Explosion

Gas Light Blue

The Diablo Inferno is the first production model that features RockenWraps custom drum set coverings as a standard. These heat-resisitant, laser-printed, high-impact polymer wraps feature exclusive photo-realistic flame graphics by renowned graphic artist Stephen Jensen. Each wrap is produced for DDrum in the USA by RockenWraps.

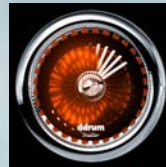

The Diablo drum package is the first built specifically to stand up to the demands for playing speed metal. Two 20"x22" kick drums with lacquered Maple hoops, 8"x10" and 9"x12" rack toms with DDrum's new SpearHead tom mounts, 14"x14" and 14"x16" floor toms for deep, penetrating lows, and the new 7"x14", fifteen-ply snare drum.

A heavy, high tension hardware package is included to stand up to full-throttle abuse, and two Agenda 100 dual-chain kick pedals will assure that every stroke is quickly transferred to the heads. Choose from "Explosion" or "Gas Light Blue" and all that is left is the chops to play it; are you brave enough?

Suggested Retail Price = \$1999.00
