

Wilsonart®

DECORATIVE LAMINATE

Decorative Building Products

Timeless design with durability to match

A world-leading producer of decorative surfacing products, Wilsonart® provides an extensive range of attractive and practical laminate solutions for domestic, commercial and industrial applications. With an emphasis on beauty and durability, Wilsonart takes pride in its ability to exceed expectations in every way.

*Terms and Conditions apply

All Wilsonart® Laminates are suitable for use in commercial and residential settings. Wilsonart has received independent SCS Certification of minimum 20% post-consumer recycled content, and GREENGUARD® Indoor Air Quality and GREENGUARD Children & Schools Certifications from the GREENGUARD Environmental Institute under their standard for Low Emitting Products, which can assist you in earning

LEED® certification. Wilsonart Laminates have also received SCS Indoor Advantage™ Gold Certification for further assurance (see certificate for product types). Wilsonart HD and most Wilsonart Premium Laminates are FSC-C022201.

Decorative Building Products

WILSONART THE COMPANY

Wilsonart International was founded in 1956 in Texas, USA, by Ralph Wilson, Sr., a retired laminate industry executive. There were 12 laminate companies operating in the American market, and Wilson had no intention of trying to compete with them. He simply wanted a hobby. Throughout the 1960s, however, Wilson's "hobby" grew into a fully fledged business, surging ahead of its competitors with

the winning formula of a dedicated local workforce, high-quality products, and good, old-fashioned commitment to customer service.

Today, Wilsonart is the top laminate brand in the USA and one of the leading brands worldwide. Operating in 57 countries, Wilsonart is universally regarded for consistent excellence in design, quality and professionalism.

PARTNERING WITH HVG

By forming a long-term partnership with Wilsonart, HVG is now able to provide the Australian market with more laminate options than ever before. With around 200 references in the Wilsonart collection and an ever-evolving selection of unique surface finishes, discerning designers, builders and homemakers are free to explore a virtually unlimited world of imaginative possibilities.

All Wilsonart Laminates are suitable for use in commercial and residential settings. Wilsonart has received independent SCS Certification of minimum 20% post-consumer recycled content, and GREENGUARD® Indoor

Air Quality and GREENGUARD Children & Schools Certifications from the GREENGUARD Environmental Institute under their standard for Low Emitting Products, which can assist you in earning LEED® certification. Wilsonart Laminates have also received SCS Indoor Advantage™ Gold Certification for further assurance (see certificate for product types). Wilsonart HD and most Wilsonart Premium Laminates are FSC-C022201. To learn more about the countless design opportunities available through HVG Decorative Building Products, visit hvgbuilding.com.au.

Wilsonart Ranges

Available in a wide variety of tasteful colours, patterns and textures across three unique ranges, Wilsonart laminates are a smart, stylish choice for any surface. These high-quality laminates offer unmatched durability and affordability for numerous domestic, commercial and industrial applications.

AEON™ & HD® RANGE

Wilsonart's most exclusive range delivers beauty that doesn't fade, with AEON Enhanced Performance Technology for maximum durability in a superb selection of premium designs.

TRACELESS RANGE

A fusion of good looks and state-of-the-art fingerprint-resistant technology, Traceless is the decorative surfacing solution for demanding applications where flexibility and style are paramount.

AUSTRALIANA RANGE

Created with Australian tastes in mind, this diverse range draws on the timeless appeal of wood, charming modern earth tones, vivid tropical colours, stones and patterns, among other stunning natural inspirations.

Finishes

Wilsonart Laminates offer a range of textured finishes that complement the full selection of surface designs. In this section you'll find the finishes suited to the AEON & HD and Australiana ranges. Alternate textures to those displayed are available with a slightly longer lead-time, and vary per design.

AEON™ & HD® FINISHES

These premium surface textures have been specially created for the Wilsonart's AEON & HD range, providing a hardwearing finish that will retain its appeal for many years.

35 MIRAGE

Subtle variations in matte and gloss finish connect to nature's own AEON finishes: rough and weathered, smooth and polished.

01 HIGH GLOSS

A mirror sheen finish, which gives a smooth, brilliant appearance. AEON High Wear Gloss.

12 SOFT GRAIN

A low gloss, matt wood texture with a slight gloss in random 'ticks'. AEON.

28 GLOSS LINE

Woodgrain linear texture having wider matt-gloss quality along the sheet.

55 GLAZE

A layering of matt features over a glaze of semi-gloss, creates this AEON time worn effect.

07 SATIN

A textured finish which reproduces a high sheen of waxed finishes. AEON.

18 LINEARITY

A directional texture running the length of the sheet, having a narrow, AEON random, matte-gloss linear quality.

22 ANTIQUE

Varying low-gloss finish indicative of aged stone. AEON.

AUSTRALIANA FINISHES

Meticulously matched to Wilsonart's Australiana range by our design experts, these textures bring a delightful tactile element to any woodgrain, stone, pattern or colour design.

09 MARKERBOARD

High Gloss Markerboard surface.

38 FINE VELVET

A smooth textured finish with moderate reflective value.

90 CRYSTAL

A very finely beaded texture that minimises smudges and finger marks.

NAG NON-AEON GLOSS

A high gloss finish in a non-AEON quality.

M MATT

Textured finish with a moderate reflective quality.

TP TRACELESS

Super matt Fingerprint Proof Premium.

WL WOOD LINE

An integrated natural linear texture.

WS WOODEN SPIRIT

A brushed wood stripe structure.

20 SILKY MATT

A pleasant solid surface feel that's not cold to the touch.

60 TEXTURED MATTE

Textured finish with a moderate reflective quality.

C CONCRETE

A matt rough-textured finish.

NM NATURAL MATT

A non-directional finish with moderate reflectivity.

S SATIN

Ultra smooth matt surface with a soft and luxurious feel.

TS TRACELESS

Super matt silky feel.

WM WOOD MATT

A universal discreet wood pore texture which creates the authentic appearance of timber with a matt non-reflective surface.

Wilsonart Specialty Laminates

FOR SURFACES THAT TAKE A POUNDING

From fire to chemical resistance to high-traffic to vertical writing surface needs, Wilsonart Specialty Laminates offer surfaces uniquely suited to the challenges of performance interiors. These ultra-strong laminates deliver exceptional functionality and remarkable durability.

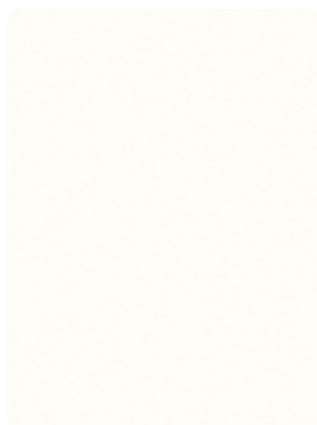

Chemsurf[®] Chemical Resistant Laminate

FUNCTIONALITY IN TOP FORM

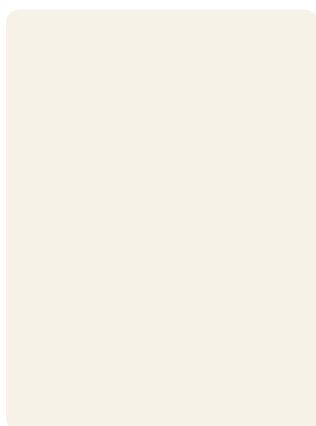

If harsh acids, bases and solvents are a problem for your surfaces, Wilsonart Chemsurf chemical resistant laminates are the answer. Specifically designed for highly corrosive environments, Chemsurf provides exceptional chemical resistance without compromising on style. Lighter and less expensive than slate, stainless steel or epoxy, Chemsurf is also ideal for applications where harsh cleaning agents are in use and may damage other decorative surfaces.

Markerboard Laminate

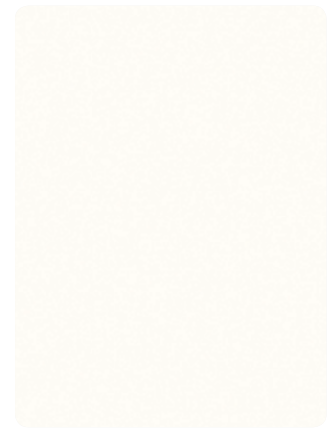

LAMINATE THAT'S WRITE ON

No matter where it's used, from conference rooms to hospital cafeterias, Wilsonart Markerboard Laminate offers great versatility and decorative opportunities, especially when compared to porcelain or epoxy-coated steel. As a dual-purpose board for projection and dry or wet erase uses, Wilsonart Markerboard Laminate is also easy to maintain and to clean.

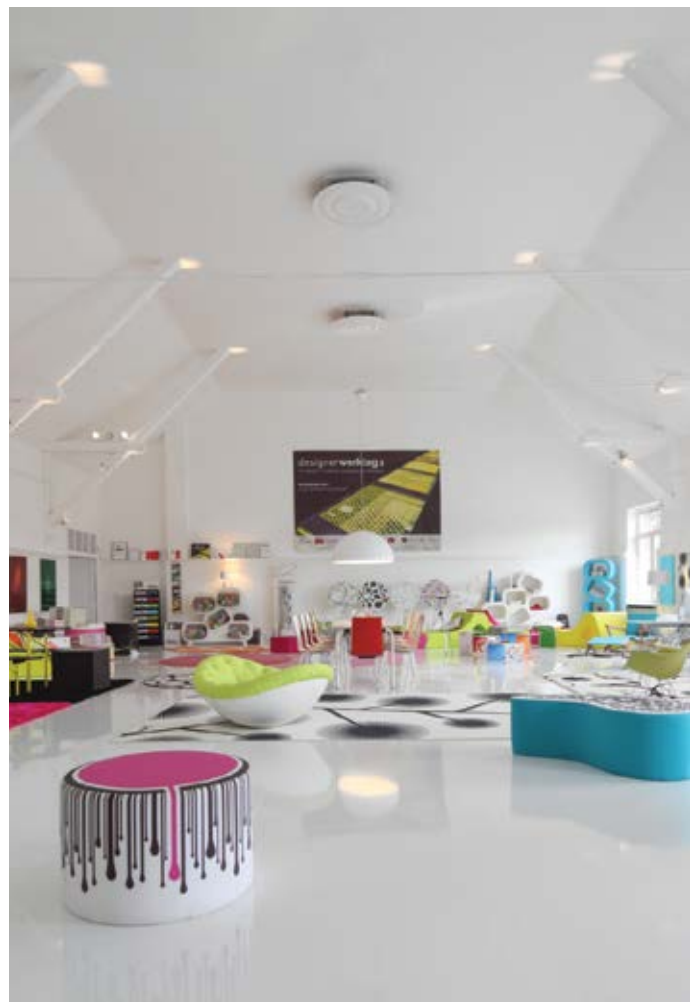

Wilsonart Markerboard Laminate has received UL GREENGUARD Gold Certification for Low Chemical Emissions.
