

## AMERICAN NATIONAL STANDARDS MAINTAINED UNDER CONTINUOUS MAINTENANCE

Updated October 4, 2022 – [psa@ansi.org](mailto:psa@ansi.org)

The “ANSI Essential Requirements” provides three options for the maintenance of American National Standards (ANS): periodic maintenance, continuous maintenance and stabilized maintenance (See clause 4.7 [www.ansi.org/essentialrequirements](http://www.ansi.org/essentialrequirements)).

Continuous maintenance is defined as follows:

The standard shall be maintained by an accredited standards developer. A documented program for periodic publication of revisions shall be established by the standards developer. Processing of these revisions shall be in accordance with these procedures. The published standard shall include a clear statement of the intent to consider requests for change and information on the submittal of such requests. Procedures shall be established for timely, documented consensus action on each request for change and no portion of the standard shall be excluded from the revision process. In the event that no revisions are issued for a period of four years, action to reaffirm or withdraw the standard shall be taken in accordance with the procedures set-forth in the ANSI Essential Requirements.

In addition, the ANSI Essential Requirements provides for the following:

A PINS is not required for revisions of an American National Standard that is maintained under continuous maintenance and (1) is registered as such on the ANSI website, (2) has a notice in the standard that the standard is always open for comment and how to submit comments, and (3) has information on the developer’s website that the standard is under continuous maintenance and how to submit comments.

These ANSI-accredited standards developers maintain some or all of their American National Standards using Continuous Maintenance:

- AAMI (Association for the Advancement of Medical Instrumentation)
- AARST (The AARST Consortium on National Radon Standards)
- AGA (American Gas Association)
- AGA (ASC Z380) (American Gas Association)
- AGSC-AGRSS (Auto Glass Safety Council)
- ASC X9 (Accredited Standards Committee X9, Incorporated)
- ASHRAE (American Society of Heating, Refrigerating and Air-Conditioning Engineers, Inc.)
- ASME (American Society of Mechanical Engineers)
- ASTM (ASTM International)
- GBI (The Green Building Initiative)
- HL7 (Health Level Seven)
- Home Innovation (Home Innovation Research Labs, Inc.)
- IES (The Illuminating Engineering Society of North America)
- MHI (ASC MH10) (Material Handling Industry)
- NBBPVI (National Board of Boiler and Pressure Vessel Inspectors)
- NCPDP (National Council for Prescription Drug Programs)
- NFRC (National Fenestration Rating Council)
- NISO (National Information Standards Organization)
- NSF (NSF International)
- PRCA (Professional Ropes Course Association)
- RESNET (Residential Energy Services Network)
- TIA (Telecommunications Industry Association)
- TCNA (Tile Council of North America)
- UL (Underwriters Laboratories, Inc.)

Standards Registered Under Continuous Maintenance:**

**See UL statement: ANSI/AAMI/UL 2800-1-2019, Standard for Safety for Medical Device Interoperability**

This standard is maintained under continuous maintenance procedures. AAMI has created a notification registry that will send e-mail announcements when any maintenance activity occurs to the recommended practice.

Comments or proposals for revisions to any part of the standard may be submitted to AAMI any time.

Written comments are to be sent to: Standards Dept., AAMI, 1110 N. Glebe Road, Suite 220, Arlington, VA 22201-4795. Comments may also be e-mailed to: standards@aami.org.

The following person may be contacted by those interested in submitting changes:

E-mail Address: jlewelling@aami.org

**Program for Periodic Publication**

November (year)*	Solicit requests for change from committee and public. Allow at least two months to submit. Also solicit new committee members.
By end of March (year +1)	Deadline for requests for change.
First meeting (year +1) (usually April)	Review new requests for change including any deferred from previous review cycles and agree on which to propose (with or without change) for formal ballot and public review, which to reject and which to defer to the next review cycle.
By mid-July (year +1)	Document first meeting results and put proposals for change on 6-week ballot and public review.
By end of August (year +1)	Ballot and public review over.
Second meeting (year +1) (usually November)	Review ballot and public review results and respond to comments. If needed and as time permits, begin working on any deferred requests for following year's revision cycle.

\*For the first revision cycle, the request for changes will need to start later than indicated in this schedule (and other dates adjusted as needed)

## The AARST Consortium on National Radon Standards (AARST)

The approved American National Standard(s) listed below shall be maintained using the Continuous Maintenance option. Additional standards may be identified and added to this list in the future, however, if the procedures used to maintain them vary from those included in this submittal, an additional Continuous Maintenance Registration form will be submitted.

### List of AARST Standards under Continuous Maintenance as of August 2019:

CC-1000 2018	Radon Reduction Systems for New Construction of Buildings (except One & Two Family Dwellings)
CCAH 2020	Reducing Radon in New Construction of One & Two Family Dwellings and Townhouses
MAH 2019	Protocol for Conducting Measurements of Radon and Radon Decay Products in Homes
MAMF 2017	Protocol for Conducting Measurements of Radon and Radon Decay Products in Multifamily Buildings
MALB 2014	Protocol for Conducting Measurements of Radon and Radon Decay Products In Schools and Large Buildings
MS-PC 2015	Performance Specifications for Instrumentation Systems Designed to Measure Radon Gas in Air
MS-QA 2019	Radon Measurement Systems Quality Assurance.” MS-QA is a wholly new standard publication.
MW-RN-2020	Protocol for the Collection, Transfer and Measurement of Radon in Water
RMS-MF 2018	Radon Mitigation Standards for Multifamily Buildings
RMS-LB 2018	Radon Mitigation Standards for Schools and Large Buildings
RRNC 2020	Rough-in of Radon Control Components in New Construction of 1 & 2 Family Dwellings and Townhouses
SGM-SF 2017	Soil Gas Mitigation for Existing Homes

In accordance with clause 4.7.2 Continuous maintenance of American National Standards, of the *ANSI Essential Requirements*, we agree to the following requirements:

1. A documented program for periodic publication of revisions has been established. A copy is attached.
2. The published standard(s) shall include a clear statement of the intent to consider requests for change and information on the process associated with the submittal of such requests. The language of this statement is as follows:

"This standard is under continuous maintenance by the AARST Consortium on National Radon Standards for which the Executive Stakeholder Committee has established a documented program for regular publication of addenda or revisions, including procedures for timely, documented, consensus action on requests for change to any part of the standard. The change submittal form, instructions, and deadlines may be obtained in electronic form from at [www.radonstandards.us](http://www.radonstandards.us)."

(Note that contact information and address for the AARST administrative office is also provided next to these statements as relative to any inquiry such as appeals, etc.)

3. Procedures for timely, documented consensus action on each request for change have been established. A copy is attached.

4. The following person(s) may be contacted by those interested in submitting changes (please include name, address, E-mail, phone and fax):

Name: Gary Hodgden (c/o AARST Administrative Offices)  
Address: 475 South Church Street - Suite 600

Phone: 202-830-1110  
Fax: 913-780-2090  
E-mail: StandardsAssist@gmail.com

5. No portion of the standard(s) shall be excluded from the revision process.
6. In the event that a BSR-8/108 has not been submitted for an American National Standard under continuous maintenance within five years of its approval, the standards developer may request an extension, but shall then maintain the ANS under periodic maintenance.
7. Any changes to the continuous maintenance process, text contained in affected standards or practices associated with the information contained herein shall be submitted in writing to ANSI ([psa@ansi.org](mailto:psa@ansi.org)) in a timely fashion.

## AGA (ASC Z380) (American Gas Association)

American National Standards Maintained Under Continuous Maintenance

American Gas Association (AGA), hereby informs ANSI that the approved American National Standard(s) listed below shall be maintained using the Continuous Maintenance option. Additional standards may be identified and added to this list in the future, however, if the procedures used to maintain them vary from those included in this submittal, an additional Continuous Maintenance Registration form will be submitted to PSA/ANSI.

In accordance with clause 4.7.2 Continuous maintenance of American National Standards, of the *ANSI Essential Requirements* ([www.ansi.org/essentialrequirements](http://www.ansi.org/essentialrequirements)), we agree to the following requirements:

1. A documented program for periodic publication of revisions has been established. A copy is attached.

Section 5.1 A new edition of the *Guide* shall be published or the existing edition shall be reaffirmed a minimum of every five (5) years. An addendum shall be published as frequently as necessary between editions. Revisions resulting from public proposals shall be published in an addendum or the new edition, whichever is published first. If no changes are made within four years of the ANSI approval date, the committee shall apply for reaffirmation of the *Guide*.

2. The published standard(s) shall include a clear statement of the intent to consider requests for change and information on the process associated with the submittal of such requests. The language of this statement is as follows:

Section 5.2. The *Guide* shall contain a proposal submittal form and the following statement:

*"GPTC Z380.1, Guide for Gas Transmission, Distribution, and Gathering Piping Systems"*, is maintained using the continuous maintenance process. Proposals to revise any part may be submitted to the committee at any time. Written proposals shall be submitted using the proposal submittal form provided at the end of the document. The form may also be obtained on the GPTC website at [www.aga.org/gptc](http://www.aga.org/gptc). Proposals shall be sent to: GPTC Secretary, American Gas Association, 400 N Capitol St NW, Washington, DC 20001."

3. Procedures for timely, documented consensus action on each request for change have been established. A copy is attached. Please see section 6 of the attached document.
4. The following person(s) may be contacted by those interested in submitting changes (please include name, address, E-mail, phone and fax):

## **AGA (ASC B109) Gas Displacement Meters**

### **Continuous Maintenance language applicable to all eligible standards:**

NOTICE: This American National Standard may be revised or withdrawn at any time. Whenever any revisions are deemed advisable, recommendations should be forwarded to the **American Gas Association**. A form is included for that purpose at the end of this standard.

### **Standards Registered Under Continuous Maintenance:**

- B109.1 - Diaphragm Type Gas Displacement Meters (Under 500 Cubic Feet Per Hour Capacity)
- B109.2 - Diaphragm Type Gas Displacement Meters (500 Cubic Feet Per Hour Capacity and Over)
- B109.3 - Rotary Type Gas Displacement Meters
- B109.4 - Self-Operated Diaphragm-Type Natural Gas Service Regulators

### **Schedule (Relevant sections from ASC B109 Procedures Book copied below):**

#### 7.0 REVIEW OF STANDARDS

##### 7.1 Revisions of Standards

Each standard under the jurisdiction of the Committee shall be reviewed in light of requests and recommendations, and revisions to standards initiated as warranted. Standards may be revised as frequently as necessary in line with indicated safety needs, industry developments or current state-of-the-art.

##### 7.2 Reaffirmation of Standards

An existing standard which has not been revised for five (5) years shall be reviewed at the beginning of the fifth year. If it is determined that the standard is needed but that no modification is required, the Committee shall recommend to ANSI the reaffirmation of the standard without revision.

##### 7.3 Withdrawal of Standards

Standards which have not been revised (see 7.1) and not reaffirmed (see 7.2) shall be withdrawn. Consideration of withdrawal may be initiated at any time.

## AGSC-AGRSS (The Auto Glass Safety Council)

### Registration Form: Continuous Maintenance of American National Standards

*Revised: February 11, 2013*

**AGSC-AGRSS (The Auto Glass Safety Council)** hereby informs ANSI that the approved American National Standard(s) listed below shall be maintained using the Continuous Maintenance option. Additional standards may be identified and added to this list in the future, however, if the procedures used to maintain them vary from those included in this submittal, an additional Continuous Maintenance Registration form will be submitted to PSA/ANSI.

#### ANSI/AGSC/AGRSS 003-2015

In accordance with clause 4.7.2 Continuous maintenance of American National Standards, of the *ANSI Essential Requirements*, we agree to the following requirements:

8. A documented program for periodic publication of revisions has been established. A copy is attached.
9. The published standard(s) shall include a clear statement of the intent to consider requests for change and information on the process associated with the submittal of such requests. The language of this statement is as follows: Requests for changes and/or on the process associated with submittals of such requests may be made to [info@agsc.org](mailto:info@agsc.org).
10. Procedures for timely, documented consensus action on each request for change have been established. A copy is attached.

**Continuous Maintenance language applicable to all eligible standards:**

Revised editions of ASME Codes and Standards result from committee consideration of factors such as technological advances, new data, and changing environmental and industry needs. Proposals for revisions are processed in accordance with ASME's accredited Codes and Standards Development Committee Procedures and supplemental procedures of the pertinent standards development committee.

Requests for revisions may be submitted at any time and on any portion of the code or standard. Requests will be considered by the responsible committee for the next edition of the code or standard, as applicable.

## TRANSFERRED TO PERIODIC MAINTENANCE (PM)

### D02 - Petroleum Products and Lubricants

ANSI/ASTM D2624-2015, Test Methods for Electrical Conductivity of Aviation and Distillate Fuels

### D20 - Plastics

ANSI/ASTM D4756-2015, Practice for Installation of Rigid Poly(Vinyl Chloride) (PVC) Siding and Soffit

ANSI/ASTM D7082-2015, Specification for Polyethylene Stay In Place Form System for End Walls for Drainage Pipe

### D20.24 - Plastic Building Products

ANSI/ASTM D7856-2015a, Specification for Color and Appearance Retention of Solid and Variegated Color Plastic Siding Products using CIE Lab Color Space

ANSI/ASTM D4495-2016, Test Method for Impact Resistance of Poly(Vinyl Chloride) (PVC) Rigid Profiles by Means of a Falling Weight

### E05 - Fire Standards

ANSI/ASTM E603-2017, Guide for Room Fire Experiments

ANSI/ASTM E814-2013 (R2017), Test Method for Fire Tests of Penetration Firestop Systems

ANSI/ASTM E970-2017, Test Method for Critical Radiant Flux of Exposed Attic Floor Insulation Using a Radiant Heat Energy Source

ANSI/ASTM E1352-2016 Test Method for Cigarette Ignition Resistance of Mock-Up Upholstered Furniture Assemblies

ANSI/ASTM E1529-2016, Test Methods for Determining Effects of Large Hydrocarbon Pool Fires on Structural Members and Assemblies

ANSI/ASTM E1537-2016, Test Method for Fire Testing of Upholstered Furniture

ANSI/ASTM E1546-2015, Guide for Development of Fire-Hazard-Assessment Standards

ANSI/ASTM E1623-2016, Test Method for Determination of Fire and Thermal Parameters of Materials, Products, and Systems Using an Intermediate Scale Calorimeter (ICAL)

ANSI/ASTM E1776-2016 Guide for Development of Fire-Risk-Assessment Standards

ANSI/ASTM E2335-2017, Guide for Laboratory Monitors

ANSI/ASTM E2404-2017, Practice for Specimen Preparation and Mounting of Textile, Paper or Polymeric (Including Vinyl) and Wood Wall or Ceiling Coverings, Facings and Veneers, to Assess Surface Burning Characteristics

ANSI/ASTM E2707-2015, Test Method for Determining Fire Penetration of Exterior Wall Assemblies Using a Direct Flame Impingement Exposure

ANSI/ASTM E2536-2015a, Guide for Assessment of Measurement Uncertainty in Fire Tests

ANSI/ASTM E2837-2013 (R2017), Test Method for Determining the Fire Resistance of Continuity Head-of-Wall Joint Systems Installed Between Rated Wall Assemblies and Nonrated Horizontal Assemblies

ANSI/ASTM E2886/E2886M-2020, Test Method for Evaluating the Ability of Exterior Vents to Resist the Entry of Embers and Direct Flame Impingement

ANSI/ASTM E2912-2017, Test Method for Fire Test of Non-Mechanical Fire Dampers Used in Vented Construction

ANSI/ASTM E2957-2017, Test Method for Resistance to Wildfire Penetration of Eaves, Soffits and Other Projections

#### **E34 - Occupational Health & Safety**

ANSI/ASTM E2169-2017, Practice for Selecting Antimicrobial Pesticides for Use in Water-Miscible Metalworking Fluids

#### **E36 - Accreditation & Certification**

ANSI/ASTM E2159-2015, Guide for Selection, Assignment, and Monitoring of Persons to Be Utilized as Assessors/Auditors or Technical Experts

ANSI/ASTM E699-2016, Practice for Evaluation of Agencies Involved in Testing, Quality Assurance, and Evaluating of Building Components

#### **F08 - Sports Equipment, Playing Surfaces, and Facilities**

ANSI/ASTM F381-2016, Safety Specification for Components, Assembly, Use, and Labeling of Consumer Trampolines

ANSI/ASTM F697-2016 Practice for Care and Use of Athletic Mouth Protectors

ANSI/ASTM F910-2010 (R2015), Specification for Face Guards for Youth Baseball

ANSI/ASTM F1045-2016, Performance Specification for Ice Hockey Helmets

ANSI/ASTM F1081-2009 (R2015), Specification for Competition Wrestling Mats

ANSI/ASTM F1752-1996 (R2014), Test Method for Archery Bow Component--Cord Material

ANSI/ASTM F1753-1996 (R2014), Specification for Classification and Marking of Single-Lens Scopes for Use with Archery Bows

ANSI/ASTM F1888-2014 (R2016), Test Method for Compression-Displacement of Baseballs and Softballs

ANSI/ASTM F1889-2005 (R2014), Guide for Straightness Measurement of Arrow Shafts

ANSI/ASTM F1898-2015, Specification for Helmets for Non-Motorized Wheeled Vehicle Used by Infants and Toddlers

ANSI/ASTM F1937-2005 (R2017), Specification for Body Protectors Used in Horse Sports and Horseback Riding

ANSI/ASTM F1952-2015, Specification for Helmets Used for Downhill Mountain Bicycle Racing

ANSI/ASTM F1955-2015, Test Method for Flammability of Sleeping Bags

ANSI/ASTM F1975-2015, Specification for Nonpowered Bicycle Trailers Designed for Human Passengers

ANSI/ASTM F2031-2005 (R2014), Test Method for Measurement of Arrow Shaft Static Spine (Stiffness)

ANSI/ASTM F2032-2015, Specification for Helmets Used for BMX Cycling

ANSI/ASTM F2075-2015, Specification for Engineered Wood Fiber for Use as a Playground Safety Surface Under and Around Playground Equipment

ANSI/ASTM F2117-2010 (R2017), Test Method for Vertical Rebound Characteristics of Sports Surface/Ball Systems; Acoustical Measurement

ANSI/ASTM F2125-2009 (R2013), Test Method for Treestand Static Stability and Adherence

ANSI/ASTM F2128-2013, Test Method For Treestand Repetitive Loading Capability, (revision of ANSI/ASTM F2128-2009)

ANSI/ASTM F2220-2015, Specification for Headforms

ANSI/ASTM F2268-2010 (R2015), Specification for Bicycle Serial Numbers

ANSI/ASTM F2273-2011 (R2016), Test Methods for Bicycle Forks

ANSI/ASTM F2274-2011 (R2016), Specification for Condition 3 Bicycle Forks

ANSI/ASTM F2336-2017, Reinstatement on Standard Guide for Roller Hockey Playing Facilities

ANSI/ASTM F2400-2016, Specification for Helmets Used in Pole Vaulting

ANSI/ASTM F2530-2013, Specification for Protective Headgear with Faceguard Used in Bull Riding

ANSI/ASTM F2531-2013, Test Method for Load Capacity of Treestand Seats

ANSI/ASTM F2651-2011 (R2015), Terminology Relating to Soil and Turfgrass Characteristics of Natural Playing Surfaces

ANSI/ASTM F2793-2014, Specification for Bicycle Grips

ANSI/ASTM F2899-2011 (R2016), Specification for Condition 1 Bicycle Forks  
ANSI/ASTM F3021-2017, Specification for Universal Design of Fitness Equipment for Inclusive Use by Persons with Functional Limitations and Impairments  
ANSI/ASTM F3022-2016, Test Method for Evaluating the Universal Design of Fitness Equipment for Inclusive Use by Persons with Functional Limitations and Impairments  
ANSI/ASTM F3102-2015, Guide for Specifying, Measuring, and Managing Impact Attenuation of Synthetic Turf Playing Systems  
ANSI/ASTM F3137-2015, Headgear Used in Women's Lacrosse (excluding goalkeepers)  
ANSI/ASTM F3165-2016 Specification for Throat Protective Equipment for Hockey Goaltenders  
ANSI/ASTM F3188-2016, Specification for Crumb Rubber Used as Synthetic Turf Infill

#### **F17 - Plastic Piping Systems**

ANSI/ASTM D2672-2017, Specification for Joints for IPS PVC Pipe Using Solvent Cement  
ANSI/ASTM F409-2017, Specification for Thermoplastic Accessible and Replaceable Plastic Tube and Tubular Fittings  
ANSI/ASTM F438-2017, Specification for Socket-Type Chlorinated Poly(Vinyl Chloride) (CPVC) Plastic Pipe Fittings, Schedule 40  
ANSI/ASTM F493-2017, Specification for Solvent Cements for Chlorinated Poly(Vinyl Chloride) (CPVC) Plastic Pipe and Fittings  
ANSI/ASTM F2138-2012 (R2017), Specification for Excess Flow Valves for Natural Gas Service  
ANSI/ASTM F2830-2011 (R2017), Specification for Manufacture and Joining of Polyethylene (PE) Gas Pressure Pipe With a Peelable Polypropylene (PP) Outer Layer  
ANSI/ASTM F3256-2017, Guide for Reporting and Recording of Near Misses for Maritime Industry

#### **F25 - Ships and Marine Technology**

ANSI/ASTM F1178-2011 (R2015), Specification for Performance of Enameling System, Baking, Metal Joiner Work and Furniture  
ANSI/ASTM F1322-2015, Guide for Selection of Shipboard Incinerators  
ANSI/ASTM F1337-2010 (R2015), Practice for Human Systems Integration Program Requirements for Ships and Marine Systems, Equipment, and Facilities  
ANSI/ASTM F1716-2008 (R2015), Guide for Transition and Performance of Marine Software Systems Maintenance  
ANSI/ASTM F1757-2008 (R2015), Guide for Digital Communication Protocols for Computerized Systems  
ANSI/ASTM F1878-2009 (R2015), Guide for Escort Vessel Evaluation and Selection  
ANSI/ASTM F2001-2015, Guide for Vessel-Related Technical Information for Use in Developing an Electronic Database and Ship Safety Record  
ANSI/ASTM F2017-2015, Guide for Database Structure of Electronic Data Interchange Between Ship Owner and Shipyard for Contract Administration  
ANSI/ASTM F2218-2008 (R2015), Guide for Hardware Implementation for Computerized Systems  
ANSI/ASTM F2876-2010 (R2015), Practice for Thermal Rating and Installation of Internal Combustion Engine Packages for use in Hazardous Locations in Marine Applications

#### **F26 - Food Service Equipment**

ANSI/ASTM F1275-2014, Test Method for Performance of Griddles

**Standards Registered Under Continuous Maintenance:**

- ANSI/GBI 01-2021: Green Globes Assessment Protocol for Design, New Construction, and Major Renovations

This Standard is maintained under continuous maintenance procedures. GBI publishes notices for meetings and calls for public comment in ANSI Standards Action as required. GBI has a list of stakeholders that will receive email announcements when any maintenance activity occurs to the recommended practice. GBI’s website contains a place for new stakeholders to register. Comments or proposals for revisions to any part of the Standard may be submitted to GBI at any time. The following person(s) may be contacted by those interested in submitting changes:

Name: Emily Marx  
 E-mail: [comment@thegbi.org](mailto:comment@thegbi.org)  
**For ANSI/GBI 01-2019 – Year 1 = 2019 and Year 2 = 2020**

Program for Periodic Publication

Usually September/October (year 1)	Solicit requests for change from Consensus Body and public/stakeholders (usually combined Consensus Body ballot and public review). Allow at least 45 days to submit. Also solicit new Consensus Body members if needed.
First meeting usually January (year 1)	Review voting results and new requests for change including any deferred from previous review cycles and agree on which to propose (with or without change) for formal ballot and public review, which to reject and which to defer to the next review cycle.
Usually by mid- April (year 1)	Document first meeting results and notify Consensus Body members and commenters of Consensus Body decisions.
Second meeting usually June/July (year 2)	Review unresolved objections and new proposals. Agree on which to accept (with or without change), which to reject and which to defer to the next review cycle.
Usually by mid- September (year 2)	Document second meeting results and notify Consensus Body members and commenters of Consensus Body decisions.
Usually October (year 2)	Conduct Recirculation Letter Ballot and, if necessary, public review. Allow at least 45 days to submit
Third meeting usually December / January (year 2)	Review ballot results and respond to comments. If needed and as time permits, begin working on any deferred requests for following year’s revision cycle. Solicit new committee members.
Usually March (year 2)	Process procedural appeals
Usually May (year 3) (new cycle begins)	Publish revised standard. Solicit new committee members.

## **Health Level Seven, Inc. (HL7)**

Health Level Seven, Inc. (HL7) hereby informs ANSI that the approved American National Standard(s) listed below shall be maintained using the Continuous Maintenance option.

### **No standards at this time are under Continuous maintenance.**

In accordance with clause 4.7.2 Continuous maintenance of American National Standards, of the *ANSI Essential Requirements*, we agree to the following requirements:

15. A documented program for periodic publication of revisions has been established. A copy is enclosed. HL7 publishes a Normative Edition once a year, typically in the April timeframe.
16. The published standard(s) shall include a clear statement of the intent to consider requests for change and information on the process associated with the submittal of such requests. The language of this statement is as follows: This American National Standard is maintained using the continuous maintenance process. Comments or proposals for revision to any part of this standard may be submitted to HL7 at any time. Comments or proposals may be submitted online at [www.HL7.org](http://www.HL7.org) or in writing to the Associate Executive Director at Health Level Seven, Inc., 3300 Washtenaw Avenue Suite 227, Ann Arbor, Michigan 48104-4261. Comments or proposals submitted in writing must identify the standard in question and include the submitter's name, affiliation, telephone number, and e-mail address.
17. Procedures for timely, documented consensus action on each request for change have been established. A copy is enclosed. Refer to section 15.04.03.01 of the HL7 Governance and Operations Manual (attached).
18. The following person(s) may be contacted by those interested in submitting changes (please include name, address, E-mail, phone and fax):  

Karen Van Hentenryck  
Associate Executive Director  
Health Level Seven  
3300 Washtenaw Ave., Suite 227  
Ann Arbor, MI
19. No portion of the standard(s) shall be excluded from the revision process.
20. In the event that no revisions are issued for a period of four years, action to reaffirm or withdraw the standard(s) shall be taken in accordance with clause 4.7 of the *ANSI Essential Requirements*.
21. Any changes to the continuous maintenance process, text contained in affected standards or practices associated with the information contained herein shall be submitted in writing to ANSI in a timely fashion.

## Home Innovation (Home Innovation Research Labs, Inc.)

Home Innovation Research Labs hereby informs ANSI that the following approved American National Standard National Green Building Standard ICC 700 shall be maintained using the Continuous Maintenance option. Additional standards may be identified and added to this list in the future, however, if the procedures used to maintain them vary from those included in this submittal, an additional Continuous Maintenance Registration form will be submitted to PSA/ANSI.

In accordance with clause 4.7.2 Continuous maintenance of American National Standards, of the ANSI Essential Requirements, we agree to the following requirements:

Standards Maintained Under Continuous Maintenance:

ICC 700, National Green Building Standard

The following website details the maintenance schedule and contact information for the National Green Building Standard ICC 700.

<https://www.HomeInnovation.com/NGBS> This website was established for the initial printing of ICC 700 and has been maintained continuously.

1. A documented program for periodic publication of revisions has been established.

(see website)

2. The published standard(s) shall include a clear statement of the intent to consider requests for change and information on the process associated with the submittal of such requests. The language of this statement is as follows:

The development process for the National Green Building Standard™ is managed by Home Innovation Research Labs, an ANSI-Accredited Standards Developer. The NGBS is revised on a continuous maintenance basis in accordance with ANSI requirements. Proposals for revising the 2020 edition of the National Green Building Standard™ are welcome. Please visit the Home Innovation Research Labs website ([www.homeinnovation.com/NGBS](http://www.homeinnovation.com/NGBS)) for a proposal form and instructions.

3. Procedures for timely, documented consensus action on each request for change have been established.

### **Schedule:**

All submittals received by IES are acknowledged and forwarded to the Committee for consideration. The Committee will inform submitters of the disposition of their substantive proposals. Committee consideration will be given to proposed changes according to the following schedule:

Deadline: December 31

Proposal Considered: By June 30

Committee consideration will be given to proposed changes by June 30 if proposed changes are received by the Director of Educational and Technical Development no later than December 31. Proposals received after December 31 shall be considered by the Committee no later than June 30 of the following year.

### **NOTICE INSTRUCTIONS FOR SUBMITTING A PROPOSED CHANGE TO THESE STANDARDS UNDER CONTINUOUS MAINTENANCE**

This standard is maintained under continuous maintenance procedures for which IES has an established and documented program for regular publication of addenda or revisions, including procedures for timely, documented, consensus action on requests for change to any part of the standard. Committee consideration will be given to proposed changes by June 30 if proposed

changes are received by the IES Director of Technology no later than December 31. Proposals received after December 31 shall be considered by the Committee no later than June 30 of the following year.

#### **Submittal Format**

Proposed changes must be submitted to the IES Director of Technology in the announced published format. However, changes may be accepted in an earlier published format, if the differences are immaterial to the proposed change submittal. If the Director of Technology concludes that a current form must be utilized, the proposer may be given up to 20 additional days to resubmit the proposed changes in the current format.

Specific changes in the text or values are required and must be substantiated. Any change proposals that do not meet these requirements will be returned to the proposer. Supplemental background documents to support changes submitted may be included.

#### **Submission to the Committee Chair**

The Director of Technology shall forward proposed changes received on appropriate forms to the Committee chair for assigning to designated Committee members (responders) to develop responses to submitters of proposed changes.

#### **Review and Clarification**

Responders shall review proposals and should contact the proposer if necessary for clarification.

#### **Response Recommendation**

Designated responders shall draft a recommended Committee response, including any recommended changes to the standard. The responder's recommended responses shall be submitted to the Committee chair in electronic form usable by Society Staff, including any recommended change to the standard in response to proposals received. (If a subcommittee is preparing a response see procedure under Exceptions above.)

Options for Committee response are limited to:

- a) Proposed change accepted for public review without modification
- b) Proposed change accepted for public review with modification
- c) Proposed change accepted for further study
- d) Proposed change rejected

The responder shall provide reasons for any recommendation other than option a) "accepted for public review without modification."

The designated responder shall not recommend option c) "proposed change accepted for further study" unless the further study can be completed by October 1 of that year and the Committee can then vote for option a), b), or d) no later than November 15 of that year.

#### **Editing**

The Committee chair or his/her designee shall edit the draft responses and circulate the edited drafts to the Committee for review.

#### **To Access Form for Proposing Change to an IES Standard Under Continuous Maintenance:**

Any changes to the continuous maintenance process, text contained in affected standards or practices associated with the information contained herein shall be submitted in writing to ANSI ([psa@ansi.org](mailto:psa@ansi.org)) in a timely fashion.

## **Material Handling Industry, MHI (ASC MH10)**

### **Standards Maintained Under Continuous Maintenance:**

#### **MH10.8.2; Data Identifier and Application Identifier Standard**

#### **Schedule**

Proposed changes to the standard that were accepted by the MH10.8.2 Data Identifier Maintenance Committee will be integrated into the previously published version at the recommendation of the committee. Upon approval of the new version by MH10 Subcommittee 8 and the full MH10 committee, the standard will be published as a new version.

The committee plans to incorporate accepted revisions into the standard as frequently as necessary, but in no case will a published revised standard be issued more frequently than yearly, in line with indicated needs and industry developments. Each accepted revision since the last published version shall be identified in a "Document Maintenance Summary" appearing immediately before the Table of Contents of the standard.

## **National Board of Boiler and Pressure Vessel Inspectors (NBBPVI)**

### **Continuous Maintenance language applicable to all eligible standards:**

The NBIC Committee meets regularly to consider revisions of the rules, new rules, and requests for interpretations. Requests for interpretation must be addressed to the Secretary in writing and must give full particulars in order to receive consideration and a written interpretation (see Mandatory Appendix "1" covering preparation of technical inquiries.) Proposed revisions to the code resulting from inquiries will be presented to the NBIC Committee for appropriate action.

### **Standards Maintained Under Continuous Maintenance:**

ANSI/NB 23, The National Board Inspection Code

### **Schedule:**

Colored-sheet Addenda, which include revisions and additions to the Code, are published annually. Addenda are permissive on the date issued and become effective six months after the date of issue. The addenda will be sent automatically to purchasers of the Code up to the publication of the next issue.

## National Council for Prescription Drug Programs, NCPDP

### How to Submit a Proposed Change to an NCPDP Standard Under Continuous Maintenance

The Data Element Request Form (DERF) is the documentation used to request an addition or modification to an NCPDP standard. Anyone may submit a DERF to NCPDP along with accompanying information, including the proposed standard, implementation guide, data element dictionary, and modification log if needed.

A DERF must be completed and submitted with the proper documentation according to an established schedule in order for it to be reviewed during a quarterly work group meeting. The DERF is distributed to NCPDP members via the NCPDP website prior to the work group meeting.

## **National Fenestration Rating Council (NFRC)**

National Fenestration Rating Council (NFRC), hereby informs ANSI that the approved American National Standard(s) listed below shall be maintained using the Continuous Maintenance option. Additional standards may be identified and added to this list in the future, however, if the procedures used to maintain them vary from those included in this submittal, an additional Continuous Maintenance Registration form will be submitted to PSA/ANSI.

In accordance with clause 4.7.2 Continuous maintenance of American National Standards, of the ANSI Essential Requirements ([www.ansi.org/essentialrequirements](http://www.ansi.org/essentialrequirements)), we agree to the following requirements:

1. A documented program for periodic publication of revisions has been established for these standards:

- ANSI/NFRC 203
- ANSI/NFRC 202
- ANSI/NFRC 500
- ANSI/NFRC 400
- ANSI/NFRC 100
- ANSI/NFRC 200

2. The published standard(s) shall include a clear statement of the intent to consider requests for change and information on the process associated with the submittal of such requests. The language of this statement is as follows:

Comments or proposals for revisions on any part of this standard may be submitted to National Fenestration Rating Council at any time. Written comments or proposals must be in writing and be submitted to the NFRC Accredited Standards Developer at [standards@nfr.org](mailto:standards@nfr.org).

3. Procedures for timely, documented consensus action on each request for change have been established.

Any written comments or proposals submitted to NFRC as provided above shall be submitted by NFRC to its consensus body for consideration within a reasonable timeframe not to exceed one year. The submitter will be notified by NFRC of the expected time frame for consideration of the proposal or comments. NFRC shall apply for reaffirmation of this standard regardless any comment or proposals every three years.

4. The following person(s) may be contacted by those interested in submitting changes (please include name, address, E-mail, phone and fax):

Name: Jen Padgett, National Fenestration Rating Council (NFRC)

## National Information Standards Organization (NISO)

The following standard(s) are maintained under continuous maintenance procedures.

- **ANSI/NISO Z39.96: JATS: Journal Article Tag Suite**
- **ANSI/NISO Z39.102: STS: Standards Tag Suite**

In accordance with clause 4.7.2 Continuous maintenance of American National Standards, of the ANSI Essential Requirements, we agree to the following requirements:

1. A documented program for periodic publication of revisions has been established. A copy is attached.
2. The published standard(s) shall include a clear statement of the intent to consider requests for change and information on the process associated with the submittal of such requests.
3. Procedures for timely, documented consensus action on each request for change have been established and no portion of the standard shall be excluded from the revision process. A copy is attached.
4. In the event that a BSR-8/108 has not been submitted for an American National Standard under continuous maintenance within five years of its approval, the standards developer may request an extension, but shall then maintain the ANS under periodic maintenance.
5. Any changes to the continuous maintenance process, text contained in affected standards or practices associated with the information contained herein shall be submitted in writing to ANSI ([psa@ansi.org](mailto:psa@ansi.org)) in a timely fashion.

**Continuous Maintenance Procedures Z39.96-2019:  
JATS: Journal Article Tag Suite**

**ANSI Continuous Maintenance**

In accordance with the ANSI Essential Requirements, the ANSI/NISO Z39.96-2019: *JATS: Journal Article Tag Suite* standard is maintained under continuous maintenance procedures.

**Proposed Changes**

Under continuous maintenance procedures anyone may propose changes at any time. Each change will be considered by the Z39.96 JATS Standing Committee according to a definite schedule, shown in Section 2. The Standing Committee and NISO leadership committees may also propose changes.

The Standing Committee shall follow the procedures in this section in lieu of periodic maintenance and stabilized maintenance procedures. All changes to the Z39.96 standard shall be submitted in compliance with this section.

**Section 1. Instructions for Submittal of Proposed Change to ANSI/NISO Standard Z39.96 Under Continuous Maintenance**

Comments or proposals for revisions to any part of the standard may be submitted in writing (including electronically) to NISO at any time. Submissions must be accompanied by the submitter's name, affiliation, and e-mail address.

Written comments are to be submitted via the NISO web site, to a form linked from the JATS page at <https://www.niso.org/standards-committees/jats>

If it is not possible for the submitter to access the web form, alternatively, comments may be sent to:

**Section 2. Maintenance Review Schedule**

All submittals received by NISO or the Standing Committee chairs are acknowledged and forwarded to the JATS Standing Committee for consideration.

The Standing Committee will schedule meetings via teleconference or in person when a substantive number of comments for review have been received, but in any case no less frequently than twice a year if there are unaddressed comments, with meetings to be held more often at the discretion of the co-chairs.

The Standing Committee will inform submitters of the disposition of their proposals within one month following each meeting.

### **Section 3. Resolution of Proposed Changes**

The JATS Standing Committee may respond to submissions in the following ways:

- a. Proposed change accepted without modification
- b. Proposed change accepted with modification
- c. Proposed change accepted for further study
- d. Proposed change rejected

Responses are voted upon by the Standing Committee and approved by committee majority.

Accepted changes (response a or b) shall be recorded in a change log which will be posted to the JATS page at <https://www.niso.org/standards-committees/jats> and circulated to JATS-List (<http://www.mulberrytech.com/JATS/JATS-List/>).

The Standing Committee shall provide reasons for its responses and an estimated schedule for any action. Proposed changes accepted for further study will be again brought to the Standing Committee for resolution no later than the next quarterly review period.

All submitted changes and Standing Committee responses will be recorded and made available at [www.niso.org](http://www.niso.org). In addition, NISO staff will send notifications to JATS-list (<http://www.mulberrytech.com/JATS/JATS-List/>) when any maintenance activity occurs to the standard.

Interested parties can subscribe to JATS-List by filling out the form at <http://www.mulberrytech.com/JATS/JATS-List/subscribe-unsubscribe.html>

When a sufficient number of accepted changes have been accumulated, but no later than four years after the previous approval date, the JATS Standing Committee will prepare a revision of the standard and the revision will be processed according to the NISO Operating Procedures provisions for balloting and approving a revised standard.

### **Section 4. Publication of a New Edition or Reaffirmation**

A new edition of a standard under continuous maintenance shall occur within five years of the prior publication date. An existing standard that has not been revised for four (4) years of the original publication date shall be reviewed at the beginning of the fourth year. If it is determined that the standard is needed but that no modification is required, action to reaffirm the standard shall be initiated.

### **Procedures for Proposing Changes to ANSI/NISO Z39.102-2017: STS: Standards Tag Suite**

ANSI/NISO Z39.102-2017: STS: Standards Tag Suite standard is maintained under continuous maintenance procedures, in accordance with [NISO Operating Procedures](#) Section 7.6 and [ANSI Essential Requirements](#) Section 4.7.2. This document was approved by the STS Standing Committee on November 9, 2018 and the NISO Information Creation & Curation Topic Committee on February 8, 2019.

Under continuous maintenance procedures anyone may propose changes at any time. Each change will be considered by the Z39.102 STS Standing Committee according to a definite schedule, shown in Section 2 below. The Standing Committee and NISO leadership committees may also propose changes.

The Standing Committee shall follow the procedures below in lieu of periodic maintenance and stabilized maintenance procedures. All changes to the Z39.102 standard shall be submitted in compliance as described below.

### **Section 1. Instructions for Submittal of Proposed Change to ANSI/NISO Standard Z39.102 Under Continuous Maintenance**

Comments or proposals for revisions to any part of the standard may be submitted in writing (including electronically) to NISO at any time. Submissions must be accompanied by the submitter's name, affiliation, and e-mail address.

Written comments are to be submitted via the NISO web site, to a form linked from the STS Committee page at <https://www.niso.org/standards-committees/sts>

If it is not possible for the submitter to access the web form, alternatively, comments may be sent to:

### **Section 2. Maintenance Review Schedule**

All submittals received by NISO or the Standing Committee chairs are acknowledged and forwarded to the STS Standing Committee for consideration.

The Standing Committee will schedule meetings via teleconference or in person when a sufficient number of substantive comments for review have been received, but in any case no less frequently than once a year if there are unaddressed comments, with meetings to be held more often at the discretion of the co-chairs.

The Standing Committee will inform submitters of the disposition of their proposals within one month following each meeting.

### **Section 3. Resolution of Proposed Changes**

The STS Standing Committee may respond to submissions in the following ways:

- a. Proposed change accepted without modification
- b. Proposed change accepted with modification
- c. Proposed change accepted for further study
- d. Proposed change rejected

Proposed changes are resolved through consensus reached by Standing Committee discussion. (According to ANSI Essential Requirements, “Consensus means substantial agreement has been reached by directly and materially affected interests. This signifies the concurrence of more than a simple majority, but not necessarily unanimity. Consensus requires that all views and objections be considered, and that an effort be made toward their resolution.”)

Responses to submissions shall be recorded in a change log which will be posted to the STS Committee page at <https://www.niso.org/standards-committees/sts> and circulated to the sts-announce mailing list (<https://groups.niso.org/lists/sts-announce/>).

The Standing Committee shall provide reasons for its responses and an estimated schedule for any action. Proposed changes accepted for further study will be again brought to the Standing Committee for final resolution no later than the next annual review period.

All submitted changes and Standing Committee responses will be recorded and made available linked from <https://www.niso.org/standards-committees/sts>. In addition, NISO staff will send notifications to the sts-announce mailing list (<https://groups.niso.org/lists/sts-announce/>) when any maintenance activity occurs to the standard.

Interested parties can subscribe to the sts-announce mailing list by sending email to [sts-announce-subscribe@list.niso.org](mailto:sts-announce-subscribe@list.niso.org)

When a sufficient number of accepted changes have been accumulated, but no later than four years after the previous approval date, the STS Standing Committee will prepare a revision of the standard and the revision will be processed according to the NISO Operating Procedures provisions for balloting and approving a revised standard (Section 7.5).

#### **Section 4. Publication of a New Edition or Reaffirmation**

A new edition of a standard under continuous maintenance shall occur within five years of the prior publication date. An existing standard that has not been revised for four (4) years of the original publication date shall be reviewed at the beginning of the fourth year. If it is determined that the standard is needed but that no modification is required, action to reaffirm the standard shall be initiated.

Any comments about these Continuous Maintenance procedures in general may be sent via email to [nisohq@niso.org](mailto:nisohq@niso.org).

## NSF International

**NSF International** hereby informs ANSI that the approved American National Standard(s) listed below shall be maintained using the Continuous Maintenance option. Additional standards may be identified and added to this list in the future, however, if the procedures used to maintain them vary from those included in this submittal, an additional Continuous Maintenance Registration from will be submitted to PSA/ANSI.

### **Response**

The following Standards shall be maintained using the Continuous Maintenance Option. Please send comments to the attention of the appropriate Joint Committee Secretariat at:

In accordance with clause 4.7.2 Continuous maintenance of American National Standards, of the *ANSI Essential Requirements*, we agree to the following requirements:

A documented program for periodic publication of revisions has been established. A copy is attached. The published standard(s) shall include a clear statement of the intent to consider requests for change and information on the process associated with the submittal of such requests. The language of this statement is as follows:

Statement on Cover: This American National Standard is subject to revision by the PRCA Standards Committee at any time. The standard must at a minimum be reviewed every five years, revised, reaffirmed or withdrawn. The standard is under continuous review and a form for your comments is included at the end of each section. Comments received will be reviewed and receive careful consideration by the Standards Committee at least annually. The Committee will respond in writing to all comments received after consideration.

Statement in forward of each section: This standard is under review on a continual maintenance basis and is subject to revision at any time by the Standard Management Committee (SMC). The SMC has adopted a program for regular review, publication of addenda, revisions and interpretations, procedures for timely consensus action on requests to change any portion of the standard. At a minimum this standard shall be reviewed and revised every five years, or must be reaffirmed or withdrawn. Suggestions for improvement of this standard or the development of additional standards are welcome. Your comments for revisions of this standard, or any part thereof, must be addressed to PRCA headquarters utilizing the form located on the last page of this section of the code or available at [www.prcainfo.org](http://www.prcainfo.org). Your comments will receive careful consideration of the committees at regularly scheduled meetings, and a written response will be forwarded in accordance with the committee guidelines. If you feel that your comment(s) did not receive a fair hearing you must immediately (within 30 days) make your views known in writing to the PRCA Board of Directors.

Procedures for timely, documented consensus action on each request for change have been established. A copy is attached.

**Program for Periodic Publication of Revisions**

**Program for periodic publication of revisions or reaffirmation:**

- A new edition of the standard under continuous maintenance shall be published within five years of the previous publication date.
- If the standard has not been revised for a period of four (4) years since the previous publication date it shall be submitted to the Standards Committee for review at the beginning of the fourth year.
- If it is determined that the standard is still valid for the industry but that no revision is required, the Standards Management Committee and Standards Committee (consensus body) will take action to reaffirm the standard in accordance with the PRCA's Accredited Procedures.
- When a sufficient number of approved substantive changes have been accrued or if the Standards Management Committee determines that a revision to a safety related standard(s) is/are necessary the Standards Committee will prepare a revision of the standard.
- The Standards Committee will process the revision in accordance with the PRCA's Accredited Procedures for consensus balloting and approval of the revised standard.
- In no event is this process to exceed a four (4) year period without the standard being reviewed for revision or reaffirmation or withdrawal.

**Procedures for Timely, Documented Consensus Action on Each Request for Change**

**Procedures for timely, documented consensus action on each request for change:**

- A. Under the continuous maintenance procedures anyone may propose changes to the standard at any time. All sections of the standards are open for comment.
- B. Comments and/or a recommended proposal for changes must be submitted in writing utilizing the required formatting and the form provided on the last page of each section of the standards. The form is also available as a download from the PRCA website <http://www.prcainfo.org> under the ANSI Standards – Forms tab.
- C. The completed written form may be submitted to the PRCA electronically as an email attachment to [info@prcainfo.org](mailto:info@prcainfo.org) or by mail to PRCA SMC/SC, 6260 E. Riverside Blvd #104, Rockford, Illinois 61111.
- D. All submissions received by the PRCA will be acknowledged with an explanation of a proposed timeline and forwarded to the Standards Management Committee for consideration.
- E. When a substantive number of comments/proposals for change have been received or when it is determined that a safety standard needs review the Standards Management Committee will schedule Standards Committee meetings, in person or via teleconference, to review the comments/proposals, but not less than annually if there are unaddressed comments/proposals.
- F. The Standards Committee will inform the submitters of comments/proposals of the disposition of the comment/proposal within 30 working days of the balloting of findings on the proposal/comment
- G. The Standards Committee may respond in the following manner:
  - i) Change accepted without modification
  - ii) Change accepted with modification
  - iii) Change Rejected
  - iv) Change accepted for further studyAll responses are voted upon by the Standards Committee and approved by a two thirds majority of the Standards Committee members voting. Abstentions will be recorded  
Changes accepted for further study will be brought to the Standards Committee for resolution at the next scheduled meeting, but not to exceed a period of one year.
- H. The Standards Committee/Standards Management Committee will provide their reasons and response to each submitter and provide an estimated schedule for action to be taken.

## ATTACHMENT 1

### 10.9 Maintenance of RESNET Standards

All RESNET standards shall be maintained on a continuous basis. At a minimum, each standard shall be revised, reaffirmed or withdrawn by the 5<sup>th</sup> year after its initial approval as an American National Standard.

For the purposes of continuous maintenance, all proposed changes to a published standard shall be reviewed when received. The SMB shall determine whether the change is critical or not.

When a critical change is received, the SMB shall decide whether the proposed change will be handled as an addendum to the published standard or whether it will be handled by updating the published standard. The proposed change shall be forwarded to the SDC as a Proposed NWI and the standards development process would be followed.

When a non-critical proposed change is received, the proposal shall be kept on file to be provided to the SDC when the standard is next updated.

During the 5<sup>th</sup> year after a RESNET standard is first approved as an American National Standard, the standard shall be reviewed and either revised, reaffirmed or withdrawn. The SMB shall provide the SDC with a Proposed NWI along with any non-critical proposed changes and any policy direction that is deemed necessary.

The SDC shall review the standard and address any of the non-critical proposed changes. The standards development process shall be followed as outlined in this manual beginning with the Proposed NWI stage. If there are no proposed changes and the SDC does not propose any changes, the published standard would be circulated for public comment as published.

The SDC shall;

reaffirm the standard

revise the standard

withdraw the standard

## **Underwriters Laboratories, Inc. (UL)**

### **Continuous Maintenance language applicable to all eligible Standards:**

The most recent approval of UL as an American National Standard (ANS) occurred on \_\_\_ and covers the \_\_\_ Edition, including revisions through \_\_\_. Approval of UL \_\_\_ as an American National Standard is maintained using the continuous maintenance process. Comments or proposals for revision on any part of the Standard may be submitted to UL at any time. Written comments are to be sent to the UL staff person listed below.

### **Procedure to request voting membership on the standing canvass group also known as the Standards Technical Panel:**

Contact the UL staff person listed below.

### **Schedule:**

For standards maintained under the continuous maintenance option, UL shall address any comments or proposals for revision submitted for consideration on any part of a standard. UL will submit the proposal or comment to its consensus body for consideration within a reasonable time frame, not to exceed two years. The submitter will be notified of the expected time frame for consideration of the proposal. If no changes are made within four years of the ANSI approval date, UL shall apply for reaffirmation of the standard(s).

- UL 60947-4-2, Low-Voltage Switchgear and Controlgear - Part 4-2: Contactors and Motor-Starters - AC Semiconductor Motor Controllers and Starters
- UL 60947-5-1, Low-Voltage Switchgear and Controlgear - Part 5-1: Control Circuit Devices and Switching Elements - Electromechanical Control Circuit Devices
- UL 60947-5-2, Low-Voltage Switchgear and Controlgear - Part 5-2: Control Circuit Devices and Switching Elements - Proximity Switches
- UL 60947-7-1, Low-Voltage Switchgear And Controlgear - Part 7-1: Ancillary Equipment - Terminal Blocks for Copper Conductors

- UL 60947-7-2, Low-Voltage Switchgear and Controlgear - Part 7-2: Ancillary Equipment - Protective Conductor Terminal Blocks for Copper Conductors
- UL 60947-7-3, Standard for Fuse Terminal Blocks
- UL 60947-7-4, Standard for Safety for Low-Voltage Switchgear and Controlgear - Part 7-4: Ancillary Equipment-PCB Terminal Blocks for Copper Conductors
- UL 60950-1, Information Technology Equipment - Safety - Part 1: General Requirements
- UL 60950-21, Information Technology Equipment -- Safety -- Part 21: Remote Power Feeding
- UL 60950-22, Information Technology Equipment - Safety - Part 22: Equipment to be Installed Outdoors
- UL 60950-23-2007, Information Technology Equipment - Safety - Part 23: Large Data Storage Equipment
- UL 61010-1, Electrical Equipment for Measurement, Control, and Laboratory Use; Part 1: General Requirements
- UL 61010-031, Standard for Safety for Safety Requirements for Measurement, Control, and Laboratory Use - Part 031: Safety Requirements for Hand-Held Probe Assemblies for Electrical Measurement and Test
- UL 61010-031, Standard for Safety for Safety Requirements for Electrical Equipment for Measurement, Control and Laboratory Use – Part 031: Safety Requirements for Hand-Held Probe Assemblies for Electrical Measurement and Test
- UL 61010-2-010, Standard for Safety for Safety Requirements for Electrical Equipment for Measurement, Control and Laboratory Use – Part 010: Particular Requirements for Laboratory Equipment for the Heating of Materials.
- UL 61010-2-020, Standard for Safety for Safety Requirements for Measurement, Control, and Laboratory Use - Part 2-020: Particular Requirements for Laboratory Centrifuges
- UL 61010-2-032, Electrical Equipment for Measurement, *Control, and Laboratory Use*, Part 2-032: Particular Requirements for Hand-Held and Hand-Manipulated Current Sensors for Electrical Test and Measurement
- UL 61010-2-033, Electrical Equipment for Measurement, *Control, and Laboratory Use*, Part 2-033: Particular Requirements for Hand-Held Multimeters and Other Meters, for Domestic and Professional Use, Capable of Measuring Mains Voltage
- UL 61010-2-051, Standard for Safety for Safety Requirements for Electrical Equipment for Measurement, Control and Laboratory Use – Part 2-051: Particular Requirements for Laboratory Equipment for Mixing and Stirring.
- UL 61010-2-061, Standard for Safety for Safety Requirements for Electrical Equipment for Measurement, Control and Laboratory Use – Part 2-061: Particular Requirements for Laboratory Atomic Spectrometers with Thermal Atomization and Ionization.
- UL 61010-2-081, Standard for Safety for Safety Requirements for Electrical Equipment for Measurement, Control and Laboratory Use – Part 2-081: Particular Requirements for Automatic and Semi-Automatic Laboratory Equipment for Analysis and Other Purposes.
- UL 61010-2-091, Electrical Equipment for Measurement, *Control, and Laboratory Use*, Part 2-091: Particular Requirements for Cabinet X-Ray Systems

- UL 61010-2-101, Standard for Safety for Safety Requirements for Electrical Equipment for Measurement, Control and Laboratory Use – Part 2-101: Particular Requirements for In Vitro Diagnostic (IVD) Medical Equipment.
- UL 61010-2-201, Safety Requirements for Electrical Equipment for Measurement, Control, and Laboratory Use - Part 2-201: Particular Requirements for Control Equipment
- UL 61058-1, Switches for Appliances - Part 1: General Requirements
- UL 61058-1-1, Standard for Safety for Switches for Appliances - Part 1-1: Requirements for Mechanical Switches
- UL 61058-1-2, Standard for Safety for Switches for Appliances - Part 1-2: Requirements for Electronic Switches
- UL 61215-1, Standard for Terrestrial photovoltaic (PV) modules - Design qualification and type approval - Part 1: Test requirements
- UL 61215-1-1, Standard for Terrestrial photovoltaic (PV) modules - Design qualification and type approval - Part 1-1: Special requirements for testing of crystalline silicon photovoltaic (PV) modules
- UL 61215-1-2, Standard for Terrestrial photovoltaic (PV) modules – Design qualification and type approval – Part 1-2: Special requirements for testing of thin-film Cadmium Telluride (CdTe) based photovoltaic (PV) modules
- UL 61215-1-3, Standard for Terrestrial photovoltaic (PV) modules – Design qualification and type approval – Part 1-3: Special requirements for testing of thin-film amorphous silicon based photovoltaic (PV) modules
- UL 61215-1-4, Standard for Terrestrial photovoltaic (PV) modules – Design qualification and type approval – Part 1-4: Special requirements for testing of thin-film Cu(In,Ga)(S,Se)<sub>2</sub> based photovoltaic (PV) modules
- UL 61215-2, Standard for Terrestrial photovoltaic (PV) modules - Design qualification and type approval - Part 2: Test procedures
- UL 61496-1, Standard for Safety for Electro-Sensitive Protective Equipment, Part 1: General Requirements and Tests
- UL 61496-2, Standard for Safety for Electro-Sensitive Protective Equipment, Part 2: Particular Requirements for Equipment Using Active Opto-Electronic Devices
- UL 61646, Standard for Thin-Film Terrestrial Photovoltaic (PV) Modules - Design Qualification and Type Approval
- UL 61724-1, Standard for Photovoltaic System Performance - Part 1: Monitoring
- UL 61724-2, Standard for Specification for Photovoltaic system performance - Part 2: Capacity evaluation method
- UL 61724-3, Standard for Photovoltaic system performance - Part 3: Energy evaluation method
- UL 61730-1, Photovoltaic (PV) Module Safety Qualification - Part 1: Requirements for Construction
- UL 61730-2, Photovoltaic (PV) Module Safety Qualification - Part 2: Requirements for Testing
- UL 61810-1, Standard for Safety for Electromechanical Elementary Relays - Part 1: General Requirements

- UL 61800-5-1, Adjustable Speed Electrical Power Drive Systems - Part 5-1: Safety Requirements - Electrical, Thermal and Energy
  - UL 61800-5-2, Adjustable Speed Electrical Power Drive Systems - Part 5-2: Safety Requirements – Functional
  - UL 61965 Standard for Mechanical Safety for Cathode Ray Tubes
  - UL 62093, Standard for Balance-of-System Components for Photovoltaic Systems - Design Qualification Natural Environments
- 

- UL 62108, Standard for Concentrator Photovoltaic (CPV) Modules and Assemblies - Design Qualification and Type Approval
- UL 62109-1, Standard for Safety of power converters for use in photovoltaic power systems - Part 1: General requirements
- UL 62133, Standard for Safety for Secondary Cells and Batteries Containing Alkaline or Other Non-Acid Electrolytes - Safety Requirements for Portable Sealed Secondary Cells, and for Batteries Made From Them, for Use in Portable Applications
- UL 62275, Cable Management Systems - Cable Ties for Electrical Installations
- UL 62368-1, Audio/video, information and communication technology equipment - Part 1: Safety requirements
- UL 62841-1, Electric Motor-Operated Hand-Held Tools, Transportable Tools And Lawn And Garden Machinery - Safety - Part 1: General Requirements
- UL 62841-2-1, Standard for Safety for Electric Motor-Operated Hand-Held Tools, Transportable Tools And Lawn And Garden Machinery - Safety - Part 2-1: Particular Requirements For Hand-Held Drills and Impact Drills
- UL 62841-2-2: Electric Motor-Operated Hand-Held Tools, Transportable Tools And Lawn And Garden Machinery - Safety – Part 2-2: Particular Requirements for Screwdrivers and Impact Wrenches
- UL 62841-2-4: Electric Motor-Operated Hand-Held Tools, Transportable Tools And Lawn And Garden Machinery - Safety – Part 2-4: Particular Requirements for Sanders and Polishers Other Than Disc Type
- UL 62841-2-5: Electric Motor-Operated Hand-Held Tools, Transportable Tools And Lawn And Garden Machinery - Safety – Part 2-5: Particular Requirements for Hand-Held Circular Saws
- UL 62841-2-8, Electric Motor-Operated Hand-Held Tools, Transportable Tools And Lawn And Garden Machinery - Safety - Part 2-8: Particular Requirements For Hand-Held Shears and Nibblers
- UL 62841-2-9: Electric Motor-Operated Hand-Held Tools, Transportable Tools And Lawn And Garden Machinery - Safety – Part 2-9: Particular Requirements for Tappers and Threaders
- UL 62841-2-11, Electric Motor-Operated Hand-Held Tools, Transportable Tools And Lawn And Garden Machinery - Safety - Part 2-11 Particular Requirements for Hand-Held Reciprocating Saws
- UL 62841-2-14: Electric Motor-Operated Hand-Held Tools, Transportable Tools And Lawn And Garden Machinery - Safety – Part 2-14: Particular Requirements for Planers

- UL 62841-3-1: Electric Motor-Operated Hand-Held Tools, Transportable Tools And Lawn And Garden Machinery - Safety – Part 3-1: Particular Requirements for Screwdrivers and Transportable Table Saws
- UL 62841-3-4 Electric Motor-Operated Hand-Held Tools, Transportable Tools And Lawn And Garden Machinery - Safety - Part 3-4: Particular Requirements for Transportable Bench Grinders
- UL 62841-3-6: Electric Motor-Operated Hand-Held Tools, Transportable Tools And Lawn And Garden Machinery - Safety – Part 3-6: Particular Requirements for Transportable Diamond Drills With Liquid System
- UL 62841-3-9, Standard for Electric Motor-Operated Hand-Held Tools, Transportable Tools And Lawn And Garden Machinery – Safety – Part 3-9: Particular Requirements for Transportable Mitre Saws
- UL 62841-3-10: Electric Motor-Operated Hand-Held Tools, Transportable Tools And Lawn And Garden Machinery - Safety – Part 3-10: Particular Requirements for Transportable Cut-Off Machines
- UL 62841-4-1: Electric Motor-Operated Hand-Held Tools, Transportable Tools And Lawn And Garden Machinery – Safety – Part 4-1: Particular Requirements For Chain Saws
- UL 62841-4-2: Standard for Safety for Electric Motor-Operated Hand-Held Tools, Transportable Tools AndLawn And Garden Machinery - Safety - Part 4-2 Particular Requirements for Hedge Trimmers
- UL 62841-4-4, Standard for Safety for Electric Motor-Operated Hand-Held Tools, Transportable Tools and Lawn and Garden Machinery – Safety – Part 4-4: Particular Requirements for Lawn Trimmers, Lawn Edge Trimmers, Grass Trimmers, Brush Cutters and Brush Saws
- UL 62841-4-1000: Safety for Electric Motor-Operated Hand-Held Tools, Transportable Tools And Lawn And Garden Machinery - Safety - 62841-4-1000: Particular Requirements For Utility Machines
- UL 62915, Standard for Photovoltaic (PV) Modules – Type Approval, Design and Safety Qualification – Retesting
- UL 80079-36, Standard for Safety for Atmospheres – Part 36: Non-Electrical Equipment for Explosive Atmospheres – Basic Method and Requirements.
- UL 80079-37, Standard for Safety for Atmospheres – Part 37: Non-Electrical Equipment for Explosive Atmospheres – Non-Electrical Type of Protection Constructional Safety “c”, Control of Ignition Source “b”, Liquid Immersion “k”.
