2:b New Course Development:

1. LAND 4400/6400 Jekyll Island Watercolor Maymester,

This course was first offered in 2011 as a 3 credit Maymester elective. This course was developed to teach site observation, perspective drawing, and watercolor techniques to students in the College of Environment and Design. This course enhances student design and graphic ability. Research has shown a connection between drawing ability, design, and problem solving. This elective provides training in an advanced graphic media and practice in the field.

2. FYOS 1001 – Environmental Awareness Through Landscape Drawing

This course was first offered as a one credit freshman seminar as part of the UGA Freshman Year Odyssey Program launched in the fall of 2011. In this course students are exposed to essays on environmentalism, conservation, and given field instruction in observation and perspective drawing as an introduction to multiple lines of teaching, research and service at UGA.

2:c Professional Continuing Education Courses:

1. 2014. Therapeutic Landscapes: Research, Theory, and Application to Design. UGA CED Landscape Shortcourse 2014.
2. 2011, 2013, 2014. Landscape Architecture Registration Exam (LARE) Section D, Georgia LARE Review
3. 2010. Invited lecture at the Healing Garden Shortcourse at the Georgia Center for Continuing Education. “Post-Occupancy Evaluation.”

2:d Supervision of Student Research:

1. Major Professor (MLA Theses and MEPD Practicums at UGA)

Peyton Peterson, (2014) “Post Occupancy Evaluation and Design Recommendations for the Children’s Garden at Duke Medical” (in progress)
