*Lisa Beatha, University Director of Veteran Affairs*

So many of our fallen service members are buried in Normandy, France, and I have always been curious as to why. This summer, I decided to follow my passion to finally visit Normandy. And on Saturday, August 5, 2017 I had the opportunity to go on an all-day D-Day tour, which began at the La Cambe, German

Cemetery, then continued onto Sainte-Mère-Église and the Airborne Museum. The church above is called Sainte-Mère-Église, and the blue stained glass window below the village chapel depicts the landing of the paratroopers who played such a vital role in WWII.

Over seven decades ago men and women from across the globe put on the uniform of this country for our freedom. And since the dawn of WWII in 1944, the GI Bill was created to support veterans. This trip to Normandy reminded me how much the GI Bill has evolved since its creation, and just how much our University system has to offer. I urge you to follow your professional and academic interests, and to utilize CUNY's focused support and developed services that help ensure post-graduation career success for our fellow veterans.

# Veterans in Normandy

In the early morning of 6 June 1944, D Day began on the shores of Normandy with the largest seaborne mission to date. Over 150,000 men as well as mixed units of the U.S. 82nd Airborne and U.S. 101st Airborne Divisions occupied the town Sainte-Merè-Èglise, giving it the claim to be one of the first towns liberated in the invasion.

During my visit I found out more ably how women contributed to the war efforts. My French guide told me of the 6888th Central Postal Battalion was made up of 855 enlisted African American women. There are only four women buried there and three of four are from the 6888 Battalion.

# *Forever GI Bill*

## Harry W. Colmery Veterans Educational Assistance ACT

The President signed into law the Harry W. Colmery Veterans Educational Assistance Act also known as the “Forever GI Bill,” which will bring significant changes to Veterans education benefits. The law is named after the American Legion national commander who wrote the original GI Bill language in 1944, and will allow more Veterans to use the GI Bill and more time to use it. Some of the changes will go into effect immediately, and some are written to go into effect shortly after.

Some new provisions that go into effect immediately include:

- The 15-year time limitation for using Post-9/11 GI Bill benefits is eliminated for Veterans who left active duty on or after January 1, 2013, and qualifying dependents (Fry children who became eligible on or after January 1, 2013 and all Fry spouses).
- Reservists who had eligibility under the Reserve Educational Assistance Program (REAP) and lost it due to the program sunset provision will have that service credited toward the Post-9/11 GI Bill program.
- Certain work-study is permanently authorized; previously it had to be re-approved by Congress every few years.
- The VetSuccess on Campus program will be available to students across the country  
VA will help Veterans to more clearly identify schools that offer them priority enrollment

***Ricardo Garcia, United States Army***

***John Jay College of Criminal Justice***

I am Ricardo Garcia and I served 23 years in the US Army. I received my Bachelor of Arts from John Jay College of Criminal Justice in Fall 2016; majoring in Political Science with a minor in History. My decision to study at CUNY was a direct result of my transition experience from US Army and Army National Guard deployments to civilian life. After the 9/11 World Trade Center Attacks I was called for numerous military and state side deployments. Upon completing my last military operation, I decided that I wanted to refocus my energy on my education. After touring the John Jay campus I learned there was a large population of student veterans taking classes. Because of this I was motivated to socially and academically entrench myself in the John Jay College community. John Jay offered a welcoming environment for service members, veterans and their families. Their unwavering support for all students solidified my decision to attend John Jay.

Upon enrolling I learned so much from the wonderful faculty, staff and administrators at the college. Equally amazing was the commitment and support that John Jay students had for one another. Throughout my years at the college I made great connections and received assistance in resolving any, and, every issue, whether it was academic or personal. To me this serves as a testament to the fortitude of the people who worked and attended the institution. The ability to obtain a phenomenal education and secure my academic advancement was just the icing on the cake. From college President, Mr. Jeremy Travis, to the custodial staff each and every one of these individuals contributed somehow directly towards my education in and outside of the classroom.

As a result of the support I received from the faculty, the students, and the staff at John Jay I decided to continue on pursuing my academic goals after completing my Bachelors. The support and confidence that they gave inspired me to pursue my Jurist Doctorate. Furthermore, because CUNY was so good to me I am making every conscious effort to attend the CUNY School of Law in 2018. Currently I have been practicing for the LSAT Exam and I have sought professors at the college to assist me in ascertaining law school admissions. My final goal is to make my way into politics so that I may represent the amazing citizens of the great New York City/State. My career goal is a direct result of the rigorous yet fulfilling education offered at John Jay as well as the guidance and push towards excellence that I received from my professors. I would not be where I am today if it were not for the CUNY and John Jay veterans community and I am extremely grateful and humbled. My advice for future veterans is,

***“Drive on Soldier until the mission is accomplished! Get Moving!”***
