Introduction

Your Birthday, Your Year

A solar return is the chart cast for the instant the Sun returns to the exact place it was when you were born, at whatever place you happen to be at that moment. That's simple enough. That happens within a day of your birthday every year, so it's your birthday chart - happy birthday!

But what is it really, and what does it mean? It's two things in one:

- 1) It's a sky snapshot, which gives you an idea of what the planets are up to and what kind of things they are cooking up for you around your birthday and in days to come. It's a quick look at the general state of things, your transits, which is always helpful - but you could do that for any day of the year.
- 2) It's a yearly rebirth chart, a picture of a new you reborn each year in slightly different clothing. It's a yearly overlay to your original horoscope which paints a picture of what the coming twelve months will be like - and, just as important, it paints what you yourself will be like in the coming year. And, unlike your natal chart, you can actually do something about it - by choosing where you will be when it happens, you can change your whole year.

There was a time when the yearly solar return was taken as a virtual replacement chart for your original horoscope. In fact, that opinion was so strongly held among astrologers in the 1600s that English astrology giant William Lilly warned practitioners not to neglect the natal chart in favor of the latest solar return. So, it's a big deal. Your natal chart is still the most important description of you, but your solar return each year has a lot to say about how you're developing and what the year has to offer.

A Special Event

Your solar return has some special attributes that make it unique, which require special attention, and which offer unusual opportunities. Because it's an annual rebirth chart, unlike your natal birth chart which lasts a life time, it only lives for a year - but in that year it has its own, scaled-down mini-life, in which the day of the solar return is like the year in miniature. By secondary progression, that means that the events of each successive hour of your solar return day foretell a corresponding two-week segment of the coming year. For that reason, it may be a good idea to set aside that birthday period and see that it goes thoughtfully and well - and keep track of exactly what happens all day, as much of that may be

reflected in the coming year, week by week. Under any circumstances, treat the day as something spiritually special, a time for pulling together your energies and aspirations, making resolutions - in short, rebirth.

A Travel Decision

If at all possible, carefully select where you will be on your solar return - it's better some places than others. That's because although you can't change the planetary aspects that make up the return, what houses the planets fall in and the areas of life they affect are all determined by where you are on the planet. And that's up to you. You can put the Sun strongly in the first house, if you think you need extra independence and will power in the coming year. Or if you need an extra 12-month economic boost, go somewhere that puts Jupiter in or ruling the second house. By traveling just two time zones away from where you normally would be, you change the house position of every planet in the chart and thus your entire physical agenda for the year. In some cases, that can mean the difference between a year of stagnation and a year of progress. It's pretty powerful stuff, and well worth taking the time to cast your solar return for a variety of possible options and pick the one that delivers the most. Some people use this time of year for vacation, and even visit unlikely places they've never been to for the best possible solar return and a new travel adventure rolled into one.

Wherever you go, or if just staying home is your best bet, be sure you are there at least 24 hours ahead of time, and that you stay there at least 24 hours after the solar return. An extra day's leeway on either side of that couldn't hurt, either. Think of it like pouring cement - you want to have enough time to prepare it, and then proper time to set afterwards. It's got to last the whole year through..

The Foundation for Your Year Sun, Moon, Ascendant

As in a natal chart, the first thing you look at is the position of the Sun, Moon, and Ascendant. Their positions and aspects describe the fundamental vehicle the year will become: they will tell you if you're jumping into a Jaguar or boarding a bus, crowding into a tram or leasing a Lamborghini. Since the Solar return Sun is the same as your natal Sun, any aspects to it are also transiting aspects to your natal horoscope, thus uniquely entwining both charts and making the Solar aspects especially important. The house position of the Sun and Moon tell you where your main action will be all year, and the Ascendant sign show the overall style. Easy aspects of these to the rest of the chart will show a year whizzing by according to plan. Hard aspects will indicate tangles and tests of your resilience. It's all about how to make the most of the best and turn challenges to your advantage to get top results from the year.

The Ascendant

Your Looks, Your Presentation

Productive

Ascendant in Taurus

You're the image of rolling thunder this year, and though it may take you some time to get up to speed in any one situation, once you've found your pace, you're unstoppable. Staying power will be a specialty, so expected those trying to keep up your pace to get winded in the process. You don't have to appear like a Mack truck in order to have the force of one, however, and eye appeal and attention to your appearance belie what's smoking underneath the hood. Like a great opera singer, you simply sing your song and they hear you at the back of the house, effortlessly.

Conserving Values Arises

Venus Trine Ascendant

You may find it easier to let people know what you want by body language alone, which makes communication swifter and more convenient this year. If you want it, it shows naturally and all comes together more easily to bring you satisfaction, without having to put it into words and negotiate the deal, whatever it's for.

Actively Building Arises

Mars Trine Ascendant

An even flow of effort is the key this year, and the feeling is quite physical as you keep your body in a rhythm with your work that adds to the energy you're putting into it. It's about letting things happen naturally, stroking the ball, rolling with the wave, so you're constantly drawing on new power welling up from within.

Conserving Power Arises

Pluto Trine Ascendant

Confidence in the way you bear yourself is high this year, and you move like you've already gotten where you're going, which is a good way to assure your getting there. When you know you're right, everybody tends to go along with you, including yourself, like you have destiny on your side.

The Midheaven

Your Reputation, Career, Life Path

Pure Management

Midheaven in Capricorn

You're likely to be thought of as much more straight-laced than you really are this year, partly because you don't feel you have to go off the beaten path to be original. It looks as though you get business done through very traditional means, when in fact you're a lot more inventive than it seems at first.

Manage Emotional Progress

Moon Square Midheaven

Your emotional concern with personal affairs this year may distract from longer-term career or life-building when they don't all exactly compliment each other, which they won't. It's a matter of playing one off the other so that each benefits and neither suffers, which tends to begin exactly the other way around.

Manage Career Progress

Jupiter Square Midheaven

You can find yourself too involved with personal expansion to be aware that it's crowding out your work duties and not doing your reputation any good in the process. Let others talk you up, as you're going to look too self-centered and windy doing it yourself, too easy to miss the actual remark, repeat the superfluous.

Manage Physical Objectivity

Saturn Square Midheaven

Criticism of your work can come from both without and within this year, and you should welcome it to the extent it helps you improve your act. Watch out for gratuitous put-downs, however, as they're in the wind, too. Don't let self-deprecation get out of hand, or people might think you seriously doubt yourself and join in.

The Sun

Your Inner Personality and Style

Business

Sun in 8th House

This year holds a store of buried treasure for you – not necessarily doubloons in a pirate chest, but a re-identification with parts of yourself that had become lost or mislaid. In the process, you may find yourself uncovering all sorts of unexpected helpings from other people as well, but most important will be a heightened ability to recognize value in things that had been or might otherwise be thrown away. Where others see waste or burden to be rid of, you see gold, either financially or spiritually. Only last year you yourself might never have noticed it.

Teaching Ideas

Sun Conjunct Mercury

Your plans and designs this year are closely tied up with your ego, which can serve you well personally but may also have you too close to the subject to be objective about what you're preparing. A little advice from outside wouldn't hurt before you make it all your own exclusive dog and pony show.

Push on Through

Sun Square Mars

It may seem a little like you've got a blocked fuel line this year, as energy levels are intermittent and getting your rhythm of push and pull, go and stop is a challenge. It's like you're faced with a series of ill-timed stoplights that don't let you get up to speed and stay that way. Don't make it worse by racing to each next stop.

The Moon

Your Feelings, Reactions, Emotions

Fertility

Moon in Taurus

Your emotional pace this year is likely to be more deliberate, gradual on the uptake as you take extra time to make sure your reactions are correct and your feelings are both sincere and enduring. You'll find yourself more patient and willing to absorb and tolerate rough or uneven patches that might normally get you riled up or annoyed. There's a feeling that it's worth the added effort to decorate your inner life with depth and content that may require added expense or effort because the end result is so much more satisfying. For the moment, you can skip instant gratification, go for the 24-karat life...

Psychological Support

Moon in 12th House

You can get yourself in trouble this year if you don't watch how you react to things right off the bat. Before you respond with a big yes, think twice about what you're getting into, no matter how it feels. Feelings and emotions can delude you, simply because you don't see what's happening behind your back. You may have the opportunity to uncover hidden and previously dark sides of yourself, but don't rush into dark closets without adjusting to the light. There's a fine line between inner discovery and waking sleeping dogs. When in doubt, let them lie this year, or wake them gently.

Embodying

Moon Trine Venus

Your feelings about what you want are easy and sure this year, so you can confidently reach out and take the object of your desire when you feel the urge or need to do so. In general, that will both succeed and produce more of what you'd like to begin with, so it's a reinforcing style for the duration.

Caring For

Moon Trine Mars

Your first reaction to what you should do, how you should take action, is usually the right one this year, guiding your energies in an easy upward spiral, since you seldom get in your own way. A smooth, strong course simply confirms itself as you go along, so you tend to consistently feel good about what you're up to.

Ideas for Success

Moon Conjunct Jupiter

Big feelings and a big heart are a key to the coming year, and that may be to the point of overreaction in the best sense of the word. When something moves you, it lifts you right off your feet, and enthusiasm is not a sufficient word to describe your feelings. You can go a long way with it, if others can keep up with you.

The Foundation for Your Year (continuation)

Experience Control

Moon Opposite Saturn

Emotional blockage could be a problem this year, as feelings that would normally come out get delayed and then by circumstances simply get left behind. It can be all about timing, when hesitation means loss. Second thoughts can be a benefit, but third and fourth ones lead to paralysis. Say no twice, but not the third time.

Long Suffering

Moon Sextile Neptune

Your intuition is sufficiently fine-tuned this year that you don't particularly think about it but just play the hunch automatically, as if it weren't one. There's no way you're going to be able to justify that, but you probably won't be asked to, as no one, including yourself, will question the process.

Personally Speaking

Mercury, Venus, Mars

The inner planets change significantly from year to year and indicate the personal permutations your life is going through. Basically, it's the framework of how you play the game, who else is playing, and how they're playing it. Easy aspects mean you win with no contest, hard aspects suggest a more hard-fought game that may put your life skills to the test and increase your personal growth and talents through experience. Take a look at both sides and consider what games to play, what ones to avoid, and the best strategies - whether you want to raise, hold, or walk away.

Mercury

Your Mind and Intellect, Thoughts and Plans, Communication

Spiritual Ideas

Mercury in Sagittarius

Details won't matter as much as getting to the truth of the matter this year, as that's where your mind's headed. Feel free to be a little windy, speculate and philosophize, because you can't get things organized until you know what the overall plan is all about. Then you can flesh it out with details and applications.

Social Communication

Mercury in 7th House

Words exchanged with friends and lovers take a special place this year, so when you say something special, make sure you've done a job to remember. Thoughtful advice is called that because you put a lot of thought into it, so put on your thinking cap where partners are concerned. They want to hear from you.

Make a Statement

Mercury Square Mars

Allotment of planning efforts are a challenge this year, as you can easily find yourself spending too much repeated mental exertion reinventing the same wheel when you should get it right the first time. A lot of wasted talk gets you nowhere, even though it seems to be thrashing out the details.

Preserver

Mercury Trine Uranus

There's a pretty continual fresh wind blowing in your brain this year, with enough sparkling new ideas to keep you busy but not so much that you can't keep your feet on the ground. One discovery leads to the next, and before you know it you're traveling a totally new landscape that barely resembles last year's.

Venus

Your Needs, Wants, Desires

Practical Love

Venus in Capricorn

Simple fare does not preclude elegance, and classic tastes are likely to have greater appeal to you than overstated add-ons. Less is more, and mainly it's more intense, even when it's hunger that's the best sauce. You won't need a lot, but what you take in, you'll devour to the bone, and make soup out of the rest.

Spiritual Love

Venus in 9th House

You can't get what you want unless you can get your head around it. This is a year when you increase the width, breadth, and depth of your desires, when by thinking bigger you can imagine a new scale of satisfaction that can be obtained. You've got to know what to ask in order to receive it.

Embody Love

Venus Trine Mars

What you want and the method by which to get it walk hand in hand this year, and flames desire are a sure engine-starter and burn fuel efficiently. It's also a hallmark of unflagging charm as you're evenly and consistently able to deliver what's wanted and enjoy the process along the way. Good for work and play, both.

Mars

Your Energy, Life Force, Excitement

Urgent Care

Mars in Virgo

Focused energy and hitting the nail exactly on the head are a major work trend. That means taking careful aim before you strike and then only using what you need to get the job done. Attention to detail requires that you avoid distraction or dilution of the power you deliver, when one shot is all it takes.

Creative Drive

Mars in 5th House

Work hard, play hard – this year may make them synonymous, as working creatively and playing intensely go hand in hand. The knack will be putting yourself in a place with just enough structure for direction but not so much that you can't gain momentum. Find the road, then jam the throttle.

Every year sees the giant planets, the wielders of social and economic change, move along a significant notch, opening new doors of opportunity, while closing others. Each solar return suggests a new shift in strategy to get you where you're going and keep you ahead of the game. It's about what's new and what's not, what's happening and what's history. When you know when the shift is about to start and where it's going, you know which way to steer.

Jupiter **Ambitions, Goals, Possibilities**

Productive Career

Jupiter in Taurus

A year of slow expansion is now ahead, during which the best-laid plans take a long time to lay down, but once they're in place, there's no stopping them. The future looks bright, but gradual, and the sure-footed approach is the accepted way to go. It's all about doing it well, making it all come true at the right time.

Career Helping

Jupiter in 12th House

Biting off more than you can chew and the resulting life indigestion is this year's risk, but forewarned is forearmed. You have lots of opportunities behind closed doors, but only if you keep them that way. Taking credit for everything will get you reward for nothing, so be discriminating where you expand.

Handling the Law

Jupiter Opposite Saturn

This one-year-in-twenty marks a major social and economic struggle between the new and the old, the traditional and the radical, in which both sides spar and harden against each other. It is very much a time for you to choose one and leave the other behind in relation to the larger part all play in the big picture.

Compassion

Jupiter Sextile Neptune

A more realistic and satisfying way to blend dreams, hopes, and expectations by sharing is in the wind, if you are willing to take a deep breath. Actually, a series of shallow breaths describes it better. What once you may have kept to yourself, it is time to exchange with others who have been in the same situation.

Saturn **Caution, Wariness, Wisdom, Boundaries**

Obstacle: Society

Saturn in Libra

This year sees a renewal of blind justice with her sword. Those who have spent their time handing out self-made dictums of right and wrong will find themselves hoisted on their own petards, while the meek inherit their earth. If you've been

minding your own business, tending to your tasks, you're safe and in line for a promotion.

Obstacle: Care

Saturn in 6th House

Trimming your schedule and getting rid of daily redundancies could be this year's blessing in disguise. It may be tiring or tedious in the process, but it will clear the decks for more important operations as time goes by. Eat less, live longer – and that doesn't mean you have to starve yourself.

Preserving

Saturn Trine Neptune

This is a year when the world in general seems to be in the process of merging spiritual aspirations with material possibilities. You will likely look back on it with fondness and a sigh, realizing that hope does indeed spring eternal and eventually may triumph. The meek aren't about to inherit the earth quite yet, but where possible let it float your boat for the duration.

The positions of the outer Planets - Uranus, Neptune, and Pluto - change little from one Solar return to the next, so they add more of a backdrop, the stage set on which the yearly play is performed. They are very powerful, however, and their long-running helpful and troublesome aspects are not to be taken lightly. They can be like a rope to swing yourself across the stage or a trap door that will cause a fall if you're not watching. Knowing their aspects with the other inner planets and the Lights, and where they fall by house, lets you in on just where to watch for them, what mood they're in, and how to get them on your side.

Uranus **Discovery, Revelations, New Ground**

Freedom: Action

Uranus in Aries

Discoveries are made by forcing the issue in this seven-year period. Breaks and discontinuities seem to come from out of the blue, even though they have been gestating for some time. Belief systems around you change radically at sudden shear points, revealing the obvious only after the fact, leaving the most aggressive in charge.

Freedom: Community

Uranus in 11th House

Insight from friends means insight into friendship for you this year, and that may not always come in expected ways. What seems a shock at first may turn out to be the gates to discovery to get to better know and understand who your closest supporters really are – and how close you are to them.

Neptune **Dreams, Hopes, and Fantasies**

Embrace: Community

Neptune in Aquarius

This period sees the idealization of the common folk, even to the level of thinking they're essentially a lot better off than they are, even superior, and thus subject to all sorts of scams. The blessing is the discoveries involved in recovery from that. Epidemics are a hallmark of this time, so an extra eye on personal health hazards is in order.

Embrace: Community

Neptune in 11th House

Fond friends are more than fancy this year, providing a soft sanctuary from occasional hard landings. It may be just your imagination, but a little love always there beats a passing passion as the years progress. The thing about a good imagination is, it is so often the progenitor of truth.

Pluto

Necessity and Fate, Power, What Must Be

Control: Practicality

Pluto in Capricorn

A period of sixteen years of a culture value shift toward getting business done as if it were a mission is underway. It will create vast wealth, as it will have little to hold it back morally - but the generation spawned by this period will have to redesign the great structures so made in a deconstruction of what went before. Like when cement skyscrapers were first built - they were touted to last longer than the pyramids, but a generation later they began to fall to the wrecking ball.

Control: Spiritual

Pluto in 9th House

Big ideas are like a bludgeon against armor – you can pound away all day with them and only make a dent. If you rely too much on principle, just that may happen this year. It is the individual point that penetrates which defuses the situation. Talking theory to the point of threat is a dead end, better to talk turkey over the table.

Featured Natal Positions

Your Best Foot Forward

When Solar return positions occupy the same spaces as planets in your natal chart, this highlights those natal inclinations for the whole year. It will mean that certain elements in your fundamental character will be emphasized both internally and externally. These will be the areas that most appear to represent you for the moment and that others will seize upon as entry points to your personality. These are the areas in which you can put your best foot forward to make the most effective and satisfying steps ahead, your first line of challenges and opportunities to embrace the world.

Sun

Your Inner Personality and Style

Teaching Ideas

Mercury Conjunct Sun

Your ability to say who you are is particularly heightened this year, and you can lay out your goods for all to see and understand simply by delineating a word-picture where you might have had to rely on a personal appearance before. This allows you to sell yourself in multiple places at the same time.

Venus

Your Needs, Wants, Desires

Ideas of Love

Mercury Conjunct Venus

Your mind directly engages and analyzes your desires this year, so you take the time to make it clear exactly what you want. You've got a Christmas list going all year long, which actually makes you much easier to please and more likely to get what (or who) you're after. Ask and you shall receive, but you've got to know what to ask for and how to put forward the request.

Mars

Your Energy, Life Force, Excitement

Visions

Neptune Conjunct Mars

Physical energies are diffused while harsh motions are softened by the gentleness of intuition. Dissembling moves are easy but may get too baroque and lose their thrust in the process. Softness and strength can combine uniquely if you hold back from forcing the will, which cannot triumph now.

Saturn

Caution, Wariness, Wisdom, Boundaries

Discipline Ideas

Mars Conjunct Saturn

There's extra energy available for endurance this year, as you're more tenacious side gets an extra boost and you find you won't get winded so easily as you move on from initial efforts to final, careful follow-through. You can go that extra mile because your wing tanks are primed to extend your cruising range.

Uranus

Discovery, Revelations, New Ground

Insights

Saturn Conjunct Uranus

You are likely to find that whatever directions in you which tend to lead you to the out of the ordinary are somewhat suppressed and you may find yourself being a bit more establishment than you had intended this year. In technical endeavors however, this is just the time to distill your more important ideas.

Where you spend your birthday and how the sky looks from that location can profoundly affect how your year turns out. The ideal birthday chart has the most favorable planets up front, ready to push you forward and the more troublesome ones tucked away where they can cause the least mischief. Sometimes that happens right where you would normally be, so you can just stay home for your birthday. Sometimes the best place to be is on the other side of the globe, involving an expensive (though perhaps exciting) journey. Often, however, just moving a few hundred miles east or west just for the twenty-four hours before and after your solar return can make all the difference in the world, allowing you to put your best foot forward for the entire year.

Here are a list of places near you and around the world and how being there would affect your coming year. Some are good for growth and expansion, others for learning there are places better for money and career, or others best for home and family development. You choose, and then perhaps take a look at a second, revised report for your new place of choice, your travel decision to improve the year. You will likely find it reads quite differently in many critical areas and perhaps worth the travel expenses to maximize your twelve months ahead.

Take a look at your choices, then decide where to go on your birthday, in order to get to where you want to be the rest of the year.

From Dec 06, 2011 to Dec 06, 2012

As the year moves on, so does your Solar Return chart: it swings around an entire 360 degrees by daily progression and the Moon moves half a sign. At the same time, transiting events in the sky trigger sensitive degrees of your birthday chart. These are the times to look for specific events that activate these parts of your yearly picture and will offer times for making your best moves. These, together with your natal transits and progressions, paint the daily picture of your coming year, from birthday to birthday, until your next Solar Return.

Sun Pluto (TR-SR)

Putting up resistance and providing it are in the air, so be ready to find a way around issues not worth fighting for. Undertakings begun now will have a strong element of power and change, but they can wind up taking up all your time in order to retain control of them. All or nothing choices can be avoided just by waiting them out.

Love of the Future

Conclusion

Conclusion: Now That You Know, Where Do You Go?

With the pattern of your coming year described for you now, what's the best way to use all this information? Forewarned is forearmed, and there are several things you can do to maximize your knowledge and get the most out of the year.

1. Make Sure You're In The Right Place

It really does matter where you are for the twenty-four hours on either side of your birthday chart. A basically good year can be made even better by getting the right planets on the horizon or overhead, and a difficult year can be made easier by simply sidelining some of the challenges. Check out several different locations - more often than not, a change of only a few hundred miles east or west of where you are may make all the difference in the world. And, it's a great excuse for a birthday trip.

2. Keep Notes On Your Special Day

It is not unusual that the twenty-four hours of your solar return will be a symbolic miniature of the coming year, in which the happenings of each two-hour period will reflect a corresponding one-month period of the year. Of course, you'll likely sleep through eight hours of it, but keep notes on the rest and guide your activities to make it the best possible day. Along with the report text, it will give you further clues to what's coming and when.

3. Pay attention to what's in the text and use it well.

That means getting in there and making the best of the favorable periods and if possible simply avoiding unnecessary action or at least backing off during the periods that might cause trouble. Seize opportunities and dodge (don't confront) troublesome roadblocks. Better to do nothing than do something disastrous. Then move ahead when the coast is clear. That way you make only forward progress.

4. Think Ahead To Next Year

As you watch this year unfold, take a look at your next birthday chart well ahead of time so you can be where you should be to make it dovetail perfectly with what you're already doing. Smooth transitions save time, boost success and happiness.

5. Take It In Context, Put It All Together

birthday chart is not the only thing that describes your coming year. It's just an overlay of likelihoods, which mixes in with the other astrological windows on your future like transits and progressions. Include the rest and combine them all for a maximized 365 days ahead for you. When you bring everything to bear, nothing gets left out, and neither do you. It's yours for the taking, now go for it.
