# All in One Z5 Special Edition

The Aspire Z5 Olympic Games Edition all-in-one PC is inspired by top-notch athletes who explore beyond limits. This 23" productivity and multimedia center has a sleek space-saving design for the home or office with superior all-around PC performance.

## Breakaway performance

Able to multitask briskly, the Aspire Z5 can easily handle the flow of your creative energy in a number of applications at the same time. Powerful Intel® Core™ i Series processors will help you stay maximally productive. Make it your best-performing digital device for work, communication and entertainment.

## Intense sights, exciting sounds

Want to enjoy this summer's Olympic Games on your PC? Go for it! The Full HD display and Dolby® Home Theater® enhanced audio play today's best entertainment with thrilling clarity. Visuals have crisp details and true-to-life color, while wide-ranging surround sound comes at you from all angles.

## Savor each moment

You can use this all-in-one PC to witness all the exhilarating highs and dramatic lows of the world's best athletes in action this summer during the Olympic Games. Equipped with a TV-tuner\*, this awesome all-in-one lets you catch the action live and browse related websites at the same time for the prime infotainment experience!

## Sprint-speed transfers

You can connect other devices and share files with the Aspire Z5 via USB 3.0, which transfers data 10 times faster than the previous generation. An HDMI® port connects the PC to a larger display, making the Aspire Z5 the centerpiece of your home theater.

# Aspire M1

The Aspire M1 Series sports a striking exterior that adds a touch of class to any room in your house. What's more, this tower is built with high-performing components and a host of practical features to fulfill all your entertainment and daily computing needs.

## Smart multitasking, spellbinding multimedia

A choice of powerful processors along with premium graphics and DDR3 memory deliver fast computing and incredible HD entertainment. Enjoy the full effects of your favorite DVDs with high-definition video and audio output for a true theater-like experience in your home.

## Features you need

This PC will seriously boost your productivity, and the latest communication technologies will keep you in touch. The Acer Arcade Deluxe™1 multimedia suite provides easy access to Full HD fun. And, a multi-in-1 card reader and ample storage -- with an option to add two hard disk drives1 -- satisfy all your media requirements.

## User-friendly design

The chic-looking Aspire M1 Series showcases an illuminated, easy-to-see power button. USB and audio ports are conveniently positioned at the front of the computer for easy access. This desktop also offers flexible configuration for future expansion.

# Aspire M3

The handsome black Aspire M3 Series combines a powerful processor, top-level graphics, and a host of practical features to fulfill your everyday computing and entertainment needs.

## Superb multitasking power

A choice of the latest processor, fast DDR3 memory, and second-generation expansion cards deliver efficient multitasking and beautiful entertainment. A multi-in-1 card reader and several USB ports make media sharing very convenient. Plus, you can easily store all your files in this PC's massive hard drive.

## Party at home!

Gaming and entertainment reach new levels of realism via the Blu-ray Disc™1 drive, along with amazing HD graphics. An HDMI®1 port connects handily with HD peripheral displays, while the Acer Arcade Deluxe™1 multimedia suite provides easy access to Full HD enjoyment.

## Modern, practical design

The Aspire M3 Series showcases blue LED lighting effects, adding to its modern look. On top are a number of ports intuitively positioned for easy access, along with a covered storage deck for conveniently stowing cables and other items.

## Cool and exciting takeaways!

Slide out the easy-swap hard disk drive2 from your PC and insert it into the Aspire RV100 multimedia player... Connect the Aspire RV100 to your TV and enjoy fabulous HD entertainment on the big screen. And, with the TV-tuner1 option, you can even catch your favorite shows on your PC.

# Aspire X1

The sleek and compact Aspire X1 Series is just one-third the size of a traditional PC, allowing it to fit anywhere in your home. This desktop is your essential home PC with first-class applications and components that deliver great performance in a small form factor -- ideal for your everyday computing needs.

## Easy expandability

With expandable DDR3 memory, this desktop promises speedy multitasking while using 20% less power. Large storage capacity means you have ample room to keep all your files. And a multi-in-1 card reader and numerous USB ports make it easy to manipulate and share your files.

## Neat style

At just one-third the size of a traditional PC, this desktop is easy to set up. A small door at the bottom opens for easy access to USB ports, audio ports, and the multi-in-1 card reader. What's more, the power button lights up in bright blue when turned on, so it looks cool and is easy to find.

# Aspire X3

The sleek and compact Aspire X3 Series is just one-third the size of a traditional PC, allowing it to fit anywhere in your home. This desktop features high-quality components and software, perfect for handling your home computing and entertainment needs. Moreover, lots of multimedia features and device ports let you enjoy theater-quality entertainment right in your living room.

## Rich HD experience

Watch the latest Blu-ray<sup>TM</sup> movies with true theater-like imagery and high-definition audio support from the comfort of your couch. And, with the HDMI<sup>®</sup> port, you can connect your PC to big-screen peripheral displays, including your main home entertainment center.

## Easy expandability

With expandable DD3 memory, this desktop promises speedy multitasking while using 20% less power. Large storage capacity means you have ample room to keep all your files. And a multi-in-1 card reader and numerous USB ports make it easy to manipulate and share your files.

## Neat style

At just one-third the size of a traditional PC, this desktop is easy to set up. A small door at the bottom opens for easy access to USB ports, audio ports, and the multi-in-1 card reader. What's more, the power button lights up in bright blue when turned on, so it looks cool and is easy to find.

# Veriton Z

The Veriton Z Series delivers all-in-one business PC solutions for SMB users who require powerful, business-smart performance, connectivity, security and control with a touch screen.<sup>1</sup> The space-saving design makes this desktop easy to fit anywhere -- it's even wall-mountable.

## Built for business

The all-in-one design conserves desk or counter space and can also be wall-mounted, providing versatility in a variety of SMB settings. The cost-competitive touch screen<sup>1</sup> offers enhanced desktop control and new avenues for business in showroom promotions, in-store demonstrations, public transportation, government agencies, hospitals, and more.

## Great communicator

A 2 MP webcam<sup>1</sup> lets you engage in business with high-quality face-to-face video chats, while wireless connectivity and low PC system noise makes the working environment better. On top of that, strict compliance with environmental standards ensures high-energy efficiency and lowers operating cost.

## Maximum control

A proven processor provides powerful control of multitasking for everyday business productivity. Controls and connectors are positioned for efficient usability, and a modular internal design makes it easy to change parts. The Veriton ControlCenter places handy utilities in a single panel. Acer Client Management gives IT administrators a simple solution for client and server management.

## Trustworthy security

The Veriton Z Series provides trustworthy and robust security features for better business. The Acer Security Suite uses TPM-based data encryption (optional) to protect your files, passwords and other vital data. Several other business security features ensure reliable usability for private and public settings: Acer eLock Management, Acer eRecovery, McAfee® Internet Security Suite, and others.

# Veriton M

Fuelled by top-notch components and technologies, the Veriton M Series gives you the resources to handle challenging office tasks and oversee company assets. In addition, innovative Acer engineering enables modular and tool-less accessibility to your machine, while energy-efficient certifications mean cost savings as well as care for the environment.

## Future-ready scalability

A robust processor provides all the bandwidth you need for the next generation of highly-threaded applications. RAID1 technology delivers enhanced data integrity, improved throughput, and increased storage capacity with multiple hard disk drives.

## Control built right in

Acer's exclusive suite of helpful utilities keeps the system safe. Veriton ControlCenter enables trouble-free management of data, power, frequently used programs and other information, while TPM-based (optional) data encryption protects your files, passwords and other vital data. What's more, these PCs support automatic incremental backups and also prevent unauthorized access to your machine.

## Best for you and the environment

The modular and tool-less chassis design of the Veriton M Series makes component access easy and reduces maintenance and service costs. Topping it off, these desktops boast green certification and comply with international standards, further trimming costs while preserving our planet's resources.

# Veriton N

Packing powerful components into a petite, diamond-shaped chassis that can stand alone or snap onto the back of select Acer monitors, the Veriton N Series aces your computing needs, while preserving precious space. This handsome gray and black mini PC comes matched with an all-black USB keyboard and mouse, so you're set for big productivity in any work environment.

## Multi-functional mini PC

The Veriton N Series is the perfect answer to maximizing your production, your business connections, and your space. It does everything you expect of a larger PC, yet fits perfectly in tight settings such as small offices, education facilities, public kiosks and displays, exhibition halls, and hotel countertops.

## Small size, quality performance

This space-saving desktop boasts a powerful processor, fast memory, and fantastic graphics solution to breeze through multitasking and multimedia. In addition, a large hard drive, HDMI®1 output, and bundle of convenient ports let you easily manage your work.

## Environmentally friendly office machine

Being "green" helps businesses contribute to an environmentally sustainable economy. The Veriton N Series uses recyclable packaging materials and minimizes energy consumption via Acer's power-saving technologies. What's more, this mini PC complies with strict international standards for environmental consciousness.

# Veriton X

The compact Veriton X Series desktops pack powerful components and advanced technologies to handle the most challenging office tasks. These PCs also feature ample support and security for the company network. The modular, tool-less design makes accessibility easy, and energy-efficient certifications signify cost savings and care for the environment.

## Compact and efficient

A fraction of the size of a standard PC, the Veriton X Series takes care of all your business needs, while preserving precious office space. You'll also appreciate the easy-to-use, modular design and tool-less accessibility.

## The latest in support and security

This series' high-tech management tools improve system support, maintenance and monitoring of company assets while reducing desk-side visits. These PCs support automatic incremental backups and prevent unauthorized access to your machine, while TPM-based (optional) data encryption protects your files, passwords and other vital data.

## Manageability solutions

The Veriton ControlCenter has handy utilities for optimizing energy settings, instantly loading frequently used applications, transferring data and personal settings to another PC seamlessly, and protecting your data from threats. What's more, Acer offers management solutions for remote management of common IT tasks.

## Certified to save

Veriton X Series desktops boast green certification and comply with international standards, reducing costs while preserving precious resources.

# Veriton S

Powered by high-end components and cutting-edge technologies, the Veriton S Series gives you the tools you need to handle challenging office tasks. These PCs also feature streamlined support and security for the company's network and assets. In addition, innovative Acer engineering offers modular and tool-less accessibility, while energy-efficient certifications signify cost savings as well as care for the environment.

## Power with room for growth

A robust processor provides all the bandwidth you need for the next generation of highly-threaded applications. RAID technology (optional) delivers enhanced data integrity, improved throughput and increased storage capacity with just two hard disk drives.

## The latest in support technology

This series' high-tech management tools improve system support, maintenance and monitoring of company assets, reducing desk-side visits. What's more, these PCs support automatic incremental backups and also prevent unauthorized access to your machine, while TPM-based (optional) data encryption protects your files, passwords and other vital data.

## Cost-effective expandability and green computing

The modular and tool-less chassis design of the Veriton S Series makes component access easy and reduces maintenance and service costs. Topping it off, these desktops boast green certification and comply with international standards, reducing costs while preserving the earth's resources.
