Hardware

Installation

Note: If you have any antivirus software enabled, please disable it during the installation of the software.

Before you first connect the **EasyCAP USB2.0 Video Adapter** to your computer, please insert the “Software CD-ROM” into your CD drive. Select the option “Install Driver”:

If prompted select “No, not this time” and select “Next”. Select the option “Install the software automatically” and click “Next”.

A window may appear with the message “easycap video grabber” not passing the windows logo testing, select “Continue Anyway”.

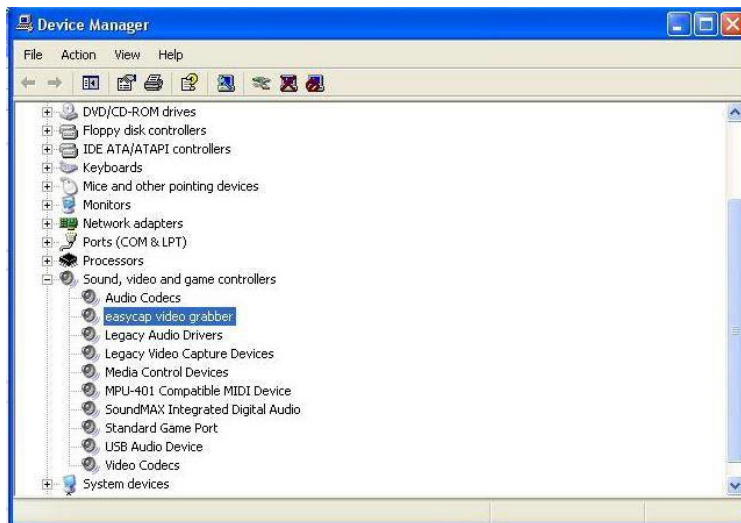

When the “Completing the Found New Hardware Wizard” window appears, click the “Finish” button

to complete the driver installation.

Note: If any further components are found please repeat the above process until you receive the message ‘Found new hardware : Your hardware is installed and configured use?’

You will now need to check that the drivers are installed correctly. Connect the EasyCAP Video Adapter to your computer, Right Click on My Computer and Left Click on properties. Click on Hardware tab and then Device Manager.

In the Device Manager click on the ‘Sound, video and game controllers’ you should see the ‘easycap video grabber’. If it has a Yellow mark next to it then this means that the driver is not installed correctly. You will need to remove the driver and disconnect the EasyCAP Video Adapter from the computer and reconnect it to install the driver again.

Notice: You should see the ‘easycap video adapter’ in the ‘Sound, video and game controllers’ tab .

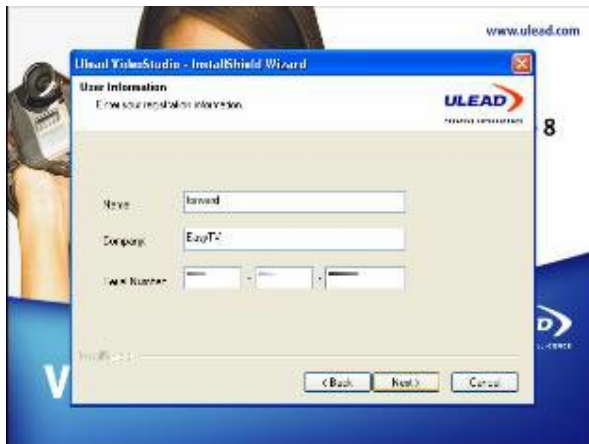

Software Installation

Please insert the ‘Software CD-ROM’ into your CD drive, Select your language for the installation and click ‘Install Video Studio’. And click ‘Next’ or/and ‘Install’.

You need enter user name and serial number (you can find the serial number on driver CD

bag).

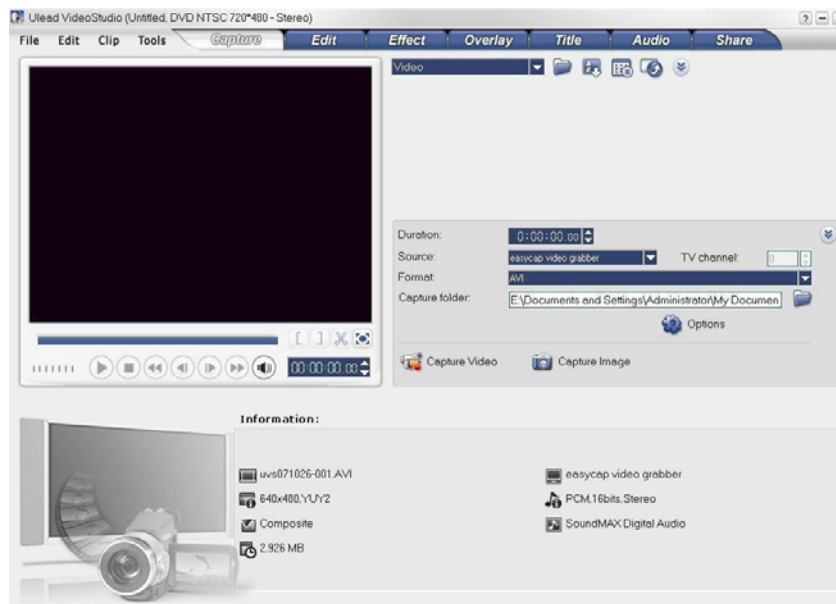

Click “finish” to complete setup, restart your computer if needed.

Start the Video Studio 10.0 application and enjoy your digital life by use our products!
