A unique combination of historical landmarks and modern sensibilities, Nevada County is ideally located a mere hour from Sacramento, California’s State Capitol, and two hours from the Bay Area. Nevada County is an easy weekend getaway for a breath of fresh air and a chance to unwind. In addition, this area is a great place to stop by on your way to Reno or Lake Tahoe, a mere 90 minutes from Grass Valley/Nevada City, for a bite to eat or some shopping at our local boutiques and galleries on your way to hit the slopes or visit the casino. Being close to two major metropolitan areas, Nevada County is also a popular destination for famous musicians who pop by for a quick performance merely because they love the area. If you prefer the solitude of nature, there are endless camping, hiking, boating, and biking opportunities that abound here, as well as lodging accommodations to fit any taste, from modern hotels to creek side suites. # NEVADA COUNTY'S FOUR SEASONS

## SUMMER

Nevada County boasts hot summer days, perfect for a dip in one of the many quality swimming holes along the South Yuba River. If you're more of a water sports enthusiast, there are plenty of lakes to play in whether your joy is kayaking, jet skiing, fishing, or just lying on the sand and soaking up the sun.

Summer days are a joy; but oh, those summer nights! Any day of the week there are countless opportunities for entertainment. You can catch a play at one of our three theaters, go to a concert at Center for the Arts or Miner's Foundry, or just wander through downtown Nevada City and enjoy whichever live music act catches your fancy. Not to mention the many fairs, festivals, and farmers markets that occur weekly.

## AUTUMN

Autumn in Nevada County is a spectacular sight to behold. With foliage that rivals that of New England, everywhere you turn is a new visual delight. The mild days and cool nights make exploring the towns a pleasure, and for a fun family treat, check out Bierwagen's Pumpkin Patch and Harvest Festival which goes on every day in October. If art is your thing, try the Open Studios Art Tour & Sale, or step back in time at the KVMR Celtic Festival. To get into the Halloween spirit, take the Haunted Nevada City historical walking tour, or get a head start on your Christmas shopping at the Thanksgiving Weekend Art Faires.

## WINTER

Winter in Nevada County is typically sunny and cold, and Grass Valley sits just low enough to get the lovely snow-capped mountain views without the inconvenience of shoveling. Nevada City, however, does get a small accumulation of snow occasionally which turns the darling town even more picturesque.

It is only a 45-minute drive to Donner Summit, and another 15-30 minutes will take you to the Truckee-Lake Tahoe area with cross country skiing areas, many ski and snowboarding resorts, tubing and sledding areas, and great snowshoeing locations. If you prefer motorized sports, there are places to rent snowmobiles to explore the winter wonderland.

Each year, Downtown Grass Valley hosts Cornish Christmas, Nevada City puts on Victorian Christmas, and Auburn has its own Christmas in the Pines. Stroll through the streets with old fashioned carolers in Victorian Garb, get some chestnuts right off the fire, and peruse the many items available for sale from our local artisans.

## SPRING

Spring is a riot of color in Nevada County, with many varieties of wildflowers and redbud, dogwood, and fruit trees flowering everywhere you look. With mild 70-degree days, it's the perfect season to visit Bridgeport at South Yuba State Park; the longest single-span wooden covered bridge still in existence in the US. While you're there, hike the easy Buttermilk Bend Trail for a stunning view of the wildflowers, butterflies and South Yuba River. If nature's not your thing, stay in town for the Foothills Celebration, an annual wine and art event, or St. Piran's Day Celebration which features Grass Valley's Cornish heritage.

# WINERIES

## of Nevada County

**N**orthern Sierra Wine Country is nestled in Nevada County's mountains and valleys. Nevada County has more than 15 wineries each displaying great diversity in style. Climate, geography and wine-making talent have merged here in our community resulting in highly distinctive, top quality wines.

Vineyards of the Northern Sierra Wine Country are planted at elevations between 1,300 and 2,600 feet. The region boasts over 60 miles of terrain between vineyards and, as a result, the grapes display a wide array of styles.

With four distinct seasons, the vines thrive. The characteristic cold winters are in fact quite conducive, allowing vines to go dormant, rest and conserve energy for the coming season. In the summer, a combination of cool nights and warm days serves to balance grape acids and nurture high sugars, producing desirable wine-making fruit. Unusually high in the variety of vines being grown, Northern Sierra Wine Country boasts over 45 planted varietals. Many are familiar like Chardonnay, Merlot, Zinfandel and Cabernet Sauvignon, while others like Cabernet Franc, Barbera, Sangiovese and Tempranillo are growing in popularity and are a treat for those looking to expand their horizons.

Nevada County offers expansive vineyards, charming tasting rooms, spectacular views, wine caves and picnic areas creating a great wine tourism experience.

For more information on local wineries and events, visit: [www.sierravintners.com](http://www.sierravintners.com). Brochures and wine touring maps are located at the local chambers of commerce or any tasting room.

### SPENCEVILLE WILDLIFE AREA

Spenceville Wildlife Area: [www.spenceville.org](http://www.spenceville.org)

- **Fairy Falls Trail:** Hiking, biking, equestrian. The Old Spenceville Road Trail takes a sharp right at a locked gate, a few hundred yards east of the North Valley Trail. After turning to the right, continue along the old road and through the small wooden gate, up the hill until you arrive at the cattle guard. From this spot you will have wonderful view of an open, broad, pastoral valley, ringed with oaks and covered with wildflowers in spring and a variety of grasses in the summer. The old road heads straight ahead and then to the right, where you will see two trails, the Upper and Lower Loop Trails heading up the hill. If you continue straight along the old road, you will be on the Fairy Falls Trail. This trail follows Dry Creek. You may see the bedrock grinding holes in the flat rocks that line the creek, left by the Nisenan when they ground acorns at the stream's edge. As the old road turns to trail and begins to climb the hill, you will know that you are near the falls.

- **Old Spenceville Road Trail:** Hiking, biking, equestrian. Trail begins at the cement bridge in front of the reclaimed copper mine and runs west and east along Dry Creek. Cross the gated cement bridge and head east (to the right at the mine) along the level dirt road for about a mile until you link up with North Valley Trail and the Falls trails. You will pass rich bird habitat along the road and wildflowers in the spring.

- **Upper Loop Trail:** Hikers only. Take the left trail that climbs the hill from the Fairy Falls Trail. You will wind your way through oaks and past hillsides of lilies in the spring. This trail offers the best long distance views of the Spenceville area. On a clear day, you can see the Sutter Buttes. This trail links up with the Fairy Falls Trail right near the falls.

# LAKES

## Donner Lake

- **Donner Lake:** At an elevation of 5,963 feet in the Tahoe National Forest next to interstate 80 and west of Truckee. The lake is 3 miles long and  $\frac{3}{4}$  miles wide with a shoreline of 7  $\frac{1}{2}$  of high alpine woods. The Donner Memorial State Park, on the east shore, was named after the tragic Donner Party whose fate in the winter of 1846 attests to the hardships encountered by California's early settlers. This well-maintained park has 150 developed campsites with campfire programs and nature trails. Inside of the Donner Memorial State Park there is an area locally known as Dog Beach that is dog friendly. Leashes are required while in the state park.
- **Boca Reservoir:** In the Tahoe National Forest at an elevation of 5,700 feet. The Lake has a surface area of 980 acres with 14 miles of shoreline. Steep bluffs and low grassy areas amid tall pine trees make for a scenic setting. Many inlets and prevailing winds create a great atmosphere for sailing and boating.
- **Stampede Reservoir:** At an elevation of 5,949 feet in the Tahoe National Forest, northeast of Truckee. Stampede has a surface area of 3,440 acres with 25 miles of sage and coniferous covered shoreline. This large, open lake has westerly winds for the sailor. Vast open waters can be enjoyed by the waterskier. Fishing is very popular and anglers will find rainbow and brown trout.
- **Prosser Creek Reservoir:** At an elevation of 5,711 located in the scenic Tahoe National Forest. This 740 surface- acre lake rests in an open canyon surrounded by sage and coniferous covered hills. The Donner Camp picnic area was the site of the Donner Party tragedy of the winter of 1846-47.
- **Long, Sterling, Eagle, Kidd, Cascade and Serene Lakes:** These lakes, off interstate Hwy 80 near Soda Springs, are at elevations of about 7,000 feet in the Tahoe National Forest. This beautiful high Sierra country offers a variety of recreational opportunities. Boating is limited to non-powered craft with limited facilities but rentals are available at Serene Lake. The angler will find trout and catfish. Numerous trails are available for the hiker, backpacker and equestrian to get away from it all in this remote natural area.
- **Martis Creek Lake:** 70 surface acres at minimum pool, was California's first "Wild Trout Lake" and one of its most unique. Originally built in 1972 by the U.S. Army Corps of Engineers for flood control and water supply for Reno, this lake was selected by the California Department of Fish and Game as an exclusive, naturally producing, trophy trout fishery for the endangered Lahontan Cutthroat Trout. Martis Creek is a trophy German Brown fishery in the catch and release program. The facilities and nearby 1,000 acre wildlife area are administered by the Corps of Engineers.
