Did you know?

- Nicknamed the “Nature Island”
- One of the world’s top-ranked scuba diving destinations
- Ranked the #1 sustainable island in the Caribbean by National Geographic Traveler
- Home to 365 rivers and many stunning waterfalls
- The last island created in the Caribbean, a spry 26 million years old
- The only Eastern Caribbean island that still has a population of pre-Columbian native Kalinago (Caribs)

Welcome to Nature's Playground

Rumor has it, upon discovering Dominica on his second voyage into the new world, Queen Isabella of Spain asked Christopher Columbus to describe the island. He was at a loss for words. Instead, he took a piece of paper, crumpled it, and tossed it onto the table. "That is Dominica," he said. Over 500 years later, the Nature Island's dramatic peaks, lush rainforests, rushing rivers, welcoming waterfalls, and volcanic wonders are still leaving visitors speechless.

Come, discover a place where time stands still and experience the unforgettable beauty and adventure that awaits you in one of the best-kept secrets of the Caribbean.
