

DIVISION D – DEPARTMENT OF THE INTERIOR, ENVIRONMENT,
AND RELATED AGENCIES APPROPRIATIONS ACT, 2020

The following statement is an explanation of the effects of Division D, which provides appropriations for the Department of the Interior, the Environmental Protection Agency (EPA), the Forest Service, the Indian Health Service, and related agencies for fiscal year 2020.

The explanatory statement accompanying this Act is approved and indicates congressional intent. Report language contained in House Report 116-100 and Senate Report 116-123 providing specific guidance to agencies regarding the administration of appropriated funds and any corresponding reporting requirements carries the same emphasis as the language included in this explanatory statement and should be complied with unless specifically addressed to the contrary herein. This explanatory statement, while repeating some language for emphasis, is not intended to negate the language referred to above unless expressly provided herein.

In cases where the House report, Senate report, or this explanatory statement direct the submission of a report, such report is to be submitted to both the House and Senate Committees on Appropriations. Where this explanatory statement refers to the Committees or the Committees on Appropriations, unless otherwise noted, this reference is to the House Subcommittee on Interior, Environment, and Related Agencies and the Senate Subcommittee on Interior, Environment, and Related Agencies.

Each department and agency funded in this Act is directed to follow the directions set forth in this Act and the accompanying statement and to not reallocate resources or reorganize activities except as provided herein or otherwise approved by the House and Senate Appropriations Committees through the reprogramming process as referenced in this Act. This explanatory statement addresses only those agencies and accounts for which there is a need for greater explanation than provided in the Act itself. Funding levels for appropriations by account, program, and activity, with comparisons to the fiscal year 2019 enacted level and the fiscal year 2020 budget request, can be found in the table at the end of this division.

Unless expressly stated otherwise, any reference to “this Act” or “at the end of this statement” shall be treated as referring only to the provisions of this division.

Bureau of Land Management, Reorganization.—The Department has not fulfilled its obligation to fully communicate the organizational and financial details of the reorganization and relocation of the Bureau’s Washington, DC headquarters. It has not provided Bureau employees, Congress, agency stakeholders or the general public with adequate information regarding this move. Furthermore, it has not explained how it will sustain its operations and remain an effective land management agency following

the anticipated loss of much of its senior management and the expected significant attrition of its workforce caused by the reorganization. The Department is therefore directed to begin monthly briefings with the Committees on Appropriations on the status of the reorganization, including in an initial briefing explaining the Bureau's plan for ensuring continuity of agency operations and addressing the immediate impacts of likely staff shortages caused by the reorganization.

Requirement Relating to Information Requests.—The head of a Federal agency that receives funds under this Act or any other Act making appropriations for the Department of the Interior, environment, and related agencies for any other fiscal year shall respond completely and in full to a written request for information received by the head of the Federal Agency from the Comptroller General of the United States relating to a decision or opinion on appropriations law not later than the earlier of: (1) the date that is 45 days after the date on which the head of the Federal agency receives the written request; and (2) the date otherwise established by the Comptroller General of the United States in the written request. If the information requested by the Comptroller General of the United States is not readily available and the head of the Federal agency that received the written request is not able to respond completely and in full within the time period described, the head of the Federal agency shall by the deadline established in the preceding sentence respond in writing to provide as much information as practicable at the time of the response; and an explanation for the reason why the head of the Federal agency is unable to respond completely and in full at the time of the response; and a proposed timetable for the submission of all remaining requested information. Not later than 30 days after the date on which a response is submitted to the Comptroller General of the United States and every 30 days thereafter until the date on which the head of the Federal agency responds completely and in full to the request for information, as determined by the Comptroller General of the United States, the head of the Federal agency shall update in writing the response provided.

Chaco Canyon.—On May 28, 2019, the Secretary announced that the Department will refrain from oil and gas leasing within the 10-mile radius of Chaco Culture National Historical Park pending completion of planning activities and tribal consultation. The Bureau of Land Management is directed not to conduct any oil and gas leasing activities authorized by section 17 of the Mineral Leasing Act (30 U.S.C. 226) in the withdrawal area identified on the map of the Chaco Culture National Historical Park prepared by the Bureau of Land Management and dated April 2, 2019, until the completion of the cultural resources investigation included in this agreement as part of the Bureau of Indian Affairs—Operation of Indian Programs appropriation. Nothing in this directive prohibits an Indian tribe or individual member of an Indian tribe or allottee from developing mineral rights under the Indian Mineral Leasing Act.

105(l) Lease costs.—Estimates for lease costs resulting from section 105 of the Indian Self-Determination and Education Assistance Act continue to increase and have the potential to increase over the coming months. The uncertainty surrounding the 105(l) lease agreement estimates has inserted a high level of unpredictability into the budget process and has placed the House and Senate Committees on Appropriations in the difficult position where rapidly escalating requirements for lease costs are negatively impacting the ability to use discretionary appropriations to support core tribal programs, including health, education and construction programs, or provide essential fixed cost requirements. Obligations of this nature are typically addressed through mandatory spending, but in this case since they fall under discretionary spending, they are impacting all other programs funded under the Interior and Environment Appropriations bill, including other equally important Tribal programs, and they appear to be growing exponentially without the Administration developing a long-term funding strategy to address them. The agreement notes that payments for 105(l) leases directly resulting from decisions in the case of *Maniilaq Ass'n v. Burwell* in both 2014 (72 F. Supp. 3d 227 (D.D.C. 2014)) and 2016 (70 F. Supp. 3d 243 (D.D.C. 2016)) appear to create an entitlement to compensation for 105(l) leases that is typically not funded through discretionary appropriations. The Department of the Interior and the Department of Health and Human Services are directed to consult with Tribes and work with the House and Senate committees of jurisdiction, the Office of Management and Budget, and the Committees on Appropriations to formulate long-term accounting, budget, and legislative strategies to address the situation, including discussions about whether, in light of the *Maniilaq* decisions, these funds should be reclassified as an appropriated entitlement.

Bighorn Sheep.—In lieu of House direction, the Department of the Interior and the Forest Service shall follow the direction included in Senate Report 116-123 with regards to Bighorn Sheep.

Land and Water Conservation Fund.—The bill includes \$495,103,000 in new budget authority to be derived from the Land and Water Conservation Fund (LWCF) for programs consistent with chapter 2003 of title 54 of the United States Code, as identified in the table below.

Mitigation from Border Barrier Construction.—The agreement does not include direction requiring a report on the impacts of border barrier construction.

Project Identification and Prioritization.—The bill contains statutory language in Title IV directing the submission of detailed and prioritized project lists by a date certain.

Recreational Access.—The Department of the Interior and the Forest Service shall follow the direction contained in the Senate Report 116-123.

Study on Outdoor Recreation. —The Comptroller General shall conduct a study that identifies programs carried out by federal agencies that directly impact the outdoor recreation sector. The study should present federal spending information for these programs, and in conducting the study, the Comptroller General should obtain information as appropriate from relevant stakeholders, including but not necessarily limited to representatives of the outdoor recreation industry, nongovernmental organizations, the Bureau of Economic Analysis of the U.S. Department of Commerce, and other interested stakeholders. The Comptroller General should work with relevant staff of the House and Senate Appropriations Committees to determine the federal agencies and fiscal years to be covered by the study. The Comptroller General should brief the Committees on the results of the study within one year, with a report to follow thereafter.

Reports and Studies. — The agreement does not include the direction regarding a National Academy of Sciences report of the impacts on ecosystem services from mining and a mineral withdrawal study.

REPROGRAMMING GUIDELINES

The following are the procedures governing reprogramming actions for programs and activities funded in the Department of the Interior, Environment, and Related Agencies Appropriations Act. The House and Senate Committees on Appropriations are dismayed by multiple agencies' lack of strict adherence to the Committees' reprogramming guidelines and agencies funded by this Act are reminded that no reprogramming shall be implemented without the advance approval of the House and Senate Committees on Appropriations in accordance with the procedures included in this Act. The agencies funded in this Act are reminded that these reprogramming guidelines are in effect, and must be complied with, until such time as the Committees modify them through bill or report language.

Definitions.—"Reprogramming," as defined in these procedures, includes the reallocation of funds from one budget activity, budget line-item, or program area to another within any appropriation funded in this Act. In cases where either the House or Senate Committee on Appropriations report displays an allocation of an appropriation below that level, the more detailed level shall be the basis for reprogramming.

For construction, land acquisition, and forest legacy accounts, a reprogramming constitutes the reallocation of funds, including unobligated balances, from one construction, land acquisition, or forest legacy project to another such project.

A reprogramming shall also consist of any significant departure from the program described in the agency's budget justifications. This includes all proposed reorganizations or other workforce actions detailed below which affect a total of 10 staff members or 10 percent of the staffing of an affected program or office, whichever is less, even without a change in funding. Any change to the organization table presented in the budget justification shall also be subject to this requirement.

It is noted that agencies funded by this Act are continuing to work to implement Executive Order 13781, a Comprehensive Plan for Reorganizing the Executive Branch, and have included in the fiscal year 2020 budget request funding for these activities. It is also noted that agencies funded by this Act continue to weigh additional organizational changes during the fiscal year. Agencies are reminded that this recommendation continues longstanding General Guidelines for Reprogramming that require agencies funded by this Act to submit reorganization proposals for the Committees' review prior to their implementation. It is noted that such reprogramming guidelines apply to proposed reorganizations, workforce restructure, reshaping, transfer of functions, or bureau-wide downsizing and include closures, consolidations, and relocations of offices, facilities, and laboratories. In addition, no agency shall implement any part of a reorganization that modifies regional or State boundaries for agencies or bureaus that were in effect as of the date of enactment of this Act unless approved consistent with the General

Guidelines for Reprogramming procedures specified herein. Any such reprogramming request submitted to the Committees on Appropriations shall include a description of anticipated benefits, including anticipated efficiencies and cost-savings, as well as a description of anticipated personnel impacts and funding changes anticipated to implement the proposal.

General Guidelines for Reprogramming.—

(a) A reprogramming should be made only when an unforeseen situation arises, and then only if postponement of the project or the activity until the next appropriation year would result in actual loss or damage.

(b) Any project or activity, which may be deferred through reprogramming, shall not later be accomplished by means of further reprogramming, but instead, funds should again be sought for the deferred project or activity through the regular appropriations process.

(c) Except under the most urgent situations, reprogramming should not be employed to initiate new programs or increase allocations specifically denied or limited by Congress, or to decrease allocations specifically increased by the Congress.

(d) Reprogramming proposals submitted to the House and Senate Committees on Appropriations for approval will be considered as expeditiously as possible, and the Committees remind the agencies that in order to process reprogramming requests, adequate and timely information must be provided.

Criteria and Exceptions.—A reprogramming must be submitted to the Committees in writing prior to implementation if it exceeds \$1,000,000 annually or results in an increase or decrease of more than 10 percent annually in affected programs or projects, whichever amount is less, with the following exceptions:

(a) With regard to the Tribal priority allocations of the Bureau of Indian Affairs (BIA) and Bureau of Indian Education (BIE), there is no restriction on reprogrammings among these programs. However, the Bureaus shall report on all reprogrammings made during a given fiscal year no later than 60 days after the end of the fiscal year.

(b) With regard to the EPA, the Committees do not require reprogramming requests associated with the States and Tribes Partnership Grants or up to a cumulative total of \$5,000,000 from carryover balances among the individual program areas delineated in the Environmental Programs and Management account, with no more than \$1,000,000 coming from any individual program area. No funds, however, shall be reallocated from individual Geographic Programs.

(c) With regard to the National Park Service, the Committees do not require reprogramming requests associated with the park base within the Park Management activity in the Operation of

the National Park System Account. The Service is required to brief the House and Senate Committees on Appropriations on spending trends for the park base within 60 days of enactment of this Act.

Assessments.—"Assessment" as defined in these procedures shall refer to any charges, reserves, or holdbacks applied to a budget activity or budget line item for costs associated with general agency administrative costs, overhead costs, working capital expenses, or contingencies.

(a) No assessment shall be levied against any program, budget activity, subactivity, budget line item, or project funded by the Interior, Environment, and Related Agencies Appropriations Act unless such assessment and the basis therefore are presented to the Committees in the budget justifications and are subsequently approved by the Committees. The explanation for any assessment in the budget justification shall show the amount of the assessment, the activities assessed, and the purpose of the funds.

(b) Proposed changes to estimated assessments, as such estimates were presented in annual budget justifications, shall be submitted through the reprogramming process and shall be subject to the same dollar and reporting criteria as any other reprogramming.

(c) Each agency or bureau which utilizes assessments shall submit an annual report to the Committees, which provides details on the use of all funds assessed from any other budget activity, line item, subactivity, or project.

(d) In no case shall contingency funds or assessments be used to finance projects and activities disapproved or limited by Congress or to finance programs or activities that could be foreseen and included in the normal budget review process.

(e) New programs requested in the budget should not be initiated before enactment of the bill without notification to, and the approval of, the Committees. This restriction applies to all such actions regardless of whether a formal reprogramming of funds is required to begin the program.

Quarterly Reports.—All reprogrammings between budget activities, budget line-items, program areas, or the more detailed activity levels shown in this recommendation, including those below the monetary thresholds established above, shall be reported to the Committees within 60 days of the end of each quarter and shall include cumulative totals for each budget activity or budget line item, or construction, land acquisition, or forest legacy project.

Land Acquisitions, Easements, and Forest Legacy.—Lands shall not be acquired for more than the approved appraised value, as addressed in section 301(3) of Public Law 91-646, unless such acquisitions are submitted to the Committees on Appropriations for approval in compliance with these procedures.

Land Exchanges.—Land exchanges, wherein the estimated value of the Federal lands to be exchanged is greater than \$1,000,000, shall not be consummated until the Committees have had 30 days in which to examine the proposed exchange. In addition, the Committees shall be provided advance notification of exchanges valued between \$500,000 and \$1,000,000.

Budget Structure.—The budget activity or line item structure for any agency appropriation account shall not be altered without advance approval of the Committees.

Specific allocations at the activity and subactivity level are contained in the table at the back of this explanatory statement. The increase provided in the Cultural Resources Management subactivity is for the National Cultural Resources Information Management System as directed in House Report 116-100. Within funds made available in the Wildlife Habitat Management subactivity, \$64,000,000 shall be for sage grouse conservation. Of the increase provided in the Recreational Resources Management subactivity, \$1,000,000 shall be for the historic and scenic trails program. The plan shall also include a thorough discussion of the Bureau's proposed management of the logistical details of the strategy, including but not limited to: (1) the number of individuals currently assigned and actively working in the program and the number of additional personnel needed to implement the strategy; (2) the resources (including personnel and equipment) currently available for animal gathers and the increases needed in those resources to substantially increase

the number of animals gathered for removal to achieve appropriate management levels; (3) the number of all short-term and long-term holding facilities currently under contract (including their current holding capacity and when those contracts expire), and an estimate of the number of additional facilities that will be needed and the Bureau's strategy to obtain those facilities, and; (4) the amount of fertility control resources currently available, the additional resources anticipated to be needed and the plan for obtaining those resources, and the plan for administering those resources, all focused on implementing a strategy aimed at minimizing future removals and maximizing treatment and retreatment of on-range animals to maintain appropriate management levels. In consultation with the United States Agency for International Development (USAID), the Department of the Interior shall develop policies and procedures for the execution and oversight of programs from funds made available by transfer from USAID to ensure that agreements for the obligation of funds between implementing partners and the Department include provisions requiring that: (1) information detailing the proposed project and potential impacts is shared with local communities and the free, prior, and informed consent of affected indigenous communities is obtained in accordance with international standards; (2) the potential impacts of the proposed project on existing land or resource claims by affected local communities or indigenous peoples are considered and addressed in any management plan; (3) any eco-guards, park rangers, and other law enforcement personnel authorized to protect biodiversity will be properly trained and monitored; and (4) effective grievance and redress mechanisms for victims of human rights violations and other misconduct exist. The Director shall consult with the Committees not later than 45 days after enactment of this Act on the development of such policies and procedures.

The Endangered Species Act requires that importing sport-hunted trophies from endangered species is only permissible if the exporting country has demonstrated that hunting improves the survival of that species and proceeds of the hunt will be reinvested in conservation. The current U.S. Fish and Wildlife Service policy to evaluate applications for importing trophies for elephants and lions on a case-by-case basis may not adequately determine whether a country has proper safeguards in place to protect species vulnerable to poaching. Population counts continue to decline causing concern that the current policy is detrimental. The Fish and Wildlife Service is directed to reevaluate its current policy and analyze how targeted investments and technical assistance to the exporting countries' conservation programs would impact the survival of elephants and lions, improve local communities, and sustain species populations. The Service is to brief the Committees 60 days after enactment of this Act on their findings.

Fish and Aquatic Conservation.—The agreement provides \$205,477,000 for fish and aquatic conservation programs.

National Fish Hatchery System Operations.—The agreement provides \$64,272,000 which includes: \$1,200,000 for the Aquatic Animal Drug Approval Partnership; \$3,750,000 for Klamath Basin restoration activities; and \$4,700,000 for mitigation of the Pacific Salmon Treaty. The agreement maintains funding for mass marking at the fiscal year 2019 enacted level and directs the Service to work

in cooperation with State fish and game agencies on marking of anadromous fish. None of the funds may be used to terminate operations or to close any facility of the National Fish Hatchery System. None of the production programs listed in the March 2013 National Fish Hatchery System Strategic Hatchery and Workforce Planning Report may be reduced or terminated without advance, informal consultation with affected States and Tribes.

The Service is expected to continue funding mitigation hatchery programs via reimbursable agreements with Federal partners. Future agreements should include reimbursement for production, facilities, and administrative costs. The Service is expected to ensure that its costs are fully reimbursed before proposing to reduce or redirect base funding.

Maintenance and Equipment.—The agreement provides \$25,846,000 for maintenance and equipment expenses related to the National Fish Hatchery System. The Service is encouraged to provide a portion of this funding to hatcheries where partner agencies fund mitigation work.

Habitat Assessment and Restoration.—The agreement provides \$43,037,000, which includes \$9,700,000 to implement the Delaware River Basin Conservation Act; \$18,598,000 for the National Fish Passage Program; and \$2,750,000 to implement Klamath Basin restoration activities. Population Assessment and Cooperative Management.—The agreement provides \$31,840,000 which includes \$1,680,000 for Great Lakes Fish and Wildlife Restoration and \$818,000 for the Lake Champlain sea lamprey program. The Service is reminded of the direction contained in Senate Report 116-123 regarding contributions to the Coded Wire Tag Program.

BUREAU OF INDIAN AFFAIRS
OPERATION OF INDIAN PROGRAMS
(INCLUDING TRANSFERS OF FUNDS)

The agreement accepts the budget proposal to strengthen the Bureau of Indian Education (BIE) as an independent bureau with a separate budget structure, including a separate construction budget, from the Bureau of Indian Affairs (BIA). The separation is reflected below.

The bill provides \$1,577,110,000 for Operation of Indian Programs. All programs, projects, and activities are maintained at fiscal year 2019 levels, except for requested fixed cost increases and internal transfers, or unless otherwise specified below. For this and all other Bureau accounts funded in this bill, Indian Affairs is expected to comply with the instructions and requirements at the beginning of this division and in House Report 116-100 and Senate Report 116-123, unless otherwise specified below. Additional details, instructions, and requirements are included below and in the table at the end of this division. Indian Affairs is reminded of the importance of meeting reporting requirement deadlines so that the Committees can properly evaluate programs. Failure to do so could negatively impact future budgets.

Tiwahe.—The bill continues the Tiwahe Initiative at fiscal year 2019 levels across all programs and activities with funding distributed in the same amounts to the same recipients, including the funding to support women and children’s shelters. There is concern that Tiwahe funding was not properly documented or distributed as outlined in the Office of Inspector General report published in 2018; therefore, BIA is directed to submit the final reports as directed by House Report 115-765 and Senate Report 116-123 within 90 days of enactment of this Act.

NATIVE Act.—Funding is continued across all programs and activities at fiscal year 2019 levels for the Native American Tourism and Improving Visitor Experience Act of 2016 (P.L. 114-221) (NATIVE Act). The agreement directs BIA to comply with the reporting requirement for the road maintenance program funding in Senate Report 116-123.

Alternative Financing/105(l) Lease Costs.—Estimates for lease costs resulting from section 105 of the Indian Self-Determination and Education Assistance Act continue to increase and have the potential to increase over the coming months. The agreement directs BIA to comply with the 105(l) lease costs language included in the front of this explanatory statement.

Staffing.—The high level of staff vacancies prevents BIA from fulfilling its trust responsibilities. Indian Affairs is directed to submit a report to the Committees on Appropriations detailing actual staffing

and vacancy levels within the Bureau by region and headquarters for each program, and the amount of funding associated with any vacant positions within 120 days of enactment of this Act.

The agreement continues funding for the Everglades at the fiscal year 2019 levels.

Within the Tribal Management Development program, the bill includes an additional \$255,000 to advance the understanding of salmon and steelhead habitat; an additional \$500,000 to develop Tribal buffalo herds and support related activities; and an additional \$700,000 for pilot projects and programs for Alaska subsistence activities as further outlined in the Senate Report 116-123. In addition, the agreement includes \$25,541,000 for the Agriculture Program (TPA); \$9,773,000 for Invasive Species; \$6,549,000 for Wildlife and Parks (TPA); and \$8,525,000 for water management, planning and pre-development.

The agreement includes \$1,000,000 for the Assistant Secretary of Indian Affairs to contract with relevant federally recognized Tribes or Tribal organizations to allow Tribal cultural experts to perform a cultural resources investigation to identify culturally and historically significant areas and sites in areas of high energy development potential within the Chaco Canyon region of the Southwest. As part of this investigation, the agreement expects special emphasis to be given to areas of high development potential as defined in Figure 10 of the Bureau of Land Management's February 2018 Final Report, "Reasonable Development Scenario of Oil and Gas Activities" for the Mancos-Gallup RMPA Planning Area. The Assistant Secretary shall consult with affected Tribes prior to soliciting proposals and shall award funds within 270 days of enactment of this Act.

Trust – Real Estate Services.—The bill provides \$138,097,000 for real estate services, of which \$500,000 is to implement the Gila River Indian Community Federal Rights-of-Way, Easements and Boundary Clarification Act (P.L. 115-350); \$4,852,000 is for Environmental Quality Program (TPA); \$17,743,000 is for Environmental Quality Projects; \$4,078,000 is for Rights Protection (TPA); and \$10,727,000 is for Water Rights Negotiation, including \$1,500,000 for rights protection litigation support.

The recommendation also includes \$2,500,000 to focus on advanced training needs to help address the crisis for missing, trafficked, and murdered indigenous women. These activities shall focus on training for detectives, forensics, and other specialized courses in an effort to provide greater access to programs for Indian country law enforcement personnel to create safer communities. This advanced training shall not duplicate those activities at the Indian Police Academy, which continues as the central justice services training location for tribal law enforcement, including for entry-level law enforcement officers, agents and corrections officers, and the agreement provides full funding for these programs.

To further address the crisis of missing, trafficked, and murdered indigenous women, it is necessary to both boost coordination and data collection among Tribal, local, State, and Federal law enforcement. For this reason, the agreement directs BIA to designate an official within the Office of Justice Services to work with Tribes to develop a set of guidelines on how to best collect the statistics on missing, trafficked, and murdered native women. The designee is expected to report back to the Committees on his or her findings within 1 year after enactment of this Act. Additionally, the Government Accountability Office is directed to conduct a review of the BIA's policy for investigating and reporting missing and murdered Native Americans as well as outline recommendations for ways in which the BIA can improve and better coordinate BIA and Tribal law enforcement activities with other Federal agencies to improve access to databases and public notification systems.

The agreement directs BIA to conduct the study identified in section 117 of Division B of H.R. 3055, as passed by the Senate on October 31, 2019, related to law enforcement staffing needs of Indian Tribes, and submit such study to the House and Senate Committees on Appropriations within 270 days of enactment of this Act.

Construction Priority System or the Joint Venture Construction Program that have opened in fiscal year 2019 or will open in fiscal year 2020. None of these funds may be allocated to a facility until such facility has achieved beneficial occupancy status. As part of its annual budget justification, IHS is expected to detail, for the two prior fiscal years, the transfer from the Staffing for New Facilities account into the base amount of each facility as well as continue detailing the amounts necessary for the Staffing for New Facilities account by facility for the upcoming fiscal year. As initial estimates included as part of the annual budget request are refined, IHS is expected to communicate updated cost estimates to the Committees.

105(l) Lease Costs.—The recommendation includes \$125,000,000 for section 105(l) lease costs, \$89,000,000 above the enacted level. These funds are to supplement existing funds available for operational costs at Village Built Clinics and Tribal clinics operated under an Indian Self-Determination and Education Assistance Act compact or contract where health care is delivered in space acquired through a full-service lease. IHS is directed to comply with the 105(l) lease costs language included in the front of this report as well as the directive in the Senate Report 116-123 regarding the specific statutory and regulatory challenges that may make it difficult to accurately formulate a budget for these costs.

Hospitals and Health Clinics.—The agreement provides \$2,324,606,000 for hospitals and health clinics, and includes \$9,967,000 for domestic violence prevention, \$5,433,000 for Tribal Epidemiology Centers, \$11,463,000 for new Tribes, \$2,000,000 for quality and oversight, and \$5,000,000 for the national Community Health Aide Program (CHAP) expansion, which shall not divert funding from the existing CHAP program serving Alaska. The agreement funds the existing CHAP program at the fiscal year 2019 level.

Electronic Health Records.—The agreement provides \$8,000,000 for Electronic Health Record (EHR) system to improve the current IT infrastructure system in order to support the deployment of a new or modernized EHR solution. The new or modernized EHR shall be compatible with the new Veterans Affairs system and with systems used by Indian Tribes or Tribal organizations that do not currently use the resource patient management system (RPMS).

Dental Health.—The agreement provides \$210,590,000 for dental health and includes \$2,000,000 for the electronic dental health records (EDR) system to enable IHS to bring more dental centers onto the system and to manage the current electronic dental record system. IHS is directed to include EDR in its assessment and incorporate EDR in overall efforts to enhance its EHR system.

Mental Health.—The bill provides \$108,933,000 for mental health and continues funding at fiscal year 2019 levels for the behavioral health integration initiative and for suicide prevention.

Opioid Grants.—To better combat the opioid epidemic, the agreement continues funding of \$10,000,000 and instructs IHS, in coordination with the Assistant Secretary for Mental Health and

Substance Abuse, to use the funds provided to continue a Special Behavioral Health Pilot Program as authorized by Public Law 116–6. The Director of IHS, in coordination with the Assistant Secretary for Mental Health and Substance Use, shall award grants for providing services, providing technical assistance to grantees under this section, collecting data, and evaluating performance of the program.

IHS is finishing Tribal consultation for the substance abuse, suicide prevention, and domestic violence funding and the Service is urged to complete this phase of the process within 90 days of the date of enactment of this Act so that funds can be distributed expeditiously.

Alcohol and Substance Abuse.—The bill provides \$245,603,000 for alcohol and substance abuse and includes the \$1,369,000 transfer of the former National Institute on Alcohol Abuse and Alcoholism programs (former-NIAAA programs) to the urban Indians health program. As noted above, the agreement continues fiscal year 2019 funding levels to address opioid abuse and provide essential detoxification services as well as fund Generation Indigenous and the Youth Pilot project. Funding for detoxification services shall be distributed as directed in Senate Report 116-123.

The agreement has provided these funds with the Indian Health Professions program rather than within the Hospitals and Health Clinics program as originally requested by the Administration. Funding is continued at the fiscal year 2019 levels for the InMed fourth site, Quentin N. Burdick Indians into Nursing, and the American Indians into Psychology Programs.

The stipulations included in the “Indian Health Services” account regarding the allocation of funds pertain to this account as well.

Funds for the staffing of new facilities are limited to facilities funded through the Health Care Facilities Construction Priority System or the Joint Venture Construction Program that have opened in fiscal year 2019 or will open in fiscal year 2020. None of these funds may be allocated to a facility until such facility has achieved beneficial occupancy status. There is continued support for the Joint Venture program as currently implemented by IHS although IHS is directed to establish a more consistent application cycle of between three to five years. At each competitive cycle, IHS should select a specific number of awards and non-selected applications should be eligible to reapply during the next competitive cycle.

Health Care Facilities Construction.—The agreement provides \$911,889,000 for health care facilities construction, of which \$5,000,000 is for green infrastructure and \$25,000,000 is for small ambulatory clinics. Of the small ambulatory funds, \$5,000,000 is for replacement and expansion projects.

With the funds provided for green infrastructure, the agreement directs the Service to incorporate planning, design, and operations of buildings to reduce costs, minimize environmental impacts, use renewable energy and incorporate green infrastructure and the most current energy efficiency codes and standards to the maximum extent practicable and submit a report to the Committees on Appropriations within 120 days of enactment of this Act describing how the Service plans to use these funds to incorporate these activities into facilities, including how the funds were distributed by Tribe and project.
