Emerging Environmental Risks in the Healthcare Industry

<http://corner.advisen.com>

- White Paper: *Emerging Environmental Risks in the Healthcare Industry*
- Copy of these slides
- Recording of today's webinar

The Issues

- Healthcare in the U.S. is in the midst of sweeping changes
- Healthcare organizations are under pressure to reduce costs
- At the same time the EPA is stepping up enforcement activities
 - Some initiatives likely to impact many healthcare entities

Today's Panelists

William Hazelton, Executive Vice President, ACE Environmental Risk, ACE USA

William Hazelton serves as Executive Vice President in ACE USA's Environmental Risk Division, a unit of ACE USA, the U.S.-based retail operation of the ACE Group. Based in New York City, Mr. Hazelton has responsibility for the development, underwriting, and delivery of environmental risk solutions for brokers and their clients, from small or mid-size to large multinationals. In this capacity, Mr. Hazelton manages a national team of environmental underwriting specialists deployed throughout the U.S., overseeing all retail-focused environmental business, new business development and underwriting activities for ACE Environmental Risk. With more than 20 years of underwriting and claims experience in the environmental insurance industry, he joined ACE in 2005.

Prior to his tenure with ACE USA, Mr. Hazelton served as Vice President and Director of Field Operations for Chubb Environmental Solutions and Quanta's environmental liability unit, based in New York City. He previously held a variety of leadership positions in the environmental underwriting and claims arena at AIG Environmental.

Mr. Hazelton received his bachelors' degree in Political Science from James Madison University and Master of Arts degree from Rutgers, The State University of New Jersey. He has published articles on the topic of environmental liability and risk management issues in several industry publications.

Opinions and positions expressed are the speaker's own and not necessarily those of any ACE company.

Today's Panelists

Caroline Clouser, Executive Vice President, ACE USA Medical Risk

Caroline Clouser was appointed Executive Vice President, ACE USA Medical Risk in 2011. In this role, she oversees all underwriting, marketing and operations for ACE USA's medical facilities, medical program business, managed care and long term care segments. Ms. Clouser joined ACE USA in 2002 and served a major role in establishing and growing the medical risk business at ACE. She has also spent several years focused on expanding ACE's global medical malpractice platform.

Ms. Clouser has more than 20 years of healthcare insurance and underwriting management experience, specializing in medical professional lines in the United States and abroad. Prior to joining ACE, she served as Assistant Vice President of Underwriting for CNA HealthPro, where she was responsible for the medical facility business in 22 states, oversaw the company's physician segment and led the segment's underwriting. Ms. Clouser began her career at Continental Insurance Company.

Ms. Clouser holds a Bachelor of Science degree in Developmental Psychology from The University of Connecticut and an MBA from New York University's Stern School of Business. She also holds the Chartered Property Casualty Underwriting (CPCU) and the Associate in Claims (AIC) professional designations.

Opinions and positions expressed are the speaker's own and not necessarily those of any ACE company.

Today's Panelists

Chris Smy, Managing Director, Marsh

Chris Smy is Global Practice Leader of the Environmental Practice, based in Atlanta, GA. His responsibilities include managing the operations of the practice, acting as a senior advisor to clients, managing company relationships with leading environmental insurance markets, providing leadership and management to geographic teams placing environmental insurance, providing technical support and leadership on complex transactions and further developing the market for environmental insurance products. His responsibilities include setting strategy for the creation and delivery of environmental products and services to our clients and for training and educating the regional and branch environmental network. In addition, Chris is responsible with leading Marsh Inc's Environmental Sustainability strategy and for developing and executing Marsh's corporate sustainability practices.
