## Here's what other past students from the Building Industry have said about completing their qualifications with us...

*"I found the support processes were excellent and thorough, with constant reminders and prompting. The area of the course that had the most significant impact on my life was the relevance of my everyday business operations. I was sometimes affirmed in what I already knew, and sometimes given new ways to achieve goals. I found the personal development aspect of the training gave me a much better understanding of how to reach my goals, as well as human resources and developing new skills in the recruitment process. I have already recommended your training. I found it thorough and worthwhile. It really makes you think and apply your knowledge to your own situation."* Glenn Raine, Diploma of Business Vice-Chairman, Master Builders Queensland ***"The course gave me tools to more efficiently plan and execute jobs and projects I work on, small & large. Whenever I needed help it was easy to contact someone and the response was always quick. I love the ability to work at your own pace and request assistance when required, this helped to fit my study into my busy schedule."***

Jason Rouse

***"I have been working in this type of role for a number of years now, so the most significant impact I have had is being able to solidify the knowledge I have and expand my understanding in areas, such as various ways to approach programming for a project, rather than just relying on proprietary computer based programs."***

***The greatest aspect of this course was the support offered, as doing any course by correspondence can be difficult. The constant contact keeps the course in the forefront of your mind. I would recommend this training to others as the support is great and the concept of having a graduation provides encouragement to be part of the bigger picture."*** Graham Bickerstaff

*"I found the support process very good, I liked how there was regular phone calls to check on my current progress and offers of help whenever I needed it. I felt comfortable to ask questions because everyone was always happy to help. The management and personal work priorities significantly impacted my life in terms of personal growth. My life has been more about work than play so to actually write the things that I do down made me look at life a little differently, and I have now made a few positive changes. I felt that the whole course was helpful in developing work skills and I now that I have a good basis to work from I look forward to going on with my studies. The overall setup of the course was easy to follow and I liked how we could pick up subjects to do in an order that suited us. Project managers, workshop foreman's and middle management people would benefit from a similar training program. I believe the course is a good stepping stone and will set me up well for the next level of courses."* **Jarrold Howell**
