COVID-19 PANDEMIC HEALTH RESPONSE

VADM (ret) Rocky Bono, MD WSHA Webinar July 27, 2020

Pandemic Health Response priorities

Protect frontline healthcare workers

- Testing
- Surveillance
- Isolation, quarantine and hospital care

Optimize WA state health resources

- Ongoing pandemic response
- Anticipated fall respiratory surge

Keep all Washingtonians safe

- Systemically underserved
- COVID and non-COVID conditions

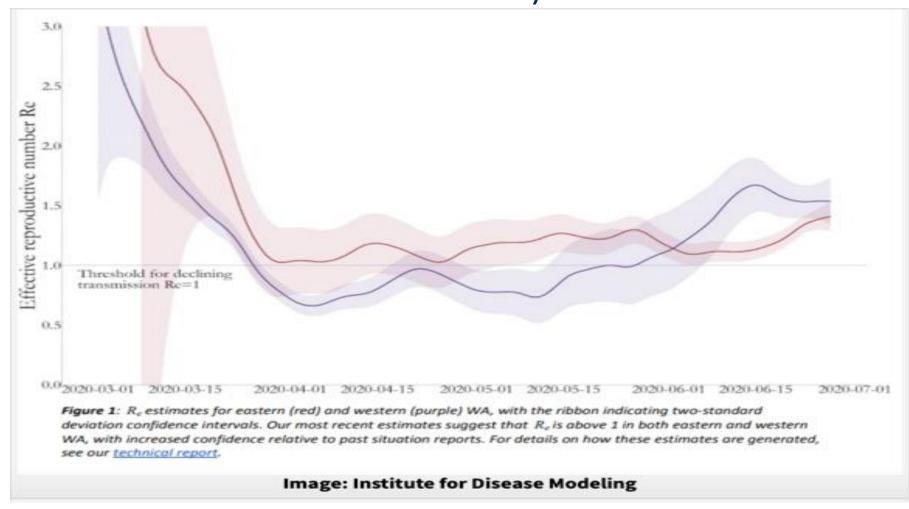

Areas of focus

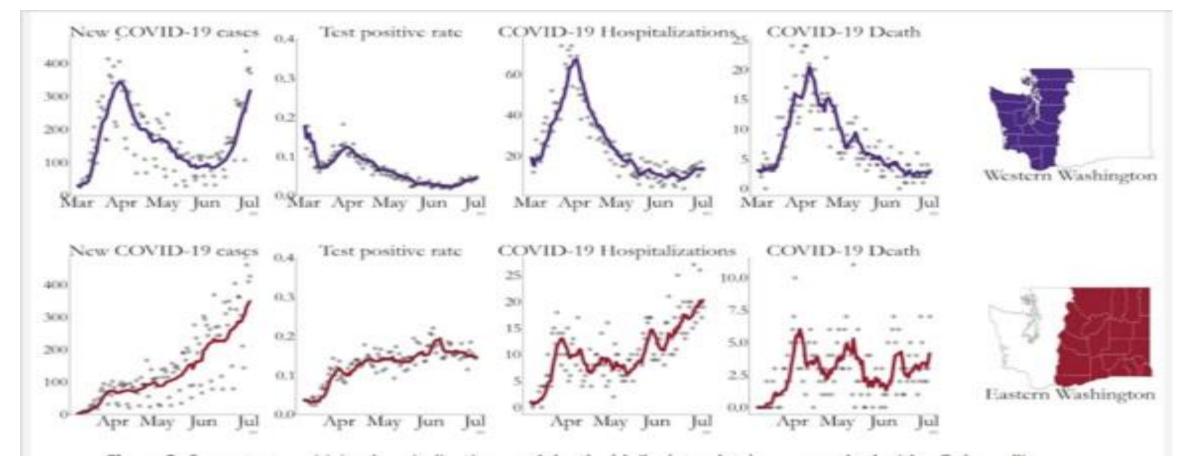

- PPE
- Testing
- Long term care
- Fall surge plan

Current Overview

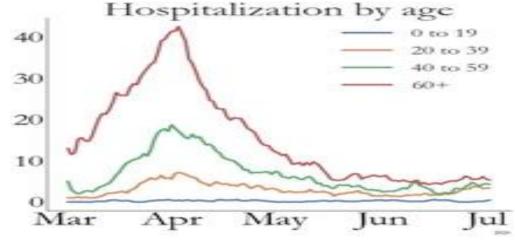

IDM Transmission Rate (R_{e)}

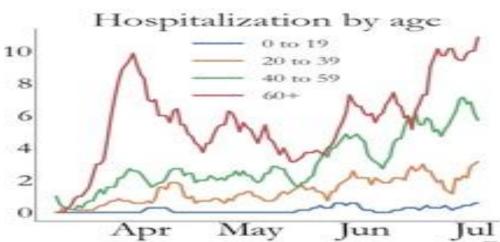

Regional rates

Hospitalization by age groups

Confirmed case counts

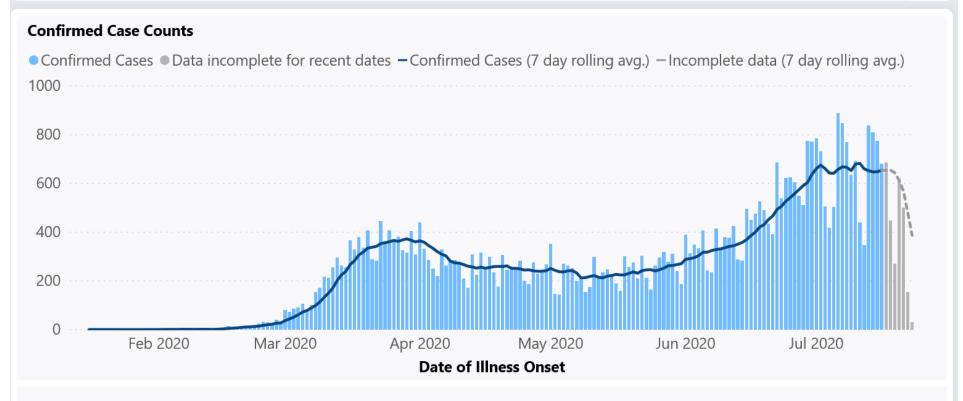

COVID-19 in Washington State

Confirmed Cases and Deaths by Illness Onset Date, and Hospitalizations by Admission Date

This chart shows the progression of the COVID-19 outbreak in Washington by cases, hospitalizations and deaths over time and is known as an epidemiologic curve. The epidemiologic curve is the curve referred to in the phrase, "flatten the curve."

Today's topics

- Behavioral health impacts to healthcare workforce
- Statewide patient transport and transfer
- WA HEALTH state of play
- PPE working group kick off
- Testing work group up next

Behavioral health forecast

 Upwards of 2-3 million Washingtonians likely to experience clinically significant symptoms in next 3-6 months

Healthcare workforce risk factors

- Risk of infection
- Exposure to traumatic or challenging events
- Compassion fatigue
- Burnout
- Role conflict
- Reduced access to PPE

Impacts to healthcare providers

- 70% of COVID providers reporting extreme stress
- Likely to increase through the fall
- Peak in September-December
- Organizations should start planning now:
 - Build resiliency
 - Provide support

Behavioral Health Group support

- Trainings available on request:
 - Disaster psychology
 - Tools for coping with crisis
 - Increasing personal resilience
 - Train-the-trainer modules
 - Healthcare workforce resilience building
- Guidance/resources on behavioral health impacts of COVID-19

Behavioral health resources

Impact forecasts, situational reports, guidance, response resources:
doh.wa.gov/covid19/behavioralhealth

Public-facing behavioral health resources:

coronavirus.wa.gov/wellbeing

Statewide patient transport and transfer

- Yakima, Chelan & Douglas patient transfers
- Coalition support
- RC3 centralized coordination
- Transport and ambulance services
- DOH (WA HEALTH) and EOC interface

WA HEALTH state of play

- Transition to DOH Health Systems Quality Assurance
- Extended support by Microsoft
- PPE data visualization
- Decision support to RC3 operations
- Support for federal reporting requirements

PPE Working Group kick-off

- Infectious disease
- Supply chain SMEs
- Nursing leaders
- ASCs
- Private practice
- LTC
- Labor
- Dentistry
- Department of Enterprise Services
- Department of Health
- Department of Social and Health Services
- Governor's Public Health and Health Care Sector Committee

Objectives

- PPE Public-Private Partnership (Proclamation)
- Sufficient PPE to avoid conservation/reuse protocols
- Transparent PPE inventory, supply chain and usage process
- Adequate PPE surge supply
- Alternate sources of PPE
- State role in PPE procurement

PPE Public-Private Partnership

- 10-day sprint
- Draft proclamation for Governor's signature

Testing Public-Private Partnership work group stand up next

Thank you
