

COMPASS REPAIR KIT & PARTS

Compass Repair Kit & Parts

The C-21-KIT contains all the necessary components to rebuild your compass. The kit contains the outer cork gasket, inner Buna-N gasket, neoprene diaphragm, and a compass card. All items can be purchased as a kit or individually. The kit does not include compass fluid. The compass fluid can be purchased separately at www.aeroinstock.com.

COMPASS REPAIR KIT & PARTS

Part Number	Description	Your Price
BA-21-100	Buna-N Compass Diaphragm	\$8.12
BA-914-H	Inner Buna-N Rubber Gasket (Fits in between compass & glass)	\$4.90
BA-915-G	Outer Cork Gasket (Fits in between glass & outer housing)	\$2.44
C-21-GAL	Compass Fluid, 21Gal	\$33.69
C-21-QT	Compass Fluid, 21Qt	\$19.11
C-21-KIT	Compass Repair Kit. Includes outer cork gasket, inner Buna-N gasket, neoprene diaphragm, and compass card.	\$19.11
C-23-807	Replacement Compass Card	\$1.04

ROSEN SUNVISORS

NEW Rosen Monorail Clamping Sunvisor Systems

The Rosen monorail clamping systems feature customized, handcrafted monorails that contour to the aircraft's unique design while integrating optically-crafted sunvisors that prevent color distortion. The sunvisors are mounted to a patented multi-axis clamping system which allows flexible sunvisor travel along the monorail, and the vertical axis swivel allows lens to turn 360 degrees. Durable brass or aluminum rail construction with chrome or black anodized finish.

ROSEN MONORAIL CLAMPING SYSTEMS

Part Number	Description	Your Price
A-STAR		
R1903000	A-Star Modified Monorail System Complete w/ Visors (Eurocopter AS350 - Shorter rail to accommodate large rear sliding doors)	\$1,122.86

NEW Rosen Adjustable Arm Sunvisor Systems

The Rosen Adjustable Arm Systems (formerly NSA systems) feature optically-balanced transparent lenses to prevent color distortion, and an integrated adjustable articulation arm. The multi-axis feature increases sunvisor placement options and extends coverage with sliding capability. These general aviation systems offer quick and easy installation.

R1710000-151N	Universal Tube NSA System Lens, Large 1" (Pilot)	\$397.40
R1710000-251N	Universal Tube NSA System Lens, Large 1" (Co-Pilot)	\$198.70
R1710000-052N	Universal Tube NSA System Lens, Small 1"	\$198.70
R1710000-152N	Universal Tube NSA System Lens, Small 1" (Pilot)	\$397.40
R1710000-252N	Universal Tube NSA System Lens, Small 1" (Co-Pilot)	\$198.70
R1710000-054N	Universal Tube NSA System Lens, Husky 1"	\$198.70
R1710000-154N	Universal Tube NSA System Lens, Husky 1" (Pilot)	\$397.40
R1710000-254N	Universal Tube NSA System Lens, Husky 1" (Co-Pilot)	\$198.70

Large Lens 11" x 12"

Small Lens 5" x 12"

Husky Lens 7.71" x 11.85"

1752120-2211	Universal NSA System Lens Oval Mount, Small 1/4" (Co-Pilot)	\$198.70

Large Lens 10" x 12"
Small Lens 5" x 12"

Curtiss H-1640 Chieftain

The Curtiss H-1640 Chieftain was an unusual American 12-cylinder radial aero engine designed and built by the Curtiss Aeroplane and Motor Company in the mid-1920s. The H-1640 was the first airworthy 'inline radial' and was sponsored for flight testing in a range of aircraft by the U.S. Government. Among the types selected were the Thomas-Morse XP-13 and the Curtiss XO-18. Design features included:

- Type: 12-cylinder, two-row, air-cooled radial engine
- Bore: 5-5/8 in
- Stroke: 5-1/2 in
- Displacement: 1,640 in³
- Diameter: 45 in
- Dry weight: 900 lbs
- Valvetrain: Overhead camshaft
- Fuel system: Single Stromberg NA-U8J carburetor
- Power output: 615 hp
