

Dell EMC PowerEdge Server with an ArcGIS® Enterprise Standard or Advanced Annual Subscription License

For US Customers Only

ArcGIS Enterprise is a full-featured mapping and analytics platform that includes a powerful GIS server plus dedicated web-based GIS infrastructure to organize and share your work.

There are two server packages available, one with a four-core server and one with an eight-core server. If you need a dedicated database server for your Enterprise Geodatabase, a separate Microsoft SQL Database Server option is offered for consideration.

If you do not see the exact server configuration you are looking for, please call your local Esri regional office or Dean Garner at 909-369-4441, for custom solutions.

Terms of Offer

Price is applicable for the United States only, excluding Guam, Puerto Rico, and the Virgin Islands. Price includes shipping and handling costs for the hardware only. Applicable sales tax is not included.

Both server packages (four cores and eight cores) come with an ArcGIS Enterprise **Annual Subscription License**.

This offer is only provided as a bundled hardware/software packaged system. Esri® software is not preinstalled on the server. See Esri Software Delivery below.

Order must be received by December 30, 2022.

Delivery

Esri Software

ArcGIS Enterprise is delivered via electronic download from Esri. Users will receive an e-mail communication with a token that directs them to their Esri Global Account. Customers that do not have an Esri Global Account must create one before they can use the token to receive access to downloading software from the MyEsri site. Existing customers that already have access to the MyEsri site will already have access to the ArcGIS Enterprise download. Esri software installation services are available, if needed, and are included on page 5 of this offer.

Hardware

Delivery is based on manufacturer availability. In most cases, once all proper paperwork is received as specified above, delivery will occur within 30 days. Pandemic chain supply issues may affect delivery schedules.
