Evaluation and Intervention Materials Available for Student Sign-Out
2017-2018 Procedures

- Students may sign-out all materials from the Simulation Materials Center, located in CHS 305. Students should provide the NAME OF THE ITEM along with the SPECIFIC LOCATION to the lab assistants. Please refer to the inventory that follows.
- The Sims Materials Center staff will be available to sign-out and sign-in materials on Monday through Friday between the hours of 8:00 am and 7:00 pm. If there is not a Sims Center staff member available, please refer to the sign on the door to locate the lab assistant or return at a later time.
- Students may sign-out most materials for a period of one week, and may renew sign-out [pending requests from others]. Audiometers are pre-scheduled for short-term sign-out and require faculty approval.
- Students will complete a loan agreement at the time of sign-out; 1 loan agreement must be completed per academic calendar year to check out items from CHS. Please bring your GVSU I.D.
- Students are expected to use copies of test protocols for practice. There is one original test protocol located in each test kit. Students must make a Xerox copy of the protocol for educational use. The original protocol must be returned with the test kit.
- Students are expected to check that all items are included in test kits and are in working order at sign-out and sign-in. Most toys & children's books in CHS 173 are not included in the Sim Center's electronic asset system and can be signed out by filling out the Simulation Center's sign-out sheet and writing descriptions of the toy/book.
- Students are responsible for cleaning & charging all materials before returning them to CHS 305.
- Access to materials is prioritized for class assignments, student research, and clinical placements.
- If students would like to inquire about availability of any item on the inventory list this can be done by calling the Sims Center staff at 616-331-3461 or emailing nurlab@gvsu.edu.
- Equipment/materials sign-out privileges may be revoked due to careless handling, missing items, or chronic late returns. The Sim Center sends out emails regarding items that are past due each Monday.

- All materials are due for return by the Friday before final exam week. If materials are not returned there will be a lien assigned to the student's tuition until the item is returned or replaced by the student. Return all items to the Sims Material Center staff in CHS 305.
- If you have any questions about the check-out procedure please contact Lisa Naymick, M.S. CCC-SLP, Clinical Simulation & Resource Center Specialist at naymickl@gvsu.edu or 616-331-5667.
