

InfraRack

Design for Next-Gen Data Centers

InfraRack X6 Networked Series

Environmental

Power

Security

Cooling

Software

>>> Key Benefits

Traditional racks no longer satisfy the market needs as today's data centers have to be well-managed, more efficient and powerful.

Intelligent racks are required to manage and control the power, cooling, environmental and rack access. Understanding an implementation of intelligent racks in data center is a complex task, Austin Hughes optimizes and consolidates a variety of rack solutions on your behalf. The new InfraRack series provides an integrated intelligent rack system. It is an easy approach to offer the rack essentials in the 21st century data centers.

RoHS2 COMPLIANCE **REACH** **Green Production**

InfraRack is recognized as RoHS2 and REACH compliant by a SGS accredited test laboratory.

ISO-Certified

9001 14001

The design and manufacturing process of the InfraRack series achieves BSi ISO9001 quality control plus ISO14001 environment standard.

Loading

Designed for heavy / medium duty applications, the InfraRack series has passed the loading test.

Benefits

- **Integration Base** InfraRack can be integrated with Infra-family intelligent devices for security, power, cooling & environmental management.
- **Remote Management** To maximize users' benefits, InfraRack can be connected to allow a centralized management over network.
- **Expandability** Designed for the global scalable data center, the InfraRack network is expandable to max. 3000 intelligent racks.
- **High Quality IT Rack** Well-engineered InfraRack covers heavy duty and medium duty series for a variety of requirements.
- **Complete Accessories** Austin Hughes offers a complete 19" rack solution. A comprehensive range of accessories for cabling, air blanking and KVM screens are available.

Total Rack Solution

Our new design, comprehensive valued options and extensive product range offer complete solutions for InfraRack series.

- >>> **Access Control** • Smartcard access control gives data centers a higher level of rack level access security
- Networked version enables complete smartcard rack access management with software

- >>> **PDU** • Intelligent kWh PDU for remote management
- Metered PDU and ATS available for different requirements

- >>> **Cooling Fan** • Intelligent fan unit allows remote management by software
- InfraCool fan unit provides various fan unit form factors for different cooling requirements

- >>> **Sensors** • A wide range of sensors for complete environmental monitoring
- Maintain optimum operational conditions within the data center

- >>> **AirFlow** • Air Blanking Panels prevent air recirculation by occupying unused rack space
- Rack Seal Kits prevent air loss underneath the racks and from the gap between racks

- >>> **Cabling** • Framework allows multi-dimensional cable pathways
- Numerous efficient cabling options

- >>> **KVM & Screen** • LCD console drawers combine display, keyboard and touchpad in 1U rack space
- KVM allows remote or local access and control to multiple servers in the rack

Contents

Part < I >	Infra-X6-SR - Heavy Duty Rack	P.1 - 2
Part < II >	Infra-X6-NSR - Medium Duty Rack	P.3 - 4

>>> Infra-X6-SR Heavy Duty Rack

SR Key Highlights

- Heavy duty server rack
- Access control w/ **MiFare** or **Proximity** smartcard handle x 2
- Control box for access control, intelligent PDU, sensor & cooling fan
- LED light bar x 1
- Temp. sensor x 1 w/ 2M cord
- 600 & 800 wide models meet up-to-date requirements of global data center
- Perforated rack doors ensure ideal airflow direction
- Well-engineered to accommodate tool-less mounting PDU x 4
- Framework allows multi-dimensional cable pathways and numerous efficient cabling options
- Easy to deploy and adaptable to Aisle containment to achieve efficient airflow management
- Quick release mechanism design for doors and split side panels
- Tool-less adjustment for front and rear 19" rails

>>> Access Control

The patented **InfraSolution®** X-600 smartcard handle is designed for rack access control.

Control Box X-2000, designed for **Rack Smartcard Access + PDU / Fan / Environmental Management**, consolidates the smartcard access components and integrated devices such as integrated PDU, cooling fan and environmental sensors in a single rack. For a centralized management, all control boxes can be connected under wired networks.

To ensure 100% right door detection, InfraRack is equipped with high quality, durable and precise door sensors for front and rear door.

Key Hardware Installation Diagram - InfraBox / Handle / Door Sensor

To maintain optimum operational conditions in data centers, getting instant notification of environmental fluctuations is vital. **InfraRack** offers a wide range of sensors for complete environmental monitoring, including temperature, humidity, smoke, shock and water leakage. Peripherals such as LED light bars and flashing LED beacons, are designed for use with the sensors for a comprehensive local environmental monitoring solution.

[Details](#)

Temp. + Humid. Sensor

- One sensor for temperature & humidity
- Low profile and light weight design with a magnetic base for easy affixing to rack

Part no. : IG-TH01-2M 2M cord
IG-TH01-4M 4M cord

Temp. Sensor

- Detection for temperature
- Low profile and light weight design with a magnetic base for easy affixing to rack

Part no. : IG-T01-2M 2M cord
IG-T01-4M 4M cord

Water Sensor

- Fluid leakage detection
- 5M rope round the rack bottom to detect any fluid flowing to the rack area
- IP65 cable joint connectors provided

Part no. : IG-W01-3M 3M cord

Smoke Sensor

- Safely operated smoke detection

Part no. : IG-S01-1M 1M cord
IG-S01-3M 3M cord

Shock Sensor

- Alert the physical vibration on the rack

Part no. : IG-V01-1M 1M cord
IG-V01-3M 3M cord

LED Beacon

- Highly visible for alerting user to alarm status

Part no. : IG-FB03-1M 1M cord
IG-FB03-3M 3M cord

LED Light Bar

- Auto ON / OFF by door sensor detection
- Manual ON / OFF by software remote
- Magnetic base for easy affixing to rack
- Dimension (W x D x H) : 20 x 300 x 12 mm

Part no. : CLB-IX-002 2M cord
CLB-IX-003 3M cord

>>> Cooling Fan

The biggest challenge in today's data center is thermal management. Cooling the equipment in an enclosed rack has always been important. **InfraCool**® intelligent cooling fan units can be integrated to have both local & remote management capabilities. Front panel LED and buttons allow the local monitoring and individual fan kit switch on / off. Moreover, fan speed can be adjusted automatically according to the temperature detected by the sensor. It provides adequate airflow and minimizes the operation cost for data center energy consumption.

With today's increasing demand for power management solution, a complete suite of rack PDU models is required specifically to help data center IT managers meet their rapidly escalating power requirements.

InfraPower® intelligent PDU can be integrated to provide a power management solution from PDU Level to Outlet Level kWh monitoring. Switched models are also available for remote outlet switching on / off. Our PDUs are also offered in many sizes and configurations depending on voltage, current, outlet number and type of connections.

Accessories

Lockable IEC Outlet PDU

- Secure plugs and prevent accidental disconnection
- Compatible to generic IEC cords and hence cost saving in locking cables

Individually Fused IEC Outlet PDU

- Prevent an overload of the active equipment
- Avoid short circuiting the entire IEC outlet PDU

Temp. & Humid. Sensor Temp. Sensor

- External sensor with 2M or 4M cord
- Plug & Play
- Low profile design with magnetic base for easy affixing to the cabinet
- Pair of sensors can be connected to one single W series PDU meter

IG-TH01-2M / 4M
IG-T01-2M / 4M

Surge Protector EMI Filter

- Surge Protector :**
- Enhances the device protection
 - Grounds unwanted voltages above safe threshold

- EMI Filter :**
- Maintains power stability
 - Suppresses conducted interference on a signal / power line

Colored Power Cords

- Enhance cable management and visualize power sources

C13 - C14 6ft cables :

- EC-6PC1314-B **Blue**
- EC-6PC1314-R **Red**
- EC-6PC1314-O **Orange**
- EC-6PC1314-G **Light Grey**

C13 - C14 10ft cables :

- EC-10PC1314-B **Blue**
- EC-10PC1314-R **Red**
- EC-10PC1314-O **Orange**
- EC-10PC1314-G **Light Grey**

>>> Network Setup

There are 3 connection ways - **Daisy Chain**, **Star**, **Mixed**.

Which connection users apply is related to the site scale, environment and users' requirements.

< I > Daisy Chain

Connect all InfraBoxes by Cat5/6 cable, and no any network switch required

Key Benefits

- Simple connection
- No network switch required
- Appropriate for small networks

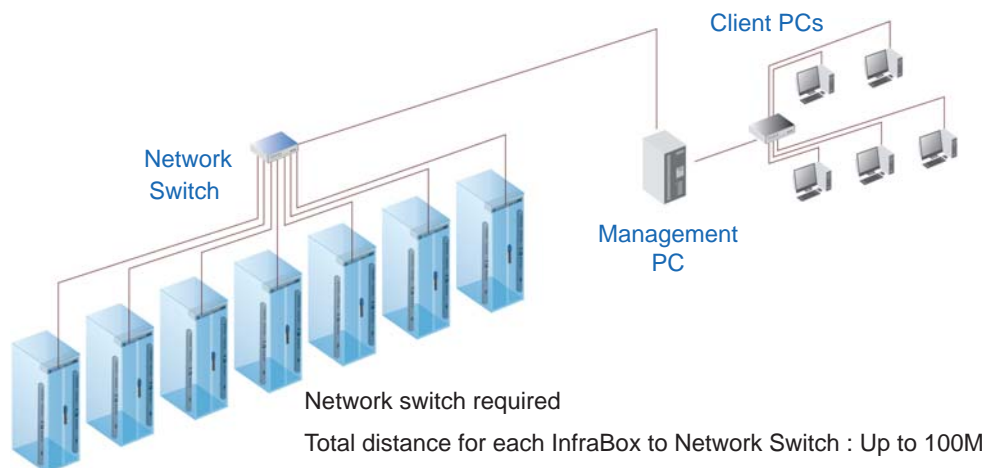

< II > Star

Connect to network switch by a point-to-point connection

Key Benefits

- Appropriate for large networks
- Increased fault tolerance
- Easy for troubleshooting

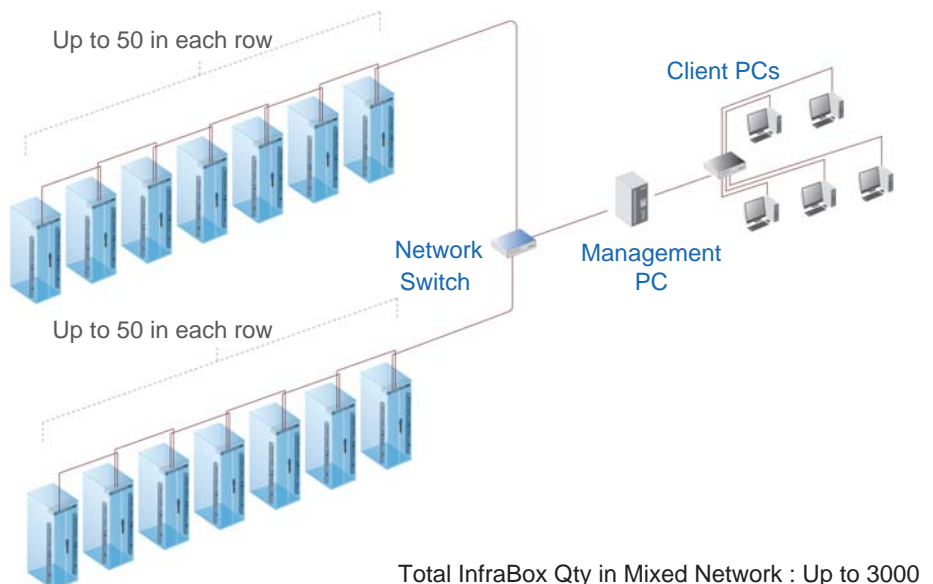

< III > Mixed

Combining daisy chain with star connection

Key Benefits

- Most effective and practical for large scale of networks
- Take all advantages of Daisy Chain and Star connection
- Flexible to meet a variety of network environments and needs

< I > Data Center

By mixed connection, InfraSolution X can be scalable up to 3000 racks. X-2000 InfraBoxes can be coexisted in the same network. Users are enabled to manage and remotely access all racks under a centralized and user friendly GUI.

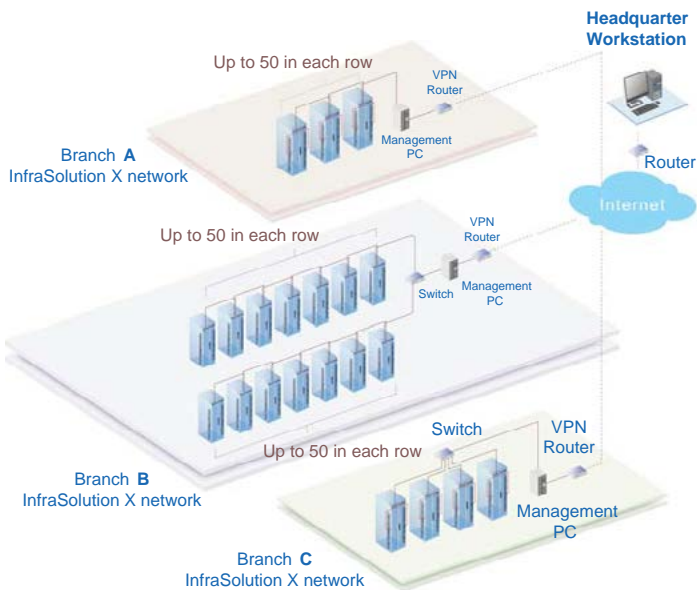

- Connect the 1st InfraBox in each daisy chain to the network switch
- Connect the management PC and client PCs via the network switch
- Up to 3000 Infraboxes / Racks

< III > Branches

For a global or scalable company, it is vital to remote access and monitor the network of their nationwide and worldwide branches. InfraSolution X provides an ideal solution to keep an eye on rack access security and environmental condition.

InfraSolution X Software License is required for each remote site / management PC

< II > Intelligent Building

It is essential for a Multi-Storey Intelligent Building to be applied with a centralized management system for the building's mechanical and electrical equipment such as security, power, ventilation, and lighting systems, etc.

InfraSolution X system allows equipment to be distributed throughout a building simply by deploying an Ethernet network. To keep capital costs down, InfraSolution X can also be cascaded between boxes up to 100m over a Cat5/6 cable. Signal weakness problem for long distance between InfraBoxes can be solved by applying network hubs with repeater function.

Control Room

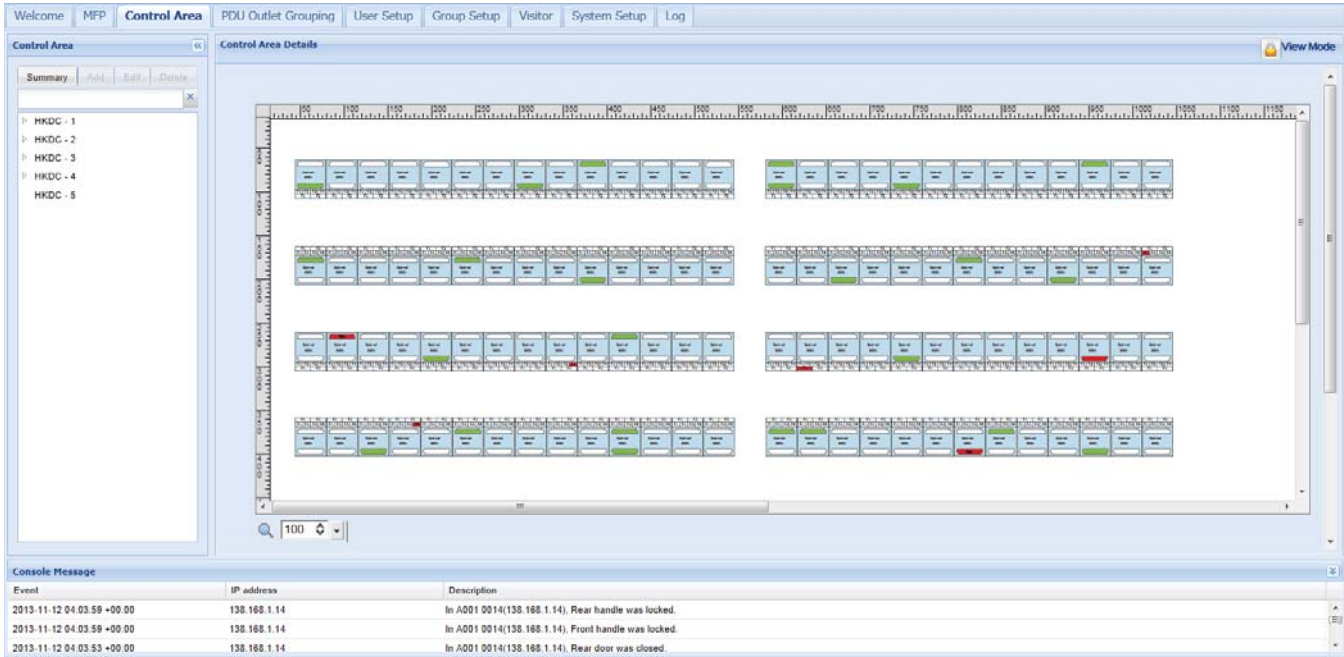

Setup Scenario in the whole Intelligent Building

- Connect the InfraSolution X network in each floor via the network ethernet / fiber switch
- Up to 3000 Infraboxes / Racks

InfraSolution® X Manager X-ISM is a LICENSED rack management software to monitor up to 3000 racks remotely.

Each InfraBox connects a pair of smartcard handles to secure the rack access control, and connect a variety of sensors to provide an environmental monitoring solution. To enhance the functionality, up to 1920 x kWh PDU / 960 x Fan Unit can be monitored through InfraSolution X Manager as well. Up to 100 concurrent users can access the management software remotely to achieve the demand of multi-user / multi-tasking in nowadays' time sharing data center operation.

>>> Door & Cladding - Options

Front / Rear Door

600W

Glass

Toughened and safe glass w/ single point handle lock

Steel Vented

Ventilated infill area w/ single point handle lock

Fully Perforated 2 Co-location

Glass or steel door available w/ single point handle lock
** Individual key lock option

800W

Glass

Toughened and safe glass w/ single point handle lock

Steel Vented

Ventilated infill area

Fully Perforated 2 Co-location

Glass or steel door available w/ single point handle lock
** Individual key lock option

Side Panel

Fully Perforated Split

Allows heat exhaust from high density equipment

SR only

Fully Perforated

Allows heat exhaust from high density equipment

NSR only

Top Cover

Plain Top

Ideal for air-blanked racks

Fan Top

The ventilation design enhances cooling capabilities by top fan tray

Standard Color

- Black (RAL 9005)
- Grey White (RAL 9002)

** Custom color on request

Fully Perforated Door

- Door ventilation up to 80% perforated area
- Stylish hexagon pattern

Unit : mm

Based on measurements at multiple data centers, more than 50% of valuable conditioned air cannot reach the air intake of IT equipment due to unsealed openings. Hence, the aisle containment associated with an extensive range of sealing components is essential for IT equipment reliability.

InfraRack is designed to enhanced thermal management in data center by creating a one-way path for airflow that eliminates the mixing of hot and cold air. An ideal data center environment is given with the use of Air Blanking Panels and Seal Kits in the aisle containment and server racks.

SR
NSR **Full Height Air Blanking Panel**
Front left & right side

- Used to fill in open spaces on racks to maintain a proper airflow
- Reduce the hot air recycling from active equipment into cold aisle
- Made of steel for strength and durability
- Black or Grey white color

Part no. : ABP-V42U-SR
ABP-V45U-SR
ABP-V47U-SR

ABP-V42U-NSR
ABP-V45U-NSR
ABP-V47U-NSR

SR
NSR **Tool-less Air Blanking Panel, pc**

- Quick snap-in and release by turning fasteners
- EIA-310-D compliant for 19" equipment
- Rounded design eliminates sharp corners
- Plastic for enhanced aesthetics & light weight
- Steel for strength & 1 ~ 8U height selection
- Plastic Panel : Height - 1U
Color - Dark
- Steel Panel : Height - 1U / 2U / 3U / 4U / 5U / 6U / 7U / 8U
Color - Black or Grey white

Part no. :
ABP-1P (Plastic)
ABP-1 / 2 / 3 / 4 / 5 / 6 / 7 / 8 (Steel)

SR **Bay Seal Kit, pc**

- Seal spacing between two bayed racks without side panels
- Eliminate bypass air from front to rear
- Designed for front only

Part no. : SSK-42U
SSK-45U
SSK-47U

SR
NSR **Rack to Floor Seal Kit, set of 2**

- Seal spacing between the floor and rack base
- Eliminate bypass air
- Only available for rack with casters
- Front and rear seal kit for each bayed rack
- Left and right side seal kit for the row end racks

Part no. :
PSK-600W-SR (front & rear)
PSK-800W-SR (front & rear)
PSK-1000D-SR (left & right)
PSK-1200D-SR (left & right)

PSK-600W-NSR (front & rear)
PSK-800W-NSR (front & rear)
PSK-1000D-NSR (left & right)
PSK-1200D-NSR (left & right)

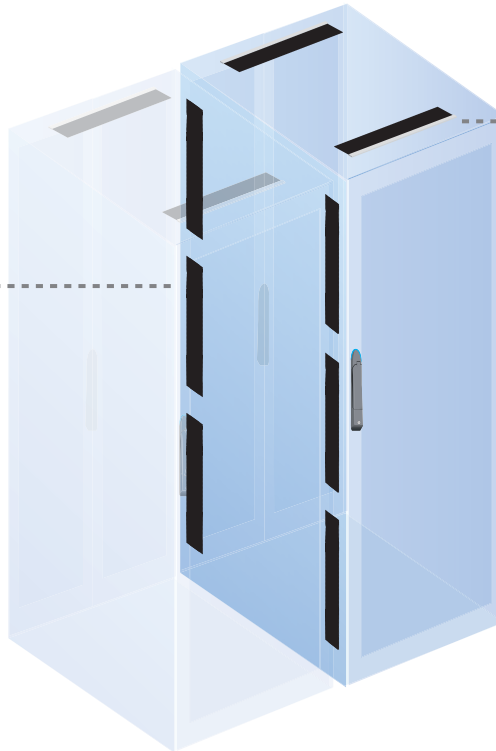

SR **Front Bottom Seal Kit, pc**

- Seal spacing between the floor and rack base
- Eliminate bypass air
- Designed for front only

Part no. : BSK-SR

The primary purpose of cable management is to maintain the integrity of facilities installation, upgrades & serving of the system. As the number of IT components within each rack continues to increase, so do the number of power and data cables.

Recognizing these challenges, Austin Hughes responded with a comprehensive selection of optional components that allows users to pick the ideal cable management solution for their particular IT environment.

SR
NSR **Side Partition with Cable Brush, pc**

- Ideal for bayed racks
- Cable entry size : 55 x 500 mm
- Allow cable passage to adjacent racks
- Hole contains brushes to control airflow

Part no. : BVP-4210-SR / 4212-SR
 BVP-4510-SR / 4512-SR
 BVP-4710-SR / 4712-SR
 BVP-4210-NSR / 4212-NSR
 BVP-4510-NSR / 4512-NSR
 BVP-4710-NSR / 4712-NSR

SR
NSR **Top Cable Entry with Brush front & rear end**

- Cable entry size : 55 x 500 mm
- Top brushed cover prevents undesirable dust and hot air recirculation

Part no. : TCB-2E

SR
NSR **Ring Cable Manager, pair**

- Size : 120 x 1023 x 100 mm
- 120mm cable ring x 4
- Material : Steel
- Positioned on the rear

Part no. : RCM-120

SR
NSR **Ring Cable Manager, pair**

- Size : 180 x 1023 x 100 mm
- 180mm cable ring x 4
- Material : Steel
- Positioned on the front

Part no. : RCM-180

SR
NSR **Cable Management Panel, pc**

- Handle big amount of cabling

Part no. : CMP-1B (1U)
 CMP-2B (2U)

SR
NSR **Full Height Cable Tray set of 2 sides**

- Width : 75 mm

Part no. : CT-42U (42U)
 CT-45U (45U)
 CT-47U (47U)

SR **NSR** **Top Cable Entry with Brush front & rear end**

- Cable entry size : 55 x 500 mm
- Top brushed cover prevents undesirable dust and hot air recirculation

Part no. : TCB-2E

SR **NSR** **Side Partition with Cable Brush, pc**

- Ideal for bayed racks
- Cable entry size : 55 x 500 mm
- Allow cable passage to adjacent racks
- Hole contains brushes to control airflow

Part no. : BVP-4210-SR / 4212-SR
BVP-4510-SR / 4512-SR
BVP-4710-SR / 4712-SR
BVP-4210-NSR / 4212-NSR
BVP-4510-NSR / 4512-NSR
BVP-4710-NSR / 4712-NSR

SR **NSR** **Top Cable Entry with Brush left & right side**

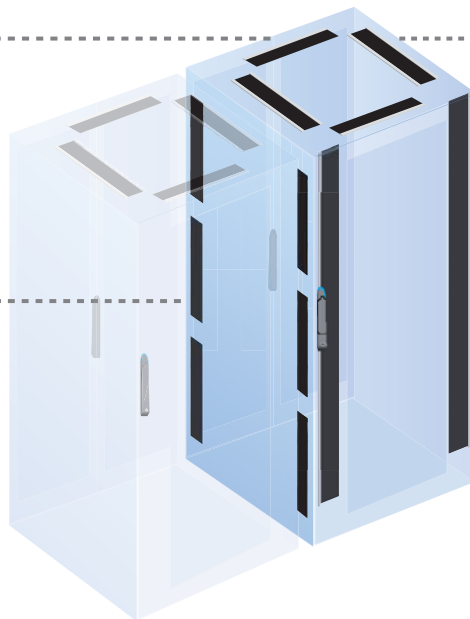

- Cable entry size : 110 x 500 mm
- Top brushed cover prevents undesirable dust and hot air recirculation
- Not applicable to 600 mm deep rack

Part no. : TCB-2S

SR **NSR** **Full Height Cable Brush left & right side**

- Brush width : 100 mm
- Provide proper airflow within the rack while allowing cables to pass through

Part no. : VCB-42U
VCB-45U
VCB-47U

SR **NSR** **Fibre Management Channel, pair**

- Material : Steel / Plastic
- Positioned on the front or rear

Part no. : FMC-42U
FMC-45U
FMC-47U

SR **NSR** **Cable Ring, pack of 10**

- Size : 88 x 120 mm
- Rigid structure
- Material : Steel
- Positioned on the rear

Part no. : CMR-120P

SR **NSR** **Full Height Cable Tray set of 2 sides**

- Width : 150 mm

Part no. : CT-42U-W150 (42U)
CT-45U-W150 (45U)
CT-47U-W150 (47U)

SR **NSR** **Cable Management Panel, pc**

- Handle big amount of cabling

Part no. : CMP-1B (1U)
CMP-2B (2U)

SR **NSR** **Finger Guide, set of 2 sides**

- Provide an organized cable system
- Material : Plastic
- Depth : 105 mm

Part no. : FG-40U (42U)
FG-45U (45U / 47U)

SR **NSR** **Fibre Management Panel, pc**

- Maintain a neat and organized cable layout

Part no. : FMP-2B (2U)
FMP-3B (3U)
FMP-4B (4U)

SR **NSR** **Cable Ring, pack of 10**

- Size : 88 x 180 mm
- Rigid structure
- Material : Steel
- Positioned on the front

Part no. : CMR-180P

Austin Hughes solutions provide data center managers and administrators instant secure, local and remote access control to mission critical equipment. Our leading edge **CyberView™** LCD console drawer and KVM Solutions provide the widest range, available on the shortest lead-times in the market today whilst ensuring capital equipment and software management costs are kept to an absolute minimum.

LCD Console Drawer

Details

CyberView LCD console drawers completely fulfill customers' needs emerged in today's market sector via different series such as "F" 1080p, "W" widescreen and "RKP" enhanced version. 1U Dual Slide drawer, SUN and MAC solutions available

MS40	Cantilever shelf, 400 mm deep, 20 kg loading

Drawer

TSD-2U	2U lockable drawer, 580 mm deep, 30 kg loading
TSD-4U	4U lockable drawer, 580 mm deep, 30 kg loading
RK-1e / b	1U notebook type keyboard drawer with KVM options
RK-2e / b	1U short depth, notebook type keyboard drawer

Others

BK-M10	Top baying bracket x 2, for SR rack
BK-M6	Top baying bracket x 2, for NSR rack
SR-BK	Side baying screw set x 4, for SR rack
NSR-BK	Side baying bracket x 4, for NSR rack
M6	M6 screw set, pack of 50
GK	Grounding kit, set of 4
CuB-ET10	Insulated Earth Terminal (MOQ : pack of 5)
CuB-42U	42U copper bus grounding bar, pc, w/ insulator x 3
CuB-45U	45U copper bus grounding bar, pc, w/ insulator x 3
CuB-47U	47U copper bus grounding bar, pc, w/ insulator x 3

Proximity Smartcard, pack of 10 (ISC-P10)

- Proximity 26-bit format
- Single card for multiple application
- Custom card layout available

MiFARE Smartcard, pack of 10 (ISC-M10)

- MiFARE 26-bit format
- Single card for multiple application
- Custom card layout available

Individual Key Lock (ISK-C051)

- Up to 500 individual key-locks available
- Set of 2 for front & rear door

Unique Key Lock (ISK-UKL)

- Dedicated to single project / customer regionally
- For project size over 500 racks

Warranty Upgrade

- Extension from 2 years to 5 years

Founded in 1995, **Austin Hughes Electronics Ltd** is a design and manufacturing group that offers a broad range of solutions based around 19 inch rack mount technology. These solutions include InfraSolution remote access control and locking, InfraPower intelligent remote management power solutions, CyberView LCD Keyboard and KVM drawers, InfraCool intelligent remote cooling system, UltraRack IT server racks & InfraAisle cold aisle containment.

Austin Hughes has ISO14001 and ISO9001 approved design, manufacturing, assembly and test facilities in Hong Kong and China. Austin Hughes supports a worldwide customer base, through its global locations in the Americas, EMEA and APAC and through its extensive authorized channel partner support network.
