Hospitality

Food service

Homes

Seamless Integration for a Classic, Monolithic Look

Work stations, bars or kitchen islands can stretch the length of a room, connect to wall cladding and more, with no jarring notes or distractions.

Color-coordinated DuPont™ Joint Adhesive bonds Corian® sinks and Corian® solid surface with inconspicuous seams. This results in a smooth surface that enables you to create large designs fashioned from a single element.

For Hospitals and labs, senior living facilities, plus dental, pediatric office interiors and more: there are no crevices or edges for germs to hide, and our sinks promote a fully hygienic surface when properly cleaned.

NEW

*Sink 5315
pictured.*

For Hospitality spaces such as resorts, hotels, spas and similar environs: unlike other surface solutions, a smooth, consistent look can be created via seamless integration from counter to sink.

NEW

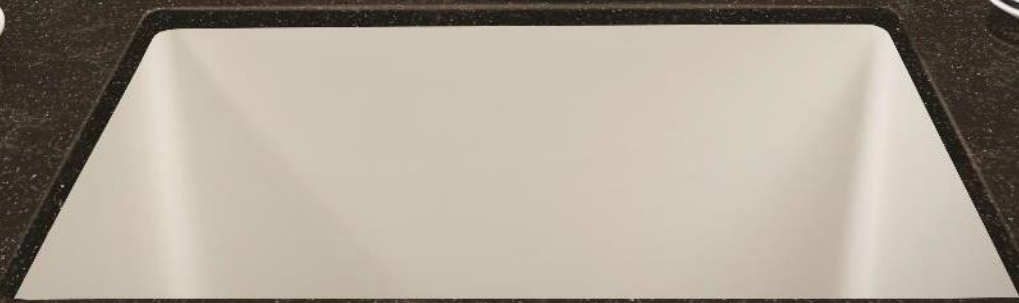

*Sink 5610
pictured*

For Food service locales such as cafés, restaurants, cafeterias and more: our nonporous sinks are stain-resistant, plus easy to clean and maintain; Corian® counters can flow seamlessly into bowls, eliminating trapped dirt and bacteria.
