Fraserburgh	<p>'One Stop Broch' Develop an App To create an app (similar to iphone apps) and a website that would provide information about resources and services in the area that is accessible and aware of the needs of people with a disability.</p> <p>The app would allow the user to immediately view information about resources, services, buildings of interest and also means of transportation in Fraserburgh for people with a disability. i.e. a restaurant e.g. Cheers Café Bar & Tavern would be listed under pubs, restaurants and accommodation (3 headings) similar to a telephone directory. Beside the name of the premises would be a rating regarding how fit for purpose it was for all forms of disability situations. This rating would be dependent on the facilities available such as access, toilets, aids (such as specialised cutlery/cups), disability training and many other related things.</p> <p>People with a disability would be aware of the places best suited to their specialist requirements in Fraserburgh. No longer would there be the need to ask around or turn up at the door in the hope everything would be suitable. This would give greater flexibility when planning trips and improve organisation.</p>
Fraserburgh	<p>Refurbishment Putting Green/Tennis Courts</p> <p>Help regenerate town, Training resource, Make it inclusive, Health benefits, Permanent employment, Nicer to look at, Create a resource for everyone, Temporary employment through development, Transferring of skills Include partnership working, Volunteer opportunities</p>
Banff	<p>Extend Day Service Resources for all To open services at weekends and evenings. To encourage other groups and service users to share resources and facilities. Respite for Parents and Carers Activities for individuals – increased choice, integration, normal – real life opportunities Choice, more interaction between Service Users and wider community (breaking down barriers), social inclusion, respite for parents and carers, real life! Better use of resources.</p>
Banff	<p>Hospital Radio/Café</p> <p>Develop a hospital radio service in Chalmers Hospital which will enhance integration of people with disabilities in the community – develop community spirit. Provide the opportunity to gain skills, confidence and integration whilst providing a really valuable and needed public service</p>
General	<p>Awareness raising</p> <p>By service users in Primary and Secondary Schools – bringing together people of all abilities in an informal setting to break down barriers, promote understanding and develop opportunities. Educate – promote awareness and understanding in Community. For the additional needs – enable them to gain confidence/integrate/be seen as equals.</p>

<p>General</p>	<p>Mix 'N' Match</p> <p>Evening group. Run through College campus. Operating post – College – support there then activity from 6-8 pm.</p> <p>Inclusion within the community into mainstream using arts/music as common theme.</p> <p>Adults with Learning Disabilities would sell their needs to a group of mainstream College students (Social Care/PVG'd) Using an informal dating/matchmaking format</p>
<p>General</p>	<p>Carers Website managed by Adults with disabilities</p> <p>Information, support and product information and supply – to provide a real employment project for service users and a needed service for Carers - market research to be conducted</p>

Thank you to everyone who has contributed time, effort and ideas to the I.D.E.A. engagement process to date. This includes; service users, family carers, day services staff and managers, community planning officers, Progress Scotland and PAMIS staff, representatives from partner organisations in the public, private and third sectors
