

# B2G NOW

## BROWARD COUNTY DIVERSITY MANAGEMENT SYSTEM

## B2G**NO**W

- Leading Diversity Management Software Solution
- Government is our specialty (B2G)
- Largest customer base – market leader in public sector and aviation
- Unequaled functionality – market leader
- 100% web-based solution
- Offered as a cost effective hosted solution (SaaS)
- Unmatched process expertise
- Founded in 1999

# Modular Architecture & Functionality

Modular system exceeds the County's current needs while providing "room to grow" in the future.

<b>Contracts</b>	<b>Projects</b>	<b>Goal Setting</b>	<b>Bid Compliance</b>	<b>Program Management</b>	<b>Concessions</b>	<b>Tier 2</b>	<b>Spend Analysis</b>
<b>Online App</b>	<b>User, Organization, and Vendor Management</b>			<b>Transaction Tracking &amp; Auditing</b>			<b>Recipient Reporting</b>
<b>Certification</b>	<b>Standard &amp; Ad-Hoc Reporting</b>			<b>Secure Document Management</b>			<b>Advanced Organization Management</b>
<b>Vendor Registration</b>	<b>Import/Export Integration</b>			<b>Help Desk &amp; Customer Support</b>			<b>Utilization Reporting</b>
<b>Outreach</b>	<b>Disparity Study Data Management &amp; Reporting</b>						<b>Goal Plans</b>
	<b>On The Job Training</b>	<b>Workforce Utilization</b>	<b>Certified Payroll</b>	<b>Title VI &amp; ADA</b>	<b>Insurance</b>	<b>Dashboards</b>	

## Key Benefits

Automated and streamlined compliance data tracking

Eliminate staff data entry and focus on value add tasks

**Staff labor savings of  
50-70%**

Increased vendor accountability & responsiveness; reduced fraud

Dramatically improved reporting

Higher MBE/WBE/SBE/DBE utilization

**More comprehensive  
More timely  
More accurate**

Increased program visibility (in a good way!)

Reduced disparity study costs

**“The prettiest data  
ever seen”**

Requires little IT involvement (hosted solution)

## Solution & Service Highlights

**350,000+** vendors nationally reporting on **\$750+ Billion** in contracts.

Facilitating **3,000** certification applicants *per month*.

Florida presence since 2009, **tens of thousands of local firms** already using system for “**one-stop-shop**” compliance and certification.

**Zero-effort connection** to city, county, UCP & state certified directories – over **150 directories** currently in the system.

Comprehensive contract compliance monitoring for all departments, all contract types, and multi-tiered subcontracting.

Seamless data sharing between all records types – vendors, contracts, concessions, certifications, outreach, reporting, and exports.

Ability to add functionality cost effectively.

Opportunities for **regional** certification and compliance collaboration.

## Solution & Service Highlights

Extensive and flexible reporting options – search/export, standard reporting, ad-hoc reporting.

Extensive integration and migration experience – millions of records.

Highly configurable system substantially reduces/eliminates need for customizations.

Large and growing community of customers driving enhancements

**Weekly training classes** and annual user conference for both staff and vendors to maximize system knowledge and efficiency.

**Full-time support team** ready to provide staff and vendor technical support during all business hours.

**Dedicated project manager and implementation team** to guarantee every implementation is on-time and on-budget.

## Training

- Initial staff training will be onsite.
- Unlimited, ongoing training is available by webinar at any time.
- The County can schedule additional webinar training as needed.
- B2Gnow offers regular vendor training webinars to all system users. Vendors can sign up at any time for these sessions.

The screenshot displays the B2Gnow Event Management interface. The browser address bar shows the URL: https://b2gnow.mwdbe.com/Functions/Outreach/Common/EventList.asp?XID=2755&SessionID=8546118964547. The page title is "Transactions: Event Management". Below the title, there is a search bar and a "New Event" button. The date range is set from 5/18/2012 to 7/24/2012. The interface shows a table of 15 records, with the first few rows visible below. Each row includes columns for Actions, Status, RSVP, Event, Event Date, Type, and Coordinator.

## Customer Support

- Phone and email customer support is provided to staff and first tier technical support/Help Desk is provided to vendors.
- Emergency technical support is provided 24/7.
- We aim to respond to all queries within 60 minutes.
- Integrated Help Desk module provides immediate visibility of user issues and questions.
- Access to the Help Desk module to respond to vendors' questions.

The screenshot shows a web browser window displaying the B2Gnow Customer Support interface. The page title is "Transactions: Support List". Below the title, there are search and filter options, including a search bar, a "New Support" button, and date range filters (From: 11/25/2011 To: 12/2/2011). The main content is a table of support tickets with columns for Actions, Status, Account, From, Subject, Date, Type, and Assigned To. The table contains 10 rows of data, each representing a support ticket. The status of the tickets varies, including "Open" and "Pending response". The assigned personnel for the tickets are listed in the "Assigned To" column.

## Data Migration

- We have successfully migrated over fifteen million records into B2Gnow.
- Standard data migration guide and maps:
  - Vendors & certifications
  - Contracts
  - Payments to prime contractors
  - Subcontractor plans
  - Subcontractor payments
- B2Gnow Data Manager will manage the data migration process and work with the County to generate migration files.
- Migration files will be loaded into system for review and validation by the County.

# Data Integration

- We have extensive experience interfacing with external data sources to import data into B2Gnow (**30+ million records to date**).
- We have developed interfaces for sources including:
  - Excel spreadsheets
  - Text files
  - Access databases
  - XML files
  - SQL applications
  - Web services
  - AMS
  - PeopleSoft
  - Oracle
  - SAP
  - Timberline
  - JD Edwards
  - ADPICS
  - Lawson
  - Epicore
  - MP2
  - HTE
  - Primavera
- Data can also be entered into B2Gnow manually with intuitive data entry screens that offer complete data validation.
- B2Gnow's highly sophisticated data interface engine was designed to minimize duplicate data and maximize data completeness/quality.
- The system includes a process where rejected data records can be reviewed by staff for correction and reloading.

## System – Security

- Rigid and robust security posture.
- All primary components monitored continuously by multiple third party services from 17 locations. System is checked every **10 seconds**.
- System is tested for vulnerabilities daily; PCI & OWASP compliant.
- **All data is encrypted** both at rest and in transit.
- No data has been lost or compromised since system launch in 2001.
- Programming conforms to industry standard and B2Gnow template process; all software code is reviewed and approved by system architect.

## System – Redundancy & Disaster Recovery

- State of art server and network equipment, firewalls, intrusion detection system, and load balancers.
- All equipment is double, triple, or quadruple redundant – **99.9%** availability in past year.
- Databases & file attachments replicated real-time to multiple locations.
- Multiple fully functional disaster recovery systems are maintained for immediate switchover.
- System has been audited by MasterCard, New York State, City of Chicago, City of Phoenix, City of Seattle, and City of Denver.
- Full-time IT staff monitor system security and performance.

## System Monitoring

- B2Gnow guarantees system availability of 99.9%; actual available at 99.99% in 2015.
- We utilize four third-party services (McAfee, AlertSite, Pingdom, Alertra) to monitor system availability and security.
- Services check site availability and performance every ten seconds from seventeen cities across the country.
- B2Gnow staff is alerted immediately if a potential problem is detected.
- Reports available for client review.

## **System – User Controls & Accessibility**

- User access is role-based and strictly controlled.
- Requires strong passwords and incorporates user password expiration, automated account lockout, “bot”-blocking, and session time-outs.
- Organizations can define security configuration of system.
- Designed to Section 508 protocols.

## System Maintenance & Enhancements

- All customers use the latest version.
- All standard enhancements are provided as part of annual service.
- Deployments are transparent, customers can “opt-in” to new features.
- B2Gnow performs all maintenance, upgrades, system tuning, and monitoring.

# Implementation Model: Software-As-A-System

## Annual Service

- Software licenses
- System management & maintenance
- Managed hardware
- Database management
- Unlimited staff users
- All standard reports
- 1st tier vendor technical support
- Staff technical support
- Unlimited staff training
- Training manuals & quick guides
- Online help tools
- Updates to data interfaces

## Implementation

- Dedicated Project Manager
- Setup & configuration
- Configuration of notification templates
- Configuration of portal
- Staff training
- Standard reports
- Creation of initial staff accounts
- System interfaces per RFP

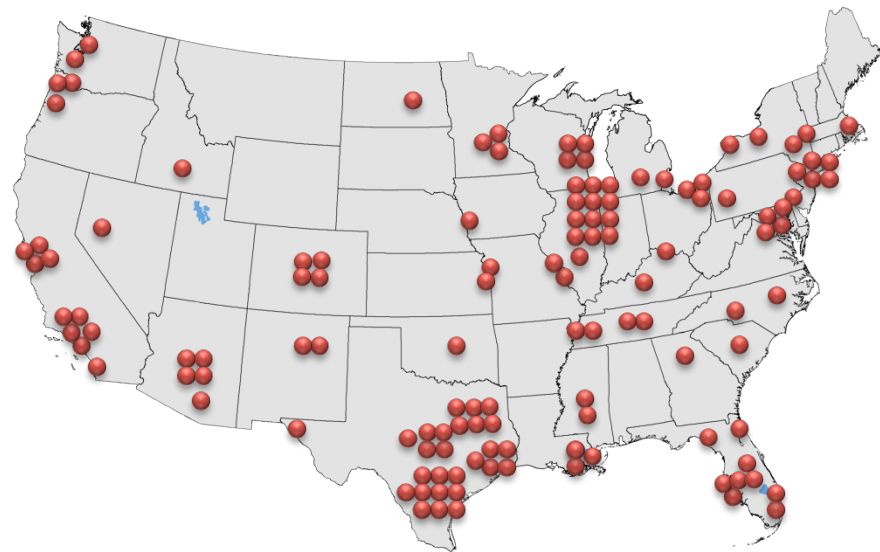

**Our pricing is inclusive of all SaaS services and software**

## Why B2Gnow?

**1** **TEAM** of experts in public sector software with the resources necessary for project success, with extensive MBE, WBE, SBE, DBE, ACDBE, LBE program experience.

**2** The most comprehensive **TECHNOLOGY** available delivered using state-of-the-art technical infrastructure.

**3** 17 years **EXPERIENCE** delivering 180 systems on time & on budget while exceeding client expectations.

## Why B2Gnow?

# 1

The most qualified **TEAM** available – experts in MBE, WBE, SBE, DBE, ACDBE, LBE programs and processes.

## Why B2Gnow? ➤ Team

---

**We understand government.** It's all we do. **B2G = Business to Government.**

---

Our staff includes experts in contract compliance, certification, goal setting, prevailing wage, project management, software development, systems administration, and customer support.

---

We have the resources and talent to successfully manage multiple projects simultaneously.

---

**B2Gnow is financially strong** with sufficient resources to guarantee your project's success.

---

Top level quality customer service for staff and vendors

*"... You have never lost that great customer service. You always respond to our questions and concerns and **go that extra mile**. It's a pleasure doing business with you."*

**Janice Ruley, Houston Airport System**

---

## Why B2Gnow?

2

The most comprehensive **TECHNOLOGY** available, delivered using state-of-the-art technical infrastructure.

## Why B2Gnow? ➤ Technology

### Comprehensive

B2Gnow is the **most comprehensive diversity management system available**, and our modular design allows you to implement functions as needed.

### Cost Effective

100% web-based hosted solution is considerably **less expensive** than traditional installed software solutions.

### Collaborative

Collaborative architecture will permit the organization and its departments to minimize cost while providing a **one-stop solution for the vendor community**

### Advanced

We maintain the most advanced technology infrastructure and security in the market, with 24/7/365 systems monitoring, better than **99.9% availability**, system redundancy, and full disaster recovery plans in place. We **meet or exceed** requirements of the most stringent governments.

### Integrated

B2Gnow can **easily exchange** vendor, contract, and payment data with external systems.

### Scalable & Robust

Our system will support **thousands of users at the same time** and is usable over dial-up Internet connections still used by many vendors.

### Optimized

The system is designed to maximize vendor participation and **reduce staff time** required to enter and manage data. Used by 350,000 vendors and 9,000 staff, B2Gnow tracks contracts worth more than \$750 billion.

## Why B2Gnow?

# 3

Unmatched **EXPERIENCE** managing and implementing diversity management technology on time & on budget, while exceeding client expectations.

## Extensive DBE & ACDBE Experience

**12+ years** experience working with airports across the country:

- **20** airports tracking DBE compliance and ACDBE revenues.
- **25** agencies certifying DBE & ACDBE firms.
- **50** agencies reporting to FAA, FHWA, and FTA.

Provider of **FAA dbE-Connect** system for DBE, Title VI, and ADA program management and reporting. 2000+ airports using dbE-Connect. Select in July to provide a similar system for **FHWA**

All standard DBE and ACDBE reports and related data tracking facilitated.

Built to Part 26 and Part 23 regulations and **guaranteed** to comply.

Multiple B2Gnow staff previously worked in airport DBE and ACDBE programs.

Contract relationship with AMAC to support **National Certified Directory**.

## B2Gnow is the “Go-To Solution”

### Organizations that have used B2Gnow to replace an existing system

- Chicago Housing Authority
- City of Cincinnati
- City of Cleveland
- City of Dallas
- City of St. Paul
- Cook County
- Dallas County
- Fulton County
- Hillsborough County
- New York State/DASNY
- Charlotte Airport
- Cleveland Airport
- Memphis Airport
- MWA
- Cap Metro
- St Louis METRO
- Houston METRO
- DC DOT
- Nevada DOT
- Baltimore City Public Schools
- Houston Schools
- Houston Community College System
- Port of Houston
- CERT Authority
- WBENC

### Organizations that have replaced B2Gnow

## Final Thoughts

B2Gnow is the *best* partner for Broward County:

1. Responsive and Responsible
2. Most comprehensive functionality available
3. World-class technology and security
4. All-inclusive implementation and annual service fee
5. Proven industry expertise
6. Highly experienced team of over 40 full-time staff
7. Financial resources to guarantee success
8. Trusted solution for over 180 clients
9. Zero client turnover
10. Lowest Risk
