## SURE-LITES

Sure-Lites has been the trusted name and industry leader for emergency and exit lighting for over 30 years. Sure-Lites offers a full line of innovative emergency and exit lighting products designed for commercial, industrial, hospitality, educational and multi-housing residential spaces.

# Sure-Lites

Sure-Lites products are designed to meet and exceed today's building codes. Our products offer maximum reliability and performance while minimizing installation and maintenance costs. From ease of installation to performance-enhancing electronics to time-saving features, Sure-Lites is focused on advancing technology to develop the most effective emergency and exit lighting solutions.

APX SERIES

FEATURES

- Long-life LED lamps provide uniform diffused illumination
- Dual voltage input 120/277 VAC, 60Hz
- Battery (APX7) - sealed nickel cadmium
- Universal J-box mounting pattern
- Brownout circuit (APX7)

ENERGY DATA

See Specification Sheet for Energy Data

Compliances may not apply to all product configurations. Please consult the product spec sheet for compliance details.

**COMPLIANCES:** UL924 Listed; Damp Location, UL924 Listed; NFPA 101 Compliant

SAMPLE NUMBER: APX6G

Series	Letter Colors
APX6=AC-Only LED APX7=Self-Powered with LED	G=Green R=Red

AP SERIES WITH HEADS

FEATURES

- Dual voltage input 120/277 VAC, 60Hz
- Injection-molded, color-stable, high-impact thermoplastic material
- All components are located inside the exit housing
- Snap-out/-in chevron directional indicators have full 3/4" stroke
- Universal exits can be field-configured as single or double face
- Snap-fit canopy with captive mounting screws included
- Exit can be ceiling, wall or end-mounted

ENERGY DATA

Specifications and dimensions subject to change without notice. Consult your Cooper Lighting Representative or visit [www.cooperlighting.com](http://www.cooperlighting.com) for available options, accessories and ordering information.

FEATURES

- Dual voltage input 120/277 VAC or 120/347 VAC 60 Hz
- Injection-molded, high-impact acrylic panel
- LED sign illumination
- Mirror background standard on double face exits
- Torsion springs secure trim plate to housing
- Easily removable electronics tray
- Damp location listed (AC-only)

Note: See spec sheet for additional mounting options

FEATURES

- Dual voltage input, 120/277 VAC 60Hz
- Steel housing with aluminum trim (recessed); all aluminum (surface)
- Injection-molded, high-impact acrylic panel
- Clear, mirror, or white background
- Super bright, long-life LED lampings provide uniform illumination
- Sealed nickel cadmium, maintenance-free, long-life battery
- Full recharge time of 24 hours maximum
- Recessed housing available for ceiling or wall mounting
- Convenient 1/2" knockouts in top and end of surface-mounted housing

LM1	6	10.8	7.2	Incandescent	5.4	029-121

Specifications and dimensions subject to change without notice. Consult your Cooper Lighting Representative or visit [www.cooperlighting.com](http://www.cooperlighting.com) for available options, accessories and ordering information.

- FEATURES**
- Dual voltage input of 120/277 VAC, 60Hz
  - 22-gauge, die-formed steel housing
  - White-coated finish
  - Two PAR36 type lamps in fully adjustable thermoplastic lamp holders
  - Sealed lead calcium battery (sealed nickel cadmium battery for AA8)
  - Knockout, conduit or cord set
  - Universal J-box mounting pattern and keyhole slots

**ENERGY DATA**  
See Specification Sheet for Energy Data

Compliances may not apply to all product configurations. Please consult the product spec sheet for compliance details.  
**COMPLIANCES:** UL924 Listed; NFPA 101 Compliant

**FEATURES**

- Matches RG1 Series emergency lighting units
- 20-gauge, die-stamped steel housing with white, baked enamel finish
- Available with 6V or 12V incandescent sealed beam lamps
- Damp location listed

**ENERGY DATA**

See Specification Sheet for Energy Data

Compliances may not apply to all product configurations. Please consult the product spec sheet for compliance details.

**COMPLIANCES:** UL924 Listed; Damp Location, UL924 Listed; NFPA 101 Compliant

GFR SERIES

**ORDERING INFORMATION**

Series	Finish	Lamp Type	Volts	Watts	Lamp Number
GFR2703	White Trim	Incandescent Sealed Beam	6	8	029-03
GFR2716	White Trim	Halogen Sealed Beam	12	8	029-16

For alternate lamps and finishes, consult your Cooper Lighting representative.

**FEATURES**

- 6V or 12V DC input voltage
- 20-gauge, die-stamped steel housing with white baked-enamel finish
- Adjustable housing in plaster frame to accommodate ceiling thickness
- Bar hangers for fast, easy installation
- White painted trim ring with 5-1/8" diameter flat albalite lens
- Junction box for wiring terminations
- One-year unit warranty

**ENERGY DATA**

**EBP700X**=One or two Lamp Operation = 600 - 700 Lumens

Specifications and dimensions subject to change without notice. Consult your Cooper Lighting Representative or visit [www.cooperlighting.com](http://www.cooperlighting.com) for available options, accessories and ordering information.

FEATURES

- Dual 120/277 VAC input voltage
- Warm white LED sign illumination
- Rear universal pattern knockouts for direct mounting to junction box
- Steel canopy allows ceiling or end mounting
- Full-length, 3/4" stroke arrow on directional exits
- Red silkscreened lettering on glass lens
- Other open face lenses available
- Lens installs from side of fixture for more convenient maintenance
- Meets City of Chicago fire code

FEATURES

- NEMA 4X, UL50-listed
- Dual voltage input 120/277 VAC, 60Hz with isolation transformer
- Die-cast aluminum housing
- -30°C (-22°F) to +50°C (+122°F) ambient environments
- Two adjustable MR16 lamps
- Nickel cadmium battery
- Fully recharged in 24 hours
- Vandalproof
- UV-stable, glass-clear polycarbonate, vandal-resistant shield

Compliances may not apply to all product configurations. Please consult the product spec sheet for compliance details.  
**COMPLIANCES:** UL50 Listed, NEMA 4X, UL844 Listed, UL924 Listed; Wet Location, UL924 Listed; NFPA 101 Compliant, IP66 Rated, NSF Certified

UEL SERIES

- FEATURES**
- NEMA 4X enclosure
  - Dual voltage input 120/277 VAC, 60Hz
  - Grey fiberglass housing
  - Two top-mounted, fully adjustable, high-impact thermoplastic heads
  - Glare-free lens with PAR36 sealed beam lamps
  - Watertight and corrosion-resistant
  - Wet location listed (32°F or 0°C and above) with optional heater
  - Gasketed, internally hinged front cover
  - Remote capability

FEATURES

- Dual voltage input 120/277 VAC, 60Hz
- Copper-free aluminum housing and natural die-cast aluminum finish
- Lamp heads contain one 12V, 25W DC medium base A-lamp
- Sealed lead calcium battery
- Watertight neoprene gasketing
- One-way breather and drain
- Explosion-proof
- Line-latching, solid-state voltage limited charger

LIFEWAY II MICRO  
SERIES UPS

FEATURES

- Lightweight and compact unit
- Design configures to meet KW requirements from 500W to 2000W
- UL924-listed and meets NFPA 101 requirements
- Provides 90 minutes of illumination for emergency egress lighting
- Can be field or factory configured

Compliances may not apply to all product configurations. Please consult the product spec sheet for compliance details.

**COMPLIANCES:** UL924 Listed; NFPA 101 Compliant, City of Chicago Approved

**FEATURES**

- Input 120 or 277 VAC, with one phase and two wires
- Custom voltages available
- Electronic and magnetic ballast compatibility
- Generator compatibility
- Forced air cooling during emergency operation; no filters required
- 90-minute run time standard
- 98% efficient PWM/IGBT technology with microprocessor control
- User-programmable with password protection
- Self-testing and self-diagnostic with event, test and alarm logs

Compliances may not apply to all product configurations. Please consult the product spec sheet for compliance details.

EAGLE EYE™ SELF  
DIAGNOSTICS

FEATURES

- Solid-state microprocessor system accurately detects system failures
- Performs all testing required by the NFPA 101 Life Safety Code
- Calibrates itself in the field, reducing installation labor and errors

DIAGNOSTIC INDICATORS

Indicator	Color	Meaning
○	Off	Emergency Mode/Power Off
● (Steady Blink)	Green	Fast Charge
● (Steady)	Green	Full/Float Charge
● (Steady Blink)	Yellow	90 Minute Test
● (Steady)	Yellow	Quick Test
●-● (2 Blink)	Red	Battery Failure
●-●-● (3 Blink)	Red	Charge Circuit Failure
●-●-●-● (4 Blink)	Red	Lamp/LED Failure

FEATURES

- Solid-state microprocessor-based system accurately diagnoses failures
- Automatically calibrates in the field, reducing labor and errors
- Ultrasensitive detection circuitry senses lamp failure in a circuit
- UL 924-listed and meets most state and local codes

Compliances may not apply to all product configurations. Please consult the product spec sheet for compliance details.

**COMPLIANCES:** UL924 Listed; NFPA 101 Compliant

0590A638SP	One #6 Centerpin Torx® Screwdriver Bit
059012SP	One #8 Centerpin Torx® Screwdriver Bit
0590A639SP	One #8 Heavy Duty Centerpin Torx® Screwdriver Bit

- FEATURES**
- Protects fixtures from tampering, vandalism, and accidental damage
  - Made of durable, high-impact, UV-resistant polycarbonate material
  - Integral mounting holes (6 on VS1, 8 on VS2) facilitates installation
  - Angled top surface improves moisture run-off
  - Angled front surface minimizes glare from ambient lighting
  - Self-adhesive, closed-cell neoprene gaskets with WP versions
- Compliances may not apply to all product configurations. Please consult the product spec sheet for compliance details.
