Banerjee

Vidhan Bhaiya

Caroline Ghio

BOUVÉ COLLEGE OF HEALTH SCIENCES

Honors in Health Science

Haley Elizabeth Bouchard

Connor Scott Holmes

Michaiah Aminah Parker

COLLEGE OF SCIENCE

Honors in Behavioral Neuroscience

Izabella Monika Bankowski

Ji Hae Lauren Choi

Michael Dylan Iskols

Andrea Lucine Yessaillian

Honors in Biochemistry

Matthew Anthony DePamphilis

Morgan Rachel Pfaff

Elizabeth Beauregard Schwartz

Erica Teng

Hoang Yen Vu

Honors in Biology

Hannah Cecilia Carrow

Eun Kyung Jeon

Hannah Fay Meiseles

John Gachago Mwangi

Nuria Roxana Romero

Honors in Chemistry

Anson Xiang Kang Huang

Honors in Earth and Environmental Sciences

Brynnydd Riley Hamilton

Allison Elizabeth Noble

Honors in Linguistics

Molly Mae Wilson

Honors in Mathematics

Xiaoying He

Honors in Physics

Ishaan Lohia

Honors in Psychology

Renée Michelle Dembo

Mackenna Marie Mejdell

Gwendolyn Christine Orav

Taylor Kennice Whitaker

Marina Janay Wilson

Thea Maria Yazbek

COLLEGE OF SOCIAL SCIENCES AND HUMANITIES

Honors in Economics

Gisselle Adelaida Rodriguez Benitez

Honors in English

Olivia Mastro Simone

Alexis Elliott Rubin

Honors in Politics, Philosophy, and Economics

Mackenzie Allyce Nekton

Greg Jarvis Memorial Scholarship

Blake Timothy Karavas, *College of Science*

Wendy Breen Kiline Award

Lily Devon Harris, *Bowé College of Health Science*

Joseph C. Lawler Memorial Award

Louiza Kate Wise, *College of Engineering*

Outstanding Co-op Award

Folashade Nayo Adewunmi, *College of Social Sciences and Humanities*

Gavin David Anderson, *College of Engineering*

Kara Elise Benerofe, *D'Amore-McKim School of Business*

Lucas Calero Forero, *Hourly College of Computer Sciences*

Riya Chandra, *D'Amore-McKim School of Business*

Ziyun Chen, *D'Amore-McKim School of Business*

Erica Marie Choate, *D'Amore-McKim School of Business*

Bailey Josephine Coleman, *D'Amore-McKim School of Business*

Shantavia Craigg, *D'Amore-McKim School of Business*

Ciana Thuy Tien Cronin, *D'Amore-McKim School of Business*

Maya Rose Eisler, *College of Engineering*

Kerry Elizabeth Eller, *College of Engineering*

Sara Shannon Flynn, *College of Social Sciences and Humanities*

Anna Megan Fox, *College of Engineering*

Sindhu Lakshmi Gowda, *D'Amore-McKim School of Business*

Caroline Grace Hegg, *College of Social Sciences and Humanities*

Aditya Jalan, *D'Amore-McKim School of Business*

Mariola Cristina Johnson, *D'Amore-McKim School of Business*

Na Yoon Kim, *College of Engineering*

Karan Kishorepuria, *D'Amore-McKim School of Business*

Miranda Yuehlan Nimmer, *D'Amore-McKim School of Business*

Elise Josephine Papazian, *College of Engineering*

Michael Davis Parente, *D'Amore-McKim School of Business*

Tamara Lisa Peterman, *Bowé College of Health Science*

Alena Barbara Porter, *College of Engineering*

Micaela June Primoff, *D'Amore-McKim School of Business*

Abigale Jane Purvis, *D'Amore-McKim School of Business*

Nisha Rangarajan, *D'Amore-McKim School of Business*

Noa Zhi Liu Reisner-Stehman, *College of Engineering*

Nicolas Vitus Rotzer, *D'Amore-McKim School of Business*

Fizzah Shaikh, *College of Engineering*
Yukti Sharma, *D'Amore-McKim School of Business*
Elena Rose Silva, *College of Engineering*
Melissa Gigi Soong, *D'Amore-McKim School of Business*
Julia Ann Spada, *College of Engineering*
Karl Bernard Swanson, *College of Engineering*
Noah James Switek, *College of Engineering*
Olivia Cairns Truslow, *College of Engineering*
Stephen Lee Wang, *D'Amore-McKim School of Business*
Grace Yeung, *D'Amore-McKim School of Business*
Oscar Fernando Yubi, *College of Engineering*

President's Award for Outstanding Scholarship

Theres Alexander, *College of Science*
Kaitlyn Teresa Alimenti, *College of Science*
Josephine Elisabet Anderson, *College of Science*
Sambina Pilar Anthony, *College of Science*
Jordan Asseo, *College of Engineering*
Alexis Babb, *College of Engineering*

COLOR GUARD

Members of Northeastern University's Liberty Battalion Army ROTC Color Guard

PROGRAM NOTES

HISTORICAL NOTES ON ACADEMIC DRESS

Academic dress appears to have originated at the universities of Oxford and Cambridge more than 600 years ago, and, to this day, the most colorful gowns in the world are those worn at Oxford functions. European institutions show great diversity in their academic costume, since each adopted or initiated its own dress.

In contrast, American colleges and universities follow a single system of academic apparel. In 1894, a group of leading American educators met to draft guidelines on apparel. Known as the Intercollegiate Code, these guidelines were adopted the following year and amended slightly in 1932.

The distinctions set up by the Intercollegiate Code are simple. Gowns for the bachelor's degree are to be fashioned from "worsted stuff" with a yoke, pleated front, and intricate shirring across the shoulders and back. Worn closed, the bachelor's gown is distinguished primarily by its long, pointed sleeves. The master's gown has the same yoke effect and long, crescent-shaped sleeves; it may be worn open or closed.

The doctor's gown, which may also be worn open or closed, has velvet panels draped around the neck. Three horizontal velvet bars are stitched on full bell-shaped sleeves. This velvet trimming may be black or in the color that indicates the field of study to which the degree refers.

Northeastern University's distinctive doctoral gown is crimson with black velvet panels and sleeve bars. The crimson cap, or mortarboard, bears a gold metallic tassel. In accordance with academic custom, recipients of the doctor's degree, members of the university's governing boards, and government officials in the procession are entitled to wear the official regalia.

The bachelor's and master's hoods have a similar shape, while the doctor's hood has a rounded base. The length of the hood indicates the level of academic achievement, with the doctor's hood being longest; the width of the border distinguishes the degree, with the doctor's being widest. The color of the border indicates the field of study; the lining color indicates the institution conferring the degree.

At Northeastern, where only the master's and doctor's hoods are worn, a black chevron on a crimson background is used for the lining.

When colors were first assigned to signify a particular field of study, historical associations were retained as much as possible. For example, white, for arts, refers back to the white fur edging of the Oxford hood; red, for theology, to the traditional color of the church; and green, for medicine, to the color of herbs.

The tassel on the mortarboard may be black or in a color that indicates the graduate's major field of study. Tassel colors, as they apply at Northeastern University, are listed in this program under "Seating Arrangement of Graduates."

The College Flags used in the commencement ceremonies will be presented to the commencement audience by the class marshal, the highest-ranking student in the college.

HONORS AT NORTHEASTERN

<i>Summa cum laude</i>	3.850 to 4.000
<i>Magna cum laude</i>	3.700 to 3.849
<i>Cum laude</i>	3.500 to 3.699

Gold cord worn around the neck denotes honor student.

The registrar of the university maintains the official list and records of all graduates. This program is for ceremonial purposes only and includes only information available at publication deadline.

ALMA MATER

Oh, Al - ma Ma - ter, here we throng, And
sing your prais - es strong; Your child - ren ga - ther far and near And
seek your bless - ings, dear; Fair mem - o - ries we cher - ish now And
will for - ev - er - more. Come, let us raise our voi - ces strong, North -
east - ern we a - dore.

*Oh, Alma Mater, here we throng,
And sing your praises strong;
Your children gather far and near
And seek your blessings, dear;
Fair memories we cherish now
And will forevermore.
Come, let us raise our voices strong,
Northeastern, we adore.*
