YOU.POWERED.

For over 100 years, Briggs & Stratton has been building the engines that power the equipment people use to get the job done, making us the world's largest producer of air cooled petrol engines for outdoor power equipment.

Briggs & Stratton believes in supporting your aftersale power needs, assisting you in everything you need to keep your engines and power equipment running at their peak performance for years to come.

Our full range of products have been designed to provide an excellent aftercare solution. Made to the highest standards all parts and products are specifically developed to help deliver and maintain quality and performance whilst protecting your engine and power equipment.

All products have been packaged with eye catching design and are supported by effective in-store retail POS material.

Whatever consumers need to keep their outdoor power equipment petrol engines running smoothly, we have the perfect solution.

Briggs & Stratton aftercare products are developed for people who care.

Oils & Lubricants

Briggs & Stratton's range of oil products gives the user everything they need to lubricate their outdoor power equipment petrol engines. The range includes high quality mineral oils for 4-stroke-engine lubrication as well as a fully synthetic 2-stroke oil for use in heavily loaded 2-stroke engines.

Our Premium Fully Synthetic Long-Life Oil offers maximum protection with it's special additives which prevent scuffing at start, enhance the oxidation inhibition and thermal stability to ensure longer engine and oil life.

992426

Counter Top Display with 8 changeable headers (various languages) holds 10 bottles of 0.5L, 0.6L or 1L 4-stroke or Winter oil.

Provided without products.

4-Stroke Engine Oil SAE30 API - SJ/CD

Specially formulated for use in 4-stroke engines in normal conditions.

100004E

4-stroke oil 0,5L

100005E

4-stroke oil 0,6L

100007E

4-stroke oil 1,0L

Fuel Fit®

Briggs & Stratton Fuel Fit® - protects, prolongs, performs.

Briggs & Stratton Fuel Fit® additive is for use in all 4-stroke and 2-stroke engines. Modern fuels attract moisture that can corrode engines. Fuel Fit® works to prevent this and provides an internal coating to protect engine parts. It contains detergents to avoid the build up of dirt, promoting durable, efficient performance and stabilises fuel for up to 3 years to ensure easy starting. Available in 100ml and 250ml sizes for dosing varying fuel quantities, with an instore CDU for easy impactful merchandising.

Scan here for more information on the benefits of Fuel Fit®.
