PREFACE

The curriculum, with varying definitions, is said to be a plan of the teaching-learning process that students of an academic programme are required to undergo. It includes objectives & learning outcomes, course contents, scheme of studies, teaching methodologies and methods of assessment of learning. Since knowledge in all disciplines and fields is expanding at a fast pace and new disciplines are also emerging; it is imperative that curricula be developed and revised accordingly.

University Grants Commission (UGC) was designated as the competent authority to develop, review and revise curricula beyond Class-XII vide Section 3, Sub-Section 2 (ii), Act of Parliament No. X of 1976 titled “**Supervision of Curricula and Textbooks and Maintenance of Standard of Education**”. With the repeal of UGC Act, the same function was assigned to the Higher Education Commission (HEC) under its Ordinance of 2002, Section 10, Sub-Section 1 (v).

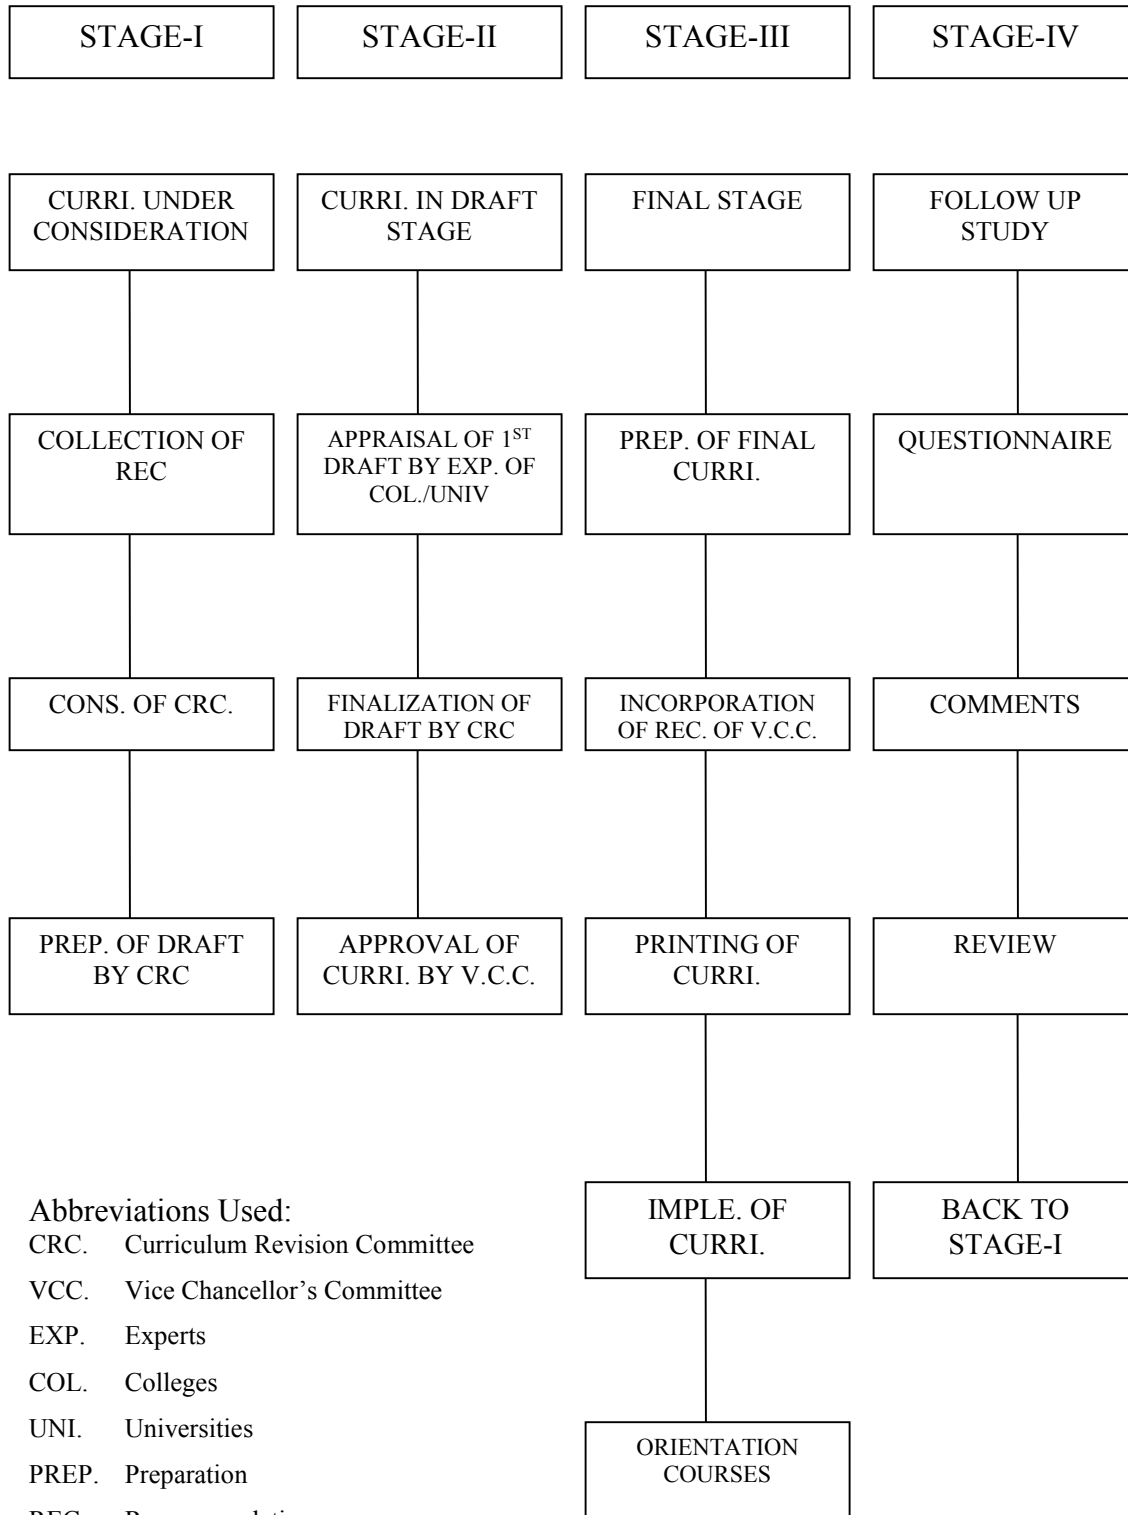

In compliance with the above provisions, the Curriculum Division of HEC undertakes the revision of curricula after every three years through respective National Curriculum Revision Committees (NCRCs) which consist of eminent professors and researchers of relevant fields from public and private sector universities, R&D organizations, councils, industry and civil society by seeking nominations from their organizations.

In order to impart quality education which is at par with international standards, HEC NCRCs have developed unified templates as guidelines for the development and revision of curricula in the disciplines of Basic Sciences, Applied Sciences, Social Sciences, Agriculture and Engineering in 2007 and 2009.

It is hoped that this curriculum document, prepared by the respective NCRC’s, would serve the purpose of meeting our national, social and economic needs, and it would also provide the level of competency specified in Pakistan Qualification Framework to make it compatible with international educational standards. The curriculum is also placed on the website of HEC (www.hec.gov.pk).

AGENDA:

- 1. Scheme of Studies for BS-4 Year Programme**
- 2. Scheme of Studies for MS-2 Year Programme**
- 3. Pakistan Studies (Compulsory)**

Mission Statement:

This curriculum has been developed with a mission to inculcate among the students a better understanding of Pakistan and its influence on the evolution and progress of the society, so that they may acquire proper perspective of thoughts and actions taken in the past. This approach will furnish the upcoming generation with knowledge and skill to promote a sense of patriotism and to develop universal human values in the society.

BS- 4 Year Degree Programme in Pakistan Studies Introduction / Objectives

- In order to create awareness among the students about the “Vision of Pakistan”, as given by our leaders during the freedom movement and after the emergence of Pakistan, the rationale of Pakistan’s creation is highlighted. This approach will, hopefully, bring an element of objectivity in explaining the creation of Pakistan. It will also educate the students about the nature of the state of Pakistan as envisioned by its Founding Fathers. This approach is also useful in educating the students about the taxonomy of the state and in motivating them to develop a sense of patriotism as well as an urge for creative reconstruction.
- In view of aforementioned objectives, the course framework is sought to be issue-oriented. It seeks to cover Pakistan’s cultural heritage since ancient times, Muslim political thought over the centuries, constitutional development since 1947, political systems and its functioning, public policies and reforms, agro-industrial projects, urbanization, social change and transformation, political development and modernization, as well as the democratization process through resource development and management, good governance and mass socialization, mobilization and participation. This multidimensional course framework seeks to encompass wide range of issues pertaining to nation-building and state-structure in Pakistan, and provides awareness about the remedial measures for overcoming impediments inherent in our cultural and political fabrics.
- The issues of human rights have been given equal weight, so as to provide guidelines for reshaping the Pakistani society on constructive lines, and ridding it of all sorts of evils, impediments, exploitation and oppression, as envisioned by Quaid-i-Azam Muhammad Ali Jinnah.
- Since a state cannot survive without a body of citizens integrated and united as a coherent nation, the issues concerning Pakistan’s march towards

actualizing its vision of a modern-liberal Islamic republic have been dealt with in some detail.

- This curriculum seeks to develop students' analytical and critical capabilities and broaden their vision. This will enable them to craft careers of their own choice. This will be done through extensive seminars and research projects for the most part. The courses seek to inculcate in students qualities of hard working, futuristic outlook and initiative to excel by way of healthy competition. These courses will make the students most sought after persons in the job market and by the employers due to their perceptible outstanding merit in the fields of teaching and research.
