Smart Line Integration (PTY) LTD

COMPANY PROFILE

Five Star Security Provider

COMPANY PROFILE

Privately owned, Smart Line integration (PTY) LTD "SLI" was formed in 2005, the founders are M Arezina, G Deyzel, M Tamine and C Harris.

As a new generation company with modern ideas and a philosophy of being the best rather than the largest integrator in the security industry, creating new solutions based on innovative ideas while utilizing the finest that technology has to offer, thereby, remaining the industry leaders in electronic security integration in Africa.

Our commitment with the strategic design and seamless execution of innovative, state-of-the-art security systems which are delivered within budget and agreed timelines.

SLI provides world-class and ground-breaking integrated solutions and has invested in its people and products to protect the clients and their assets.

SLI have fully licensed and qualified personnel providing solutions to over 100 facilities across South Africa and Africa

SLI is the market leaders in the installation of integrated fire and security systems and has successfully completed projects for small, medium and large corporations.

Our expertise in system integration is extensive and we believe that excellent service is the key to establish and maintain successful relationships with our clients.

With all the experience in the industry obtained throughout the years, SLI have engineered specialized integrated electronic security systems for many small, medium and large corporate businesses' requiring specialized integration between security systems and third party systems and SLI has designed interfaces to ensure the smooth flow of data between the various sub-security and third party systems.

A close working relationship with suppliers ensures that new hardware and software are continually assessed and tested prior to being recommended and released to our clients.

Our designs are created on the latest AutoCAD packages, many of which are also produced in Autodesk inventor package (3D modelling) not only guaranteeing accurate system design but also ensuring the client's comprehensive understanding of the system design and implementation.

SLI's philosophy of 60% design and 40% installation ensures that projects are implemented efficiently and on time with minimal disruption of the clients daily operation during installation

We endeavour to remain the industries leaders in integrated electronic security solutions through technologically advanced products, superior design, engineering and innovative integration concepts.

We are dedicated and we guarantee the delivery of the best solutions by focusing on high standards of workmanship and cutting-edge technology from reputable manufacturers.

Our security technology is supported by highly experienced specialists, design engineers, service and maintenance professionals. All SLI employees have core values, focusing on customer service and a dedication to excellence.
Key to the success of SLI is ongoing external and in-house staff training.

SLI provides a comprehensive range of turnkey solutions from basic to enterprise solutions through to integrated systems, access control, CCTV, intrusion, fire detection, asset tracking, public address and biometric systems.

As a leader, SLI provides off-the-shelf or customized security solutions to meet the requirements and needs for any client/project.

We offer a complete turnkey solution from system design, engineering, project management, installation, commissioning, training and maintenance.

From consulting, design, planning, installation and ongoing service, SLI provides state-of-the-art systems/solutions to the following markets but not limited to:
Retail   Mining   Petroleum   Banking   Education
Automobile Industry   Government   Healthcare

For new or existing buildings, SLI develops a solution that assists to better manage the facility and provide a safe and secure environment for the clients employees.

All SLI solutions are scalable with open platform which can be extended and grow with the clients business requirements.

SLI provides new or adds value to existing systems with integration to third party software or hardware which optimizes the security, management and ensures safety.

SLI works with the client to design and develop a tailored system that will grow with the client's future needs and requirements.

SLI's comprehensive planning phase is the key which reduces the installation period and ensures a high performance system, saving time and money.

Maintenance and regular upgrades of the system ensures the longevity of investment and maximum operating performance.

SLI's responsive team of service and maintenance professionals maintains and updates both hardware and software and provides training to the client's staff.

SLI's security solutions are built with a combination of SLI flavour and edge technology and products from internationally reputable manufacturers and tailored systems ensuring that our clients are protected by a state-of-the-art security solution.

SERVICES AND SYSTEMS

- TURN-KEY SOLUTIONS
- INSTALLATIONS
- DESIGNS AUTOCAD 3D
- CONSULTING
- PROJECT MANAGEMENT
- MAINTENANCE
- REMOTE SUPPORT
- SOFTWARE DEVELOPMENT
- CUSTOMIZATION

Access Control
- Biometrics
- Wireless
- Cellphone
- Access Cards

CCTV
- Video Management
- Intelligent Video
- IP/Analogue Cameras
- Waterproof Cameras
- Long Range Cameras
- Thermal Cameras
- Ex Cameras
- Control Rooms

Fire Systems
- Analogue
- Addressable
- Aspirating Smoke Detection
- Gas Suppression

Public and Evacuation

Intrusion

Intercoms

Vehicle and Pedestrian Barriers

X Ray and Metal Detectors

Asset Management

Logical Access

Number Plate Recognition

SLI CLIENTS AND BRANDS

- LENEL
- AVIGILON
- GENETEC
- ASSA ABLOY / HID
- SATEON
- SIMONVOSS
- AUTOMATIC SYSTEMS
- AXIS
- MICROSTRATEGY
- GUARDRFID
- BASLER
- INID
- GUNNEBO
- SMI
