

[AVR-5805CI] Advanced THX® Ultra2 Multi-Channel/Zone A/V Surround Receiver with XM and Audyssey enhancements

The AVR-5805CI is the third edition of the world's first receiver with 10 built-in 170-watt amplifiers, providing up to 22 channels of surround sound. The AVR-5805CI has new radio and calibration options yielding even greater performance over its two predecessors enriching the home theater experience to a new pinnacle. It also carries the new CI mark for the custom install applications.

- Audyssey MultEQ XT Pro calibration installer ready
- Audyssey MultEq Auto-Setup/Room EQ
- XM Radio Ready
- Ethernet Internet Radio
- Expanded HDMI Inputs
- DDSC-Digital surround circuitry
- Advanced AL24 Processing
- DENON LINK III, enabling high-speed, high-grade digital signal transmission
- THX® Ultra2 certified
- PlaysForSure Connectivity
- One of three world's first receivers to offer scaling for 480p DVD sources

[AVR-4806CI] Advanced THX® Ultra2 7.1 CH Reference A/V Surround Receiver

The AVR-4806CI is the second edition of one of the world's first premium A/V receivers to offer XM Satellite Radio functionality and the first to provide analog-to-HDMI video conversion to streamline video switching and to preserve maximum content quality for every source in your system.

- HDMI 1080p switching
- 1080p Upscaling
- PlaysForSure Ethernet Connectivity
- DDSC-Digital surround circuitry
- Pure Direct mode and AL24 Processing Plus
- DENON LINK III, enabling high-speed, high-grade digital signal transmission
- THX® Ultra2 certified· Auto Set-Up/Room EQ
- XM Radio Ready
- Audyssey MultEq Auto-Setup/Room Eq
- One of two world's first receivers to offer scaling for 480p DVD sources

[AVR-2307CI] 7.1 CH/5.1+2 CH Independent Zone Home Theater Receiver

The AVR-2307CI has been designed with technical improvements to bring it to CI status, making it the choice of installers for applications in the mid priced HD home theater environment. HDMI 1080p digital video circuits have been added to accommodate HD digital video sources such as cable and satellite set top boxes. Video up conversion to HDMI as also been added so that Composite, S-Video and Component sources can be sent out the same HDMI connection to the HD monitor for ease of use. Add to that auto calibration, 7 DSP surround modes, and a litany of adjustments, and you will find this receiver to deliver top performance in our current fast paced hi tech home theater world.

- 100 watts x 7 channels
- RS-232C system control
- 12 volt assignable trigger outputs
- XM Radio Ready (Connect and Play antenna sold separately)
- Serial IR ports
- Dedicated iPod port for optional ASD-1R D-dock
- Auto setup and room EQ with included DM-S205 microphone

[AVR-1907] 7.1 CH/5.1+2 CH Independent Zone Home Theater Receiver

The AVR-1907 incorporates many key features so that it will become the core to a powerful home audio system. With the ease of connection and control features this receiver has to offer, it's easy for the installer or home owner to connect and setup this receiver for optimum performance. The high performance capability of this receiver is fine tuned with the auto calibration feature, as it can compensate for various room acoustics. An Analog Devices Melody 100 32 bit DSP processor is at the heart of the decoding system providing stunning realization, making the listener feel like they were

there. Additional multi-room capability gives further flexibility from this same system to another area of your home.

- 85 watts x 7 channels
- 3 assignable component video inputs
- Dual-room dual-source multi-zone output
- 7.1 channel analog EXT input for HD discrete audio sources
- XM Radio ready (Connect and Play antenna sold separately)
- Discrete zone 2 pre-amp outputs
- Serial IR remote ports
- Dedicated iPod port for optional ASD-1R D-dock

[AVR-1707] 7.1 CH/5.1+2 CH Independent Zone Home Theater Receiver

The AVR-1707 7.1 surround sound audio receiver faithfully reproduces signals from many popular sources like DVD players and set top boxes such as cable or satellite receivers. Equipped with 7 channels of powerful amplification, the AVR-1707 provides peak performance even into demanding speaker conditions. The dynamics this receiver can produce is truly stunning, which will keep you glued to your movies yielding ultimate enjoyment for hours at a time. With features like Video Up Conversion, Audio Delay control and our new Simple Pre-programmed Remote, connection, setup and operation can be easily achieved.

- 75 watts x 7 channels
- 7.1 channel analog EXT input for a SACD, DVD-Audio, or discrete HD sources
- Auto setup with included microphone
- 3 x 100MHz assignable Component video inputs
- XM Radio ready (Connect and Play antenna sold separately)
- Dedicated iPod port for use with optional ASD-1R Denon D-dock (No OSD)
- Serial IR remote ports

[AVR-1507] 7.1 CH/5.1+2 CH Home Theater Receiver

The AVR-1507 updated with some of the latest features and processing, allows Dolby Digital and DTS sources to stand out from the crowd, resulting in an awesome home theater experience. Armed with a bunch of convenience features like XM satellite radio ready, iPod connectivity and jacks for home video recorders, this receiver will pack a punch against any receiver in its class. Carefully designed and built to high quality standards, the AVR-1507 will provide years of enjoyment.

- 75 watts x 7 channels
- Analog Devices Melody 100 32 bit floating point DSP processing
- 7.1 channel analog EXT input for HD audio sources
- 3 Component video inputs
- 24bit/192kHz A/D
- Dedicated iPod port for use with optional ASD-1R Denon D-dock (No OSD)
- Variable low/high-pass crossover

[AVR-987] 7.1 CH/5.1+2 Home Theater A/V Surround Receiver

The new AVR-987 adds many new features to the already touted nine hundred series receiver line. This receiver will become the center of any high end A/V system with expanded audio/video switching and integration capabilities for third party controllers. With a high current power section, demanding speakers are driven to their potential, bringing out the true theater experience. Independent two source two zone switching provides control of the surround room and a second zone at the same time.

- 110 watts x 7 channels
- HDMI 1.1 switching for 1080p video
- HDMI 24-bit/192-kHz 2ch and 24/96 7.1ch compatible
- 32 Bit Floating Point Audio Processing
- RS-232C Port For Third Party Remote Controllers
- Multi-source/multi-zone capabilities
- Two 12 Volt Triggers
- Dedicated iPod port for optional ASD-1R D-dock
