### FUN FACTS ABOUT THE BAHAMAS

Did you know that the Bahamas consists of 700 tropical islands located in the Atlantic Ocean? Only about 30 of them are inhabited by people. New Providence—the 11th largest islands and the location of Nassau, the capital city—is home to 70 percent of the country's population.

OUR STORY

More About Us  
And the Island

After a complete renovation Pearl Island Bahamas reopened its doors to guests in June 2016. Originally developed by local Bahamians in 1993, Spruce Cay, as it was known, sat idle for 10 years before its massive transformation.

The vision for Pearl Island Bahamas was to create a unique Caribbean getaway—a dream island filled with tropical flair, art, culture, and music for locals and visitors alike. And to ensure a truly authentic experience we work in close collaboration with local companies.

Our goal was to create an unrelenting commitment to quality, service, and hospitality by going above and beyond the needs and wants of our guests. We also strive to maintain a friendly and creative work environment, which respects diversity, new ideas, and hard work.

Pearl Island Bahamas is also committed to minimize the impact of its activities on the environment by evaluating operations and ensuring they are as efficient as possible.

THE TEAM

Our team members are our greatest asset. We are proud of our excellent team who deliver an unparalleled level of service to our guests.

THE WILDLIFE

Pearl Island is a year-round home for several unique species. Get to know our curly-tailed lizards, hermit crabs, Antellian Nighthawks, and fascinating marine life during your stay.

WHAT OUR GUESTS SAY

“ Pearl Island was the best part of our 4 day cruise! We loved every minute of this excursion! ”

“ We went here on an excursion with Royal Caribbean Cruise Line. The island is so beautiful, quiet, and a slice of paradise. All staff on the island are friendly and happy to help. Lunch on the island was exceptional and delicious. ”

“ We had a wonderful time on Pearl Island — the staff was wonderful, the boat was comfortable and quick and the snorkeling was amazing! ”

Pearl Island is located in the Bahamas between Salt Cay and Athol Island.  
With its iconic lighthouse, the island is one of the most unique destinations in the archipelago.

# BEACH ESCAPE

*Sunshine is the  
best medicine!*

DID YOU KNOW?

Since all the land in the Bahamas is made of raised coral reefs or sandbars, there is very little elevation in the entire country. The highest point in the Bahamas, Mount Alvernia (or Como Hill) on Cat Island, is a raised reef that sits just 206 ft (63 m) above sea level.

A PERFECT DAY

## Pearl Island Beach Escape

Just a quick trip from the din of Nassau's bustling waterfront, Pearl Island is a private getaway filled with unforgettable experiences and activities. From basking on powdery beaches, to thrill-seeking adventures like snorkeling, kayaking, and much more—you'll find it all here.

Looking to discover what lies beneath the surface? Put on a snorkeling mask with a pair of fins and head to our protected coral reefs. The crystal clear waters of the Bahamas are the perfect venue to explore these natural wonders. Our staff will guide you through the reefs as you get up close and personal with the colorful marine life lurking just below the ocean's gentle waves.

If you're seeking a more relaxing escape, add a touch of luxury by renting one with a private Ocean View Cabana. You can claim your own little piece of paradise, by settling into a shady cabana with amazing views of the lighthouse and, of course, the impeccable service Pearl Island is known for.

Round out your day by cruising on a kayak or standup paddle board, and let the current sway as you explore the island's shores before taking a dip in the warm Bahamian water and catching a boat back to Nassau.
