Some of the items on there are nigh unattainable, others may have been posted already. Perhaps, the original requesters forgot or gave up. Who can say? If you have any of these hidden gems, by all means, post them, if they be clean. If not, submit them to Mageguru or one of the other cleaners. Their loose morals and adamantium katana' slice through watermarks and digital signatures like scurvy through a pirate. "Da Wishlist is/was, in some ways the Sith to Da Archives Jedi. It represents unfulfilled dreams, shattered hopes. Some of the items on there are nigh unattainable, others may have been posted already. Perhaps, the original requesters forgot or gave up. Who can say? If you have any of these hidden gems, by all means, post them, if they be clean. If not, submit them to Mageguru or one of the other cleaners. Their loose morals and adamantium katana' slice through watermarks and digital signatures like scurvy through a pirate. Rest assured somebody will squirrel them away in some dusty corner of their HDD." -Anon
