Network Medical has over 20 years experience as a fully integrated, designer and manufacture of high quality ENT surgical products.

Our reputation has been built on consistent and reliable product quality, that surgeons trust time and time again.

All of our products are manufactured in the UK, and have been designed to work in harmony with surgeons preferred techniques, without compromising on patient comfort.

“At a time when many companies in the medical sector have outsourced their production, Network Medical has stayed true to its core values, by retaining full start to end manufacturing control, at our UK based factory.”

Phillip Weston, Group Chairman

NETCELL NASAL PACK

- For use after septal, turbinate and rhinoplastic surgery.
- Provides gentle, equal pressure within the nasal cavity when absorbing post-operative bleeding.
- Available with an airway tube which will enhance patient comfort.
- Slimpack developed for use in conjunction with a nasal splint following septal surgery.
- Layered slimpack permits the user to customise the thickness of the pack.

NETCELL NASAL PACK WITH TUBE

The Netcell Nasal Packing can be supplied with an integral airway tube. The airway tube benefits the patient through easier breathing and improved patient comfort, it improves venting and reduces the risk of obstruction.

Supplied Sterile

Product	Dimensions L x Th x H (cm)	Pack	Code
Nasal Pack 3.0 cm	3.0 x 1.5 x 2.0 cm	Box of 20	10-095

NETCELL ANATOMICAL PACK

- Clinically designed to fill the nasal cavity - providing gentle and equal support and allowing the efficient absorption of post operative bleeding.
- Available with an airway tube which will enhance patient comfort.

Supplied Sterile

Product	Dimensions L x Th x H	Pack	Code
Anatomical Pack 8.0 cm	8.0 x 1.5 x 3.0 cm	Box of 10	10-120
Anatomical Pack with Tube 8.0 cm	8.0 x 1.5 x 3.0 cm	Box of 10	10-120T
Anatomical Slimpack 8.0 cm	8.0 x 1.0 x 3.0 cm	Box of 10	10-125
Anatomical Slimpack with Tube 8.0 cm	8.0 x 1.0 x 3.0 cm	Box of 10	10-125T

NETCELL EPISTAXIS PACK

- Immediate, effective control of bleeding.
- Fluid absorption causes the packing to expand producing a tamponading effect.
- Long Epistaxis for the simple quick packing of the entire nasal cavity, the most efficient way to contain and restrict blood loss.
- Short Epistaxis pack for the quick convenient treatment of anterior Epistaxis.
- Layered pack allows the packing to be adjusted to the individual patient.

Supplied Sterile

Product	Dimensions L x Th x H	Pack	Code
Epistaxis Pack Long 10.0 cm	10.0 x 1.5 x 2.5 cm	Box of 10	10-140
Epistaxis Slimpack Long 10.0 cm	10.0 x 1.0 x 2.5 cm	Box of 10	10-141

NETCELL PVA PRODUCTS | NETCELL ANATOMICAL PACK | NETCELL EPISTAXIS PACK

SERIES 5000 SINGLE HYDRATION NASAL PACK

SERIES 5000 combines a unique non-stick outer surface with Netcell packing which is manufactured from superior quality, ultra-fine pore, highly absorbant PVA material. This combination produces the most effective user friendly nasal packing with the benefits of single hydration.

- The soft covered surface provides a non-stick interface against tissue ingrowth.
- Once inserted and hydrated the pack will remain moist for up to 7 days without re-hydration.
- Pain and discomfort during removal is radically improved.
- Double compressed for easy insertion – more than 50% narrower than competitive products.
- The outer covering will accept water based or oil based medication.
- Will not pre-expand during insertion.
- Strung for convenience and supplied sterile.

“We believe this is the best PVA-ENT product in the market. Recent Studies have confirmed that by avoiding all contact with tissue results in the least trauma during removal. Patient comfort is a key attribute for this product.”

Supplied Sterile

Product	Dimensions L x Th x H	Pack	Code
Single Hydration Nasal Pack 6.0 cm	6.0 x 1.5 x 2.0 cm	Box of 10	15-105
Single Hydration Nasal Pack 8.0 cm	8.0 x 1.5 x 2.0 cm	Box of 10	15-110
Single Hydration Nasal Slimpack 8.0 cm	8.0 x 1.0 x 2.0 cm	Box of 10	15-111

NETCELL SINUS PACK

- Developed as a post-operative packing for F.E.S.S.
- Designed to prevent lateralization of the middle turbinates post-operatively.
- Can be used to pack the Osteomeatal complex to leave the nasal passage clear for easier breathing.

Supplied Sterile

Product	Dimensions L x Th x H	Pack	Code
Sinus Pack Standard 2.5 cm	2.5 x 1.20 x 2.0 cm	Pack of 2/box of 10 Packs	20-200

Sinus Pack Small 3.5 cm	3.5 x 0.60 x 1.2 cm	Pack of 2/box of 10 Packs	20-212

NETCELL EAR-WICK

- Ideal for delivering antibiotics when treating Otitis Externa.
- Instant patient relief when hydrated with medicated otic solution.
- Available as fenestrated to enable aeration

Supplied Sterile

Product	Dimensions	Pack	Code
Ear Wick 15 mm	9 mm dia x 15 mm	1 per pack / box of 50 packs	30-300
Ear Wick 12 mm	7 mm dia x 12 mm	1 per pack / box of 10 packs	30-301
Ear Wick Fenestrated 15 mm	9 mm dia x 15 mm	1 per pack / box of 50 packs	30-305
Ear Wick 24 mm	9 mm dia x 24 mm	1 per pack / box of 10 packs	30-310
Ear Wick Fenestrated 24 mm	9 mm dia x 24 mm	1 per pack / box of 10 packs	30-315

NETCELL POST-OP EAR PACK

- Designed to prevent stenosis of the canal following surgery.
- Will not expand lengthwise and is suitable to support a graft following tympanoplasty.

Supplied Sterile

Product	Dimensions	Pack	Code
Ear Pack (Strung) small 15 mm	9 mm dia x 15 mm	1 per pack / box of 10 packs	30-320
Ear Pack without string 24 mm	12 mm dia x 24 mm	1 per pack / box of 10 packs	30-340

NETCELL MICROSpheres

- Developed to control haemostasis in any micro surgical technique.
- The microspheres are hydrated with the appropriate medication and applied to the areas of bleeding.
- Middle ear procedures to remove particles and control haemostasis.

Supplied Sterile

Product	Dimensions	Pack	Code
Microsphere Small	3 mm dia	Pack of 10 / box of 10 packs	30-380
Microsphere Large	5 mm dia	Pack of 10 / box of 10 packs	30-382

INSTRUMENT WIPES

Micro-surgical instruments are expensive and easy to damage. Our Instrument Wipes have been especially developed for the maintenance and care of these delicate surgical products. The wipes are soft but very strong, they will not snag and will easily remove the protein that weaken and affect the surface and edges of instruments. The life of a surgical instrument will be extended if it is cleaned thoroughly immediately after use. The wipes are supplied sterile for use during surgery.

Product	Sterile / Non Sterile	Pack	Code
Instrument Wipe	Sterile	Pack of 1/box of 20	35-900

HEADBANDS

Beneficial for surgeons operating in demanding situations, when moistened with water the headband will have an immediate cooling effect through evaporation.

Reduces the risk of contamination to the operating site by controlling and limiting perspiration.

Product	Sterile / Non Sterile	Pack	Code
Headband	Non Sterile	Pack of 1/box of 10	35-950

STAPES PISTON

Trim-to length Teflon (fluoroplastic) stapes piston

- Fluoroplastic shaft may be trimmed to length easily using a sharp knife.
- Loop can be opened and the plastic memory of the fluoroplastic provides secure closure.
- Supplied sterile in single packs.

Supplied Sterile

EPISTAXIS BALLOON CATHETER

- The most effective control of posterior epistaxis.
- Enhanced control of Intra Nasal Bleeding with the dual balloon system.
- Easy placement assisted by the bevelled posterior rim design.
- Airway management and patient breathing much assisted through the integral airway tube.
- Patient comfort is helped by using soft, medical grade silicone.
- Inflatable balloon cuffs conform to nasal cavity.
- Balloon size: 30cc and 10cc

Supplied Sterile

Description	Length	Pack	Code
Epistaxis Balloon Catheter Large	120 mm	Box of 1	72-3000
Epistaxis Balloon Catheter Small	97 mm	Box of 1	72-3001

NETWORK NASAL SPLINTS

- Internal and external nasal splints.
- Airway splints. Provides septal support, airway management and easier breathing.

 <p>F.E.S.S sinus suction tube 3mm x 85mm, distal bend, 80 degree angle with olive tip and suction control hole</p>		3.0mm / 9Fr	25 per box	74-2060
 <p>F.E.S.S sinus suction tube 3mm x 85mm, distal bend, 65 degree angle with olive tip and suction control hole</p>		3.0mm / 9Fr	25 per box	74-2063

YANKAUER SUCTION TUBES

Features

- Ergonomically designed to feel natural in the hand
- Choice of type, size and angle
- Manufactured with clear tips
- Ribbed universal connector
- Supplied with open tips

Benefits

- Gives superior balance and ease of use
- Offers suction handle suitable for all procedures
- Permits visual monitoring of suction fluids
- Fits securely on all types of tubing
- High volume suction achieved

Supplied Sterile

Description	Dia. / Gauge	Pack	Code
