// INTRODUCTION

HXR Components is a young innovative French brand.

After more than 15 years in mountain bike environment, as pilot, tester, workshop manager and boss of an on-line shop, here i am with my own range of innovative accessories.

Quality, performance and longevity are our priority. "Winner of 2015 Annecy innovative award"

All HXR Components products are thought, drawn, conceived and tested in France.

To test in real conditions of all our products, we are associated with MDE Bikes, an Italian handmade frames company, near Turin.

That is why you find the MDE Bikes products for sale on our website.

www.hxr-components.com.

See you soon on your favorite singletrack.

Romain Olmos. (CEO HXR Components)

Crankset EasyShift

The change is now !

*Don't anticipate your gearshift, each second is precious.
With EasyShift, made it to the last moment, without pedaling and without stress, you decide, not when the terrain commends it.
EASYSHIFT system opens the door to a new way to ride.*
