ADVANCED PHOTOGRAPHY – LOW LIGHT PHOTOGRAPHY CERTIFICATION

Enhance your photography skills by understanding low light photography. This certificate brings hands on practice in various conditions of low ambient light.

Topics include:

Understanding how low light affects exposure, shutter speed, color temperature; preparing for a low-light shoot; shooting in dimly lit rooms; using the flash indoors; shooting in the shade; taking flash portraits at night; controlling flash color temperature; focusing in low light; light painting; manipulating long shutter speeds; correcting white balance; brightening shadows; and sharpening and noise reduction.

The 20-hour certificate consists of five classes and can be completed in less than a year. Classes are open to students who have completed the Roving Photographer certificate or with permission from instructor. A DSLR or MILC camera is required for use in each class. Students need to have experience using their cameras and have a basic knowledge of manual exposure, manual control of shutter speed, and aperture. See online section notes for specific equipment that may be needed for individual classes.

Students may take individual classes if not seeking the full certificate.

NORTHAMPTON COMMUNITY COLLEGE PARTNERING WITH EC-COUNCIL

Online Cyber Security Training Certifications

iLearn is an asynchronous, self-study environment delivering EC-Council's IT Security training courses in a streaming video format. Lectures are pre-recorded and delivered by professional practitioners for a real-world perspective on the course concepts. iLabs allows students to dynamically access a host of Virtual Machines preconfigured with vulnerabilities, exploits, tools, and scripts from anywhere with an internet connection. Courses are self-paced and can be completed usually in 2-6 months but must be completed in 1 year. Includes videos, e-courseware, ilabs and exam vouchers (where applicable).

Ethical Hacking Core Skills (EHCS)

Learn the core skills to build a solid security foundation to pursue more advanced security training. It is the bridge between a beginning level security course and the CEH, learning how to: examine the traffic that traverses the network at the packet and binary level; build a solid knowledge of the lowest layers of the network; conduct extensive hands-on exercises; and learn to master the TCP/IP protocol and essential UNIX and Linux survival skills.

Course CYBER100.2 **Fee \$1,599**

Certified Ethical Hacker v10 (CEH)

This course will help you master an ethical hacking methodology used in a penetration testing or ethical hacking situation. You learn ethical hacking skills that are highly in demand, as well as the globally recognized Certified Ethical Hacker certification! In its 10th iteration, this course is updated to provide the tools and techniques used by hackers and information security professionals alike to break into any computer system. The course will: immerse you in a "Hacker Mindset;" provide a hands-on training environment employing a systematic ethical hacking process; teach you how to scan, test, hack, and secure target systems; cover the Five Phases of Ethical Hacking, diving into Reconnaissance, Gaining Access, Enumeration, Maintaining Access, and covering your tracks; and prepare you to take the exam.

Course CYBER200.2 **Fee \$1,900**

Certified Network Defender (CND)

Certified Network Defender (CND) is a skills-based, lab intensive program based on a job-task analysis and cybersecurity education framework by the National Initiative of Cybersecurity Education (NICE). The program prepares network administrators on network security technologies and operations to attain Defense-in-Depth network security preparedness, covers a protect, detect, and respond approach to network security; and contains hands-on labs, based on major network security tools and techniques, providing network administrators real world expertise on current network security technologies and operations.

HORIZONS FOR YOUTH

Are they having fun, or are they learning? Both.

In the Horizons For Youth program, we believe a life-long love of learning starts early.

That's why we offer a variety of classes for students from kindergarten through high school. Whether we're working in the kitchen, science lab, or gym, Horizons classes promise a fun-filled, enriching, and safe experience for kids of all ages.

Our programs are scheduled during the school year and all summer long.

Summer Camp Registration begins mid-March.

Summer Fun 2021 provides full or half day opportunities, Monday-Friday, 7 AM-6PM for students entering Kindergarten through ninth grade. Look for our summer information early March or email youthinfo@northampton.edu. Register early; spaces can fill up quickly.

NEW! TEAM BUILDING PROGRAMS

Get reconnected with your colleagues.

Research from The Learning Resources Network (LERN) asserts that as the COVID-19 pandemic passes, there will be a need for employees to reconnect with each other after working from home. Let NCC work with you to offer customized professional development and networking activities for your business/organization. Our unique approach blends serious learning and fun to help build communication, trust, morale, and a shared vision of purpose.

Three facilities available to you include:

Team Building
with NCC!

FAB LAB

Hold your team building event in our 7,000 square foot Fab Lab at the Fowler Family Southside Center! Take advantage of our technologies to do team projects with wood, metal, resin, 3-D printers, laser cutters, and other cutting-edge technology. Based on group size and interest, our Fab Lab team will help design a custom program that will allow for learning and for all participants to complete a project to take home.

OPEN KITCHEN LAB

Use our 6-station demo kitchen located in the Fowler Family Southside Center to learn how to prepare, cook, and enjoy a meal with your co-workers. You can even arrange for a Chopped! competition style event! We will help you craft a menu and provide all that you need from soup to nuts. Or book our Beverage Training Center, adjacent to our kitchen, to host appropriately socially distanced get-togethers!

CIE SPACE

Hold your design thinking or team building meeting in our beautiful Center for Innovation and Entrepreneurship space on the first floor of Fowler Family Southside Center. Catering is available through our Zime! dining facility located on-site. Colorful, interactive meeting rooms of all sizes can be booked for large meetings and smaller break-out sessions. State-of-the-art audio-visual technology available, with white boards and white-walls on which you can brainstorm with your team.

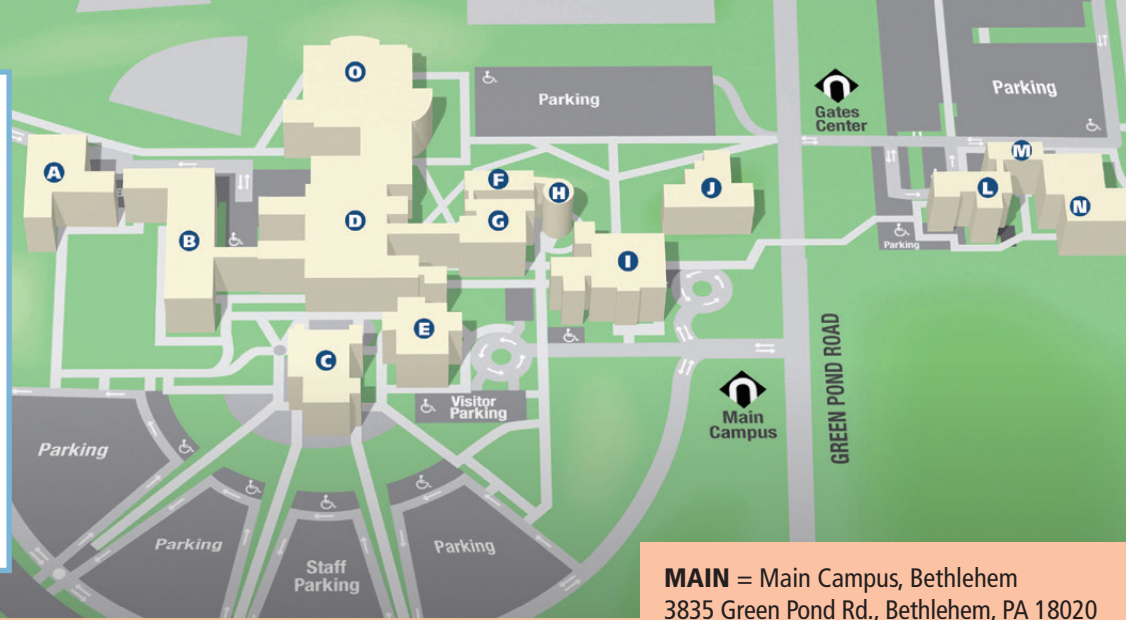

To book the Fab Lab today, contact Sean Brandle, Director, at: sbrandle@northampton.edu or (610) 861-5085.

To book the Open Kitchen Lab, contact Audree Chase, Associate Dean/Community Education, at: achase@northampton.edu or (610) 861-5507.

For information about the CIE Space, contact Raja Bhattacharya, Director, at rbhattacharya@northampton.edu or (610) 332-8661.
