SINGLE INTEGRATED PLATFORM

CONSULTING

Technology Consulting for travel domain has come with our vast interaction with our clients, industry experts and global implementations. Our team of consultants help you select correct technology with detailed business requirement gathering and understand day to day operations helping you to select a travel technology solution that best fits your needs and budget. We believe that procurement, implementation and conceptualization play a major role in having a correct and scalable solution for your organization.

OUTSOURCING

Mid-office **process outsourcing** comes with many years of experience in travel trade. Being exposed to multi-market clients and having an experience of 7+ years in implementation of travel solutions our dedicated team can support your Mid-office outsourcing by managing your booking queues, back end database support, contract entries, reservation tracking and customer profiling. We work like an extended arm to your organization to grow your business.

OUR SUPPORT

We believe that for any **successful implementation support** towards the start and post completion of the project plays a major part and requires continuous interaction with our clients. At Puratech we provide a dedicated Customer Support Manager who sets our client comfort levels during the entire progress of the project and then hand over to our dedicated post implementation support team. We work as per your working hours to ensure a live support with your team to ensure smooth running of the product.

OUR CUSTOMERS

Our ideology with our customer states **"The whole idea of customer service and of a business is being able to give the customers what they want, pay attention to them and behave courteously and professionally with them"**
