CLIPABLES GOLD *for Windows*

Highest-Quality Clipart Available

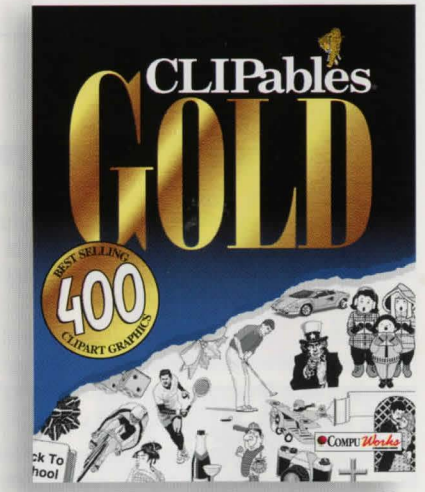
All clipart is not created equal. The clipart in this package is hand-rendered by professional artists with years of design experience. Each fabulous image is designed with meticulous attention to detail. Compare the quality of these outstanding images with any other electronic art!

Prints on Any Printer at the Highest Resolution Possible

Unlike some other clipart packages, Clipables uses the .WMF format to store each image. This means every Clipables image will print at your printer's best-possible quality. You can maintain optimum quality even if you enlarge, reduce, or stretch the image. The art in Clipables Gold will print on virtually any printer, including laser printers, ink-jet printers, image setters and dot-matrix printers.

Works with all Popular Applications

You can place Clipables art in any document you create with an application that uses .WMF images.



SYSTEM REQUIREMENTS: IBM PC or compatible. Windows 3.1. 2 MB RAM. Hard disk. Microsoft compatible mouse.

IBM 3.5" **MSRP $29.99**

IBM 3.5" **MSRP $29.99**

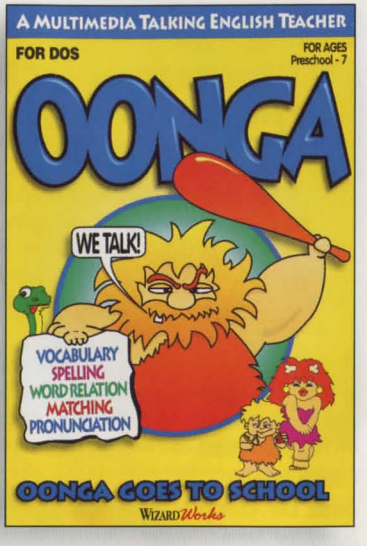
OONGA GOES TO SCHOOL

Let Oonga and his friends teach children basic English vocabulary.



Children learn to match English words with easy-to-recognize cartoon pictures of the animals and objects they represent. Then on realistic scenes, children can explore how things look in a natural environment and how objects relate to each other. By pointing at the objects in the scenery, your child can compare the look of the realistic drawings with the friendly cartoons.

To keep the lessons interesting, the Oonga series will quiz you using a variety of different methods. These include matching words with pictures, deciding which words belong together (which are related) and unscrambling mixed-up words.

Colorful and entertaining animation holds your childs attention and ensures that he or she learns even more quickly.

With an optional Sound Blaster compatible sound card, Oonga will speak to your child, demonstrating how to pronounce words. In addition, Oonga teaches what sounds animals and things produce, for example: the dog barks and the chicken clucks.

The Paint & Paste section gives your child hours of enjoyable and creative playtime while also reinforcing the words they have learned. Here children can create their own painting by pasting cartoon pictures onto a canvas and by drawing freehand in a variety of brillant colors.
