Account Inquiry

- **Expand & Collapse Navigation Menu on Scroll**
 - Account Summary & Account History – Upon scrolling down these pages, the lighter green portion of the menu will collapse to provide additional vertical space on the screen.

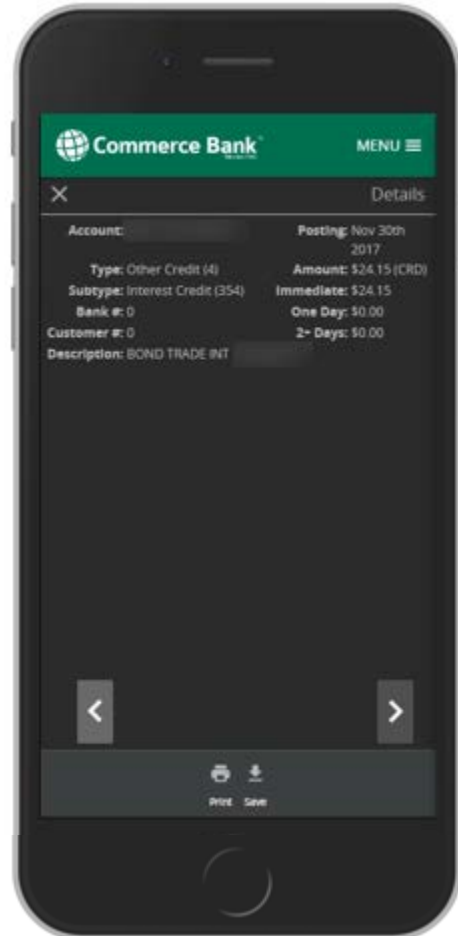

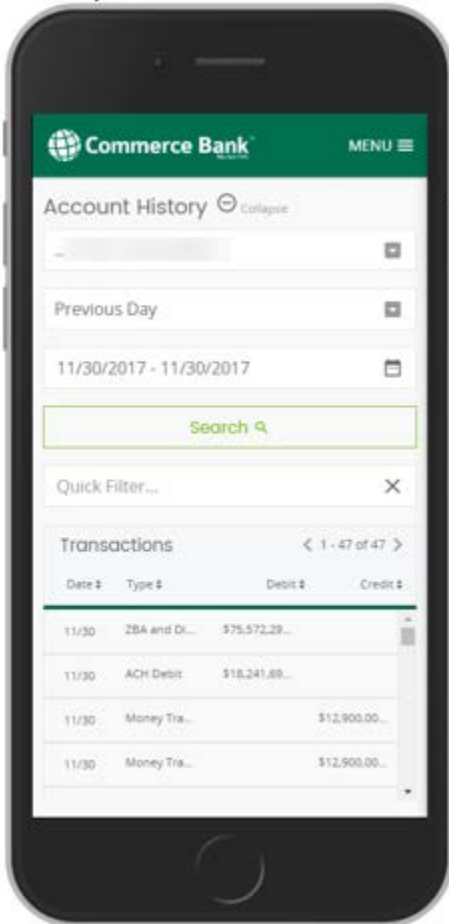

- **Expand & Collapse Search Criteria**
 - Account Summary & Account History – An option to expand and collapse the search criteria has been added to allow the user to gain even more vertical space on the screen, as needed.

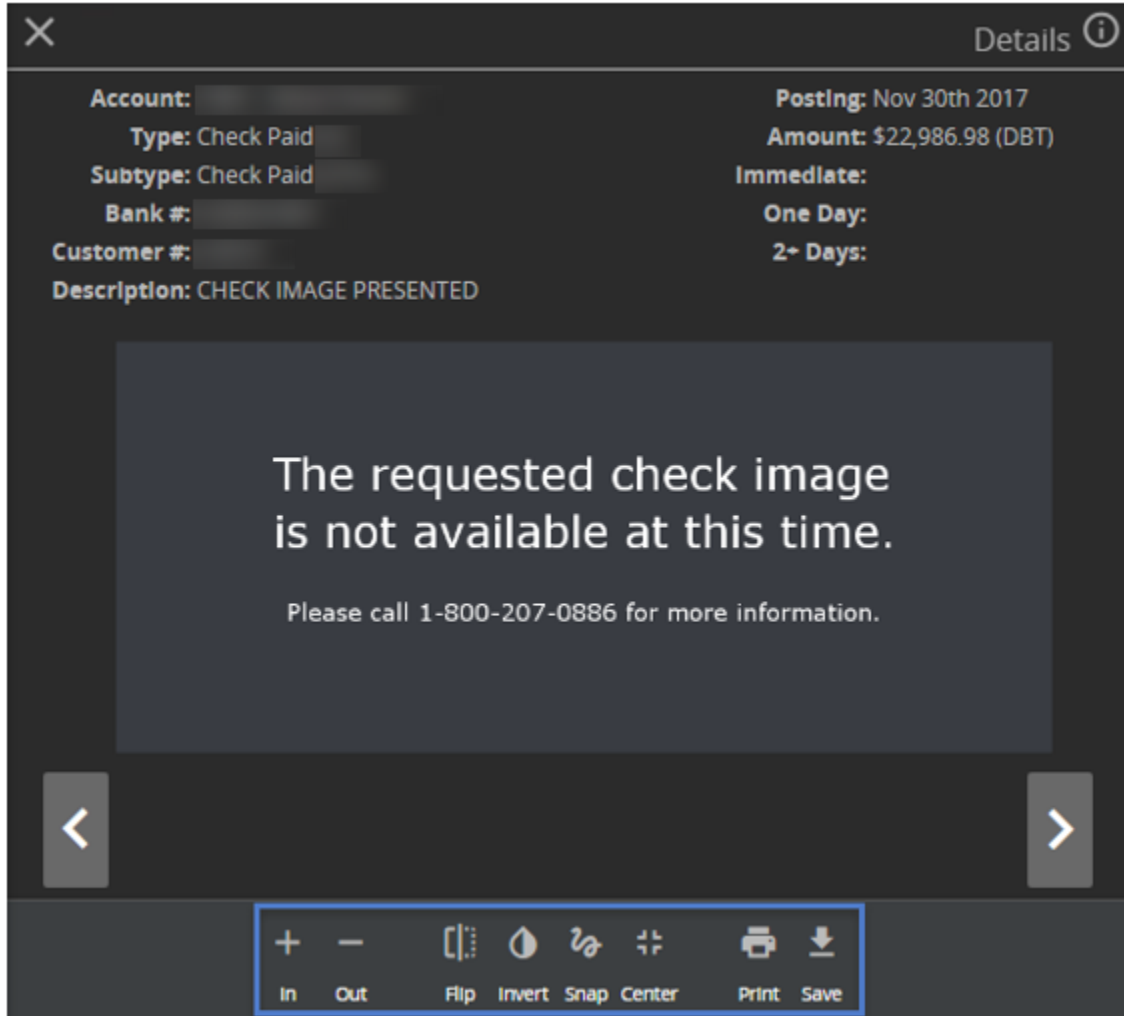

○ **Responsive Design – Small Screens**

- Account History – The experience on small screens has been optimized for use on mobile phones.

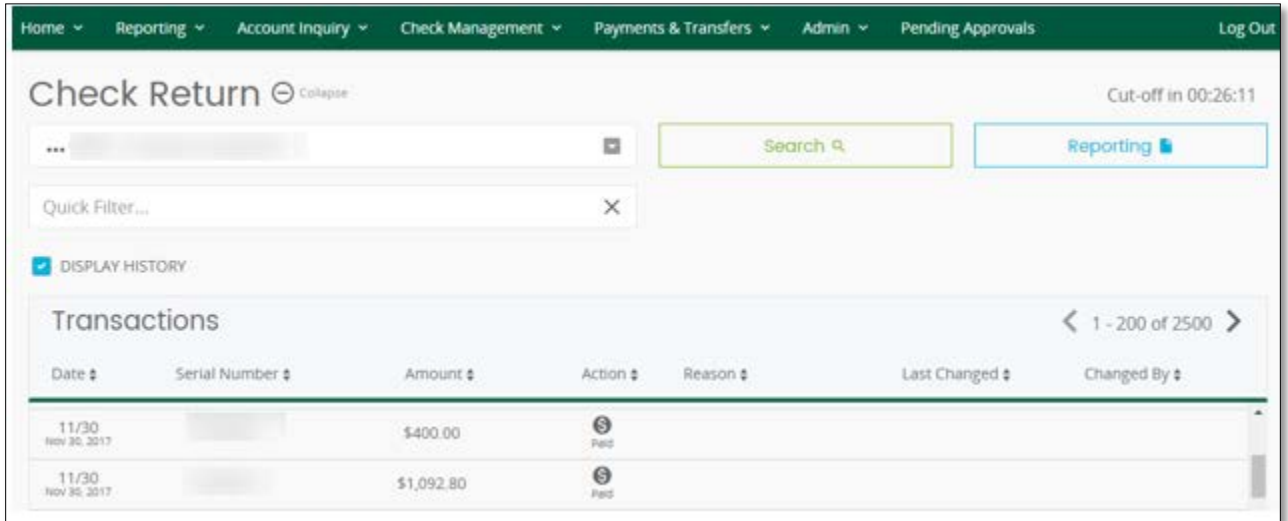

- **Restyled buttons on details pane**

- Account History – Text has been added to more quickly identify the function of each button on the details pane.

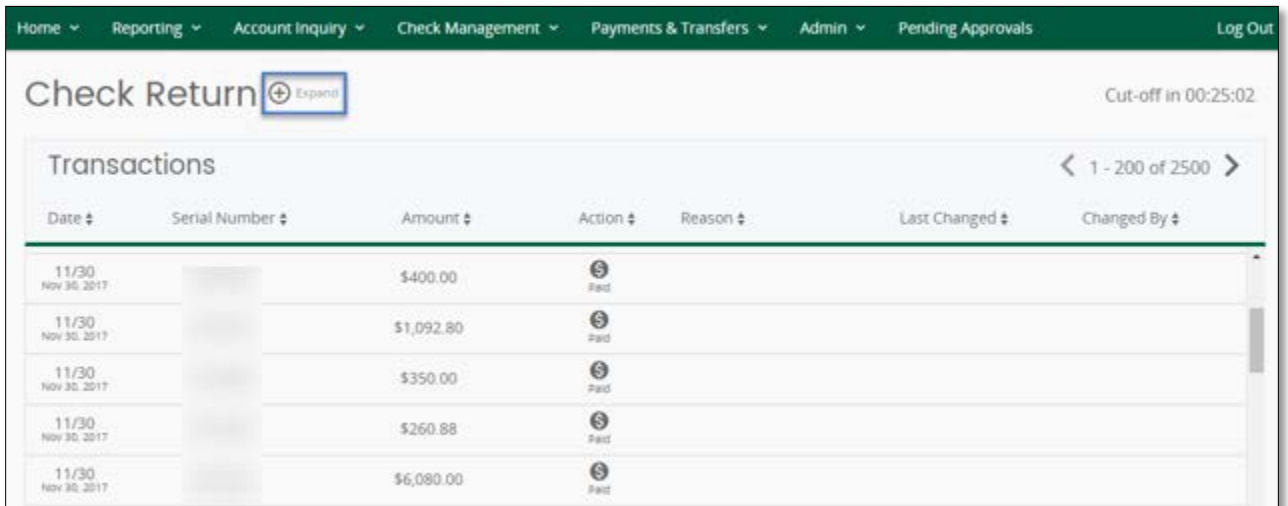

Check Return

- **Expand & Collapse Navigation Menu on Scroll**
 - Upon scrolling down the page, the lighter green portion of the menu will collapse to provide additional vertical space on the screen.

- **Expand & Collapse Search Criteria**
 - An option to expand and collapse the search criteria has been added to allow the user to gain even more vertical space on the screen, as needed.

ACH

- **Remove approval requirement for deleting ACH batches and templates**
 - The deletion of ACH batches will no longer require approval from another user.
 - The deletion of ACH templates will no longer require approval from another user.
- **ACH reversal approval requirement**
 - Historically, reversals submitted for batches originated in Commerce Connections have not required approval from another user before being processed. With this release, these reversals will require approval before they can be released by the bank.

Wire Transfer

- **Remove approval requirement for deleting wire transfers and templates**
 - The deletion of wire transfers will no longer require approval from another user.
 - The deletion of wire templates will no longer require approval from another user.
