Dear Datto RMM User;

The CyberDrain Documentation PDF has been deprecated and is no longer being served. Instead, please consult this link in the documentation and, within the spreadsheet, check the yellow "CyberDrain Components" section.

This new document contains regularly updated information on all CyberDrain Components, so consider bookmarking it.

Information on the Office/Microsoft 365 Components specifically can be found at the very bottom of the spreadsheet. Please read that carefully before contacting Support.

Warm regards;
Your Datto RMM team
