Sam Splint

The Sam Splint Original is an extremely pliable multi-purpose splint and is built from a thin core of aluminium alloy, sandwiched between two layers of closed cell foam. Bent into various shapes and curves, it becomes extremely strong and supportive for any fractured or injured limb.

Available in a range of sizes, it is lightweight, X-ray penetrable, reusable, waterproof and very portable – almost any bone in the body can be splinted.

Philly Patriot Collar

The Philly Patriot Collar is moulded from high density polyethylene with foam padding and a patented chin support. This collar restricts cervical spine flexion, extension and rotation to promote patient recovery. The one-piece design enables efficient storage where space is limited. The multi-height adjustment fits almost all adults (four positions).

The one-piece design can easily be used; simply measure patient, adjust and lock selected height and apply. For either a supine or seated position, application is quick and easy.

Key Features

- Adjustable hook and loop fasteners ensure accurate fit
- Anterior and posterior flex tabs
- Oversized trachea opening
- Easily customised for individual requirements
- Latex-free

Actimove® Genu Tri-Panel Knee Immobiliser

Actimove® Genu Tri-Panel provides effective immobilisation of the knee and helps to reduce pain following trauma or surgery. The 'tri-panel' design allows splint adjustments for a broad spectrum of patient leg circumferences and the hook and loop sensitive closure system permits easy application and removal. Removable and adjustable aluminium stays (2 posterior and 2 on each side panel) allow good anatomical fit.
