Substitute Teachers are responsible for operating a safe, orderly, and positive classroom environment while the regular teacher is absent. They must follow the teacher's lesson plans, as well as school policies and procedures, to provide effective instruction for students. Paraprofessionals are support professionals that serve inside and outside of the classroom. In a classroom setting, they provide academic reinforcement of the teacher's instruction and assist the teacher with administrative tasks. Outside of the classroom, they perform a variety of non-instructional roles in education. At Source4Teachers, we're always on the lookout for applicants that qualify for one of the many paraprofessional positions. We are looking to hire substitutes and paraprofessionals within the school districts we service in Chester and Delaware counties.
