

TYPE***R***

HONDA

Your **dreams** go with you.

A blue Honda Civic Type R is shown from a front-three-quarter perspective, driving on a racetrack. The car is in motion, with a blurred background of a sunset sky and distant mountains. The car's headlights are on, and the Honda logo is visible on the front grille. The overall mood is dynamic and high-performance.

DOMINATE THE PAVEMENT

When 70 years of engineering for the racetrack is distilled into one Civic, you can expect a visceral driving experience simply unmatched anywhere else. The 306-hp VTEC turbo engine provides a staggering 153 hp per liter, and a stiffened lightweight frame coupled with purpose-built suspension components enable enhanced stability at the limit. Its wheels may be firmly on the road, but the soul of Type R lives on the track.

Civic Type R shown in Rallye Red

ENGINEERED PRECISION

Engineered for the track, the Type R is equipped with a light weight center-mounted, triple outlet exhaust and a wing spoiler for improved performance. The vehicle also comes with twenty-inch alloy wheels paired with sticky maximum-performance tires help create a superior connection with the road. Brembo 4-piston calipers, 13.8-inch ventilated, cross-drilled, rotors and precisely designed brake cooling ducts culminate in confident, track-ready high-speed braking.

DRIVER INFORMATION INTERFACE

Keep track of your ride with information about G-force, turbo boost, throttle/brake input, rev-limit and lap time for the track, strategically displayed within your line of sight.

3-MODE DRIVE SYSTEM

Switch between Comfort and Sport modes for everyday driving. Select +R mode to adjust the throttle, steering and dampers to a new level of handling at the track.

ALUMINUM PEDALS

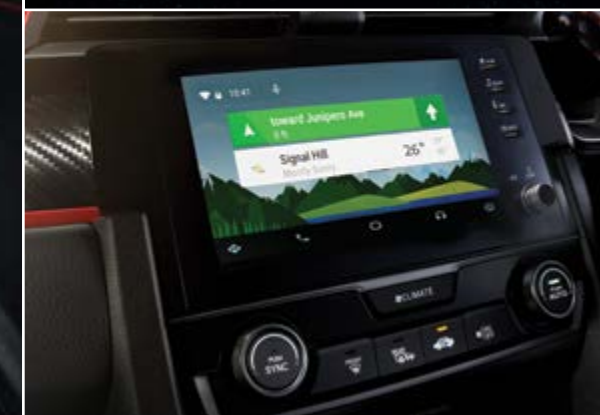

It's all about control. Firm, precisely placed pedals allow for confident driving at the limit.

7-INCH DISPLAY AUDIO TOUCH SCREEN^{1,2}

Stay in touch with a pinchable, swipeable touch-screen that becomes command central for your racing soundtrack, communication and content.

Civic Type R shown with Red/Black Suede-Effect Fabric

2.0 LITER VTEC TURBO ENGINE

Honda engines are known for producing massive amounts of horsepower per liter of displacement. The VTEC engine has forged connecting rods, sodium-filled exhaust valves and a mono-scroll TD04 turbo, delivering 306 hp and 295 lb-ft of torque.

HIGH-BOLSTERED SPORT SEATS

Red and black-suede effect sport seats are constructed with aggressive side bolsters that assist the driver in maintaining complete control during the most extreme events.

CLOSE-RATIO 6-SPEED MANUAL TRANSMISSION

Rev-Match Control eliminates the need for throttle input while braking and downshifting. A lightweight, single-mass flywheel and helical limited-slip differential help the engine rev without delay and accelerate through corners without excessive wheelspin.

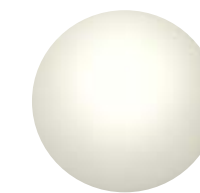

PERFECTLY BALANCED PERFORMANCE

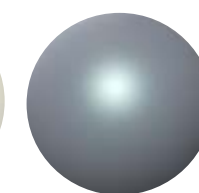

Even with its race-bred attributes, Type R is designed to be enjoyed every day and everywhere by racers and enthusiasts alike.

EXPLORE

¹ The Hands Free Link interface is only compatible with phones equipped with Bluetooth and hands-free capability. For information on phone makers and models compatible with this system, see your Honda dealer. ² The USB audio interface is used to connect directly to and control today's digital audio players and other USB devices that store music files in MP3, WMA or AAC formats. Some USB devices with security software and rights-protected digital files may not work. See your Honda dealer for further details. Honda reminds you and your passengers to always buckle up. Children 12 and under are safest when properly restrained in the rear seat. Always use seat belts and appropriate child seats.
