Residential Land Availability in Doncaster 31st March 2013

Residential Land Availability in Doncaster

31st March 2013

Introduction

This report details planning permissions for housing in Doncaster as at 31st March 2013 together with statutory allocations of land for housing that do not currently have permission. It also provides details of housing completions over the last 2 years and a summary of completions over previous years.

Methodology

The last RLA Report was produced in 2011. This 2013 report details remaining net capacity on permissions as at 31/03/2011 (**Table A**); those permissions that have subsequently lapsed in 2011/12 & 2012/13 have been removed

Permissions granted 2011/12 & 2012/13 are set out (**Tables B & C**). Capacity is net of proposed losses due to demolitions and conversion etc. Capacity on permissions substituting previous permissions has also been netted off (Reserved Matters, Extensions of time, Substitutions of house types, Replacement applications)

Tables A, B & C set out permissions information for large sites (10+ units) arranged in size order and for small sites (1-9 units) arranged in alphabetical parish order.

Housing completions in 2011/12 and 2012/13 are set out (**Tables D & E**) (Council Tax data). The figures are net of demolitions, conversions etc.

Current Borough-wide net capacity on permissions is established by adding remaining net capacity from 2011 to new net capacity from 2012 & 2013 and deducting net completions for 2011/12 & 2012/13.

$$(A+B+C - (D+E)) = \text{current permissions capacity}$$

Capacity figures for individual sites (especially those from 2011) will not always therefore reflect the 2013 position because of completions on those sites in 2011-2013 but the Borough-wide capacity figure properly takes account of completions.

The capacity of remaining statutory UDP housing allocations without permission as at 31/03/2013 is set out (**Table F**). Those which are proposed to be de-allocated through the LDF Sites & Policies DPD are indicated.

Table G sets out details of significant approvals/permissions post 31/03/13; these are for information only and are not included in the permissions capacity figures.
