MODEL # EQUIP163EA 3LB Weight
MODEL # EQUIP164EA 8LB Weight

Ultra-Fit™ WORKOUT TOOL

MODEL # EQ620BWTEA
MODEL # EQ620C12EA 1/2" Replacement Blade
MODEL # EQ620D58EA 5/8" Replacement Blade
MODEL # EQ620E34EA 3/4" Replacement Blade

Precision fine-tune finger and thumbholes. Remove tape from finger and thumbholes. Quality anodized aluminum handle.

BEVEL KNIFE MODEL # EQUIP068EA

Triple-edged cutting tool designed for customizing the bevel of gripping holes. The hardened and tempered steel has hollow cutting edges that enable this knife to stay sharper longer and to make resharpening easier. The wood handle provides a comfortable grip.

ROUND RASP MODEL # EQ630RSPEA

Aggressive, burred rasp tool machines all ball materials. For use in finger and thumbholes, this 9/16" x 5 1/4" cutting tube will reach the bottom of holes to reduce tapering. The impact-resistant plastic handle provides a comfortable grip and overall length of 9" produces the needed leverage to reduce fatigue while working out holes.

TAPE REMOVAL TOOL

MODEL #EQ632TXTEA

Never again will you have issues such as removing more tape than you wanted or placing tape in the wrong direction.

INSERT PULLER

MODEL # EQUIP690EA

This insert puller helps you remove 31/32" finger inserts without destroying the bowling ball or the finger inserts.

SCRIBE

MODEL # EQUIP057EA

The hardened steel, needlepoint tip will provide the most accurate span measuring. The etched pattern on the shaft provides a non-slip grip. Included under the end cap are four replacement tips.

SANDING DISKS

EQUIP066XC 120 Grit
EQUIP067XC 100 Grit
EQUIP064XC 80 Grit

1.5" cloth-backed sanding disks designed specifically for the job. The disks have a pre-cut hole and slotted edges to conform to any hole. Available in packs of 100.

3-N-1 BOWLER'S TOOL

MODEL # AB650BMTEA

Handy tool combines the workout tool, the bevel knife and the tape removal tool all in one item.

Replacement SANDING SLEEVE

MODEL # EQUIP063EA

These 80-grit, 3" by 1/2" replacement sanding sleeve fit both the Rotary Workout tool and the hand drill mandrel attachments. No prepack quantity lets you determine the exact quantity you want to order.

BEVEL SANDER

MODEL
EQUIP065EA

Smooth out the inside of finger / thumb holes. Finish and sand the beveled edge of the gripping holes and fine - tune as desired quickly and easily. 110V & 220V motor.

MACHINIST RULER

MODEL # EQUIP054EA

6" stainless steel flat rule can be shaped to the contour of a bowling ball. Increments of 32nds and 64ths provide extremely accurate span measurements. Useful conversion chart from fractions to decimals etched on backside.

Abralon®

Abralon Sanding Discs are the bowling industry standard for ball surface management and motion manipulation

Mirka's Abralon sanding discs combine the benefits of abrasive cloth and non-woven products. Constructed with a fabric face, foam center, and a grip backing. Abrasive grains are bonded evenly to the fabric face. Openings in the fabric allow water, solvent and air to flow freely around the abrasive. Works especially well when sanding contoured surfaces, corners and sharp edges. Open cell design holds large amounts of water or solvent for lubrication and cooling. Foam center also provides for even surface pressure that helps eliminate uneven marks when hand sanding.

- Cosmetically appealing, consistent scratch pattern provides excellent traction
- Combines the benefits of abrasive cloth and non-woven products
- Opening in the fabric allows water to flow freely around the abrasive
- Resists "caking"
- Foam center holds large amounts of water for lubrication and cooling
- Solid surface and foam backing provide even surface pressure
- Last 5+ times longer than sandpaper
- Use wet or dry (residual material can be removed by high pressure air)
- Works great on Ball Resurfacers too
- Abralon sanding discs are used by leading bowling ball manufacturers during production
