EUROPEAN DAY OF AWAKENINGS OCTOBER 7TH 2016

COMA AND ITS OUTCOMES

www.studiokno.it

The **“National Day of Awakenings on Coma Researches - It's worth it”**, promoted by the voluntary association *“Gli amici di Luca onlus”*, has reached the goal of his 18th edition this year and celebrates the second **European Day of Awakenings**.

The **“National Day of Awakenings”** was born as an initiative of **“CASA DEI RISVEGLI LUCA DE NIGRIS”** (House of Awakenings Luca De Nigris), a Health Authority innovative public centre for researches and rehabilitation, unique in its kind in Europe, located in the area of Bellaria Hospital in Bologna. This structure reinforces a new philosophy of the cure and emphasizes the central role of the family, wishing for the expansion of similar structures in a network of suitable services for patients with coma and vegetative state.

This important achievement is the reward for project design skills and capacity that stem from a territorial sensitivity which has been able to match the emerging needs of a voluntary association with those of institutions committed to the common goal of social and health innovation.

The 18th edition will be the second **EUROPEAN DAY OF AWAKENINGS**, a goal shared by the **EUROPEAN PROJECT LUCA - “Links United for Coma Awakenings”** (for the spread of good practices related to coma and severe acquired brain damages, in partnership with: Spain, Belgium, Bulgaria and Greece), co-financed by the LLP - Grundtvig Programme and closed last year, and by the project **LUCAS - “Links United for Coma Awakenings through Sport”** (partners: Denmark, Spain, Belgium, Cyprus, Lithuania and Portugal) headed by the Italian training and educational authority Futura in cooperation with CSI - Italian Sports Centre and Gli amici di Luca Association, in the framework of the Programme Erasmus + Sport - Collaborative Partnerships.

This last project has been selected among 406 proposals on a European level and is co-funded by the European Commission.

The second **“European Day of Awakenings”**, like last year, will be carried out through the partners' joint actions and acquires particular relevance by highlighting the project of Casa dei Risvegli Luca De Nigris through social themes as well as clinical research issues and the topic of therapeutic alliance between health professionals, non-health operators, families and volunteers.

More specifically, these issues will be discussed: the relation between “body and soul”, tackling the overall approach to well-being and healthy life-styles for a global rehabilitation and a full social inclusion of people with disabilities, in a dedicated conference in Rimini in collaboration with the University of Bologna. Another important appointment is the new performance of the theatre company Gli amici di Luca and Teatro dell'Argine, dealing with “love and desire”, entitled “Tu è il mio respiro” (“You is my breath”) directed by Mimmo Sorrentino in national première at Teatro Duse in Bologna, on the 7th of October. Young people who got out of coma, who are now attending the permanent theatre labs in Casa dei Risvegli Luca De Nigris, will be on stage.

The Association Gli amici di Luca is also effective member of the National Observatory on the Condition of People with Disabilities and contributed to the draft of the biennial action plan on disability recently presented in Florence during the 5th “National conference on disability policies”, organized by the Ministry of Labour and Welfare.

The launched debate on the subject of coma has arisen relevant interest at European level; therefore, the idea of a European Day of Awakenings acquires a high value both for the Associations for family members protection and the Health and Research world.

SECOND EUROPEAN DAY OF AWAKENINGS OPEN DAY

in collaboration with
CSI Italian Sports Centre Committee of Bologna

Traditionally, since many years now, the “National Day of Awakenings” is an occasion to meet the citizenship and renew the necessity of looking at diversity, expressing solidarity and celebrating together in a treatment centre that has a strong connection with the city and that, together with patients, families, operators and volunteers, wants to underline its normality.

Programme

- Recreational and motor activities for young people by operators of CSI Italian Sports Centre
- Performance by the theatre company “Dopo...di Nuovo - Gli amici di Luca” composed by people who got out of coma
- Welcome by the authorities
- Launch of the “Messages for an Awakening” attached to balloons; with the participation of **Alessandro Bergonzoni**, testimonial of Casa dei Risvegli Luca De Nigris

**As last year, other Italian and European cities
will join from different places and via web**

GLI AMICI DI LUCA AND TEATRO DELL'ARGINE

PRESENT

TU È IL MIO RESPIRO (YOU IS MY BREATH)

**written and directed by Mimmo Sorrentino
national première**

This performance is the result of the permanent theatre lab run by Nicola Bonazzi of Teatro dell'Argine, with people who got out of coma in Casa dei Risvegli Luca De Nigris. The topic treated is love told through four stories that, as may be read in the director's notes, "go beyond the physical and psychic condition of the person who is interpreting them. They are love stories. Love is a You and this You is one's own breath".

This is a complex but heartfelt issue, as very often love faces a limit in a person with disability, due to his/her inability of expressing it. The public has appreciated the work and courage of this company, who treated the topic with sensitivity in a touching performance. The youngsters with coma experiences (Luigi, Riccardo, Davide, Simone, Marco, Juri, Daniela) interpret four different stories in a choral form, revolving around Valentina who represents the woman, the different women, the different relations between a man and a woman. Four love stories: a love that does not care about disabilities and social conventions, ethnic, personal, gender differences; a love that overcomes prisons, that doesn't care of distances, that cannot be caught and transcends us.

SEMINARS AND CONFERENCES

San Pellegrino Terme | Saturday 1st of October 2016 - 9.00 a.m./1.30 p.m.

Hotel Bigio - Centro Congressi - Via Giacomo Matteotti, 2 - San Pellegrino Terme - Bergamo

THE SAN PELLEGRINO CHARTER AND THE PROTECTION OF FRAGILE PERSONS

promoted by RETE of Associations
in collaboration with the association "Genesis"

In 2009, during a conference in San Pellegrino Terme, the associations for family members under the national coordinations La RETE – United Associations for Cranial Trauma and severe acquired brain damage and FNATC – National Federation of Associations for Cranial Trauma, working in the former "Permanent seminary on vegetative states" of the Health Ministry, drafted the "Charter of San Pellegrino" with the aim of protecting dignity, freedom and rights of people in vegetative state or minimally conscious state, resuming in 10 points the most important provisions for the protection and dignity of these people. Seven years after, this new conference takes stock of the situation about this document, its modernity, the measures it envisaged and the necessity to update them according to the current situation.

LA CARTA DI SAN PELLEGRINO

Le associazioni dei familiari riunite nei coordinamenti nazionali:

La **RETE** (Associazioni Riunite per il Trauma Cranico e le Gravi Cerebrolesioni Acquisite) e la **FNATC** (Federazione Nazionale Associazioni Trauma Cranico), operanti nel "Seminario permanente di confronto sugli stati vegetativi e di minima coscienza" del Ministero della Salute, al fine di tutelare la dignità, la libertà e i diritti delle persone in stato vegetativo e minima coscienza, le condizioni di grave disabilità acquisite, in sintonia con gli operatori sanitari in un percorso di alleanza terapeutica, concordano nel "Forum delle associazioni" tenutosi a S. Pellegrino Terme il 5 aprile 2009 i seguenti punti:

- 1 Nessuna discriminazione deve essere attuata in base alle condizioni di età, salute fisica e/o mentale.
- 2 Le persone che non hanno la capacità di decidere devono essere tutelate e protette.
- 3 Qualsiasi intervento medico o assistenziale deve essere un aiuto alla vita.
- 4 La tutela del paziente deve prevalere su ogni altro interesse.
- 5 L'alimentazione e la idratazione sono atti dovuti.
- 6 Il paziente ha diritto alle migliori cure mediche e riabilitative.
- 7 La ricerca clinica e scientifica sugli stati vegetativi e di minima coscienza deve essere promossa e sostenuta.
- 8 La famiglia ha diritto ad una sistematica informazione corretta, comprensibile e completa e deve avere libera scelta del posto di cura.
- 9 La famiglia ha il diritto di essere tutelata ed assistita nel percorso di cura e di disabilità.
- 10 Le associazioni devono essere riconosciute a supporto e in rappresentanza delle famiglie come risorsa qualificata, durante tutto il percorso.

interventions by:*

Gian Luca Farinelli
director of the Cineteca of Bologna
Eugenio Riccomini
art historian
Fulvio De Nigris
Association Gli amici di Luca Onlus

"A long fidelity" by Teo De Luigi is a film-journey through the art of Wolfango (Peretti Poggi), who committed his life to the achievement of the highest quality in painting, without letting various contemporary artistic trends influence him. "If I wouldn't do so, it would be like betraying Earth, because painting enters inside and speaks to the world; indeed, it speaks the world". His whole work is based on this philosophical presumption and the film becomes a passionate choir of those who have known and appreciated him the last 30 years. Today, some of his works are acknowledged as true pieces of cultural heritage of the city of Bologna.

Orthopedie Van Haesendonck and Mobilab)

Program

The Memorial Van Damme is an annual athletics event at the King Baudouin Stadium in Brussels, Belgium that yearly takes place in early September. Previously one of the IAAF Golden League events, it is now part of the IAAF Diamond League, attracting a number of world class athletes, Olympic medal winners and world champions such as Daphne Schippers and many more.

Among the various track and field events that will be organized, the 2016 meeting includes an event for junior athletes with an impairment (100m wheelchair racing). In addition, and similar to last year's event, a special race "20m Exo Suit" will be organized. Two clients of the To Walk Again Postrehabilitation Center will compete in a 20m robot assisted gait race using the Ekso skeletons, to promote the Postrehabilitation Center, and increase the awareness of postrehabilitation opportunities for persons with lower extremity impairments.
