COMMUNITY EDUCATION COURSE SCHEDULE

TABLE OF CONTENTS

Harper College

Spring 2021

Since the onset of the pandemic in March, we have worked hard to transition many of our classes to an online format. Online classes can hold some advantages over in-person classes and many of you have responded positively to our online offerings. We know that even when the pandemic has receded and we are able to resume in-person classes, there will continue to be demand for online classes.

Types of Online Classes

- **Live Online Classes** LIVE ONLINE))**:** These are classes where an online meeting is being used like an in-person classroom. Days and times for the meetings are specified, with online lectures being used as the primary way in which course content is being presented. These classes will either utilize Webex or Blackboard (with Blackboard Collaborate Ultra for class meetings).

- **Self-Paced Online Classes** SELF-PACED ▶ **:** In these classes, content (lectures, readings, videos, etc.) is placed on a protected website (Blackboard, in most instances) Some self-paced classes may have occasional class meetings, though meetings are not the primary way in which content is being presented to you. Self-paced classes will have active instructor participation even without live meetings.

How do I Know….
We are working to update all our courses, using "Live Online" and "Self-Paced Online" labels, so that you know how each class will be conducted. When you register for a class, your instructor will send an email to you before the start of the class with information about how the class will be taught and applicable login information.

We are also working to bring new kinds of organization to our catalog and website which allow you to look at classes based on the kind of online learning offered. We hope that the information we are developing for you in our catalog and online will help you to make your enrollment decisions. We know our print catalog is convenient but as always, the most complete and current information is online at ce.harpercollege.edu

We hope you will try one of our online classes this spring. We think you will be happy with the result!

Want to give us feedback? Write to us at ce@harpercollege.edu.

Sincerely,

Dr. Scott Cashman, Ph.D.

Road Trip Eats Along Route 66
w/ Leslie Goddard   LIVE ONLINE   NEW!

U.S. Route 66 covers a lot of miles - and that means a lot of delicious food along the way. In this illustrated lecture, historian Leslie Goddard explores some of the most iconic restaurants and foods found along the "Mother Road." Many Route 66 foods are regional dishes, providing an edible snapshot of the nation. Others developed specifically to serve time-crunched motorists. We'll visit landmark Route 66 destinations like the Big Texan Steak Ranch, Ted Drewes' Frozen Custard, and the Cozy Dog Drive In. You'll learn about some quirky foods found along the highway and get recipes for a few regional favorites you can recreate at home.

Accounting: Cash is King

Cash management is one of the most important factors in the financial success of your business. D&B reports that 90% of all small business failures are due to poor cash management and inadequate cash flow, leading to more money getting paid out than collected. Non-financial managers usually make the key differences in day-to-day cash flow decision making. Learn how to optimize cash flow, uncover hidden internal and external sources of cash, and how to cultivate solid cash management in your company.

This class can be taken independently or as partial fulfillment of the requirements of the Digital Badge in Accounting and Finance for Non-Financial Managers.

Understanding The Cloud   SELF-PACED ►

What is the cloud? If you have trouble answering this question, you are not alone. In this course, you will explore how the cloud works, what drives its incredible growth, and how you can use cloud services. You will start by looking at the building blocks of the cloud, where it started, and how it transitioned. You will gain a clear understanding of IaaS (infrastructure), SaaS (software), and PaaS (platforms), and examine why each may be attractive to some businesses, but not to others. You will learn about the different kinds of clouds (public, private, and hybrid). You will also look inside the engine rooms of the cloud: data centers. You will examine the concept of big data and how the cloud infrastructure enables data to zip across the globe at lightning speed. You will look at how Facebook and Twitter contribute to the cloud, and how apps go from idea to app store. You will gain an understanding of how mobile devices and major mobile ecosystems continue to shape the cloud. Whatever your technical background, by the end of this course, you will be thoroughly cloud-savvy.

Introduction to Mobile Security
SELF-PACED ▶ NEW!

Mobile devices continue to grow in importance in managing our personal and business lives. As such, it makes them particularly vulnerable to attacks and how to defend against them. This course is an excellent starting point to understand the different types of mobile devices, understand the risks associated with mobile devices, develop a list of ways to secure mobile devices, learn how to apply mobile device app security, and learn how to implement BYOD security. This course not only covers the fundamentals of mobile security, but also provides a hands-on experience through the use of live virtual machine labs, lab simulations, and case projects. Hands-on projects will have you create and use QR codes, use software to locate a missing laptop, and install an Android emulator to test different antimalware tools.

Data Analysis Digital Badge
SELF-PACED ▶

Data Analysis is quickly becoming one of the most sought-after skills in the workplace. Companies produce vast amounts of data, but it is rare to have someone with the vision and ability to analyze data for trends and make valid predictions. Add a whole new skill set to your portfolio, and make a big difference in the success of your organization by acquiring data analysis skills. Begin by getting a basic understanding of how to analyze data in a business setting. Then, learn how many of your business decisions involve comparing groups for differences. Finally, find out how to perform inquiries useful to your business or organization and communicate the results through graphs and text to your fellow employees and leaders. Whether your business is home-based or a large company, this Digital Badge will take you to the next level where important decision-making is concerned.

This Digital Badge requires completion of three courses: Introduction to Data Analysis, Intermediate Data Analysis and Advanced Data Analysis. These courses may also be taken individually.

Many business decisions involve comparing groups of data for differences. For example, you might examine sales records to see if men and women prefer different product features. Or, you might see whether product recognition survey data relates to subsequent product purchase behavior. The Intermediate Data Analysis course introduces you to the statistical analysis methods behind these group differences and relationships. In addition, you'll learn how to work with ratings and graphs to create user-friendly reports of statistical results.

This class can be taken independently or as partial fulfillment of the requirements of the Digital Badge in Data Analysis.

Database Design and Development

Knowing how to plan a relational database is important to the success of the databases you create. Without planning, you cannot possibly know what the database needs to do, or even what information to include in the database. Planning a database is essential and prevents the extra work of addressing data maintenance and issues in advance.

Coding Digital Badge SELF-PACED

Coding is becoming one of the most in-demand skills in the workplace today. As a result, coding has become a core skill that bolsters one's chances of becoming a higher value to organizations. The highest demand is for programming languages with broad applicability. Begin by getting introduced to the basics of computer programming and various programming languages. Then go to the next level and acquire all the basics of HTML and CSS. You will learn the relationship between these two industry-standard web page coding languages and the step by step process of hand coding and building web pages. Finally, discover the advanced features of CSS and learn how to use this very powerful language.

This Digital Badge requires completion of three courses: CSS Fundamentals, HTML Fundamentals and Introduction to Coding. These courses may also be taken individually.

Spotlight: Interactive Website Design Digital Badge

Testimonial: A New Life

One day in the office, my boss notified me that I got laid off. I was shocked, with a lot of anxiety and depression about an unknown future. Because of being out of the job market for a long time, I felt a sense of urgency to update my computer knowledge. I found the Interactive Web Development program at Harper College which led me to a new career path.

I started taking courses at Harper College CE to catch up with the latest technology. I picked up web design/development and got to work with an awesome teacher, Jennie Jones, who taught all the front-end development courses. At end of the program, I created a responsive Company Portfolio website project for a small business/startup company. The company is providing web design, web development, hosting and maintenance services. I feel a window of opportunity opened and thanks to the knowledge I learned, I did it.

I began loving what I am doing again. Thanks to Harper's program, now I'm going into my own business and I feel great about the opportunity!

iRest® Yoga Nidra Meditation for Restful Sleep

LIVE

If you have difficulties falling asleep at bedtime, find yourself awake in the middle of the night and can't fall back asleep, or experience restless sleep—this course is for you. iRest® Yoga Nidra is a form of guided mindfulness meditation. It is a systematic process for progressively leading the body and mind into deep relaxation. It has been widely used to help with sleep, and can be adapted to each person's unique sleep challenges. This class meets later in the evening to support your sleep process. We begin with gentle somatic movement and breathing that can even be done in bed. Then we will enter a deep guided iRest Yoga Nidra, designed to help you drift into deep sleep. If you go to bed later, you can join in for the beginning. Later when you are ready to sleep, you can listen to the recordings provided with each session. These practices can be used throughout the week. We will also include other ideas that you can incorporate into your sleep hygiene routine.

LIVE

There is much talk these days of the healing power of meditation. It can help you tap into your unlimited potential, becoming the best that you can be. The medical community now recognizes meditation's tremendous benefits in preventative health care. Meditation can bring greater clarity to everything you do, helping you to respond positively, instead of reacting mindlessly. Meditation is also a prime pump for love and compassion toward yourself and others. It is also proven to help overcome additive or self-destructive behaviors. Join us in this life-altering session where a variety of contemplative techniques will be explored.

Perfect Health: The Chopra Center For Well-Being Ayurvedic Lifestyle

LIVE

In this five-step exploration of mind-body medicine and Ayurveda (a holistic medical system practiced by millions of people around the globe), you'll learn instruction in the practical tools and techniques to begin using in your daily life.

Session One: Your Chopra Center-certified Perfect Health instructor will introduce you to the foundational principles of Ayurveda, meditation, yoga and pranayama (healing breathwork) as well as the three primary mind-body doshas or energies: Vata, Pitta, and Kapha. Through an in-depth questionnaire and analysis, you'll discover your own dosha type. This course will help you reduce stress, enhance relaxation and create balance.

Session Two: In "Food as Medicine", you'll learn how to select the most nourishing foods for your mind-body type. Your instructor will also guide you in Ayurvedic nutritional practices that will help you maintain vibrant health, appropriate weight, and optimized digestion.

Session Three: The focus here is on the tools and practices of rejuvenation and renewal. You'll learn how to identify and eliminate toxins that accumulate in the mind and body. In addition, you will be guided in gentle rejuvenating practices, holistic techniques to relieve stress and anxiety, a personal daily routine for balance and health, and the secrets of restful sleep.

Session Four: You'll learn why emotional freedom is key to physical, mental, and emotional health and a powerful emotional cleansing technique. You'll learn the practice of conscious communication, which can transform your relationships and help you experience more intimacy and joy in your life.

Session Five: The final session delves into the healing power of the five senses: sound, touch, sight, taste, and smell. You'll learn how to strengthen the body's inner pharmacy by using specific tools that use each of the senses to heal, nourish, and balance your mind-body.

SELF-PACED ▶ NEW!

Food and nutrition have a profound impact on people's health and well-being, yet many people are not aware of what foods to eat, which diets are healthy, and where their food originates. The goal of this course is to provide a holistic overview of current food and nutrition issues and their impact on physical, social, emotional, and spiritual health. Throughout this course, you will become more conscious of what you eat, why you eat it, how it is prepared, and what consequences your food choices have on your health as well as the health of the planet. You will also learn how to change your eating habits for more healthful outcomes, including swapping processed sugar for other sweeteners, adding probiotics to the diet, and harnessing the healing effect of herbs. Ultimately, you will gain insight into how food interacts with your body on multiple levels: physical, mental-emotional, and spiritual, as well as the impact it has globally.

The movement carries a sense of urgency, as the world faces a triple threat of increased food scarcity, nutrition-based health epidemics, and environmental degradation. A recent report by the EAT-Lancet Commission puts forth a plan to address all three of these issues and sustainably feed an estimated global population of 10 billion by 2050. While the approach is multifaceted, it all begins with food, namely a shift to diets and production rooted in vegetables, fruits, whole grains, and plant proteins.

Certainly, Marcel's influence throughout the course has not only encouraged me to keep nurturing my passion on wine appreciation, but also in the pursuit of my life ambitions!" Ricardo Freyre

Wines Of Italy: Northern Italy   LIVE))

Marcel Flori will show you how to navigate the great variety of Italian wine. Northern Italy is primarily known for its red wine though there are some whites to discover. Some of the most well-known reds include Nebbiolo and Amarone. You will get to know the Piedmont region where Barolo and Barbaresco command a high price tag. The same region's Dolcetto and Barbera come at a relatively better price. Valpolicella is boht a distinct viticultural zone and wine. You will also try some very drinkable white wines. The omnipresent Chardonnay is present though not thought of as the highest quality in Italy. Gewurztraminer isn't always German but is of good quality in Northern Italy. Piedmont enters the white discussion with its sweet and popular Moscato which can be either a still or sparkling wine. Students must be at least 21 years of age or older to enroll. Each week features a tasting.

Wines Of Italy: Central Italy   LIVE))

It is in Central Italy that you will discover Chianti (home to the Brunello wines) and the Super Tuscans. Sangiovese is the superstar grape of this region. With all this star power comes the classic straw-covered bottles of Chianti which actually came into use because of the inferior glass used to make bottles in the region. That is not a commentary on the wine. There is great flexibility in the blending recipe for Chianti. This creates some of the variability in styles among Chiantis. Lighter bodied styles have a higher proportion of white grape varieties blended in, while red only Chiantis are fuller and richer. Super Tuscan is an unofficial classification that started as a reaction to mandatory red/white blends. Their Sangiovese/Cabernet Sauvignon blends were coveted. By the 1990s the mandatory red/white Chianti blend was a thing of the past, but the Super Tuscan was already born. Let Marcel Flori untangle this web for you while you taste the best the region has to offer. Students must be 21 years of age or older to enroll. Each week features a tasting.

Wines Of Italy: Southern Italy   LIVE))

Southern Italy is know for its archaeology and wine. You won't have time for the archaeology but Marcel Flori will help you discover the wine. Long ago Greeks brought non-native grape varieties to this region creating one of the greatest areas of diversity on the earth. Fiano is a creamy white. Greco is another white that thrives in the south. Aglianico is a red, once saved from extinction, that is now known for its aging potential. Gaglioppo is a ruby colored red while Negroamaro is known as the 'bitter black'. Primitivo might be a relative of California's Zinfandel and is one to this regions most popular varieties. You will understand much about the wine of Southern Italy as a result of your two nights with Marcel sampling the wine of Southern Italy. Students must be 21 years of age or older to enroll. Each week features a tasting.

Painting the Seasons in Acrylics   LIVE))   NEW!

This class is designed for any skill level who would like a better understanding of texture, treatment, light, and shade. We will be using Acrylic paints in this class. Students will pick one of their favorite outdoor locations, like a barn, a garden, a log cabin, patio furniture whatever your desire as an outdoor scenery. We will start with the summer season painting, and gradually change the next to fall, then winter, and then spring season. We are going to use one image outline and repeat the same image on all four canvases for all four seasons. The idea is to understand how the imagery, colors, texture, light, and shades change according to the season. In this class, we will be tracing the same image on 4 different canvases with transfer paper onto the canvas. You will get to take home 4 complete paintings of all four seasons of summer, fall, winter, and spring. Every painting will be completed in 2 classes.

Uncial Calligraphy

LIVE ●)))

Uncial lettering is part of a group of insular scripts that were developed around the 6th-8th centuries. It is commonly referred to as 'Irish' script and is an alphabet that consists of only majuscules (upper case letters). Its rounded forms are distinct from other calligraphic hands such as Italic or Blackletter and were primarily used in the writing of the Gospels. This class will begin with the basic Uncial forms and later explore its numerous variations. Participants will create a small project utilizing these letterforms and related Celtic designs.

Artistic Welding

Have you walked through an art fair and seen ornamental metal sculpture? Some are on tall rods, some wave gracefully in the wind, while others are anchored in place by planters overflowing with colors. Here you will create elements of your own design in steel and copper to make your indoor or outdoor space as individual as you are. This class will provide you with user-friendly instruction in steel handling techniques including MIG welding and plasma cutting. These are the easiest and the safest methods to learn. No previous welding experience is necessary, but basic welding safety will be stressed. The instructor will assist with welding parts of your project as necessary.

Creating Art through Unconventional Photography LIVE))

A well-known phrase is 'a picture is worth a thousand words'. But what does that really mean? And how can we use photography to make creative art photographs? Every environment and every moment offers infinite possibilities for creating compelling artistic photographs. The creative process requires visualization, connecting with our own views of the world and the art of seeing photographically. This course will cultivate our own personal ways of seeing the world through experimentation, practice and an overview of the history of art photography. The final product will be that each student will have at least one matted and framed image finished in the class.

Introduction to Guitar for Adults LIVE ONLINE

This college-level course is for the student that seeks a more in-depth adventure into the language of music as applied to guitar. Ideal for the ambitious pure beginner and experienced non-reader, by-rote player alike, this class covers Standard Music Notation reading, chord graph and chart reading, finger style and plectrum techniques. Also, it applies a guitar-centered introduction to Fundamental music theory concepts such as intervals, triads, modes, scale building, major scales with principal chords, key signatures and key structures, chord progressions and more! There are written and playing tests to help you monitor your progress! Not to worry, this co-listed, non-credit course offering will not affect any GPA.

Harmonica

Blues Harmonica LIVE ONLINE

Join with others to make music in a fun, welcoming environment. We focus on the basics from producing single notes to understanding song form. Reading music is not required. You will learn basic harmonica chords, licks, and solo techniques while jamming together and receiving encouraging feedback and having fun socializing. You may repeat repertoire classes as needed. There are dozens of songs to learn at every skill level. Songs change from session to session. Students should bring a diatonic harmonica in the key of C. The Hohner Marine Band, Crossover, or Special 20 models are recommended.

"David Kachalon's Blues Harmonica class taught me more than I ever dreamt possible in a 8 week group class. I was taught how to tongue block, play the train, learn melodies and numerous songs. I couldn't wait for the weekly class and what I would experience next. David offered positive critique in class and encouraged us to send him videos during the week for critique of our practicing before the next class. David is very knowledgeable on the harp, a proficient player, enthusiastic to teach others and such a positive influence in my blues harmonica journey." Kim Grant

to experience the enjoyment of making music
via computer. You will be presented with soft-
ware and hardware as tools for creative sound
design and musical composition, and through-
out the class, you will be able to produce and
perform music on your own and as part of a
team. You will be constantly focusing on the
re-creation of acoustic textures and samplings
as well as the construction of soundscapes that
are unique to the electronic environment. Ages

Composition

Elements of Music
Composition   LIVE))

This is a practical introductory course for those
interested in composing music of any genre. It
focuses on developing composition skills such
as melodic construction and fostering your
understanding of harmony, rhythm, and instru-
mentation. The instructor will provide you with
weekly structured exercises that will help you
play around with ideas and essentially develop
them into your pieces or songs. These exer-
cises are designed to emphasize artisanship
and to stimulate the imagination. Given that the
class puts forth the premise that anyone can
make music, the course is designed to wel-
come beginners, more experienced compos-
ers, and enthusiasts. It helps if you can play
an instrument to some extent, and if you have
some familiarity with musical notation but these
skills are not essential to participation in the
course. This course will also examine notation-
al systems and the specifics of notating music,
teaching you to put your music into a form that
will be transferable to others in the field. This
is not the class for you if you want to learn the
following in-depth: how to read music, West-
ern music literature, music theory, jazz, how
to read and write lead sheets, world music, or
electronic music.

Maqam Composition with Issa Boulos

LIVE●)) NEW!

A project-based composition class in maqam. You will learn how to compose and explore practical applications and possibilities of maqam. Interests of students in any maqam school will be accommodated, from Egypt, al-Mashriq, al-Maghrib, and Iraq, to Ottoman, Turkish, and Byzantine styles. You will develop skills in building maqam phrases and contours and explore a variety of compositional devices. Students are encouraged to write in defined forms such as the sama'i, longa, bashraf, muwashshah, etc., but not required. At the end of the course, the focus will shift to arranging music for a variety of ensembles and solo instruments and arranging the material for playing. The use of harmony in ensemble arrangements will be addressed as needed. The course is for any musician who can play an instrument including voice. .Students will be asked to use the notation software MuseScore, Sibelius, or Finale.

Music Ensembles

Flute Ensemble

LIVE●))

This course provides students with proficiency on the flute and extends the opportunity to perform in various chamber ensembles. It stresses sight-reading and musicianship and develops skills and musical understanding in an enjoyable and approachable atmosphere. Explore the repertoire of flute trio, quartet, quintet, and flute choir music from the baroque, classical, and contemporary eras. Work as a group and enhance your teamwork skills through stabilizing tempo, intonations, technique, and tuning. There will be a final concert at the end of the course at the Performing Arts Center (PAC). This class is not for beginners. If you play the flute and not sure of your level, please contact the instructor Hideko Amano at hamanoka@harpercollege.edu; you may be asked to submit a recording of your playing.

Once you register, the instructor will get in touch with you to determine your level, and accordingly, you will be placed in a suitable group. The class will essentially split into various groups defined by level and/or age. Therefore, time and days where such separate sessions meet will be communicated to you a week or two prior to the beginning of the class. If you have any questions about this please contact the instructor.

Music Appreciation

SELF-PACED ▶

This course is an overview of classical music throughout history. It introduces standard concert repertory through intensive guided listening. Representative works by major composers from each period are chosen to illustrate the principal styles, forms, and techniques of vocal and instrument music. The course makes every attempt to intersect with the student's real-world experience with music and listening by integrating popular, colloquial, and non-Western musical examples along with those of standard Western fine art€ musical repertoire. The intent is to provide the student with the tools and terms necessary to recognize different styles, appreciate their different functions, and to acquire a solid foundation for a lifetime of musical appreciation. Students will develop a better understanding of classical music and its genres, instruments, and eras.

"I took the Fiction Writer's Workshop at Harper College. My instructor, Laura Ehrke, introduced me to a myriad of different questions writers should be asking themselves while composing a story and she exposed me to short story writers who have been extremely influential on my writing. She imparted the tools needed to forestall stagnancy because it takes more than heart to translate the thoughts of one's head onto the page. She understands that growth comes from challenging yourself. And she teaches this in a calming, cheerful demeanor. Her lessons are an essential reason as to why I was accepted into Columbia College's Creative Writing Program. Her course was my first writing class I had taken since I was in college and have no doubt she helped reacclimate me to the academics side of writing along with everything else I noted above." Typhoid Mary

LIVE ◉)) NEW!

Between 1900 and 1907, an Irish immigrant cook named Mary infected dozens of New Yorkers with typhoid fever. Racked down through detective work, she was finally taken into custody and quarantined on an island off Manhattan, where she died decades later. This fascinating lecture tells the remarkable story of the woman known as "Typhoid Mary" and why she is remembered as the first "healthy" carrier of a deadly virus. At a time when viruses pose serious questions about the threats and quandaries of epidemics, Typhoid Mary's story couldn't be more timely.

■ Students with Intellectual Disabilities

Career Skills Institute II

The Career Skills Institute provides an educational experience for students with mild cognitive disabilities, age 18 and above. Career Skills Institute II is the second semester of the program and builds on the skills the students mastered in the first semester. Acceptance into the Institute and completion of LDD8001 (or equivalent as determined by the program coordinator) is required for registration. Career Skills Institute II is composed of 3 modules: English Composition, Computers in the Workplace, and Workplace Communication. These modules are designed to build skills that will create success in this program and later, in the workplace. Students will learn a combination of academic and work related competencies such as how to write formally, how to use a computer in a simulated workplace setting, and how to effectively communicate on the job.

Career Skills Institute IV

Career Skills Institute IV is the fourth and final semester of the Career Skills Institute program and builds on skills the students have mastered in the first three semesters. Career Skills Institute IV is composed of two modules: Career Exploration II and Workplace Experience. Career Exploration II focuses on creating resumes, finding work opportunities, filling out applications and interviewing tips. Workplace Experience gives students the opportunity to apply learned skills in a workplace setting. These modules allow for discussion of experiences and workplace practices. They are designed to build skills that will create success in the workplace. Prerequisites: acceptance into the Institute and completion of LDD8001, LDD8002 and LDD8003 (or equivalent as determined by the program coordinator).

THE CAREER SKILLS INSTITUTE

The Harper College Career Skills Institute (CSI) is an educational program for students with mild cognitive disabilities, ages 18 and above. CSI assesses and strengthens basic employability skills and helps students develop realistic career plans.

A Learning Community: Cohorts of not more than fifteen students stay together for two years, trained by professional support staff and instructors. Year One focuses on basic academics and communication. Year Two focuses on career exploration with a guided vocational experience.

How CSI Students Benefit:
- Build academic, vocational, and social skills
- Learn appropriate work behavior and problem-solving skills for the workplace
- Develop career-related interests
- Receive an honest assessment of their career potentials
- Better understand the continuing supports they will require in the workplace.

Conversational Spanish II LIVE ONLINE

After you complete Conversational Spanish I (or if you learned basic skills in this language from prior study) take Conversational Spanish II. You're comfortable with some grammar and especially present tense. Now learn how to communicate what you have done via past tense. Build on your basic linguistic skills as you explore more topics related to life and travel. By the end of the course you will possess an increase in ability to speak the language, from 10 percent to at least 25 percent of your conversation.

This class can be taken independently or as partial fulfillment of the requirements of the Digital Badge in Conversational Spanish.

"As always your Spanish classes are packed with new information about the language. You make it easy to learn Spanish and keep it very interesting. Every student I talked with previously said, 'Professor Castellanos teaches with energy and presents information about grammar, new vocabulary and pronunciation, and keeps it easy to learn." Online class is just the same. Thank You." Surrinder Puri

Conversational Spanish III LIVE ONLINE

You've completed Conversational Spanish I and II or from another program you've become comfortable engaging in a simple dialogue by using proper grammar with present and past tense. Enroll in Conversational Spanish III for proficiency in past tense and begin to learn future tense. By the end of the eight-week course you will be comfortable in conjugating new words and you should be able to compare how your knowledge in the language grew from 25 percent to at least 45 percent of your conversation.

This class can be taken independently or as partial fulfillment of the requirements of the Digital Badge in Conversational Spanish.

"Languages and world cultures are my passions, and I find it a duty to share my knowledge with those who want to learn what I have learned. This is the driving force behind my enthusiasm for teaching. Any student sharing the same passion for learning will find in my classes the opening of new horizons in their world view: through inquiry, dialogue and critical thinking, exploration, and ultimately the discovery of deeper meaning that enhances their current knowledge base."

Family Music with Kathy
LIVE NEW!

This course is designed for children and siblings who are different ages and live in the same home; it can accommodate up to three children. It consists of a combination of music games and some beginning piano pieces and is an excellent gift from parents and grandparents who wish to give their children some exposure to music and piano after school. It is a great way to engage in the arts and potentially transition to private lessons and other music classes. The class is designed to take place online. There are six sessions total, thirty minutes each. If you would like to offer the class to more than three children or change the number of sessions or duration of each session, please send an email to Issa Boulos at iboulos@harpercollege.edu, and we'll work with you.

Once you register, the instructor will get in touch with you to arrange for meeting times.

PIANO PREPARATORY PIANO PROGRAM

30M PRIVATE LESSONS AND 50M GROUP LESSONS FOR 15 WEEKS

The program consists of a combination of group and private instruction. Group lessons offer peer reinforcement, social interaction, ensemble experience, and group activities. Private lessons provide individual attention for technical development and interpretive and expressive insights. Combining these approaches give you a comprehensive 15-week curriculum. Participate in one 30-minute private lesson and one 50-minute group lesson each week. In addition to learning an instrument, students will enhance playing technique and develop listening skills, intonation, rhythmic accuracy, and expression. Returning students must receive the CRN from their instructors. New students must complete the First-Time Student Application at bit.ly/cmacprivatelessons. You may register after the Piano Facilitator reviews their application and assesses their level. For more information, contact Kathy Sbarboro at ksbarbor@harpercollege.edu.

Group Piano for Beginners I
(Ages 6-9) LIVE))

Begin your piano journey in a fun-filled group instruction setting! Using the award-winning Celebrate Piano! Lesson and Musicianship 1A book, students will start at the very beginning and focus on keyboard geography, beginning music notation, finger exercises, and playing short songs on the piano. Instruction includes group activities and individual attention in our state-of-the-art Yamaha Clavinova keyboard lab. Students must have an instrument at home for daily practice. Materials purchased separately.

Mini Musicians
(Ages 3.5-5) LIVE)) NEW!

This curriculum is designed to be a positive, creative, and exploratory first introduction to music for 3 1/2 -5-year old children in a group setting. The program incorporates piano playing and will provide great preparation for more traditional piano lessons, but it is also beneficial for children who will go on to study other instruments too as they will be exploring pitch, patterns, and rhythm. An instrument at home is recommended but optional. Materials purchased separately. These courses can be offered online, but students will need a piano or keyboard and printer at home and adult assistance during the class.

Music Moves for Piano,
(Ages 4-6) LIVE))

Music Moves for Piano is designed for 4-6-year-old children who, at this developmental stage, can make music at the keyboard by improvising and playing short songs. With lots of singing and moving, children will learn how to listen to music and begin a great foundation for piano lessons or future instrument study. These courses can be offered online, but students will need a piano or keyboard and printer at home and adult assistance during the class.

ACT SAT Testing

ACT/SAT Practice Test   LIVE))

In this three-hour prerequisite class, students take a full-length ACT or SAT practice exam to establish their baseline score. Sylvan analyzes the score, reviews the results with students and parents, and makes recommendations about preparation options. If a student would like to take both the ACT and SAT in a Practice 101 class, they should enroll in two separate ACT/SAT Practice 101 classes. Students must complete a Practice 101 class to be eligible to enroll in an ACT or SAT Exam Prep course. Classes may meet at Sylvan Centers in Schaumburg or Lake Zurich.
