

FREEHOLD BOROUGH SCHOOL DISTRICT
280 Park Avenue
Freehold, NJ 07728
Monmouth County

Office of Curriculum & Instruction

Course Title: Mathematics

Grade: 3

Board of Education Adoption Date: November 10, 2014
Document F #4

Freehold Borough Board of Education

Mrs. Annette Jordan, President Dr. Michael Lichardi, Vice President
 Mr. Paul Ceppi
 Mrs. Susan Greitz
 Mr. James Keelan
Mrs. Maureen MacCutcheon
 Mr. Bruce Patrick
 Mrs. Margaret Rogers
 Mrs. Michele Tennant

District Administration

 Rocco Tomazic, Ed. D., Superintendent
 James Strimple, Interim School Business Administrator
 Cheryl Young, Director of Curriculum & Instruction
 Jennifer O'Shea, Director of Special Programs
 Jennifer Donnelly, Supervisor of Assessment & Technology
Cecilia Zimmer, Supervisor of Instruction – ESL, Bilingual & World Languages
 Ronnie Dougherty, Principal – Freehold Intermediate School
 John Brovak, Assistant Principal – Freehold Intermediate School
 Patrick Mulhern, Principal – Park Avenue Elementary School
 Will Smith, Principal – Freehold Learning Center

Freehold Borough School District

District Mission

We will inspire the creativity and imagination of all students and empower them as knowledgeable, skillful, and confident learners who flourish and contribute willingly in a changing world.

Core Beliefs

We believe that:

- All people have inherent worth.
- Life-long learning is basic to the survival and advancement of society.
- The primary influence on the individual's development is the family in all its forms.
- Valuing diversity is essential to individual growth and the advancement of society.
- All individuals have strengths and human potential has no known limits.
- Democracy thrives when individuals accept responsibility for their choices.
- Being trustworthy builds trust.
- Creativity and imagination are essential for society to flourish.
- A safe environment is essential for the well-being of the individual and for society to flourish

Freehold Borough School District

Philosophy

The philosophy for our curriculum is developed with a democratic system of beliefs and values. Believing that our students deserve the best education, our curriculum is aligned to the most current New Jersey Core Curriculum Content Standards and current statewide assessments. Our scope and sequence is vertically and horizontally aligned. The progression of objectives embraces decades of rigorous research, conducted both independently and at the university level, and acknowledges that children develop differently and that learning experiences and strategies for performance are differentiated. Our borough is a diverse community, rich in tradition and spirit. Knowledge is a fusion balancing authentic experience and content, which language arts literacy skills are integrated with other content areas. Our curriculum contains common expectations that are rigorous and student centered, and teachers, who are most proximal to the children, will use this document as an instrument to ensure student success.

To ensure that our children are successful and receive the best education, this curriculum document, our staff will continuously collaborate on this living document. We will develop purposeful and effective formative and summative assessments which measure growth of our curriculum and inform our instruction. Finally, we will continuously seek to grow professionally through professional development, which is aligned to statewide regulations, but specifically geared to benefit our curriculum, school, and children.

General Curriculum & Instruction Objectives

- Teachers will employ lessons that are aligned to our curriculum and framed utilizing current research-based methods and techniques that focus on student achievement
- Our lessons will be structured according to statewide and district standards and our teachers will have flexibility to ensure that lessons meet the needs of all learners
- Units and lessons will be differentiated
- Curriculum is be student focused on success and balances developmental theory and psychometric standards
- Democratically developed benchmarks and assessments will be utilized to gauge student and curricular growth. Assessment will be multidimensional and developed according to student need.

Mathematics – Grade 3	Unit Title: Multiplication and Division	Suggested Timeline: MP2	Suggested Duration: 20-30 days
Big Ideas			
<ul style="list-style-type: none"> ➤ Properties of operations (Commutative, Associative, and Distributive) ➤ Unknown whole number in multiplication and division equations 		<ul style="list-style-type: none"> ➤ Fluently multiply and divide within 100 ➤ Relationship between multiplication and division 	
Standards			
<p>3.OA.4 Determine the unknown whole number in a multiplication or division equation relating three whole numbers. For example, determine the unknown number that makes the equation true in each of the equations $8 \times ? = 48$, $5 = \square \div 3$, $6 \times 6 = ?$</p> <p>3.OA.5 Apply properties of operations as strategies to multiply and divide.2 Examples: If $6 \times 4 = 24$ is known, then $4 \times 6 = 24$ is also known. (Commutative property of multiplication.) $3 \times 5 \times 2$ can be found by $3 \times 5 = 15$, then $15 \times 2 = 30$, or by $5 \times 2 = 10$, then $3 \times 10 = 30$. (Associative property of multiplication.) Knowing that $8 \times 5 = 40$ and $8 \times 2 = 16$, one can find 8×7 as $8 \times (5 + 2) = (8 \times 5) + (8 \times 2) = 40 + 16 = 56$. (Distributive property.)</p> <p>3.OA.6 Understand division as an unknown-factor problem. For example, find $32 \div 8$ by finding the number that makes 32 when multiplied by 8.</p> <p>3.OA.7 Fluently multiply and divide within 100, using strategies such as the relationship between multiplication and division (e.g., knowing that $8 \times 5 = 40$, one knows $40 \div 5 = 8$) or properties of operations. By the end of Grade 3, know from memory all products of two one-digit numbers.</p>			
Student Learning Objectives	Standards Addressed	Suggested Student Experiences	Suggested Resources / Materials
<ul style="list-style-type: none"> • Fluently multiply and divide within 100 • Explain how the properties of operations work (Commutative, Associative, Distributive) • Apply properties of operations as strategies 	<ul style="list-style-type: none"> • 3.OA.4 • 3.OA.5 • 3.OA.5 	<p><u>Activities</u></p> <ul style="list-style-type: none"> ▪ Model and show how two numbers can be multiplied in any order and the product remains the same. ▪ Model using multiplication to find the answer to division problems. ▪ Any division problem can be thought of as a multiplication fact showing a missing factor. ▪ Manipulate arrays to see that no matter how you set up a multiplication problem, the product will remain the same 	<ul style="list-style-type: none"> • Multiplication Tables • Arrays • Counters/blocks • Flash Cards • Timed multiplication/division drills • District Text Resources: EnvisionMath • Topics #5, #6, #7 and #8 • Instructional Math websites

Freehold Borough School District Mathematics – Grade 3

<p>to multiply and divide</p> <ul style="list-style-type: none"> Identify the multiplication problem as related to the division problem Identify the unknown factor in the related multiplication problem Use multiplication to solve division problems Know from memory all products of two one-digit numbers 	<ul style="list-style-type: none"> 3.OA.6 3.OA.6 3.OA.7 3.OA.7 	<p>(comm.. and assoc. properties).</p> <ul style="list-style-type: none"> Break apart arrays to demonstrate the distributive property (i.e. $8 \times 7 = 8 \times (5+2) = 8 \times 5 + 8 \times 2 = 40+16$) Have students find missing numbers in a multiplication table to relate division to multiplication (i.e. $15 \div 3 = 3 \times ?$). Create the fact families for multiplication and division. Identify patterns that demonstrate multiplication facts for 1's, 2's, 5's, 9's, and 10's. Apply multiplication facts of 1's, 2's, and 5's to 3's, 4's, 6's, 7's, and 8's. 	<p><u>Assessments</u></p> <ul style="list-style-type: none"> Apply all three properties of multiplication and explain why each works. Utilize multiplication facts to understand division as an unknown factor problem. Complete times multiplication and division tests to show fluency of both. Solve word problems and choose multiplication or division strategies as a way to solve. Teacher created assessments/worksheets Textbook assessments from lessons in EnvisionMath

Mathematics – Grade 3	Unit Title: Geometry	Suggested Timeline: MP3	Suggested Duration: 15-20 days
------------------------------	-----------------------------	--------------------------------	---------------------------------------

<u>Big Ideas</u>	➤ Area	➤ Perimeter	➤ Polygons	➤ Quadrilaterals
-------------------------	--------	-------------	------------	------------------

Standards

3.MD.5 Recognize area as an attribute of plane figures and understand concepts of area measurement.

3.MD.6 Measure areas by counting unit squares (square cm, square m, square in, square ft, and improvised units).

3.MD.7 Relate area to the operations of multiplication and addition.

3.MD.8 Solve real world and mathematical problems involving perimeters of polygons, including finding the perimeter given the side lengths, finding an unknown side length, and exhibiting rectangles with the same perimeter and different areas or with the same area and different perimeters.

3.G.1 Understand that shapes in different categories (e.g., rhombuses, rectangles, and others) may share attributes (e.g., having four sides), and that the shared attributes can define a larger category (e.g., quadrilaterals). Recognize rhombuses, rectangles, and squares as examples of quadrilaterals, and draw examples of quadrilaterals that do not belong to any of these subcategories.

3.G.2 Partition shapes into parts with equal areas. Express the area of each part as a unit fraction of the whole. For example, partition a shape into 4 parts with equal area, and describe the area of each part as $\frac{1}{4}$ of the area of the shape.

Student Learning Objectives	Standards Addressed	Suggested Student Experiences	Suggested Resources / Materials

Mathematics – Grade 3	Unit Title: Data and Graphing	Suggested Timeline: MP3	Suggested Duration: 15-25 days
<u>Big Ideas</u> <ul style="list-style-type: none"> ➤ Bar Graphs ➤ Picture Graphs ➤ Line Plots 		<ul style="list-style-type: none"> ➤ Scales of graphs ➤ Analyze graphs 	

Standards
3.MD.3 Draw a scaled picture graph and a scaled bar graph to represent a data set with several categories. Solve one- and two-step “how many more” and “how many less” problems using information presented in scaled bar graphs. For example, draw a bar graph in which each square in the bar graph might represent 5 pets.
3.MD.4 Generate measurement data by measuring lengths using rulers marked with halves and fourths of an inch. Show the data by making a line plot, where the horizontal scale is marked off in appropriate units— whole numbers, halves, or quarters.

Student Learning Objectives	Standards Addressed	Suggested Student Experiences <u>Activities</u>	Suggested Resources / Materials
<ul style="list-style-type: none"> ▪ Explain and identify the scale of a graph with a scale greater than one ▪ Analyze a graph with a scale greater than one ▪ Choose a proper scale for a bar or picture graph ▪ Create a scaled 	<ul style="list-style-type: none"> • 3.MD.3 • 3.MD.3 • 3.MD.3 • 3.MD.3 • 3.MD.3 	<ul style="list-style-type: none"> ▪ Use tables from newspapers or magazines to create bar graphs and solve problems about data represented in those graphs. ▪ Have class votes to create data using tally marks and use the data to create picture and bar graphs. ▪ Use rulers to create increments on a graph in whole numbers, halves, and quarters. ▪ Use classroom materials to measure objects to the quarter inch, half inch, and whole inch. Represent those 	<ul style="list-style-type: none"> ▪ Cool Graphing Website http://mrnussbaum.com/coolgraphing.htm ▪ Create a Bar Graph http://www.amblesideprimary.com/ambleweb/mentalmaths/grapher.html ▪ Create Picture Graphs and Bar Graphs http://nces.ed.gov/nceskids/createagraph/default.aspx ▪ Interactive Bar Graph http://www.shodor.org/interactivate/activities/BarGraph/ ▪ District Text Resources: <i>EnvisionMath</i> Topic #20 ▪ Instructional Math websites <p><u>Assessments</u></p> <ul style="list-style-type: none"> • Draw a scaled picture graph and a scaled bar graph. • Answer questions about picture and bar graph data.

Appendix
Third Grade-Math

In this curriculum document, the 21st Century Themes and Skills are integrated in the following units:

Unit 1

In this unit plan, the following 21st Century themes and skills are addressed:			
Check ALL that apply – 21st Century Themes		Indicate whether these skills are:	
		<ul style="list-style-type: none"> • E – encouraged • T – taught • A – assessed Standard 9.1 21st Century Life Skills	
	Global Awareness	E	Creativity and Innovation
X	Financial Literacy	A	Critical Thinking and Problem Solving
	Health Literacy	T	Communication (Interpersonal and Media Fluency)
	Civic Literacy	T	Collaboration and Teamwork
	Career Awareness/Exploration	E	Accountability, Productivity and Ethics

Unit 2

In this unit plan, the following 21st Century themes and skills are addressed:			
Check ALL that apply – 21st Century Themes		Indicate whether these skills are:	
		<ul style="list-style-type: none"> • E – encouraged • T – taught • A – assessed Standard 9.1 21st Century Life Skills	
	Global Awareness	E	Creativity and Innovation
X	Financial Literacy	A	Critical Thinking and Problem Solving
	Health Literacy	T	Communication (Interpersonal and Media Fluency)
	Civic Literacy	T	Collaboration and Teamwork
	Career Awareness/Exploration	E	Accountability, Productivity and Ethics

Unit 3

In this unit plan, the following 21st Century themes and skills are addressed:			
Check ALL that apply – 21st Century Themes		Indicate whether these skills are:	
			<ul style="list-style-type: none"> • E – encouraged • T – taught • A – assessed Standard 9.1 21st Century Life Skills
	Global Awareness	E	Creativity and Innovation
X	Financial Literacy	A	Critical Thinking and Problem Solving
	Health Literacy	T	Communication (Interpersonal and Media Fluency)
	Civic Literacy	E	Collaboration and Teamwork
	Career Awareness/Exploration	E	Accountability, Productivity and Ethics

Unit 4

In this unit plan, the following 21st Century themes and skills are addressed:			
Check ALL that apply – 21st Century Themes		Indicate whether these skills are:	
			<ul style="list-style-type: none"> • E – encouraged • T – taught • A – assessed Standard 9.1 21st Century Life Skills
	Global Awareness	A	Creativity and Innovation
X	Financial Literacy	T	Critical Thinking and Problem Solving
	Health Literacy	E	Communication (Interpersonal and Media Fluency)
	Civic Literacy	E	Collaboration and Teamwork
	Career Awareness/Exploration	E	Accountability, Productivity and Ethics

Unit 5

In this unit plan, the following 21st Century themes and skills are addressed:			
Check ALL that apply – 21st Century Themes		Indicate whether these skills are:	
			<ul style="list-style-type: none"> • E – encouraged • T – taught • A – assessed Standard 9.1 21st Century Life Skills
	Global Awareness	T	Creativity and Innovation
X	Financial Literacy	A	Critical Thinking and Problem Solving
	Health Literacy	E	Communication (Interpersonal and Media Fluency)
	Civic Literacy	A	Collaboration and Teamwork
	Career Awareness/Exploration	E	Accountability, Productivity and Ethics

Unit 6

In this unit plan, the following 21st Century themes and skills are addressed:			
Check ALL that apply – 21st Century Themes		Indicate whether these skills are:	
			<ul style="list-style-type: none"> • E – encouraged • T – taught • A – assessed Standard 9.1 21st Century Life Skills
X	Global Awareness	A	Creativity and Innovation
X	Financial Literacy	T	Critical Thinking and Problem Solving
	Health Literacy	A	Communication (Interpersonal and Media Fluency)
	Civic Literacy	E	Collaboration and Teamwork
	Career Awareness/Exploration	E	Accountability, Productivity and Ethics

Unit 7

In this unit plan, the following 21st Century themes and skills are addressed:			
Check ALL that apply – 21st Century Themes		Indicate whether these skills are:	
			<ul style="list-style-type: none"> • E – encouraged • T – taught • A – assessed Standard 9.1 21st Century Life Skills
	Global Awareness	A	Creativity and Innovation
X	Financial Literacy	T	Critical Thinking and Problem Solving
	Health Literacy	E	Communication (Interpersonal and Media Fluency)
	Civic Literacy	E	Collaboration and Teamwork
	Career Awareness/Exploration	E	Accountability, Productivity and Ethics

Unit 8

In this unit plan, the following 21st Century themes and skills are addressed:			
Check ALL that apply – 21st Century Themes		Indicate whether these skills are:	
			<ul style="list-style-type: none"> • E – encouraged • T – taught • A – assessed Standard 9.1 21st Century Life Skills
X	Global Awareness	A	Creativity and Innovation
X	Financial Literacy	T	Critical Thinking and Problem Solving
	Health Literacy	T	Communication (Interpersonal and Media Fluency)
	Civic Literacy	A	Collaboration and Teamwork
	Career Awareness/Exploration	E	Accountability, Productivity and Ethics

Unit 9

In this unit plan, the following 21st Century themes and skills are addressed:			
Check ALL that apply – 21st Century Themes		Indicate whether these skills are:	
		<ul style="list-style-type: none"> • E – encouraged • T – taught • A – assessed Standard 9.1 21st Century Life Skills	
X	Global Awareness	T	Creativity and Innovation
X	Financial Literacy	A	Critical Thinking and Problem Solving
	Health Literacy	E	Communication (Interpersonal and Media Fluency)
	Civic Literacy	A	Collaboration and Teamwork
	Career Awareness/Exploration	E	Accountability, Productivity and Ethics

Unit 10

In this unit plan, the following 21st Century themes and skills are addressed:			
Check ALL that apply – 21st Century Themes		Indicate whether these skills are:	
		<ul style="list-style-type: none"> • E – encouraged • T – taught • A – assessed Standard 9.1 21st Century Life Skills	
	Global Awareness	T	Creativity and Innovation
X	Financial Literacy	A	Critical Thinking and Problem Solving
	Health Literacy	E	Communication (Interpersonal and Media Fluency)
	Civic Literacy	E	Collaboration and Teamwork
	Career Awareness/Exploration	E	Accountability, Productivity and Ethics
