Specifications vary depending on the model and configuration. Accessories are optional.

SECURITY, MANAGEABILITY AND PRODUCTIVITY

Most Acer business notebooks and desktops are equipped with a suite of security and management tools designed to protect your network and data, to simplify routine tasks, and to monitor system performance, so that users can focus on growing their productivity.

ProShield Security

MULTI-LEVEL SECURITY SOLUTIONS

Acer ProShield acts as a portal where users can easily manage their credentials and create extra layers of protection to keep devices invulnerable. Users can encrypt their sensitive files and data, or keep confidential information in a Personal Secure Drive that can only be accessed with a password of their choice. When Acer Proshield Software Security solution is combined with TPM (Trusted Platform Module) hardware security, the highest security level is achieved.

- Data Protection (Personal Secure Drive and Data Encryption / Decryption)
- Data Removal (File Shredder)
- Credential Manager (Password / TPM Configurations and Website single sign in)

Acer for Business
SECURITY, MANAGEABILITY AND PRODUCTIVITY

Acer Office Manager

EASY AND EFFICIENT IT MANAGEMENT

Acer is committed to designing devices that are easy to use, manage and deploy across a broad product portfolio. Preloaded across Acer commercial notebooks and desktops, Acer Office Manager allows small and medium businesses to easily deploy security policies, monitor IT assets and schedule maintenance tasks without dedicated IT personnel and equipment.

- Policy Enforcement
- Software Deployment (Software, System BIOS and Hotfix)
- Management (Client Management and Task Scheduler)
- Reporting (Client Configuration Reports - Serial Number, MAC, UUID, SBIOS, etc..)

Acer ControlCenter

EVERYTHING UNDER CONTROL

Acer ControlCenter is a comprehensive solution for personal computer management. Here users can easily find the latest system information and check if updates are available. The system health indicator promptly alerts in cases of component failure, preventing damage. Acer ControlCenter also includes Software Assembler, which enables users to install/uninstall software, and a direct link to Acer Office Manager. Acer ControlCenter makes it easier to manage your PC; in addition, any problem can be detected and fixed promptly, so that the system stays healthy and downtime can be avoided.

- Tune Up, Updates and Support
- Acer Office Manager Agent
- Software Assembler
- Health Monitor
- Recovery Management

ACER MONITORS

Comfortable viewing and premium resolution

Acer professional monitors are developed to fulfil the needs of the most intensive business users, combining the latest display technologies with smart Eco features for long term quality viewing. Acer strives to continuously reduce power consumption whilst enhancing the user viewing experience.

Premium resolution

Acer's professional monitor range includes high resolution models that deliver perfect image and colour performance. WQHD (2560x1440) panels feature 4 times the resolution of standard HD (720p), and allow 77% more content to be viewed than on an FHD screen.

With four times the resolution of FHD (1080p) and displaying 300% more content, the UHD (3840x2160) resolution is even more extreme.

Eco-friendly performance

Acer monitors are mercury-free and use PCR (postconsumer recycled) ABS plastic, plus reusable packaging materials. Acer monitors meet ENERGY STAR® specifications, are RoHS and TCO Certified, and have earned the respected EPEAT® Gold environmental rating.

The Acer B6 series monitors can be switched off to save energy thanks to a physical power button, and integrate smart power management features that reduce the cost of ownership.

Stunning colours

Acer ColorPlus is a set of technologies that enable optimized colour output for design professionals. Built-in 100% sRGB colour correction technology delivers high colour accuracy and colour space reproduction.

A low Delta E value ensures colours are accurate and consistent. In addition, 6-axis colour independent adjustment permits precise colour and saturation control for customised settings. Moreover, super sharpness technology optimises images from a lower resolution.

Full digital connectivity

Acer displays provide plenty of connectivity options, both state-of-the-art and legacy, to cover all users' needs. The range of available ports includes USB 3.1 Type-C™, USB 3.0, DisplayPort, HDMI and traditional DVI/VGA. If one monitor is not enough, multi-display configurations or a video-wall can be set up using the Daisy Chain function.

Ergonomic design

From CAD users to financial analysts, everyone can find the model that fits their viewing demands in our range of stylish and ergonomic monitors. Designed for professionals that spend significant amounts of time in front of a computer, they offer flexible and easy height, tilt, and pivot adjustments to enhance comfort over prolonged periods of use. Our monitors also incorporate Acer EyeProtect, a suite of features that takes into consideration prolonged usage by heavy users such as programmers, writers, and graphic designers and are designed to reduce eye-strain and provide a more comfortable viewing experience.

- Up to 500 nits brightness
- Up to 4000:1 native contrast ratio
- Built-in RS232 and RJ45 LAN

Acer for Business
ACER MONITORS

Monitors B6 High-res series

Extreme resolution

B6 high resolution monitors deliver sharp detailed images. These monitors allow you to work easily for hours thanks to Acer Comfy View technology that reduces glare, for greater eye comfort. This series comes in 4 large form factors: 27-inch, 28-inch, 32-inch and 34-inch.

- 178° Wide Viewing Angle
- Resolution from WQHD (2560 x1440) to Ultra HD (4K2K)
- Supports landscape and portrait modes
- Ultra-wide aspect ratio (depending on model)

Monitors B6 series

Robust ergonomics, stunning colours

Specifically conceived for intensive daily use, B6 monitors give productivity a boost thanks to sharp images, comfort-conscious design and energy saving features.

- Ergonomic design: height, pivot (depending on model), tilt and swivel adjustment
- Up to Ultra HD (4K2K) resolution
- TN/IPS/VA panel options
- 100% sRGB coverage

Monitors V6 series

Flexible design and vibrant visuals

Perfect for home or office professionals, V6 monitors let you find the working angle that suits you best with a screen that tilts quickly and smoothly, while a range of built-in display technologies deliver comfortable viewing and reduce eye strain.

- 4:3, 16:9 and 16:10 aspect ratios
- TN/IPS/VA panel options
- DisplayPort™, VGA, DVI and HDMI® ports
- Wall mountable

Monitors KA0 series

Comfortable viewing and smart design

The KA0 series is optimised for a comfortable viewing experience. The display is easy on the eyes, with low response times and special technology to reduce glare and harsh blue light. Easy adjustments and a wide viewing angle help you find the perfect position.

- Full HD, up to Ultra HD (4K2K) resolution
- Up to 500 nits brightness
- Up to 4000:1 native contrast ratio
- Built-in RS232 and RJ45 LAN

Specifications vary depending on the model and configuration. Accessories are optional.

Acer for Business
ACER MONITORS

Monitor BE0 series

Perfect colours for stunning visuals

With their accurate and vibrant image reproduction, effortless multitasking support, ergonomically designed stand and cutting-edge features, BE0 Series monitors are the perfect addition to any computer, for enhancing efficiency, working more comfortably and sharing ideas more easily.

- Optimal viewing experience with IPS technology
- 4-side borderless ZeroFrame design
- Ergonomic, adjustable stand
- Acer ColorPlus for superior image quality
- Acer EyeProtect for greater comfort when working

Monitors ET0 series

Boundless viewing experience.

With 10-bit colour depth and SuperSharpness technology, the ET0 43” display delivers sharp images while AcerVisionCare™ technology includes a set of features to help reduce eye strain, providing a more comfortable viewing experience.

- 4K2K (3840x2160) resolution
- IPS technology with 178° wide viewing angle
- BlueLightShield & Flicker-less technologies
- Two 7W speakers

ACER PROJECTORS

Brilliant visuals

Acer projectors combine brilliant displays, high resolutions and colour enhancing features to deliver crystal clear visuals, and exceptional brightness and contrast ratio. With flexible installation options and convenient utilities, Acer's projectors are easy to set up in any venue, while advanced EcoProjection solutions help save energy and reduce overall costs.

sRGB Technology[1]

sRGB is a standard RGB colour space, widely used by monitors, printers, cameras, smartphones, throughout the Internet and now also by projectors. Adopting sRGB, Acer's projectors ensure colour consistency across devices, reproducing content with colours that are true to the original.

Interchangeable lenses[2]

Acer's interchangeable lenses enhance the projector's versatility, enabling it to meet different installation needs. There are 5 types of lens with throw ratio varying from short (0.8 m) to super-long (20 m), giving users plenty of options when it comes to deployment and placement.

360° projection[2]

Acer projectors featuring this technology can be rotated 360 degrees, enabling greater positioning flexibility. 360° projection allows for interesting uses, such as creating an interactive floor with vertical projection, or immersive surround side-wall installations. With the lens placed at the centre of the chassis, it is easier to install the projector without the need for offset adjustment.

Acer Wireless Solution

Wireless projection frees users from the limitations of cables and makes sharing easier. Available on select models via Acer wireless adapters and eDisplayPro app, it allows users to stream documents, videos, and photos from their mobile devices. Additionally, Acer eDisplayPro allows up to four users to display their content on screen at the same time.

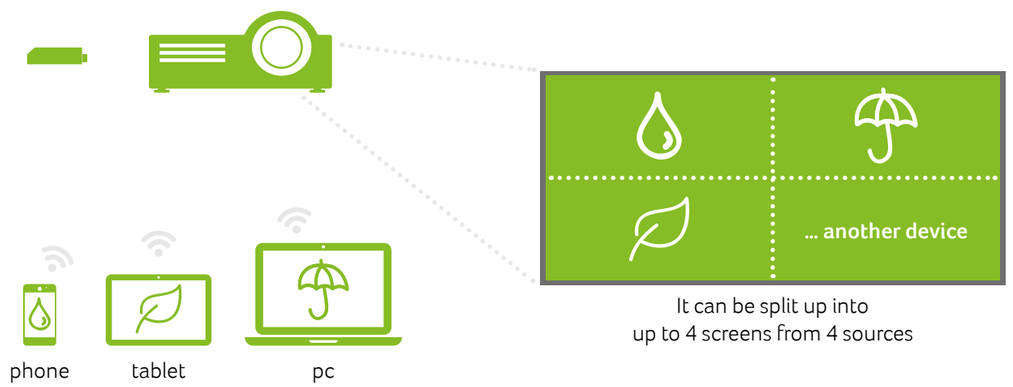
Acer ColorSafe II Technology

Acer projectors featuring ColorSafe II are virtually immune to colour decay. This means they preserve colour fidelity even after prolonged use, preventing problematic shades of green or yellow.

TCO Certified Development

Selected Acer projector models are TCO certified, guaranteeing high image quality and top performance in a design that meets the highest usability and environmental standards.

WirelessCast dongle with hidden design



It can be split up into
up to 4 screens from 4 sources

1. On A series only. - 2. On F7 series only.

Projector P6 series

High-impact projection for professionals

The P6 projector series maximizes the impact of projections and presentations. Thanks to cable management, vertical lens shift and multiple input/output interfaces these projectors are also incredibly versatile.

- HDBT (HD base T) on P6600
- Hidden dongle design (for versatile wireless display options)
- Support for Crestron Network Control
- 4-Corner Keystone Correction
- Top-Loading Lamp Design
- Auto shutdown

Projector F7 series

Versatile business projectors

F7 projectors are designed for professional installations. With five interchangeable lenses for a variety of throw ratios, high brightness and 360-degree installation flexibility, the F7 series adapts to any environment and sets users free from any installation constraints.

- Five interchangeable lenses, ultra-short throw, short throw, standard throw, long throw, and ultra-long throw
- Flexible installation and operation
- High brightness and contrast ratio
- XGA/WUXGA resolution for precise projection
- 360° projection
- Support for LAN and Crestron Network Control
- Horizontal & vertical lens shift

Specifications vary depending on the model and configuration. Accessories are optional.

Acer for Business
ACER PROJECTORS

Best value projectors for work

The convenient and flexible Acer P1 projector series provides SMB users with brilliantly sharp visuals and a wide range of connectivity options at excellent value.

- SVGA, XGA, WXGA, FHD or WUXGA resolution
- Up to 4500 ANSI lumen brightness and up to 20,000:1 contrast ratio with Dynamic Black technology
- Instant resume
- Wireless projection on selected models with optional Acer Wireless Dongles
- Hidden dongle design (depending on the model)
- Versatile connectivity
- USB plug and play functionality on selected models

RELIABILITY PROMISE

CHALLENGE ACER PRODUCTS FOR RELIABILITY

Our products are designed to last and withstand the wear and tear of everyday use. We have such confidence in the quality of our products that we offer the Acer Reliability Promise on our business range.

In the unlikely event a product fails and is repaired under warranty within the first year of purchase, we will refund 100% of the price paid.

HOW DO WE ENSURE THE QUALITY OF OUR PRODUCTS?

Rigorous testing. Our products are put through comprehensive testing that covers temperature, noise, vibration, shock, drop spill and humidity. This is how we make sure the products we deliver are faultless.

Compliance with green standards. We take pride in developing products that are environmentally friendly, so that they save energy and help to reduce costs.

Latest technology. We employ cutting-edge technology, ensuring our products have a longer life-cycle and reduced cost of ownership.

GET A FULL PRICE REFUND IF THE PRODUCT FAILS WITHIN THE FIRST YEAR.

Acer Reliability Promise applies to our business product range. For more details please read the complete Terms & Conditions

promise.acer.com

DIGITAL SIGNAGE SOLUTIONS

REACH OUT TO YOUR PUBLIC

Digital signage is an extremely flexible and effective solution for helping businesses deliver the right message at the right time. Taking advantage of cutting-edge technologies, digital signage can be used to present different kinds of messages and represents a cost-effective solution compared to printing posters, flyers and other paper-based materials.

SIMPLE SOLUTIONS

We place a great deal of value on providing our customers and retail partners with a wide range of products and technologies that are designed to work together seamlessly and enable them to reach their goals as efficiently as possible.

Our easy-to-use 3-step solution includes:

- Acer's Large Format Displays: designed for 24/7 operation and high visual impact, they deliver unbeatable quality and rich colours, to engage with customers in public spaces.
- Acer's media players - Veriton N and Chromebox CX - for reliable content playback.
- Third party software for media content playback and management.

Acer for Business
ACER FOR EDUCATION

ACER FOR EDUCATION

END-TO-END ADAPTIVE LEARNING SOLUTIONS.

With over 40 years of experience, Acer for Education offers an end-to-end adaptive learning experience comprising easy, reliable and affordable products, education-oriented software solutions and award-winning after-sales service.

The 21st century classroom requires more than just a set of devices, and Acer has built the extended ecosystem to provide innovative and comprehensive solutions to the Education community. Integrating its hardware portfolio with software and service, Acer has created a unique solution that its Education Reseller Partners can deliver to the market.At Acer, we are dedicated to serving the needs of the education market and to furthering knowledge through technology and we can rely on four decades of experience in the computing sector.

LEARNING BEYOND THE CLASSROOM

Our extensive line of products supports the learning process at every step, enabling the exploration of all subjects, in all situations and even beyond classroom walls.
Our products are intuitive and designed to make learning fun and engaging.

DEPENDABLE, ROBUST AND AFFORDABLE PRODUCTS

We believe exploration through technology is a right, not a privilege.
That is why we make affordable products that are reliable and robust, resulting in lower Total Cost of Ownership.

ADAPTIVE SOLUTIONS

Our end-to-end adaptive solutions address all the needs of the Education market, including devices and products designed for IoT, Coding and Gamification, education-centred software solutions and after-sales sevice.

RELIABLE CUSTOMER SERVICE AND SUPPORT

Our award-winning customer service and support is instrumental in helping teachers, students, schools and educational institutions prevent technical issues from disrupting the learning process.

ECOSYSTEM OF PARTNERS

Along with our ecosystem of partners, we invest in the future of education to provide a better tomorrow for the next generation.

PROFESSIONAL SERVICE

CUSTOMER SERVICE & SUPPORT

When customers buy an Acer product, they receive more than just a device to work with. They receive access to an integrated structure of logistics, contact centres and repair centres owned by the Acer Group that guarantees a perfect synchronization of the service chain.

The Acer Service Network is organized to operate quickly and efficiently, offering customers flexibility while adhering to common criteria throughout the EMEA region.

The Acer EMEA service structure comprises 6 internal and 6 outsourced contact centres; 1 hub and refurbishment centre; 8 repair centres and 500 external repair partners.

Extended Service Plan

In addition to the standard warranty, Acer offers an extended service plan on our entire product range that can be purchased for Commercial Notebooks, Tablets, Desktops, All-In-Ones, Monitors and Projectors, providing a priority service. Additionally, it offers customers priority via telephone, fax and e-mail during the entire duration of the extension.

Extended service plans may be customized depending on the product and extension selected:

Time
Depending on the product and country, customers may extend the warranty up to 5 years.

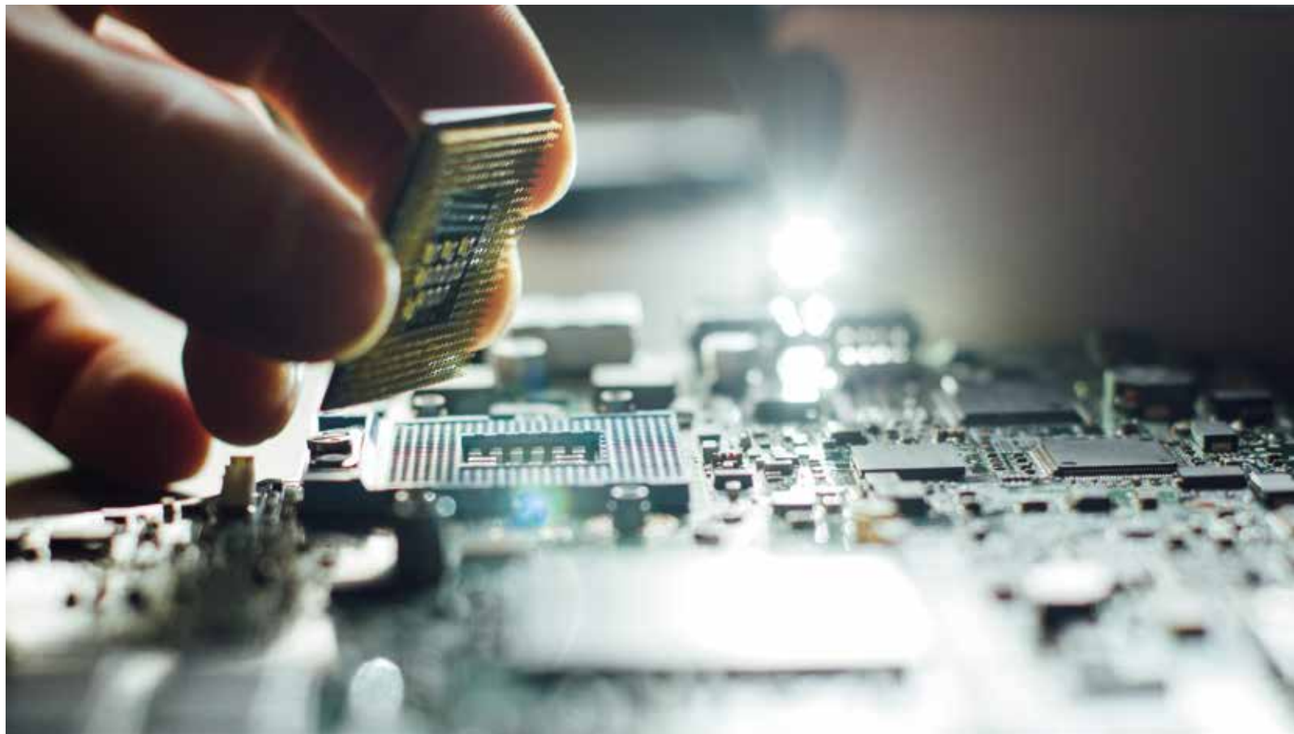
Territory
The International Travelers Warranty (ITW) is designed to add protection and complete peace of mind to customers travelling abroad. It covers Acer notebooks and tablets. Valid for one year from the date of purchase with the possibility of an extension, it does not apply in the country of purchase.

Service
Customers may select from different repair options: Carry in, Pick-up and return, On-site, and Exchange.

Extra support
Customers may choose Accidental Damage Insurance as well as Data Recovery service.

Acer for Business
PROFESSIONAL SERVICE

OUTSTANDING SERVICE

We care about our end customers and offer our partners and customers an outstanding service, including technical support, collect and return service.


Our commitment has been acknowledged and rewarded with several awards all across Europe.
